Bro 111/81, 112/81, 113/81, 114/81

IN the matter of the Broadcasting Act 1976, and in the matter of applications for VHF-FM sound radio warrants for Auckland by (1) Metropolitan FM Broadcasting Ltd., (2) Stereo Frequency Modulation Ltd., (3) Broadcasting Corporation of New Zealand, (4) FM Radio Enterprises Ltd.:

B. H. Slane, Chairman; Lionel R. Scats, Member; Murray J. Henshall, Deputy Member.

Appearances: R. L. Maclaren for Metropolitan FM Broadcasting Ltd., E. W. Thomas, q.c., and A. C. Sorrell for Stereo Frequency Modulation Ltd., M. J. O'Brien, q.c., and B. Hudson for Broadcasting Corporation of New Zealand. J. D. Shale for FM Radio Enterprises Ltd., B. H. Giles and B. G.

Impey for Independent Broadcasters' Association Inc., W. D. Baragwanath for Hauraki Enterprises Ltd., J. F. Timmins for Radio I Ltd.

DECISION

Direction—Following a public inquiry into the introduction of FM broadcasting in New Zealand by the Tribunal and a report to the Minister of Broadcasting, dated 31 August 1981, a direction was given by the Minister of Broadcasting, dated 27 October 1981. Subsequently, directions were given to the Tribunal on 14 April 1982 and to the Broadcasting Corporation of New Zealand on 14 April 1982. For ease of reference these directions are attached to this decision.

The Tribunal called for applications for 2 commercial FM warrants for Auckland, for which the provisional coverage objectives were to provide a stereophonic service to most of the areas directly served by television transmissions from Waikarua.

Applications by Hauraki Enterprises Ltd. and Hauraki FM Ltd., formerly Mount (Auckland) 1981 Ltd. (Bro 110A/81, 110/81, 115/81).

These companies made applications, sought and received a waiver which permitted some delay in the filing of programme material, but elected to withdraw their applications when the Tribunal indicated it would not grant an adjournment. Hauraki Enterprises Ltd. wished to remain an objector and was given this status by the Tribunal.

Applications—There were some common features to all applications. Transmitters would be sited at and broadcast from the Waikarua television transmitter facility of the Broadcasting Corporation of New Zealand, provided satisfactory arrangements could be made. There was, therefore, no question of a difference between the applicants as far as coverage area was concerned and it is accepted that both proposed stations should carry the same signal strength.

Stereo Frequency Modulation Ltd. (Stereo FM) proposes to transmit a programme, aimed to meet the needs of those whose lifestyle was typified by most people in the 18–39 years age group. The company proposed an initial album content of its programmes of 60 percent of the music content, of which about 40 percent would be material from older golden classic albums. It was proposed to have an extensive play list.

The company provided programme schedules describing the format, the relationship with commercials and news, weather and other information.

FM Radio Enterprises Ltd. (Enterprises) proposes a largely automated station producing middle of the road music comprising easy listening albums, light classical, country and western, popular classical, popular modern solo and group vocal. Selection was to be based on sales surveys of record companies over the past 10 years. Use would be made of package programmes from overseas. It was also proposed to play concerts of musical groups such as the Auckland Symphonia, brass bands, choral groups, opera societies, instrumental groups and bands.

The company's studios in Jervois Road would be associated with the Stebbing Recording Studios which the Tribunal inspected.

Metropolitan FM Broadcasting Ltd. (Metropolitan) proposes to cater for Auckland's 25–44-year olds. The station was described as being more contemporary than Radio I and would provide a continuous musical image.

The Broadcasting Corporation of New Zealand (BCNZ) propose to operate an FM radio station directed to attracting a target audience of 15–35 with a core of around 20–30 age group. Its programme was to be popular in appeal with selection ranging from contemporary adult top 40 to mainstream rock, with a wide variety of gold material for each day part. It would incorporate many elements of the existing 1ZM programme but would be broadened to reflect the tastes of a wider target audience and to utilise the full benefits of FM broadcasting. It would feature personalities but it was not intended to duplicate extensive news broadcasts carried by existing Auckland stations. It would, however, carry community information and would in the evening, provide music specials, simulcasting of FM stereo and television and the showcasing of New Zealand and Auckland talent.

Number of Warrants—At the direction of the Minister applications were called for 2 warrants. It was later contended by Hauraki Enterprises Ltd. that there was insufficient revenue in the area to support 2 new stations and it advocated that only 1 should be granted.

The Tribunal has declined to accept that argument for a number of reasons.

The applicants based their applications on there being 2 stations and made their programme submissions in that light. It was clear that many of them expected to be in a situation that would be complementary to that other station as far as programme material was concerned.

As far as the applicants were concerned, they had made their own assessment of the situation and clearly did not expect a highly profitable situation to emerge immediately.

The development of FM broadcasting in Auckland would benefit from the impact of 2 stations starting FM broadcasting together and the grant of 2 warrants was supported by Radio Pacific Ltd. We were satisfied the introduction of FM radio would be inhibited by the grant of only 1 warrant.

The Direction to the BCNZ, dated 14 April 1982, made it clear that the Government accepted as its policy the recommendation of the Tribunal that without 1ZM's withdrawal from the market, it would not be possible adequately to develop popular FM broadcasting on an economic basis. Thus the 1ZM position had been taken into account after directing that the Tribunal call for 2 warrants.

It would therefore be remarkable for the Tribunal now to grant only 1 warrant. By Hauraki's reasoning, without 1ZM's change of status, no warrants ought to have been granted.

The withdrawal of station 1ZM from full commercial AM broadcasting would release considerable revenue.

The Tribunal was satisfied, on the evidence, that there would be sufficient revenue to support 2 commercial FM stations in addition to the commercial stations, Radio Pacific, Radio I, Radio Hauraki and 1ZB, although there would be a difficult period for the new entrants.

All parties accepted that the Tribunal was directed to call for 2 warrants and that it had to comply with that direction. It is clearly part of Government policy to have 2 stations. While the Tribunal must have regard to the criteria laid down in section 80 it must equally have regard to Government policy under section 68.

The Tribunal accepted that it had to apply the criteria in section 80 in considering this question. But it had to balance the weight it could give to those economic factors against the existence of Government policy. Nor would the Tribunal be inhibited from refusing to grant 2 warrants if it considered any matters related to the applicants themselves raised doubt as to their ability to perform to the required standard in any of the respects such as programme, financial ability, commercial ability and so on.

The Tribunal considered that there was sufficient justification on normal criteria for the grant of 2 warrants having regard to the general policy of the New Zealand Government that an FM broadcasting service be developed as an integral part of sound-radio broadcasting. (Regulation 15A and paragraph 2 (a) direction, 27 October 1981). The Tribunal was satisfied that on the evidence, the economic effect on other stations did not outweigh the other factors which the Tribunal had to take into account.

Considerations—The Tribunal received detailed schedules to the applications, lengthy evidence and full submissions. We have carefully reviewed them all. We do not consider we need traverse the evidence. We have tried to set out the reasons for our decision, having to weigh a number of factors and to indicate the importance we placed on them.

The Tribunal first considered each of the applications by applying the provisions of section 80 of the Act to those applications. Our conclusions are set out under each paragraph of the section.

The Tribunal then had to make some assessment as to whether it should choose the best 2 applicants in the light of some principle of complementarity in the programme services provided.

We considered that some complementarity was desirable even though it could not and would not be complete.

It was clear to us that there would be an advantage to the listener if both successful applicants did not attempt to cater for an identical audience.

Looking first at the older demographic we considered the Metropolitan application as superior to that of Enterprises for several reasons set out under each heading of section 80.

As Mr Maclaren submitted, this station was the only one targeting the 25–44 age group, had a depth of broadcasting, sales and financial experience and the benefit of Mr McKay's experience.

Of those aiming for the younger audience, Stereo FM and 1ZM were closer competitors. We came to the conclusion that neither of these stations would satisfy the older age group and so only one of them could succeed. Our conclusion was that, on balance, Stereo FM should be granted the warrant.

In saying this we recognise that there will be a considerable overlap between the Stereo FM audience and Metropolitan. We do not consider this to be undesirable. It will give a number of people a first choice and a second choice of FM programmes. To have Enterprises and either 1ZM or Stereo FM would have provided no such benefit.

Despite a very capable and comprehensive summing up of his client's case and, indeed, of the whole position by Mr Shale, we are not satisfied that a format still to be developed

by his client with a consultant would be successful. The applicant showed a certain lack of sophistication in programme content, marketing and management expertise. It did have technical expertise.

The IZM application would involve significant losses in the first year and it would take nearly 3 years to bring the Corporation financially back to square one with the station.

We largely accept that, in Mr O'Brien's submission, growth is likely to be relatively slow, programming paramount and that a sound financial base is needed. But that does not greatly assist the BCNZ application.

IZM's performance between its audience share and its share of dollar income falls far short of its private competitors. We are not satisfied that the Corporation can, in this large competitive market, successfully run 2 stations competing against themselves. Its marketing performance with IZM does not augur well for an involvement in a high risk operation against commercially aggressive private competitors.

We were not persuaded that the initiation of some FM network for the future (which was not a proposal accepted by the Government on the recommendation of the Tribunal after its inquiry), is a justification for the grant of a warrant in Auckland to the Corporation. The BCNZ has for many years attempted to satisfy youth needs in Auckland by means of this station in a mass programming format by AM. Its performance has been variable, but not at any time notably successful commercially.

Stereo FM brings to the radio scene some considerable directorial and management strength and will undoubtedly appeal to the younger audience. In detail its programming may need some adjustment to increase its familiarity (at least to begin with), but we consider these matters of fine tuning of programming rather than any fundamental defect. The station is well placed financially and in promotional terms to launch a station for a younger audience. It has a determined commitment to the FM mode and to provide programming to suit the medium and an audience in more depth than IZM-FM.

Section 80, Broadcasting Act 1976 requires the Tribunal in considering any applications to have regard to the matters set out below.

Some evidence or argument relates to more than one of the matters but may conveniently be discussed under one heading.

(a) The extent to which the proposed service is desirable in the public interest.

As the Tribunal had called for applications the general desirability of having FM broadcasting stations was not in issue, except as to their number as far as Hauraki Enterprises' case was concerned. We have dealt with that aspect elsewhere. A comparatively high proportion of Aucklanders will have, at the introduction of FM radio, access to FM capable receivers.

Stereo FM's application was to serve an audience aged 18 to 39 with the emphasis on 18 to 30 and to do so on the basis of considerable drive and enterprise in promotion. As with other stations, we listened to their tape. Although, as Mr Thomas pointed out, Stereo FM does not intend to be elitist, we considered the music needed a little more familiarity to be totally successful.

However, we do not place too much importance on tapes, as we have said before. They are an artificial device heard in artificial circumstances, i.e. not on air and the presentation in the past has varied considerably from the ultimate presentation heard on the air when the station starts up. All the tapes were well produced but they were not all directly comparable, being produced in different ways and for different purposes.

We are impressed with Stereo FM's determination to use research and the extensiveness of the research undertaken. They do not intend to rely on sales charts and endeavour to programme for more than just an age group.

We believe their programme will appeal to a younger audience which will be looking for an Auckland lifestyle image in preference to an existing image changed over to FM.

The applicant has been prepared since early in its existence, to make a commitment to local artists and New Zealand music. The Stereo Artists Development Trust it proposes, could in some years, provide good support to the area it draws its revenue from.

We were impressed by the determination to succeed in an attractive, dynamic programme.

Enterprises has yet to establish a format with an Australian consultant but says it will emphasise in its programmes at different times of the day a specific type of audience. They propose "an alternative radio style". Their tape was well produced. Although they did not, at first, refer to a target audience by age, it became clear they were not aiming for

the audience under 30. The programme content would certainly have only limited appeal below that age.

In a programme sense they would attempt too much. While the music would appeal to some people, we do not believe that changes from light classical music to jazz to older rock music, would retain an adequate audience.

We believe the company has been over reliant on the survey material. It has also interpreted respondents answers to indicate preferences or desires as predictive of likely listening habits.

Metropolitan FM had an impressive tape. More importantly the applicant appeared to have embraced a consistently compatible format with music not varying too much while managing to span a fairly wide age group.

This station may well have the more difficult task since evidence is that older people are less ready initially to change to FM listening than younger people. We think therefore that the fact that the company is a private one, is a significant advantage enabling it to implement a long term development plan rather than meet the short term demands of the stock exchange.

IZM's wish was to move slightly up the demographic table but basically to produce what has been successful already in AM. Its desire to simulcast served to emphasise this. The applicant has the benefit of Corporation news services and other back-up and would provide an adequate service but there would be more commercials, and emphasis on competitions, promotions, personalities and, we feel, more clutter. It would seem they wish to adapt only a little for the FM mode. It promises however to move away from its very young audience 10-18 to a core audience aged 20 to 30. The station expected to continue to obtain advice from the Tod Wallace organisation to maximise its audience appeal. Lifestyle tapes produced were used on the station at present.

On a fine balance we considered Stereo FM would do a better job for the listener than IZM.

As to other services, there were some differences as to news and community information. On balance we did not find much to influence us in these areas. We consider that, ultimately the FM stations will not be listened to for their news and information and that the levels of talk will adjust accordingly.

They may well combine with others for basic news services but it is unlikely that the full news bulletins from say, Radio Pacific, would be suitable for Enterprises.

(b) The economic effect which the establishment of the station to which the application relates is likely to have in respect of broadcasting stations already in operation.

There will be an impact on the other 2 independent music stations in Auckland, Radio I and Radio Hauraki. It is clear that Radio Hauraki's intentions are to improve the information and news content of its programmes as it sees the market moving to FM for music and to AM for other services.

It is considered that Metropolitan would have the greatest effect on Radio I and that Radio Pacific as a specialist broadcaster, is unlikely to be much affected in audience share. We expect that all commercial stations will drop some audience share after the establishment of two more stations serving a wide range of musical tastes.

We do not consider that any adverse effect on these stations outweighs the benefits in the public interest which the grants of the warrants will produce.

The impact on the existing stations of the grant of two more commercial warrants will be diminished significantly by three factors.

First, the withdrawal of IZM from full commercial revenue seeking will mean the pool of advertising revenue available will increase.

Secondly, we are satisfied that there will be some increase in listening.

Thirdly, the burden of the introduction of the two new stations will fall on the newcomers. It will be they who will have to compete with well established operators while pioneering the FM mode.

The impact on the BCNZ stations is covered in the next section.

We were not persuaded that we could draw any reliable conclusion on the effect on AM station audiences of the introduction of FM radio in Australia which would be significant for this decision.

(c) The effect which the establishment of the station to which the application relates may have on broadcasting services provided by the Corporation in the public interest.

Obviously there will be an impact on the revenue of Auckland stations with the introduction of 2 competitors. The Corporation has intimated that if ZM is not a successful applicant, it would apply to change the warrant to non-commercial except for limited sponsorship and the Corporation intimated that it would desire to carry exactly the same programme material without the advertising or with much less. That will be the subject of an application to the Tribunal. Such a policy it was argued, supported the grant of the Corporation's application so that the ZM AM operation would cease immediately, or after a period of simulcasting.

Whether or not the Corporation were successful in its FM application the effect will fall on ZB as one of the Auckland stations. It can be expected however, that some of the revenue which previously went to the ZM station may well be captured by 1ZB. We therefore consider that the impact on 1ZB which is a heavily informational and broad range station will not be great. It is a phenomenon of commercial radio that many older established all round family stations do retain their audience and their place in the market despite the addition of new competitors for a number of reasons which we need not go into here. We believe that will be the case with 1ZB.

If the Corporation maintains its existing operation on ZM but not on a fully commercial basis, then it will have to carry that as a public service element of its broadcasting which it chooses to do as if it was introducing a new service. Nowhere else in New Zealand, so far as the Tribunal is aware, does the BCNZ find it part of its public service to provide a commercial type format without commercials in order to serve a particular audience. Indeed evidence we heard in Hawke's Bay indicated that when it became commercially undesirable to have one of the two stations there catering for a younger audience, this was readily sacrificed for a geographical division of the market.

The effect of not granting the application on the Corporation's finances is not a vital factor. Under this heading we are required to consider the effect the grant of any application will have on the Corporation's services. Granting any of the other applications will have no effect on the 1ZM service. That will be determined, because of the direction of the Minister, by the Tribunal at another hearing. Granting the BCNZ application would reduce the Corporation's AM services by one. The direction requires that the BCNZ application be dealt with on its merits, along with the merits of the other applications. The possibility of 1ZM remaining as a disruptive factor is too speculative to weigh much with us.

In the immediate future the impact of the grant of the warrant to the Corporation would be more detrimental on its finances than not granting the application.

The Corporation, without the ZM-FM warrant will be able to commit its available funds to the priority given by the Minister of Broadcasting in paragraph 2 (c) of the Direction of 27 October 1981 for the extension of the Concert Programme.

It is also possible that before long a policy will be formulated on licence fees which will enable the Corporation to assess its income from this source on some regular basis and make its allocation accordingly.

If it were to cease its fully commercial operation it is likely that the programme talent and management could be moved to other stations which the Corporation admits it has a hard job to find good staff for these days.

The mobility of radio staff is such that it is quite likely that some of the Corporation's employees will find themselves working for one or other of the new stations, thus solving any problem of overmanning.

The concentration of the resources of the Corporation on its 1ZB flagship in Auckland will make it a formidable competitor.

We are not satisfied with Mr Jenkins evidence of the impact on Radio New Zealand's finances of starting up or closing down stations. If we were to believe him it would almost always be argued that it is financially good to start up stations and never to close them down. As 1ZM was one of the Corporation's worst performing stations, we were unconvinced by his arguments. We are entitled to look at the long term performance of the station rather than any short term improvement in performance.

Much questioning took place of Mr Jenkins regarding the effect of the closure of 1ZM as a commercial station. Generally the Tribunal formed the view that there was a lack of understanding amongst Corporation witnesses as to the relationship of fixed, semi-variable and variable costs. It appears that there is a belief that, as further stations are added to the commercial network, fixed, Head Office type costs can expand, even if slightly, but that as the network is reduced, the reverse cannot be achieved.

We are of the view that the ultimate test of a commercial station's financial viability is the figure described as "gross margin surplus" by the Corporation. (Even this figure is obtained before taking into account a share of unapportioned overhead related to the full commercial operations of Radio New Zealand.)

Much emphasis is placed on the financial effect on RNZ if their FM application succeeds. This has been stated as enabling the parallel funding of non-commercial FM by the surplus arising from commercial FM. The first year loss projected by RNZ will take a further 1.8 years to recoup. In other words, the commercial FM operation is projected not to make a positive contribution to RNZ finances until 2.8 years have elapsed from the commencement of the station. This first year projected loss of \$290,994 together with a projected capital cost of \$308,800 will require cash funding of approximately \$600,000 by the Corporation.

(d) The needs of New Zealand or the locality or localities proposed to be served, in respect of broadcasting services.

These will be the first FM stations.

As it will be some considerable time before the Auckland market could possibly support another commercial radio station, some care had to be given in the decision as to whether there should be two competing stations providing for the same age group or whether they should try to deal with different musical tastes, at least as represented by the age of the audience.

We came to the conclusion that it would be wasteful of resources to have 2 stations such as Stereo FM and ZM competing for pretty well the same audience while leaving audiences both older and younger, largely uncatered for. This is also important since it seems that it may be several years before any non-commercial FM service is provided by the Corporation and therefore people over 40 may well have to wait a long time for any music that fell within their taste range.

Likewise, if, as was urged upon us, Metropolitan and Enterprises were granted warrants the younger audience would have no FM service to their musical tastes.

We have briefly touched on Enterprises block formatting. We do not think it would work commercially. It appears to involve a dated concept of commercial broadcasting which they acknowledge is not being followed anywhere else. It has been superseded by providing familiarity of sound and a limited range of music for a designated audience. We do not consider it likely that the audience will tune in and out to hear one kind of favourite music at particular times. If the disparate types of music are run together then the turn-off factor would be fairly high.

(e) The financial and commercial ability of the applicant to carry on the proposed service.

Stereo FM was soundly based financially, is likely to receive public support and is strong enough to withstand some adversity. Its commercial ability is one of its strengths. It has been well structured, has developed plans for promotion, established capital sources, a contingency fund and substantial working capital. It has planned a long term commitment. Mr Curle is experienced and will bring vigour to its sales and marketing and the company will be ably led.

Financial information for Enterprises had been put together by Mr Hagen, a well qualified chartered accountant who had to rely however, on the information provided to him. That information was not always complete. The company lacks in-house financial and management resources. It is reliant on Mr Parkinson for both programming and computer guidance.

There was some uncertainty as to the source of funds needed to establish the station. A substantial personal advance was to be made by one director if institutional sources of loan moneys did not materialise. There appeared to be an over-reliance on borrowings.

Metropolitan proposed joint managing directors Messrs Egerton and McKay with Mr Egerton as chairman of a well chosen board. The company was proposed to be a private one consisting of 14 equal shareholdings with provision for an allocation of shares to staff. The company was concerned that a public company could lead to a concentration of ownership of independent radio into the hands of one or two key groups. We were impressed not only with the calibre of the joint managing directors and other directors of the company but with the approach the company had made to the application. The Tribunal considered it to be realistic and practical. Although it would be aiming for a section of the audience that was not as attractive financially as a younger age group, its approach seemed likely to secure their support and that of the advertisers who wished to target that audience.

It appears that the station will benefit from the Australian experience of Mr McKay who has experience in the launching of new stations as has Mr Egerton. We were also impressed with the practicality of the approach which would not result in totally different music programming. We do believe however, that when the station becomes established its horizons will widen in order to distinguish it from its AM rivals. In Mr McKay's opinion the ideal combination would be one station aiming for 10-34 and the other 25-44.

We were satisfied with the sources of capital for Metropolitan and the amount available.

We were impressed with its own research and preparation of the survey and consider this applicant to be the more impressive applicant for an older age group. They have good programming attitudes, have used their survey material wisely and show a depth of experience and insight into broadcasting.

We accept that IZM-AM has some coverage difficulties. It is not alone in that.

But it is interesting to compare the absolute dollar levels of income of IZM and its competitor Radio Hauraki in relation to audience share as a guide to the performance of each. We set out below a table which shows average audience share (over three BCNZ surveys) and reported levels of income for these two stations.

1980	Audience Share*	Income to 31/3/80	Income per %
IZM	16%	546,848	33,531
Hauraki	22.7%	2,873,478	126,585
1981	Audience Share*	Income to 31/3/81	Income per %
IZM	13.3%	737,759	55,486
Hauraki	21.0%	3,125,881	148,581

*Average of 3 BCNZ surveys in each year—June–August/September–December/February–April

The conclusion we draw is that Hauraki is performing substantially better in the market place relative to audience share than IZM.

With less than 12 percent of the Auckland radio audience, Radio Pacific is able to generate income in excess of \$1.6m.

Comparison of performance by sales staff for a BCNZ station and a private station is also significant. Evidence was given by BCNZ witnesses that good sales people would achieve \$150,000 of sales per annum while the private operator considered \$250,000 to be an average.

The Tribunal was concerned regarding the principal thrust of the evidence given on behalf of the BCNZ. It was seen to seek to make a case, that the finances of the BCNZ would suffer drastically as a consequence of IZM ceasing to be a commercial station and that to avoid this serious effect a warrant should be issued.

This argument appeared to be based on the fact that head office costs, part of which are apportioned to the various stations within the network, are an immovable and immutable force. The emphasis appears to us to be one where head office comes first and the various services provided are placed around the centre. It must be remembered that the primary financial considerations in providing a network of programmes are those costs incurred at local station level. Head office costs should be incurred in support of radio services provided their existence clearly is to provide standardisation and economies of scale in the provision of certain services to the network of stations.

In the same way as commercial stations are added to the commercial network there should be an acceptance by the BCNZ that in certain circumstances a reduction in commercial services may also be required. The services offered by head office and the costs that arise therefrom should be tempered to reflect the changing number of stations being serviced.

In the Tribunal's view the ultimate test of a station's "contribution" to the overall finances of the corporation must be after allocation of all centrally incurred costs.

In the situation where a deficit is incurred before the allocation of certain centrally incurred costs it is assumed that that deficit can only increase when those costs are actually allocated, regardless of the method of allocation selected.

In any event, the effect on the Corporation's finances arise from a decision to change IZM-AM to a less commercial role.

The revenue budgets for Stereo FM and Metropolitan were realistic although we have some doubts about the estimate of national advertising which would be obtained by Stereo FM.

If the IZM performance had been better, as an ongoing enterprise, it might be expected to do better than its estimates. But we believe the figures are probably optimistic.

We doubt that Enterprises would succeed in achieving its sales goals.

(f) The likelihood of the applicant carrying on the proposed service satisfactorily.

Enterprises intended to operate a computer based broadcast system. We would have a good deal more confidence in a computer operated station if that station had already been operating and proved its expertise in the field or if the promoters had actual experience of doing so. The formidable task of not only starting a new broadcasting station, but of implementing a system which is new to New Zealand and which it is claimed will reduce staff costs in a company which appears short on management skills, was, in the opinion of the Tribunal, asking more of a development period than should be expected in a highly competitive market. The Tribunal acknowledges the skill of the Stebbing connection in dealing with computer equipment. But we consider it one thing to provide these facilities in relation to recording and another to continue day after day on a live broadcast situation.

However, we did not consider it a demerit. We simply felt unable to consider it an advantage to the application.

Enterprises contrasted its line of sight to Waiatarua with the doubtful arrangements of Metropolitan. We do not consider this to be an important element. Such problems occur to be overcome and we do not consider the exact location of the studio important to the Metropolitan application. It is intended however, that it should be on the North Shore and we are confident that some arrangement can be entered into which would provide an adequate linking arrangement with the Waiatarua transmitter.

The Corporation saw itself as having a sound commercial structure and a corporate base, experienced and dedicated broadcasters, a target audience that was accessible and the availability of research.

It was claimed that the Corporation had financial and commercial ability which required no further comment. The Corporation would carry on the service satisfactorily. The Tribunal accepts that. We are satisfied its staff, such as Mr Bolton the manager, are competent and accomplished broadcasters. We are not satisfied that the structure within which they work is an ideal one for the successful launch of commercial FM in Auckland.

Stereo FM satisfied us by their personnel, structure, preparation and research that they would carry on the service satisfactorily.

(g) The results of any survey available to the Tribunal.

All the applicants, except the BCNZ, produced surveys prepared for the purpose of the applications.

Stereo FM's was not just a radio survey. It involved segmented analysis of life styles of people 15 to 39. It was comprehensive and far reaching. But not all the material gathered was particularly relevant to the issues to be determined by this Tribunal and much was not made available as evidence.

The survey was an in-depth analysis containing a wealth of material of use to programmers. It was an impressive indication of the resources and commitment the company was prepared to put into identifying and serving its desired audience's needs.

Enterprises carried out a survey of persons 30 years and over in the Auckland metropolitan area. The survey covered expectations from FM radio when it is introduced.

Respondents were also asked how much of 9 different radio services and programmes they would like to hear on FM radio and to indicate whether they would like more, the same or less of it.

The Tribunal was told the results suggested that there were some types of radio services people aged 30 years and over clearly wanted more of on FM radio than were currently featured on existing radio programmes. They were easy listening/middle of the road music (59 percent, news and information (40 percent), light classical music (33 percent), country and western music (43 percent).

It is the Tribunal's experience that in nearly all surveys a substantial number of people want more news and information. These particular results have to be treated with some caution and we came to the conclusion that the applicant had based too much programming judgment on these particular results without considering the practicability of the format.

Another question arises. Will people listen in accordance with their expressed orders of preference? We do not accept that 33 percent wanting classical music and 45 percent wanting more light classical music, will necessarily listen to a station which presents those types of music along with easy listening/middle of the road and country and western music.

Metropolitan carried out a survey reinterviewing a sample of people aged 25-54 who had previously completed a detailed diary of radio listening patterns for the McNair Radio Audience Survey. The advantage of this survey was that it related actual listening patterns and volume as well

as musical preferences. The station's three major components, easy listening, soft rock music, music of the sixties and seventies and popular artists album tracks were liked by the great majority of the potential audience.

We considered the survey a useful and practical one. Again however, we must comment that predictions or preferred options by respondents have to be taken with some caution.

The survey revealed, as we have learned elsewhere, there is a general audience preference for stations operated by private organisations although it is clear that ownership is not a critical issue. The survey also showed listener preference for some complementary programming of FM stations in Auckland.

(h) The requirement that frequencies be best utilised in the public interest.

The grant of warrants to Metropolitan and Stereo FM will provide a range of programmes for the benefit of the audience in Auckland. We are not satisfied that any other combination would provide a better coverage of the Auckland radio audience.

(i) The desirability of avoiding monopolies in the ownership or control of news media.

The question did not directly arise. However, it is convenient to discuss here the shareholding of Wilson and Horton Ltd. in Stereo FM. We do not find the ownership or part ownership of an FM station in the Auckland market by a newspaper group or groups a negative factor. It would be otherwise if they chose also to take shareholdings in other stations in the same market. The regulations limit those possibilities.

The diversity of news sources is well established. We see the FM station as having less significance in a news and current affairs sense than an AM station. We also refer to the adoption of the Tribunal's recommendations in the FM report by the Government as is endorsed in the direction of 27 October 1981.

(j) The hours during which the applicant proposes to broadcast programmes.

All applicants intend to broadcast 24 hours a day.

(k) The extent of advertising matter which the applicant proposes to broadcast.

Stereo FM and Metropolitan proposed a maximum of 8 minutes per hour, IZM 10 minutes and Enterprises 14. There are clear advantages in reducing commercial content in FM broadcasting. However the Tribunal will not impose a condition.

(l) The proposed rates and charges to be made in respect of advertising programmes.

The desirability of 60-second commercials was canvassed before us. In the end, we consider nothing depended on the point. They appear to be a desirable feature of FM broadcasting.

No particular applicant's rates and charges had any particular merit for the application.

(m) Such matters as may be necessary for the purpose of imposing conditions under section 71 of this Act.

The Tribunal does not find it necessary to impose a condition regarding town planning approval. If planning approval is not forthcoming at one site, another can be obtained or an alternative method of getting the programme to the transmitter can be used.

It appears to us on the evidence, and after inspecting the television transmitting station, there will be little difficulty in making physical and technical co-siting arrangements with the BCNZ at Waiatarua. There may be differences about financial matters. There will be a condition requiring co-siting and equal signal strength with leave to the warrant holders and the BCNZ to apply for any variation. Any financial differences ought to be resolved by negotiation or arbitrated.

(n) All relevant evidence or representations received by it at the hearing.

Some emphasis was placed on the location of the Enterprise studio as giving a line of sight access to the Waiatarua transmitter. The Tribunal has come to the conclusion that except in the case of this company, the studio arrangements are not particularly advantageous to one or other applicant. If there is difficulty in using one site for a studio we are quite sure other suitable studio sites can be obtained, but we acknowledge that the arrangements to associate with Stebbing studios do provide an advantage to this applicant.

Radio I made submissions but gave no evidence. Some of the points are dealt with elsewhere. Others had been disposed of in the course of the hearing. We have rejected the submission that there should be two similar style stations on the FM band.

(o) Such other matters as may be prescribed in regulations in that behalf.

The Tribunal agreed with the BCNZ that the policy of the Government in relation to FM broadcasting did not hinder the Corporation's application being treated on its own merits.

Regulation 15A, Broadcasting Regulations 1977 as enacted in Amendment No. 5 (S.R. 1981/295) requires the Tribunal when considering any application for an FM broadcasting station, to have regard to the policy of the Government under which a frequency modulation broadcasting service is to be developed as an integral part of sound-radio broadcasting in New Zealand.

The Tribunal, therefore, is required not only under section 68 but also when considering the factors in section 80, to have regard to Government policy. We must therefore have regard to the policy of the Government as enunciated in the directions given to the Tribunal and the Corporation.

The Tribunal therefore has to take into account that there is to be a development of FM broadcasting as Government policy. (Paragraph 2 (a) direction 27 October 1981).

The applications must each be dealt with on their merits. (Paragraph 3 (b) direction to the BCNZ 14 April 1982.)

The withdrawal of IZM from full commercial status is to enable the development of FM broadcasting in Auckland. (Paragraph (3) direction to BCNZ 14 April 1982.)

The directions given have, in nearly every case, followed the recommendations of the Tribunal in its August 1981 FM Report. We consider it appropriate that where a recommendation of the Tribunal has been put into effect as part of the policy of the Government, then the Tribunal is entitled to have regard to the reasons set out in the Tribunal's report on FM broadcasting as part of that policy. However, it is not necessary in the present case to go further than the direction.

It is clear to us that this, in effect, precluded the Tribunal from considering the deleterious effects on the BCNZ of the non-grant of a warrant for a IZM-FM. The Corporation's statements about its financial position which would arise if it were not successful with its application, arise in any event by reason of the direction given by the Minister of Broadcasting.

We believe the effect of those directions and the statements of Government policy they contain, is to require us not to regard as a merit for the application of the BCNZ, the fact that the Corporation may lose some revenue if it does not get an FM warrant. That arises because of the Minister's direction that the station apply for an amendment to its warrant to make it non-commercial (except for limited sponsorship).

The Tribunal therefore does not have to consider the effect on IZM of the commencement of FM broadcasting.

We do not think the Tribunal should give great weight to the Corporation's argument that it needs the warrant to get money so that when the station is profitable in several years time, it may be able to contribute to the cost of establishing other stations. In any case, we think it doubtful that the Corporation could depend on any significant contribution to its finances from this venture for many years.

Decision—The applications by the Broadcasting Corporation of New Zealand and FM Radio Enterprises Ltd. are declined.

The applications by Metropolitan FM Broadcasting Ltd. and Stereo Frequency Modulation Ltd. are granted.

The coverage objectives of both stations will be to provide a stereophonic service to most of the areas directly served by television transmissions from Waiatarua.

CONDITIONS

THE usual conditions will be inserted in the warrants.

The warrants will lapse unless they are taken up within 12 months of the date of this decision or of the date of the final determination of any appeal unless extended by the Tribunal. There will be a prohibition on networking in terms of section 71 with an exception as given to private stations other than Radio Pacific. Advertising will be permitted in the same terms as for other private stations.

Any prospectus issued will have to be approved by the Tribunal as to any references made about the Tribunal or the grant of a warrant or the effect of this decision.

The warrant holders will be required to co-site with the BCNZ Television facility at Waiatarua and steps shall be taken to ensure that the signal strengths of the 2 stations are maintained at the same level. The warrant holders may apply for leave to vary this condition should there be failure to secure agreement as to co-siting.

The usual clause will be imposed requiring adherence to technical rules.

The Tribunal does not consider that it should impose the detailed condition as to the nature of the station's programmes. However in order to ensure that stations adhere to the promises made when applications are submitted and to ensure that there is no radical departure from what was intended, the Tribunal will impose the following conditions.

"The warrant holder shall not substantially depart from the basic format and content of its proposed programmes or the type or extent of the services intended to be provided at the time of the grant of the warrant without the prior consent of the Broadcasting Tribunal and subject to any conditions that the Tribunal might impose in the public interest."

The mixed polarisation to be used will be slant.

Allocations of frequencies will be made after the parties have had the opportunity to make representations to the Tribunal.

The Tribunal acknowledges the assistance it has received from counsel for all the parties who co-operated in the adequate exchange of information and evidence before the hearings, and who assisted the Tribunal in endeavouring to reduce the time taken for the hearing. The Tribunal has been substantially aided by very full and clear submissions.

Dated the 30th day of July 1982.

For the Tribunal:

B. H. SLANE, Chairman.

Direction to Broadcasting Tribunal in Connection with the Development in New Zealand of a Frequency Modulation (FM) Broadcasting Service

To the Broadcasting Tribunal

PURSUANT to section 68 (1) of the Broadcasting Act 1976, I, WARREN COOPER, the Minister of Broadcasting—

(1) Give you notice that the Government has considered your report to me on the Development of Frequency Modulation Broadcasting in New Zealand; and

(2) Give you notice that it is part of the general policy of the New Zealand Government in relation to broadcasting—

- (a) That a frequency modulation (FM) broadcasting service be developed as an integral part of sound-radio broadcasting in New Zealand; and
- (b) That frequency modulation (FM) broadcasting be introduced in New Zealand without delay; and
- (c) That the Broadcasting Corporation of New Zealand should, by the use of frequency modulation (FM) broadcasting, extend its Concert Programme to provincial areas which radio reception of that programme is not at present satisfactory; and
- (d) That the Broadcasting Corporation of New Zealand should, as its resources permit, progressively convert the YC stations (which are the stations from which its Concert Programme is transmitted) to frequency modulation (FM) broadcasting; and
- (e) That short-term frequency modulation (FM) broadcasting authorisations be authorised under section 76 of the Broadcasting Act 1976 for community purposes; and
- (f) That, outside the larger urban areas, local groups should be encouraged to establish locally owned radio broadcasting stations (on a commercial or non-commercial basis or on a basis that is partly commercial and partly non-commercial) to relay programmes from other warrant holders as well as to develop some elements of local broadcasting for limited periods; and
- (g) That the development envisaged in paragraph (f) of this clause should be facilitated by networking arrangements that permit local programming as well as a choice of network programmes; and
- (h) That except where, without simulcasting, an economically viable service to an area would not be feasible for many years and except as provided in paragraph (i) of this clause, simulcasting by AM and FM stations covering the same areas should not be permitted; and
- (i) That simulcasting of news, current affairs, special events, and simulcasting with television should be permitted; and
- (j) That holders of warrants in respect of existing stations shall be permitted to hold warrants or interests in warrants in respect of FM broadcasting stations; and
- (k) That applications by newspaper companies for sound-radio warrants in respect of FM broadcasting stations should be considered on their merits together with applications of other applications; and

(3) Give you notice that, included within the recommendations in respect of which the Government has still to formulate its general policy, are the recommendation set out on pages 11 to 15 of your report and numbered (2), (9), (43), (45), (46), (47), (55), (56), (57), (58), and (59); and

(4) In pursuance of the general policy of the Government as outlined in clause (2), direct that you shall,—

- (a) Call without delay for applications for sound-radio warrants in respect of 2 commercial frequency modulation broadcasting stations to be established in Auckland; and
- (b) Invite prospective applicants for sound-radio warrants in respect of commercial frequency modulation broadcasting stations to be established in areas outside Auckland to file with you notice of intention to apply for such warrants; and
- (c) After considering any representations made by prospective applications, establish the order for warrant hearings having regard to the notices of intention received; and
- (d) Thereafter call progressively for applications for sound-radio warrants in respect of commercial frequency modulation broadcasting stations to be established in areas outside Auckland; and

(5) In pursuance of that policy, direct that you shall, in carrying out the direction contained in clause (4), note that—

- (a) Frequency modulation broadcasting should be developed first in the band 88–93 MHz, and then in the band 94–100MHz as other services are cleared; and
- (b) The frequency assignment plan, which is to be based on 50 kHz channel spacing, is to be prepared and maintained by the Post Office; and
- (c) Channel spacing is to be reviewed in 1986; and
- (d) It is to be a principle, in relation to the frequency assignment plan, that some frequencies are to be kept unassigned to permit later developments in FM broadcasting that may not be foreseen at present; and
- (e) A frequency is not to be assigned to any frequency modulation broadcasting station or amplitude modulation broadcasting station simply because that frequency is available; and
- (f) As a general principle and subject to paragraph (g) of this clause, the recommendations of the International Telecommunication Unions' International Consultative Committee on Radio (CCIR) on signal strength standards for reception should be the basis for determining coverage objectives and the effective radiated power of proposed frequency modulation transmitters; and
- (g) You may, in consultation with the Post Office, vary the standards referred to in paragraph (f) of this clause where you consider it necessary but, in making any such variation, you shall have regard to the importance of conserving frequencies and of avoiding interference with other services; and
- (h) Subject to paragraph (i) of this clause, FM transmitters should be co-sited, where practicable, with television transmitters; and
- (i) Where co-siting is not practicable and paragraph (i) of this clause does not apply, siting of an FM transmitter within approximately one kilometre of a television transmitter is to be preferred; and
- (j) As a general principle medium and high powered FM transmitters should be located at efficient transmission sites outside urban areas; and
- (k) It is envisaged that where difficulties arise between a warrant holder and the Broadcasting Corporation of New Zealand in establishing a mutually acceptable co-siting agreement, the difficulties should be settled by arbitration; and
- (l) Low-powered transmitters need not be co-sited with television transmitters; and
- (m) The location of transmitters not co-sited shall be chosen with regard to achieving compatibility with other services and efficient use of FM broadcasting frequencies; and
- (n) The same sense slant polarisation shall be used for all FM broadcasting but you may, in your discretion, permit a different type of mixed polarisation if it is justified for any particular transmission; and

(6) Hereby revoke the notice which was dated the 23rd day of February 1981 and which was given to you under section 68 (1) of the Broadcasting Act 1976*.

Dated this 27th day of October 1981.

WARREN COOPER, Minister of Broadcasting.

**Gazette*, 1981, p. 415

Notice to Broadcasting Tribunal in Connection with the Development in New Zealand of a Frequency Modulation (FM) Broadcasting Service

To the Broadcasting Tribunal

PURSUANT to section 68 (1) of the Broadcasting Act 1976, I, Ian John Shearer, the Minister of Broadcasting,—

(1) Give you notice that the Government has considered the recommendations which, as recommendations (43) and (45), are set out on page 14 of your report to the Minister of Broadcasting on the Development of Frequency Modulation Broadcasting in New Zealand; and

(2) Give you notice that it is part of the general policy of the Government in relation to broadcasting—

- (a) That, subject to paragraph (b) of this clause, communication facilities for the reticulation of frequency modulation (FM) radio programmes be provided by the Post Office as an integral part of the telecommunications network;
- (b) That the Broadcasting Corporation of New Zealand be authorised to carry 2 of its own frequency modulation (FM) stereophonic sound transmissions in the baseband of the existing television bearers that link the television broadcasting stations if in your opinion it is economic for the Corporation to do so;
- (c) That operators of private broadcasting stations be per- only where it is established that the Post Office cir- only where it is established that the Post Office cir- cuit cannot provide the necessary quality and reliability.

Dated this 14th day of April 1982.

I. J. SHEARER, Minister of Broadcasting.

Direction to Broadcasting Corporation of New Zealand in connection with the sound-radio warrant in respect of station 1ZM

To the Broadcasting Corporation of New Zealand

WHEREAS—

- (a) The Minister of Broadcasting (by a notice which was dated the 27th day of October 1981* and which was given pursuant to section 68 (1) of the Broadcasting Act 1976) directed the Broadcasting Tribunal to call without delay for applications for sound-radio warrants in respect of 2 commercial frequency modulation (FM) broadcasting stations to be established in Auckland;
- (b) The Broadcasting Tribunal has complied with that direction;
- (c) One of the applications for one of those sound-radio warrants is the Broadcasting Corporation of New Zealand;
- (d) The Broadcasting Corporation of New Zealand already has 2 commercial amplitude modulation (AM) broadcasting stations established in Auckland, namely station 1ZB and station 1ZM;
- (e) Regulation 14A (3) of the Broadcasting Regulations 1977 (as inserted by regulation 4 of the Broadcasting Regulations 1977, Amendment No. 5) provides that where—

(a) An applicant for a sound-radio warrant in respect of a commercial frequency modulation broadcasting station or in respect of both a commercial frequency modulation broadcasting station and a commercial amplitude modulation broadcasting station is the holder of a sound-radio warrant in respect of a commercial amplitude modulation broadcasting station: and

(b) The Tribunal is satisfied that the frequency modulation station serves or will serve a significant proportion of the same area as the amplitude modulation broadcasting station,—
it shall, unless the Tribunal determines that there are special circumstances, be a condition of any warrant granted that the applicant surrender the warrant previously held in respect of the commercial amplitude modulation broadcasting station (whether or not the warrant granted authorises the operation of the commercial amplitude modulation broadcasting station):

- (f) The Broadcasting Corporation of New Zealand, as the only holder of sound-radio warrants in respect of 2 commercial amplitude modulation (AM) broadcasting stations established in Auckland, is in an advantageous position in respect of its application for a sound-radio warrant in respect of a commercial frequency modulation (FM) broadcasting station to be established in Auckland in that the regulation quoted requires the Corporation to surrender its sound-radio warrant in respect of a commercial amplitude modulation (AM) broadcasting station only if the Corporation is granted a sound-radio warrant in respect of one of the 2 new frequency modulation (FM) commercial broadcasting stations to be established in Auckland:

NOW, THEREFORE, pursuant to section 20 (1) of the Broadcasting Act 1976, I, Ian John Shearer, the Minister of Broadcasting—

(1) Give you notice that the Government has considered the recommendation of the Broadcasting Tribunal to the effect that the Broadcasting Corporation of New Zealand should apply to amend the warrants, 1ZM, 2ZM, and 3ZM to be non-commercial (with rights to limited sponsorship) upon the introduction of commercial FM broadcasting in their respective cities (which recommendation is set out as recommendation (9) on page 11 of the Report of the Broadcasting Tribunal to the Minister of Broadcasting on the Development of Frequency Modulation Broadcasting in New Zealand); and

(2) Give you notice that the Government accepts, as part of its general policy in relation to broadcasting, the opinion expressed by the Tribunal (to the extent that that opinion relates to Auckland) that, without the withdrawal of the ZM stations from the metropolitan markets, it will not be possible adequately to develop popular FM broadcasting on an economic basis (which opinion is expressed in paragraph 6.39 of the Report of the Broadcasting Tribunal to the Minister of Broadcasting on the Development of Frequency Modulation Broadcasting in New Zealand); and

(3) Give you notice that it is part of the general policy of the Government in relation to broadcasting—

- (a) That popular FM broadcasting be developed in Auckland on an economic basis; and
- (b) That all applications for sound-radio warrants in respect of the 2 commercial frequency modulation (FM) broadcasting stations to be established in Auckland should be dealt with on their merits; and
- (c) That you, the Broadcasting Corporation of New Zealand, should not derive special advantage from the manner in which the Tribunal would be required to apply section 80 (b) of the Broadcasting Act 1976 (which requires the Tribunal to consider the economic effect that the establishment of the new frequency modulation (FM) commercial broadcasting stations are likely to have in respect of broadcasting stations already in operation) were it possible for 1ZM to continue in operation as a commercial broadcasting station after either of the 2 new frequency modulation (FM) commercial broadcasting stations begins broadcasting; and

(4) In pursuance of the general policy of the Government in relation to broadcasting (as set out in clauses (2) to (3) of this notice), direct that you, the Broadcasting Corporation of New Zealand, shall apply without delay to the Broadcasting Tribunal for the amendment of the terms and conditions of the sound-radio warrant that you hold in respect of station 1ZM so that that station shall cease to be a commercial station (except for rights to limited sponsorship) on the date on which the first commercial frequency modulation (FM) broadcasting station to be established in Auckland begins broadcasting (whether or not you are the holder of the sound-radio warrant issued in respect of that commercial frequency modulation (FM) broadcasting station).

Dated this 14th day of April 1982.

I. J. SHEARER, Minister of Broadcasting.

*Gazette, 1981, p. 2983

Decision 18/82
Bro 7/81

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by Radio Hawkes Bay Ltd. for a sound radio warrant:

B. H. Slane, Chairman; Lionel R. Sceats, Member; Janet C. Somerville, Member; Murray J. Henshall, Co-opted Member.

Hearing: At Napier, March 1, 2, 3, 4 and 5. At Wellington, March 23.

DECISION

Application—Radio Hawke's Bay Ltd. applied to operate a commercial AM radio broadcasting station to serve the cities of Napier and Hastings, Havelock North, Waipukurau, Waipawa, southern and central Hawke's Bay areas and to Takapau. It was proposed to establish a primary station of 1 kW operating on 1125 kHz to provide a primary coverage of Hastings and Napier with a relay station of 1 kW operating on 1584 kHz at Takapau. The station would broadcast 24 hours a day originating programmes from its own studios, which would be located either in Hastings or Napier. The applicant emphasised the regional nature of the station proposing a "full service" programme using music as an ingredient of programming but with primary emphasis on news, information, current affairs and community involvement.

The applicant set out all proposed programme services in detail. It set out particulars of the news and current affairs programmes to be provided and its community service proposals. The music, it was proposed, would be approximately 50-50 "golden oldies" and current music, varying according to the needs of its audience at different times of the day.

The applicant proposed a format that would avoid a "top-forty sound" and would provide a warm, intimate, human type of presentation without resort to the beautiful music approach. The applicant considered the format would provide a real alternative to the music programmes currently being heard from stations 2ZC Napier and 2ZK Hastings, which it described as predominantly top-forty disco and rock 'n' roll music with a small percentage of easy listening included at times in the format of 2ZC and with occasional oldies not older than the early 70's, in the case of 2ZK.

The application was opposed by the Broadcasting Corporation of New Zealand (BCNZ), the warrant holder for 3 stations, 2ZC, 2ZK and 2YZ. 2YZ is a national programme station. 2ZC (Bay Radio) studios are in Napier and 2ZK's in Hastings. 2ZK (Radio Apple) also doubles as a repeater for the concert programme at night and on Sundays.

Besides the material in the schedules to the application, we heard a considerable volume of evidence, both from the applicant and from the Corporation as well as submissions from other interested persons, and letters of support were submitted by the applicant and the BCNZ. The Tribunal listened to a tape prepared by the applicant to indicate in an abbreviated form, an extract from a half hour of the breakfast session.

The Tribunal considered that it was in a very good position to assess the application and the opposition as a result of a most thorough presentation of evidence and cross-examination. We were also able to assess the weight to be given the evidence, often conflicting, from "expert" witnesses called by both parties.

The Tribunal does not intend to traverse or summarise all the evidence it heard in 6 days of sittings or that which was submitted in writing later by consent.

The Tribunal first considered the evidence under the various headings of section 80, Broadcasting Act 1976. We propose, therefore, to discuss the evidence and our conclusions within the context of that section. For convenience in some instances, the discussion takes place under one heading and the evidence itself may be relevant to several headings.

At the conclusion of that analysis the Tribunal had to decide the weight it would give to the various factors which it must apply when deciding whether or not to grant the application.

The Tribunal concluded that the application should be declined.

Considerations—Section 80 requires that, in considering any application for a warrant, the Tribunal, before determining whether or not to grant the application, shall have regard to the following matters (which we have underlined), so far as they are applicable:

(a) *The extent to which the proposed service is desirable in the public interest.*

The applicant gave evidence of its distinctive "sound".

The applicant (quite properly) emphasised also the full-time nature of the local programming and origination, the self-imposed restriction on advertising and the aim of emphasising the region instead of the Napier and Hastings rivalry. (We discuss some of these points later.)

An emphasis was also placed on the desirability of having a private operator as this was the largest area in which there was no competition for the BCNZ.

That argument has to be treated with some caution. The Act itself does not lay down the merits of competition as such in the considerations which the Tribunal must take into account. However, we have previously noted some of the advantages of competition and the fact that people generally respond favourably to the idea of there being some competition. (We discuss the survey material separately.)

Another commercial service would be offered where only 2 services were available for part of the day and 1 for the rest of the day for the commercial radio listeners of the area.

We did not conclude, despite our assessment of the standard of the executives of the new company as high, that there would be any substantial difference in the overall programme standards between the new station and the BCNZ stations. There is, however, a smartening up effect on the BCNZ arising from the introduction of competition and this would operate not just in the sales area but also in programming and presentation. On balance therefore we would see it as desirable in the public interest to be introducing viable new services to provide radio listeners with as many choices as possible. (Under another heading we consider the viability of existing services.) Indeed, if there has been a philosophy or policy of the Tribunal, that has been it.

Much time was spent on the question of a regional rather than a Napier and/or Hastings approach and the effect that the station could have on reducing rivalry. We found there was some conflict in the evidence as to the rivalry and the consequences of it. We content ourselves with observing that a new entrant has little choice in the light of the existing radio services but to take a regional approach and this the applicant has done. It has also quite properly turned this requirement to its advantage and put it forward as a virtue of the application. We think it is a factor to be taken into account. But we do not think the regional political argument is one on which we should put great importance in this application. It is not for the Tribunal to decide the extent to which a united province is more in the interest of the people of Hawke's Bay than strong competition between Napier and Hastings.

We heard a great deal of evidence about programmes, much of it conflicting. We deal separately with the question of current affairs. So far as music is concerned we are satisfied the music proposed to be played by Radio Hawke's Bay and that which is played by the 2 existing stations (excluding the Concert Programme content of Radio Apple), will not prove to be significantly different. Although there will be formatting and music choice differences which arise from different persons making the selections, we do not believe that the selections will be made from disparate sources. They will have to pitch like against like. We are satisfied that they will have as their targets the same audience. Each would seek a fairly wide demographic and consequently the new station may well be more top forty than it now says it would, and would sound much more like the existing stations. We have accepted the BCNZ evidence as to existing formats and demographic targeting.

We do not find that the application is desirable in the sense that it provides significantly different music choices for listeners, or any great amount of complementary programming. (We note that from the detailed programme proposals at times there will be complementary programming.) It will provide an independent news service and some local current affairs but it is not likely to satisfy a demographic group not provided for at present. It will, commercially, have little choice but to compete head on with the existing stations. The tape supports this view.

From an audience point of view there is a young audience which could well have been served by a new operation, but the applicant has specifically (and possibly for good commercial reasons) eschewed that choice in favour of broadly the same group as the Radio New Zealand stations seek to satisfy.

We must therefore assess the desirability of the proposed service in the public interest as slight. This in no way suggests that the programme services proposed would be of poor quality or badly presented. It is simply an assessment based on the nature and intent of the application in the context of existing services.

(b) *The economic effect which the establishment of the station to which the application relates is likely to have in respect of broadcasting stations already in operation.*

(c) *The effect which the establishment of the station to which the application relates may have on broadcasting services provided by the Corporation in the public interest.*

There was a conflict of evidence on the projected levels of income and the effect of obtaining that income on the BCNZ. Mr Ballantine sought to prove that by an objective

assessment the effect on the BCNZ's revenue would be \$200,000. Mr Jenkins, giving evidence for the Corporation, estimated the effect would be in the order of \$500,000.

The Tribunal recognises the difficulty of estimating not only the level of the future income but also from where it would be derived and the extent of the effect on the revenue earning potential of the Corporation. After considering the applicant's survey of businesses and Mr Ballantine's empirical study of 16 business houses in Napier and Hastings, we were unable to find that there was any conclusive evidence for or against the advertising support for the applicant station.

This means that estimates of the effects on the finances of the BCNZ would necessarily be subjective.

The Tribunal is, however, satisfied on the basis of the revenues of the BCNZ from the area, and bearing in mind the element of competition between the two existing stations that there is no unrequited demand for advertising to the extent claimed by the applicant. The Tribunal concludes that the loss of revenue to the BCNZ will be closer to Mr Jenkins' figure than Mr Ballantine's. The per capita spending on advertising in the area supports the contention that the applicant would be entering a market where radio advertising spending is already at a high level.

This estimate is supported by our examination of the figures in Invercargill and Palmerston North following the establishment of stations there in essentially single station markets. We have accepted the information provided which assesses the effect against the trends in all other stations of the Corporation for the same periods and have concluded that the effect in each of those markets would translate to a figure of more than \$300,000 in Hawke's Bay. In addition we must take into account that there have been 2 stations, even if one is not fully commercial, exploiting the advertising market in Hawke's Bay. We conclude that much more revenue would have to be taken from the BCNZ to satisfy the estimates of revenue required by the applicant than Radio Hawke's Bay estimated, even taking into account population projections.

We also believe the company would experience much more difficulty in establishing itself in the market than it has estimated. The ratio of stations to population would be comparatively high. But whether or not it was successful it would seriously deplete the revenue available to RNZ commercial radio and have a direct and serious effect on the Corporation's radio revenue, and thus the services in the area.

The effect on the Corporation's financial position of a drop in revenue is the same whether Radio New Zealand has a surplus or deficit in local operations. But surpluses have to be obtained wherever possible to meet head office costs and support new commercial services. The Hawke's Bay commercial radio stations showed a local surplus (in 1980/81) of \$403,000 after contributing \$127,000 to apportioned Head Office administration costs. But there is nationally a much larger sum of unapportioned overheads which have to be met out of local surpluses before there is any real contribution to the surplus of Radio New Zealand. In other words, not all the \$403,000 is "profit" for Radio New Zealand. Furthermore, local non-commercial services cost the BCNZ \$506,000 in the 1981 year. While local surpluses cannot be equated in each area with the cost of local non-commercial services, that figure is an indication of a local element of the Corporation's national programme costs to be met from licence fees and commercial revenue. Licence fees have not increased for several years.

The diminution of revenue would set back the Corporation's capacity to develop FM concert programmes in Hawke's Bay, Waikato and Southland areas.

(d) *The needs of New Zealand or the locality or localities proposed to be served, in respect of broadcasting services.*

Under 80 (g) we discuss in detail the results of the surveys in assessing the needs of the people in the locality or localities proposed to be served. We are not convinced that there were any significant needs which would be met by this station which were not being met by the existing stations, while we acknowledge the advantage that people would have of a second or third choice at any one time of a somewhat similar programme even if it were sometimes better.

We also accepted that there would be some considerable advantage in an alternative news and current affairs service. We believe that that is one of the major advantages of bringing another AM service to the area.

Much was made of the elimination of Hastings/Napier rivalry. We accept the fact that there would be an advantage in a new station projecting a regional image while the existing

stations were essentially based on one of the twin cities. The existing stations broadcast local news and information as well as important regional news. The new station would face the problem of what to do in news, current affairs and information once matters of regional importance are covered. The "local" events of one city or town are likely to seem boring or trivial to the residents of another town. So a regional concept in Hawke's Bay competing with local stations in each of the major cities faces the problem of having enough local coverage to satisfy parochial interests but not so much as to deter listening. The problem was highlighted by the applicant's criticism made of existing services, that they were both too parish pump and at the same time duplicated local news items.

There is a need for FM radio services. That need will develop as these services are established in other areas. It will not be well served by this applicant obtaining an AM warrant. We expand on this later.

(e) *The financial and commercial ability of the applicant to carry on the proposed service.*

The financial structure and funding arrangements were satisfactory. It is likely that more difficulty than expected may be encountered in attaining and sustaining profitability.

Our experience in recent times has shown—and it is borne out by the figures in Invercargill and Palmerston North—that not only is there an underestimate of competitive capabilities of the Corporation whose performance in reaction to a new entrant can be impressive, but also that costs are likely to prove higher than expected.

The directors and management would collectively have the ability to face that situation, but audience and financial success may take longer than expected.

(f) *The likelihood of the applicant carrying on the proposed service satisfactorily.*

In broad terms the Tribunal is satisfied that a balanced and technically competent group of directors has been assembled. The Tribunal is aware of the operational experience and successes of Mr Parsonage.

We considered Mr Parsonage and Mr Folster to be men of considerable ability who would carry out the tasks with competence and efficiency.

As to the directors the Tribunal has no wish to traverse the individual impressions they made upon us. We must, however say, that the directors are adequate for the task of running the company.

We should mention the position of Mr Clarke, since he was questioned by the Chairman on his standards in relation to news reports which he broadcast over an Auckland station on one occasion, which were in breach of the Broadcasting Rules. He accepted only reluctantly that his judgment was wrong in that instance. We have placed no weight on that evidence, although we might have if he had been a working executive of the company. Those who put forward their past experience and reputation must expect some question to be raised if they choose to brush over any particular episodes which may not support the image they wish to present. We have, however, not taken any regard of those matters in relation to this application.

We were very impressed with Mr Folster, his ability to understand his responsibilities as editor and his judgment.

The involvement in news and current affairs places a cost on the situation which it might have difficulty justifying in economic terms. Although we believe Mr Clarke is sincerely committed to news, economic realities may place the depth of the news operation at risk.

(g) *The results of any survey available to the Tribunal.*

A preliminary qualitative survey gave the applicant indicative material from a group aged between 20 and 44. One of the conclusions was that the existing stations attempted to cater for too broad a range of audience.

The applicant produced both trade and general surveys in the area to support the application.

We are not convinced that the trade survey provides conclusive evidence as to the extent of additional advertising revenue that can be obtained in the area. We have no doubt that there is some untapped revenue, but it would be somewhat less than if the area was covered by a solus operation at present. The revenue obtained by 2ZK from its Hastings operations, in the light of the inhibiting factors on its market penetration (the broadcast of the Concert Programme) indicates effective selling in that area.

Neither the surveys nor the general evidence show any great dissatisfaction with the existing services. In fact, allowing for those witnesses who might be regarded as identified

with the application or the BCNZ, there was a comparative dearth of real, sustainable criticism either from a commercial point of view or from the listening public.

The trade survey could be interpreted as showing a high degree of satisfaction with existing services to advertisers and no enthusiastic espousal of the proposition that another station would lead to increases in advertising expenditure on radio. The survey needs to be regarded with some caution in view of responses to suggestions of inadequate reception and lower advertising costs.

In the main survey conducted in September/October 1981, it was to be noted that apart from suggestions for a wider range of music (when asked to comment on commercial radio services and programmes), there was no percentage of listeners in double figures with any one suggestion for improvement.

Without prompting, 24-hour local radio was suggested by only 5 percent of respondents and a similar number proposed more local news information, better announcers and sports coverage. Slightly more thought there should be FM broadcasting.

Of those surveyed, 29 percent could not think of anything in the way of improvements. Only 1 percent put forward the idea of more stations broadcasting.

When prompted with a series of statements about commercial radio and invited to agree or disagree with them, the highest agreement was with the statement that there should be a greater variety of music on radio where more than two-thirds of respondents agreed.

But more people *disagreed* than agreed with the following statements:

There should be more local news on radio.

There are too many commercials on radio at present.

There should be more radio stations to choose from in the Hawke's Bay.

There should be more Hawke's Bay regional news on radio.

There should be locally originating programmes 24 hours a day.

There should be more comment on Hawke's Bay regional affairs on radio.

There was, however, a 58 percent majority who thought there should be a locally owned private station operating in the Hawke's Bay and 50 percent who thought there should be a commercial radio station serving the entire Hawke's Bay. Those last two figures do not, in our judgment, evidence strong support for the application.

It is difficult to see that they represent needs to be satisfied rather than opinions expressed.

Some of the responses to later questions illustrate a preference rather than the existence of a need or any significant degree of dissatisfaction.

There are other aspects of the survey material which have to be taken with some caution and some of the results had to be considered in the light of the way in which the question was worded and to responses to earlier questions. In his final address, Mr O'Brien levelled a number of criticisms of the survey material and the conclusions drawn from it. We find each of those criticisms valid.

We find no broad dissatisfaction with the radio services but some demand for a variety in music played.

In February 1982 a survey was conducted in respect of the levels of awareness of FM radio and the incidence of FM radio receivers in Hawke's Bay. In the result it was clear that the proportion of households with FM receivers was high, having regard to the fact that no FM services are available in New Zealand. It is understandable that until such services are available and are heard, large numbers of respondents to surveys are unlikely to express a desire for FM broadcasting. The figures produced showed a higher penetration of FM receivers in households than the Tribunal had expected would be the case in this area.

(h) *The requirements that frequencies be best utilised in the public interest.*

The Post Office is prepared to certify 1125 kHz planned for Waipawa and 1584 kHz planned for Dannevirke for the use of the applicant. The proposed sites are only 35 km and 25 km respectively from those locations. International co-ordination and registration does not appear to be a problem.

The applicant put forward alternatives for Takapau proposal which would require further technical study. The proposals were not favoured by the Post Office. In the event we did not have to pursue the matter. The applicant realised the regard that must be had for the finite nature of frequencies for AM stations and is to be commended for striving to find alternatives.

The grant of the application would preclude the use of the frequencies in the future for some desirable programming purpose.

A better frequency utilisation in the public interest would be achieved by the use of the VHF for stereo FM programmes.

(i) *The desirability of avoiding monopolies in the ownership or control of news media.*

The applicant would provide an alternative radio news service.

The company's most significant shareholders will be the two newspaper companies who provide the principal newspaper news service in the area.

There would need to be some restrictions on these companies' shareholdings to limit the extent to which a trend to monopoly could develop through an increase in their shareholdings in the applicant company. With the emphasis of the station on news and current affairs, newspaper shareholding should be limited. It could be otherwise with a FM operation—where news was a less important programming element.

(j) *The hours during which the applicant proposes to broadcast programmes.*

The applicant proposes locally originated programmes for 24 hours a day. This would bring to the area origination during the off-peak listening times from 7 p.m. to 6 a.m. We have given weight to this advantage but, having regard to the audience levels and the other evidence we heard, cannot give the same weight that the applicant placed on it.

While it would bring a local identity from 7 p.m. to 6 a.m., it would be unlikely that the applicant could consistently match the standard of presentation and services the evening and all night network programmes of Radio New Zealand achieve.

(k) *The extent of advertising matter which the applicant proposes to broadcast.*

The self-imposed limit is similar to that adopted by other private applicants. It encourages listening and recognises the limited market available outside peak hours.

(l) *The proposed rates and charges to be made in respect of advertising programmes.*

The rates and charges are pitched to be attractive and would change and vary according to the station's ratings performance in each zone.

(m) *Such matters as may be necessary for the purpose of imposing conditions under section 71 of this Act.*

It did not prove necessary to canvass any matters under this heading that are not covered elsewhere.

(n) *All relevant evidence or representations received by it at the hearing.*

We accept the concern that private witnesses expressed regarding the effect a new station would have on the proposed extension of concert programme services in FM in the area. We considered the loss of revenue to the BCNZ arising from the grant of a warrant in the area, while not being the only factor, must weigh in the considerations which lead to the planning for more commercial FM concert programme transmission.

(o) *Such other matters as may be prescribed in regulations in that behalf.*

The Tribunal is required to have regard to the policy of the Government under which a FM broadcasting service is to be developed as an integral part of sound radio broadcasting in New Zealand. This is required by regulation 15A as inserted by Broadcasting Regulations 1977, Amendment No. 5 (S.R. 1981/295).

Section 68 (1) also requires the Tribunal to have regard to the general policy of the Government in relation to broadcasting and to comply with any written direction given by the Minister to the Tribunal.

On 27 October 1981, the Minister notified the Tribunal (*inter alia*) that it is part of the general policy of the New Zealand Government in relation to broadcasting.

(a) That frequency modulation broadcasting be developed as an integral part of sound-radio broadcasting in New Zealand.

(b) That FM broadcasting be introduced without delay.

The direction also refers to the extension of the Concert Programme to areas such as Hawke's Bay, the encouragement of local groups to establish locally owned FM stations and that generally simulcasting with AM stations should not be permitted. The Tribunal is directed to call for applications for commercial FM stations progressively through New Zealand.

The grant of the application would inhibit and delay the development of that policy. We place considerable weight on this and explain the reasons later.

DECISION

WHILE the Tribunal decided that the proposed service had some desirable elements we had strong reservations as to the extent to which the service was desirable in the public interest. Although considerable emphasis was put on the news aspect and a new sound, the Tribunal was not satisfied that the programme material would be substantially different from existing stations or provide a valuable service to different groups within the communities it intends to serve. Although the sound may be better, that would have to be proved in the market place where RNZ programming has been notably successful in a variety of markets.

There were advantages over existing services, such as its private ownership, its 24-hour local service, its second radio news service to the area, its interest in news and current affairs and its regional emphasis, it would not to any significant extent fulfil needs in the area which are not being met by existing stations. We concluded that, broadly, all commercial stations would be aiming at the same age groups, providing for their needs in slightly different ways. The proposed station would not bring another dimension to radio broadcasting in the region.

Radio Hawke's Bay seeks substantially to fulfil the same needs as the existing commercial programmes aim to satisfy. The needs which appear to be unfulfilled in the area fall within the demographic groups below and above those served by the existing stations. Some of those needs might possibly be satisfied by a new programming dimension and music quality delivered by means of FM broadcasting.

We have considered the effect on the existing services of the BCNZ and have given considerable thought as to the weight we should place in our decision on the effect on the Corporation and in particular, on the services provided by the Corporation. The effect on the Corporation's revenue in Hawke's Bay is likely to be between \$300,000 to \$400,000 per annum.

In *New Zealand Broadcasting Corporation v. Independent Broadcasting Co. Ltd.* (unreported 24 July 1970, Wellington Registry, M. 137/70) the full Court said at page 16—

We have expressed the view that on the whole of the evidence it seems likely that the granting of the application may result in the elimination of the Corporation's present profit on the operation of its commercial station 1ZH. The economic effect on a station already in operation is not, however, the only nor necessarily the most important consideration that the Authority is required to take into account. It is only one of many factors. Moreover, having before it annually the reports and accounts required, by section 28 of the Broadcasting Corporation Act 1961, it is reasonable to assume that in enacting the Broadcasting Authority Act 1968 Parliament was aware of the general run of the Corporation's financial affairs, knew that it lost money on sound broadcasting, and must have contemplated that the establishment of private broadcasting stations would necessarily make further inroads into the Corporation's local returns. The fact that a local profit may therefore be turned into a local loss, is therefore not in itself a ground for allowing the Corporation's appeal. Indeed, in a case where the new service is shown to be necessary or desirable in the public interest, the allowance of an appeal on economic grounds only would amount to saying that the Corporation's finances come first and the public interest second."

In *Plimmer v. BCNZ* (unreported 1 August 1980) the Chief Justice said: "This passage makes it plain that the economic considerations are not to be elevated necessarily to be the prime factors which the Tribunal should take into account in reaching a decision." In effect, His Honour said that the Tribunal had in that case given too much weight, in the circumstances, to the considerations contained in section 80 (b) and (c).

We have, therefore, carefully considered what weight ought to be given to this factor in the present case and to relate that to the desirability of the new service.

We note that His Honour used the word "necessarily" which indicates to us that in some circumstances economic considerations can be prime factors. There is no obligation upon the Corporation to establish anything. The Act requires the Tribunal to take into account the provisions of section 80 (c).

What we have to decide is whether the desirability of the service is great or slight in relation to the economic or other factors.

After careful thought we are satisfied that the advantages of granting the application are slight in comparison with

the economic effect it would have on the Corporation stations in Hawke's Bay and the consequent effect on the Corporation's ability to provide services in the public interest.

Such services are, in part, financed by surpluses from some areas. Surpluses are needed to supplement deficits in more marginal and remote areas or those where competition severely limits profit potential.

The situation regarding broadcasting has changed a great deal since the judgment of the full Court in 1970, which related to an Act passed in 1968. At that time, as is referred to in the judgment, the Broadcasting Corporation was losing money on radio. For the past few years Radio New Zealand has been operating with a surplus and we were told was expected to do so again for the year ended 31 March 1982.

We accept Mr O'Brien's submission that the Corporation should not necessarily be reduced to a deficit situation by the introduction of stations which deprive it of revenue before it can gain protection from the statute. There would appear to be a danger of a reduction of services to the area if there was a severe curtailment in the Corporation's revenue.

After taking all the desirable features of the application into account, and the disadvantages of granting the application (but putting the question of FM to one side), the Tribunal on balance, decided to decline to grant the warrant.

As has been stated, the Tribunal is required to have regard to the Government's policy for the development of FM broadcasting as an integral part of sound radio broadcasting in New Zealand. The applicant invited us to grant the warrant with a condition that the applicant apply for a FM warrant at some later date. We could not accept this concept. For one thing, it would have pre-judged the grant of warrants. The applicant would have been placed in a special position having pre-empted the future of commercial FM broadcasting in the area by absorbing any revenue potential by the setting up of an AM station.

Therefore, we have been faced with considering in either granting or refusing the application what the effect would be on the development of FM broadcasting in the area. If this application were granted, at a later date FM applications could be called for, but it would seem almost impossible for any other applicant than an existing operator, to make a successful application for a FM warrant. We do not know whether, on performance, the present applicant (if the only applicant) would be suitable. We would almost certainly be faced with its opposition to a grant to the BCNZ of a third warrant (for FM broadcasting) in the area. The economic effect on 3 then existing stations may in fact outweigh the desirability of introducing a new service.

The reluctance of the present applicants to become involved in FM broadcasting from the beginning, would cast some doubt on their enthusiasm for doing it later, particularly when they had incurred heavy capital expenditure in establishing AM transmitters and antenna systems.

While it may not prove a profitable operation initially, the Tribunal considers that, having regard to the lower capital cost that would be involved, the lower running costs of a service which would not be so heavily news and information oriented and the desirability of introducing FM services as soon as practicable throughout New Zealand as an integral part of the sound radio system, FM radio would be set back by the grant of this application.

If we followed the course desired by the applicant and virtually required it to apply later for a FM warrant which was unopposed and it was found that a FM station could be established commercially, the outcome would be less satisfactory than if no AM warrant had been granted. For it is likely that simulcasting would have to be permitted which would lead to compromise programming and the delay, perhaps for many years, in the establishment of a properly programmed stand alone FM station for Hawke's Bay.

The economic effect of the grant of this application would, as has been stated, also affect the Corporation's ability to develop FM concert programme stations.

We conclude that even if we had found that the desirability of the existing service outweighed the other factors (except FM) we would have found the FM factor would have caused us to refuse the application.

The application is declined.

Co-opted Member:

Mr M. J. Henshall was co-opted as a person whose qualifications and experience would, in the opinion of the Tribunal, be of assistance to the Tribunal in dealing with the application. He took part in the hearings and the deliberations of the Tribunal, but the decision is that of the permanent members.

Dated the 23rd day of September 1982.

Signed for the Tribunal:

B. H. SLANE, Chairman.

Decision No. 16/82
Com 29/82

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of a complaint by Jonathan Lucas Hunt:

Warrant Holder: Broadcasting Corporation of New Zealand (Television):

B. H. Slane, Chairman; Lionel R. Sceats, Member.

DECISION

ON 7 September, Mr Hunt complained that the Broadcasting Corporation has excised part of an episode of "Brideshead Revisited" scheduled for transmission on Television ONE on Sunday, 11 September.

When the question of jurisdiction of the Tribunal to deal with a complaint before it is broadcast arose, Mr Hunt was invited to make submissions on the point.

He has not done so except to say that the Tribunal "is the review authority for complaints. Whatever legalistic niceties may be introduced, a common sense re-examination of this censorship is called for".

The Tribunal's jurisdiction to deal with complaints arises from section 67 (1) (b), which defines the function of the Tribunal to receive and determine complaints from persons who are dissatisfied with the outcome of complaints under section 25, Broadcasting Act 1976.

Section 25 refers only to complaints about programmes broadcast by the Corporation. The programme Mr Hunt complains about has not yet been broadcast.

Mr Hunt did not initially follow the correct procedure if he had wished to take a complaint on to the Tribunal, namely, to have lodged the complaint with the Secretary of the Corporation. However, the Tribunal does not consider that point important in the present context. The reason is that the Corporation cannot consider under section 25 a formal complaint (which Mr Hunt could take on to the Tribunal if he was dissatisfied with the outcome) because the formal procedure for complaints is, with one exception, only available in respect of programmes that have already been broadcast.

There is, of course, nothing to prevent the Corporation considering or acting on Mr Hunt's representations, but it cannot treat them as a formal complaint under its statutory obligations to deal with complaints because the right to lodge formal complaints arises only when a programme is broadcast.

Our interpretation of this section is reinforced by the provision in section 25 (6) permitting the Minister to refer to the Tribunal a programme which has not yet been broadcast. The Minister must first consider the intended broadcast that has been recorded or filmed will be in breach of one of the provisions of sections 24 (1) (c) to (g) or of the Programme Rules. It appears from Mr Hunt's complaint that he does not allege there would have been any such breach in the intended broadcast. Also, the Minister must consider that, in the special circumstances of the case, it is in the public interest that the question be referred to the Tribunal. These would appear to be the only circumstances in which the Tribunal can consider any material before it is broadcast.

The reasons appear obvious. The legislation is built around the responsibility of the warrant holders, their self-regulation (with specific rule making capacities) and with this one exception in special circumstances a clear indication that there is to be no interference by outsiders in the programming of radio and television stations by any statutory authority.

Mr Hunt's complaint is to oppose censorship. If the statutory right existed to complain to the Tribunal about programmes before they were broadcast, it would be used by those wishing to prevent the broadcast of programmes and would, in effect, constitute the Tribunal a censorship body which under the Act it clearly is not.

The provision for the Minister to refer a programme appears to be a special one which might arise in special circumstances and it is impossible to see a situation arising where the Minister could use that power when it is alleged that the programme intended to be broadcast will not in either its "censored" or "uncensored" form breach any of the provisions of the Act or the Programme Rules.

Mr Hunt's complaint is misconceived and the Tribunal must rule that it has no jurisdiction under the Act to decide his complaint which has therefore not been considered in substance by the Tribunal.

Dated the 9th day of September 1982. For the Tribunal:

B. H. SLANE, Chairman.

Decision No. 17/82
Bro 5/82

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by Radio Avon Limited, pursuant to section 81 of the Act for amendment of a term and condition of Sound-Radio Warrant BRO 3XA:
B. H. Slane, Chairman; Lionel R. Sceats, Member.

ORAL DECISION

THE application has been made to delete the existing provision:

"That the total aggregate shareholding by one or more news companies as defined by the News Media Act 1965 whether as beneficial owner or otherwise in Avon Broadcasting Company Limited shall not exceed 30 percent of the issued capital of the company."

The proposal is that that is replaced by a clause in the form advertised with the addition of the words at the beginning:

"Except with the prior written consent of the Tribunal", and the deletion of the word "that" and then continue with "the total aggregate shareholding . . ."

The Tribunal has been told of the reasons for the proposed amendment. They can be summarised as a provision to make effective an existing clause in the warrant and it appears to the Tribunal to be desirable that such an application should be approved. The application is granted as amended.

It is also appropriate to make 1 or 2 amendments at the same time to the form of the warrant which as will be seen from the clause mentioned above which is now out of date as to the name of the company and other provisions. The applicant has filed a letter which sets forth the provisions which the company will consent to have amended for a re-issued warrant and the Tribunal is happy with those except for the final one which will not be put into effect.

The Registrar will submit the amended warrant for checking before issue. The redundant provisions of the warrant are deleted and amended by consent.

Dated the 22nd day of September 1982.

For the Tribunal:

B. H. SLANE, Chairman.

BROADCASTING ACT 1976

NOTICE OF RECEIPT OF APPLICATION

NOTICE is hereby given that the Broadcasting Tribunal has received an application by Radio Avon Limited to amend a term and condition of its warrant by deleting the requirement—

"That the total aggregate shareholding by one or more news companies as defined by the News Media Act 1965 whether as beneficial owner or otherwise in Avon Broadcasting Company Limited shall not exceed 30 percent of the issued capital of the company."

and replacing with the following—

"That the total aggregate shareholding by one or more news companies as hereinafter defined, whether as beneficial owner or otherwise in Radio Avon Limited shall not exceed 30 percent of the issued capital of the company, the term "news companies" meaning any of the following:

- (a) Any company that operates a private broadcasting station.
- (b) Any company that publishes a newspaper.
- (c) Any company that or person who holds 20 percent or more of the issued capital carrying a right to vote of any company referred to under (a) or (b) above.
- (d) Any wholly owned subsidiary of any company referred to under (a), (b) or (c) above or any company or person under the control of any person referred to in (c) above or any company under the control of any company referred to under (a), (b) or (c) above.
- (e) Any company or person with control over any company referred to in clauses (a) or (b) above or with control over any company or person referred to in clause (c) above.

and "control" in relation to a company means the power of a person or company to secure, whether by means of the holding of shares, the possession or control of voting power, the membership of the board of directors, a number of subsidiary and subsidiary companies in or in relation to that or any other company or by virtue of any powers conferred by the Articles of Association or other instrument regulating that or any other company or otherwise that the affairs of the

first mentioned company are conducted in accordance with the wishes of that person or company and without limiting the generality of the foregoing provisions of this definition includes control as a result of or by means of trusts, agreements, undertakings and practices whether or not having legal or equitable force and whether or not based on legal or equitable rights and in relation to a person shall have a like meaning."

Maori Land Development Notice

PURSUANT to section 332 of the Maori Affairs Act 1953, the Maori Land Board hereby gives notice as follows:

Dr G. H. ADLAM, Director, Animal Health Division.

Trading Bank Reserve Asset Ratio

PURSUANT to section 33 of the Reserve Bank of New Zealand Act 1964, the Reserve Bank, acting with the approval of the Minister of Finance, hereby gives notice that as from the close of business on 1 October 1982 and until further notice each trading bank shall maintain during each calendar month balances at the Reserve Bank plus holdings of Reserve Bank notes and of New Zealand Government securities, such that the aggregate of the averages of those balances and holdings during that calendar month (determined in accordance with clauses 1, 2, 3 and 4 of this notice) equals or exceeds the aggregate of:

10.0 percent of that trading bank's average demand and time deposit liabilities in New Zealand in the immediately preceding calendar month (determined in accordance with the provisions of clause 5 of this notice);

Provided that a trading bank may make up its balances and holdings as aforesaid for a calendar month to the amount hereinbefore required for that calendar month by way of borrowings from the Reserve Bank made during the next following calendar month and on terms and conditions to be determined by the Reserve Bank and the proceeds of all such borrowings shall be credited to the account of that trading bank with the Reserve Bank termed "Contra Deposit Account" and on terms and conditions to be determined by the Reserve Bank.

For the purposes of this notice:

- (1) Balances held by a trading bank at the Reserve Bank shall (subject to clause 6 of this notice) include both demand deposit balances and time deposit balances of that trading bank.
- (2) The average of a trading bank's holdings of Reserve Bank notes for a calendar month shall be the average of the figures shown in all weekly returns of Banking Statistics by that trading bank under the Statistics Act 1975 received during that calendar month.
- (3) The average of a trading bank's balances at the Reserve Bank and holdings of New Zealand Government securities for a calendar month shall in each case be the average of the figures for balances and securities held by that trading bank on each day during that calendar month.
- (4) Government securities held by a trading bank shall consist of Government stock and Treasury bills (all at nominal value) held by that trading bank.
- (5) The average demand and time deposit liabilities for a trading bank in a calendar month shall be the average of the figures for days within that calendar month, as shown in that trading bank's weekly returns of Banking Statistics under the Statistics Act 1975.
- (6) The proceeds of any borrowings made by a trading bank pursuant to the proviso to this notice shall be deemed to be a part of and be included in the balances held by that trading bank at the Reserve Bank on the last day of the preceding calendar month; and the proceeds of any such borrowing shall not be included in the balances held by that trading bank at the Reserve Bank during any other calendar month.

D. L. WILKS, Governor.

Trustee Act 1956—Money Held by the Crown

The Standards Act 1965—Draft New Zealand Standard Specification Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specification is being circulated.

Number and Title of Specification

DZ 7421/2 Installation of solid fuel burning domestic appliances. \$6.

This second draft has been prepared in response to the large number of comments received on the first draft. Reference to oil burning stoves has been deleted as the market for these stoves is insufficient to warrant inclusion in the draft.

Considerable alteration has been made to Table 1, giving clearance distances for screen materials. Several new and amended clauses have been included for testing of the passage of flue pipes through heat sensitive materials.

All persons who may be affected by this publication and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

NOTE—Payment must accompany all requests for drafts.

The closing date for receipt of comment is 10 December 1982.

Dated at Wellington this 30th day of September 1982.

DENYS R. M. PINFOLD, Director,
Standards Association of New Zealand.

(S.A. 114/2/8)

AK	17888	39.07.599	Seabird wave action mattress and pump, for use in promoting circulation in bed ridden patients	Free*	Free*	99
AK	18080	39.07.599	Self compensating dripline, incorporating a dripper, for drip irrigation of crops	Free*	Free*	99
AK	18132	39.07.599	Wedge sets of moulded nylon, for use in making industrial safety hats	Free*	Free*	15
AK	18203	40.10.008	Habitit PF-10 conveyor belting	Free*	Free*	99
AK	18202	40.10.008	VFN conveyor belting, 3 and 4 ply	Free*	Free*	99
AK	17980	40.10.049	Trinicon flexitanks, used in handling bulk liquids	Free*	Free*	99
AK	18023	48.04.009	Carmen cover, a high quality cover work for use in the printing industry	Free*	Free*	99
AK	18084	59.03.001	Bonded fibre fabric, when declared for use in making range hood filters	Free*	Free*	..
AK	18058	59.17.039	Raised grey felt wool 610 g/m ² , 325 cm wide, being laundry machinery clothing for ironing and pressing machines	Free*	Free*	15
AK	18152	62.05.039	Fabric, hemmed on both sides, in strips, when declared by a manufacturer for use by him only in making curtains	Free*	Free*	15
AK	18115	62.05.039	Jet freezer packs, for use in freezing pipes to facilitate repairs and alterations	Free*	Free*	99
AK	17867	68.12.021	Colorith sheeting, for use in making laboratory work surfaces ..	Free*	Free*	15
AK	18085	69.01.000	Vereniging insulating refractories, V26 and V30	Free*	Free*	15
AK	17909	70.20.031	Continuous filament mat, for use in making sailboards and articles made by the V.A.R.I. system	Free*	Free*	15
AK	17870	73.14.000	Welding rod, for use in making bandsaw blades	5*	Free*	15
AK	18086	73.40.069	Efficienta planning and control system	Free*	Free*	99
AK	18153	73.40.069	Spring balance, consists of a stainless steel leaf spring, a nylon friction block and a stainless steel coil spring, used to balance the sash in vertical sliding windows	Free*	Free*	15
H.O.	17835	74.19.009	Cable glands, indoor or outdoor glands for plastic or rubber insulated, single wire armoured, plastic or rubber oversheathed cables with extruded bedding	Free*	Free*	99
AK	18154	76.06.000	Aluminium tube, 15.875 mm (0.625 in.) O.D. × 0.635 mm (0.025 in.) wall thickness in 7071 alloy T6, and 14.528 mm (0.572 in.) O.D. × 0.509 mm (0.20 in.) wall thickness in 7001 alloy T6, for use in making tent poles	Free*	Free*	15
AK	17944	76.07.000	L.A. Storz suction hose couplings 6 in., anodised with levers and adaptors 6 in., to ansco 150 flange anodised for fitting to anti-static and fuel contamination hose, for use in fire fighting	Free*	Free*	99
AK	18155	76.16.039	Expanded aluminium foil, less than 0.40 mm in thickness, for use in making filters	Free*	Free*	15
AK	17947	82.05.001	EOC Normalien-metal pressing punches, bushes and die buttons of various sizes of high speed steel, for use in the construction of locally built tools for use in the punching and forming of metal components	Free*	Free*	15
AK	18247	84.07.001	Six stage hydraulic cylinders, for use on refuse collection vehicles ..	Free*	Free*	10
AK	18248	84.10.029	Lenlok Y 570, 20 litre drum pump, all metal construction, volume capacity 11 strokes per litre, suitable for pumping all liquids, e.g., kerosene, turpentine, heavy duty oil	Free*	Free*	10
AK	17774	84.10.029	Worthington inducer fitted centrifugal pumps	Free*	Free*	10
AK	18156	84.14.001	Controlled pyrolysis furnace, used to reclaim electric motor stators and armatures	Free*	Free*	10
AK	17775	84.17.009	Solvent recovery units for recovering solvents used in the automotive paint industry	Free*	Free*	10
AK	17955	84.17.009	Texair 30 dryer, for use in providing screen printers with scorch free extra high speed drying and curing	Free*	Free*	10
AK	17954	84.17.009	Texair 210 dryer, for use in providing screen printers with scorch free extra high speed drying and curing for textile screen prints	Free*	Free*	10
AK	17952	84.17.009	UV lamp and drying tunnel complete with conveyor and control cabinet, for use in making table mats	Free*	Free*	10
AK	17837	84.18.039	Thermal control replacement filter sleeves for use in industry on various fluids such as hydraulic systems fluids	Free*	Free*	10
AK	18090	84.19.039	Kalish model PCL/A, mechanically operated paste cream and liquid filler, for use in the cosmetic industry	Free*	Free*	10
AK	18250	84.19.039	Overback size straw applicator and 451/1 A and F tray packer, for use in an integrated aseptic packaging line for milk products	Free*	Free*	10
AK	17777	84.20.009	Yakima MSU 2000 batch weighing machine, for use in weight batching fruit and vegetables prior to packing	Free*	Free*	10
AK	17877	84.21.001	Quell BCF wheeled fire extinguishers 25 kg, 50 kg and 100 kg ..	Free*	Free*	10
AK	17876	84.21.001	Quell dry powder mobile fire extinguishers 70 kg, 50 kg and 25 kg ..	Free*	Free*	10
AK	17875	84.21.001	Quell foam mobile fire extinguishers 90 litre, 50 litre and 30 litre ..	Free*	Free*	10
AK	18030	84.21.011	Eclipse dial-o-matic panel spray machine, used for colour matching of paint	Free*	Free*	10
AK	18157	84.21.011	Shure shot sprayers, models A and C, rechargeable hand held sprayers for light liquids, e.g., metal treating products	Free*	Free	10
AK	17799	84.21.029	Dial type rotary spindle spraying machine, for use in repetitive high output spray painting of components	Free*	Free*	10
AK	18251	84.21.029	La Tyrolienne, Le Moustic and Le Moustiquette hand operated self contained texture spray applicators	Free*	Free*	10
AK	18159	84.21.029	Speck sandblasting jets, able to convey both sand and water in a high pressure slurry	Free*	Free*	10
AK	18104	84.22.009	Bode motorised and idler rotators, for use in making 100 tonne LPG pressure storage vessels	Free*	Free*	10

Tariff Notice No. 1982/203—Applications for Approval—continued

Tariff Notice No. 1982/207—Applications for Continuation of Approval

NOTICE is hereby given that applications have been made to the Minister of Customs for the continuation of the following concessions at the rates of Customs Duty shown:

Port	Appn. No.	Tariff Item	Goods	Rates of Duty		Part II Ref.
				Normal	Pref.	
DN	C1119	20.07.032	Passionfruit juice in bulk containers and not containing added sugar . .	Free*	Free*	15
DN	C1122	20.07.038	Papaya juice in bulk containers and not containing added sugar . .	Free*	Free*	15
DN	C1087	49.11.051	Pictures, when declared by a manufacturer for use by him, only in making jigsaw puzzles or childrens books	Free*	Free*	15
DN	C1116	58.05	Bindings, folded, seamless, bias or plain and footwear bindings, being galloons or similar bindings other than uncoated and petersham type bindings exceeding 12.5 mm galloon width, when declared: (1) by a manufacturer for use by him, only in making footwear; or (2) by an importer that they will be sold only to manufacturers, for making footwear	Free*	Free*	15
DN	C1088	59.02.009	Felt, (other than needloom), in the piece, whether or not impregnated or coated	Free*	Free*	15
DN	C1125	59.05.009	Cod ends, peculiar to use with trawl and seine nets	Free*	Free*	99
DN	C1126	62.05.039	Life "jackets" designed for wear around the neck (but not in the form of vests or sleeved garments) of types approved by the Minister Approved: Cline CP 110	Free*	Free*	99
DN	C1090	73.18.009	Bundy tubing, 6 mm O.D. × 1.4 mm and 8 mm O.D. × 1.4 mm . .	5*	Aul Free	99
DN	C1094	73.20.059	Blind flanges made of forged steel, to ASTM 105 grade 1 to 11, B.S. 1503 161 grade B or C, or DIN 17200 C22/35N of ratings 150, 300, 600, 900 and 1500 PSI sizes 25 mm to 610 mm	Free*	Free*	99
DN	C1096	83.05.009	Clip board mechanisms	Free*	Free*	15
DN	C1128	84.11.061	Riello oil and gas burner rotors at 64 CFM at 100 mm W.G. static pressure, 144 CFM at 150 mm W.G. static pressure and 240 CFM at 200 mm W.G. static pressure	Free*	Free*	..
DN	C1132	84.18.039	Petrol filters, assemblies for, consisting of bowls, bails, screens, strainers and seats	Free*	Free*	10
DN	C1134	84.21.029	De Vilbiss Rangler airless paint spray pumps, models PED 512, PED 513 and PGD 503	Free*	Free*	10
DN	C1135	84.23.079	Norland rotary snow plows	Free*	Free*	10
DN	C1098	84.28.021	Hydrocut simion multi-purpose flail mower with interchangeable heads and indexing system, for cutting hedges, scrub, orchard windbreaks, small trees and sidings etc.	Free*	Free*	10
DN	C1099	84.30.029	Meat and fish preparing machinery	Free*	Free*	10
DN	C1138	84.40.029	Sock setting and shaping machines	Free*	Free*	10
DN	C1102	84.56.009	Concrete block, pipe, tile or slab making machines, including extruders and cutting machines	Free*	Free*	10
DN	C1141	84.59.011	Dies for extruding artificial resins or plastic materials	Free*	Free*	10
DN	C1143	84.59.059	Machines for making spark plugs	Free*	Free*	10
DN	C1146	85.01.019	Riello flange mounted 2 pole totally enclosed burner motors, 220 V-240 V, 50Hz, 0.55 A, 1.22 A and 1.58 A	Free*	Free*	10
DN	C1147	84.01.031	Riello ignition transformers, primary 220-240 V, 1.6 A, 50 Hz, secondary 8000 V, 34 MA, AB 20% ED6 C29	Free*	Free*	10
DN	C1148	85.01.049	Static frequency converter being components of ripple control transmitters, when declared: (1) by a manufacturer for use by him, only in making ripple control transmitters, for use by Electric Power Boards; or (2) by an importer, for sale by him, to a manufacturer for use by him, only in making ripple control transmitters, for use by Electric Power Boards	Free*	Free*	10
DN	C1105	85.03.001	Mazada batteries, 8.7 volt, air depolarising, viz: AD 6540 AD 6535	Free*
DN	C1106	85.19.059	Silver contacts	Free*	Free*	15
DN	C1107	85.23.021	Heavily P.V.C. insulated multi-strand extra flexible, single core cables, with tinned conductor of copper, maximum 700 volt, for installations where atmospheric contamination exists, sizes from 2.5 mm ² to 150 mm ²	Free*	Free*	..
DN	C1108	92.12.011 } 92.12.019 }	Blank video tapes, 19 mm wide and above, either on open reels or in cassettes or cartridges. NOTE: This concession will not apply to recorded video tapes	Free*	Free*	99

*or such higher rate of duty as the Minister may in any case decide

The identification reference to the application number indicates the office to which any objection should be made.

DN—Collector of Customs, Dunedin.

Any person wishing to lodge an objection to the granting of these applications should do so in writing to the appropriate office as indicated by the identification reference on or before 28 October 1982. Submissions should include a reference to the identification reference, application number, Tariff item and description of goods concerned and be supported by information as to:

- The range of equivalent goods manufactured locally;
- The proportion of New Zealand and imported material used in manufacture;
- Present and potential output; and
- Details of factory cost in terms of materials, labour, overhead, etc.

Dated at Wellington this 7th day of October 1982.

P. J. MCKONE, Comptroller of Customs.

CNG Fuel System Approvals

PURSUANT to regulation 90B of the Traffic Regulations 1976* (as inserted by the Traffic Regulations 1976 Amendment No. 7) and pursuant to the powers delegated to me by the Secretary for Transport, I, Trevor Alan Lister, Senior Automotive Engineer, hereby approve the components listed in the Schedule hereto for inclusion in any CNG fuel system installed and operated in accordance with the requirements of New Zealand Standard NZS 5422, Part 2, 1980 (and any standard made in amendment thereto or in substitution therefor) subject to the conditions (if any) set out in respect of any component in the said Schedule.

SCHEDULE
CNG FUEL CYLINDERS

MOT Reference	Manufacturer	Drawing Number	Material	Specification	Independent Inspection Authority	Nominal Water Capacity (litres)	Working Pressure Rating (MPa)	Test Pressure (MPa)
AF CO3 132 ..	T.I. Chesterfield U.K.	46374 P ..	Steel ..	BS 5045 Pt 1	BIE ..	46.6	16.5	31.1

CNG cylinders are approved subject to the following conditions—

1. That they be permanently and clearly marked, either on a thickened portion of the cylinder or on a suitably attached metal plate, with characters not less than 6 mm high if space permits but in any case not less than 3 mm high, displaying the following information:

- (a) The specification to which the cylinder was manufactured.
- (b) The manufacturers name or mark, and the serial number of the cylinder.
- (c) The date of the original cylinder inspection and the identification mark of the inspection authority who made the inspection.
- (d) The date of any periodic cylinder test and the identification mark of the cylinder testing station who made each test.
- (e) The cylinder test pressure.
- (f) The charging pressure of the cylinder at 15°C.
- (g) The nominal water capacity of the cylinder.
- (h) The tare weight of the cylinder.
- (i) An identification that the cylinder is suitable for use with CNG.

2. That the cylinders be provided with valve threads of the form specified in British Standard BS 341 "Valve Fittings for Compressed Gas Cylinders".

3. That the cylinders be tested at periods not exceeding 5 years in accordance with the periodic test requirements laid down in the specification to which the cylinder was manufactured.

4. That the cylinder be provided with a cylinder shut off valve designed for a working pressure of 16.5 MPa and capable of withstanding the test pressure of the cylinder. Cylinder shut off valves shall be fitted with a hand wheel to facilitate ease of opening and closing of the valve and shall be fitted with a pressure relief device comprising of a burst disc backed by fusible alloy. The fusible alloy is to have a nominal yield temperature of 100° Centigrade and the burst disc shall yield at a pressure of not less than 24.75 MPa and not more than the test pressure of the cylinder. Cylinder valves shall be provided with an outlet thread of $\frac{1}{4}$ in. NPT (female) and a stem thread compatible with the cylinder neck thread.

Dated at Wellington this 28th day of September 1982.

T. A. LISTER, Senior Automotive Engineer.

GENERAL PUBLICATIONS

FITNESS FOR LIVING

Physical Education in Secondary Schools

DEPARTMENT OF EDUCATION

1980

Fitness for living involves developing the individual's potential for functional efficiency in all aspects of daily living throughout life. This series, consisting of nine titles, will help the reader to understand the nature of the human body. This in turn will lead to an understanding of the need for a balance between work, rest, food, exercise and keeping oneself in good physical condition.

Book 1: Basics. \$2.45 plus 55c p. and p.

Book 2: Through Aquatics. \$2.75 plus 55c p. and p.

Book 3: Through Athletics. \$2.45 plus 55c p. and p.

Book 4: Through Ball Activities. \$2.45 plus 55c p. and p.

Book 5: Through Gymnastics. \$3 plus 55c p. and p.

Book 6: Through Movement and Dance. \$3 plus 55c p. and p.

Book 7: Through Outdoor Education. \$2.75 plus 55c p. and p.

Book 8: Through Recreation. \$1.75 plus 55c p. and p.

Book 9: Planning for Fitness of Living. \$2.45 plus 55c p. and p.

Set of nine books, \$22 plus \$3.60 p. and p.

Price \$2.55

FOREST LORE OF THE MAORI

By Elsdon Best

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977.

\$17.95 plus \$1.50 p & p

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

GAMES AND PASTIMES OF THE MAORI

By Elsdon Best

(National Museum Bulletin No. 8), 1976 Reprint

334 p.

\$17 plus \$1.50 p & p

First published in 1925 this bulletin is one of the series originally written by Elsdon Best, and has been reprinted without textual alteration.

Elsdon Best described it as "An account of various exercises, games, and pastimes of the natives of New Zealand, as practised in former times; including some information concerning their vocal and instrumental music".

Includes an account of musical instruments and Maori song together with games and pastimes of a relaxing nature as well as those involved in ritual and training.

Contents include: Military exercises and games, Aquatic games, Children's games, Introduced games, Maori songs and Musical instruments.

THE GEOLOGY OF NEW ZEALAND

Edited by R. P. Suggate, et al.

820 p. 1978.

\$92.50 plus \$4.80 p & p

The definitive work on New Zealand geology, this superbly produced 820-page 2-volume set has been written by some 38 specialists, under the editorship of three of New Zealand's most eminent geologists. The Geology of New Zealand is illustrated with over 370 photographs in colour and monochrome, and with more than 200 maps and line diagrams. A comprehensive supplement is included, incorporating all available new information up to the time of printing, together with five indexes.
