Dec. No. 19/82

Bro. 37/82, 38/82

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of applications by Radio Rhema Inc. for short-term broadcasting authorisations at Timaru and Dunedin:

B. H. Slane, Chairman; Lionel R. Sceats, Member.

REASONS FOR DECISION

THE applicant is a warrant holder in respect of a non-commercial broadcasting station at Christchurch (3XG); with a relay station in Wellington.

The applicant applied for two authorisations; one to broadcast from Timaru and the other from Dunedin from 18 October to 12 December 1982. The total number of hours of broadcast would be 1008. In other respects the applications varied.

The Timaru application was to relay the programme of the Christchurch station during the whole of its hours of operation from 0600 to 2400 hours daily. The costs of the broadcast was estimated at \$11,856. The station would broadcast on 594 kHz on a power of 400 watts from a transmitter in Seadown. The purpose of the application was to test public reaction within the Timaru district to its broadcasts; to fulfil requests from people in South Canterbury for a Christian programme in their area; to satisfy the commitment of such people to the society over a long period of time without receiving any direct benefit.

The applicant pointed out that Radio Rhema could only be received at night in the area and that it had a large number of enthusiastic members in Timaru. There is only one permanent transmitter in the area.

The Dunedin application would be for the same hours but would include 4 hours of local programme generated in Dunedin on weekdays between 0900 and 1100 hours and between 1600 and 1800 hours. The local programme would consist of music, local news, interviews, information, public service announcements and spoken material by local people.

The expected cost was \$12,401. The station would broadcast on 1305 kHz at a proposed power of 990 watts from a transmitter at Highcliff. The application was for the following purposes: to test public reaction within the Dunedin district to its broadcast; to give Dunedin people an opportunity of judging the station's programmes for themselves; to enable the local broadcasts to be made; for the benefit of more than 200 active financial members in Dunedin; to fulfil requests for a broadcast into the southern part of the South Island by supporters who had not received any direct benefit.

In support, the society said the response from previous short-term broadcasts in other parts of New Zealand had been good and had encouraged it to widen its efforts to enable a greater number of New Zealanders to receive its signal should they wish to. The society proposed to carry out an audience survey to help determine the public response to the concept of Christian broadcasting in their area.

The Tribunal received a letter of opposition from the warrant holder for 4XD a non-commercial station in Dunedin. The Broadcasting Corporation did not oppose the application but commented on it. After discussing the objections of 4XD with the applicant informally, the Tribunal decided to grant the Timaru application and to decline to grant the Dunedin application. The Tribunal indicated it would give reasons in writing for its decision.

It is appropriate first to discuss the general nature of these applications. The applicant has previously had short-term authorisations in Wellington, Auckland and Nelson. In each case the applications were not opposed. In each case the applicant used the broadcasts to survey audience reaction as well as to promote its membership and support in the area and to encourage a demand for its type of programming.

Until now the Tribunal has thought it not unreasonable for the society to gauge support for its broadcasts in each area. It is no secret, however, that the society plans to make applications for stations or relay stations in a number of cities and town in New Zealand.

The Tribunal considers that the purpose of providing a short-term authorisation in these circumstances is coming to an end for this applicant. While it has been prepared to grant the Timaru application, which was not opposed, the length of the authorisation and the lack of any connection with any community purpose means that the application basically has to fall on the other grounds for approval. The first of these is the supply of programmes to its members in the area. We do not consider generally that this is a justification for a lengthy period of authorisation but express no opinion on special very short broadcasts for that purpose, possibly in connection with some local event or festival.

As to fulfilling the demands of people in the area, we would not consider an authorisation justifiable on those grounds unless there was proven to be a substantial proportion of the community who would require this service or seek to have it instituted. The demand is not satisfied by short-term broadcasts and if there is a need to be fulfilled, the applicant should make the application for a permanent service to the area and have that judged on its merits and having regard to the best utilisation of frequencies in New Zealand.

As to the testing of public reaction, the Tribunal considers that with the Timaru broadcast it will have had sufficient opportunity to get reactions to its broadcasts on a short-term basis in a range of New Zealand cities of various sizes and unless there is some special reason the Tribunal does not consider this an adequate ground on its own for short-term authorisations.

The Timaru application is approved.

In the case of Dunedin, where there are 5 permanent stations (4 of them full time), the Tribunal was concerned at the effect the broadcast may have on station 4XD. This station already broadcasts a good deal of Christian material so the audience in the area is not deprived of a radio service incorporating Christian broadcasting. The Tribunal appreciates that Radio Rhema considers it has a special type of Christian broadcasting to present, but as far as the needs of the community are concerned, they are to some extent met by the 4XD content.

More important than that is that this station is dependent on public support, has an identity with Christian broadcasting, and has been improving its performance in relation to its audience in recent times. The development of the station would be hampered by the intrusion at this stage of an outside broadcaster who would be able to bring considerable resources to bear and considerable publicity to its own short-term activity and perhaps diminish support for the local station.

Furthermore, a lengthy period is proposed, presumably so that surveys can be carried out, and this further would effect station 4XD.

The Tribunal notes in the applications, a greater concern by the applicant for the development of its own broadcasting activities rather than a simple concern to serve public needs in each area. The Tribunal has to be concerned with wider issues than the development of Radio Rhema's services outside Christchurch. The Tribunal considered the applicant had not made out a case for a lengthy short-term authorisation in the Dunedin area. It also considered that the effect on the other station outweighed any benefit of bringing its programme material into the area.

We should state that in dealing with the application we have accepted the statements by Radio Rhema as to the factual position regarding its application and the reception of its signal in the Dunedin area. In view of the reasons for the decision we did not consider it necessary in this case, to hear formal evidence from witnesses.

The application for Timaru is granted. The application for Dunedin is declined.

The applicant is required to file, as a condition of the authorisation for Timaru, a statement of the number of financial members in the area as at 1 September 1982.

Dated the 28th day of October 1982.

Signed for the Tribunal:

B. H. SLANE, Chairman.

AUDITOR'S REPORT TO THE TRUSTEES OF THE WAIKATO SAVINGS BANK

We have obtained all the information and explanations that we have required. In our opinion proper accounting records have been kept by the Bank so far as appears from our examination of these records.

In our opinion the accompanying cash flow statement, profit statement and balance sheet together with the notes thereto give, using the historical cost method, a true and fair view of the changes in the financial position and the results of the business of the bank for the year ended 31 March 1982 and the financial position as at that date.

HUTCHISON HULL AND CO., Chartered Accountants.
Hamilton, 17 May 1982.

NOTES

1. Statement of Accounting Policies—

The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profit and financial position on an historical cost basis have been followed by the Bank. The following particular accounting principles which materially affect the measurement and reporting of profit and financial position have been applied.

(A) Revenue and Expense Recognition—

- (a) Personal Loan interest has been recognised on the sum of digits basis.
- (b) Losses associated with dealings in securities have been deferred on a *pro rata* basis to the years during which the revenue from the corresponding deals will be recognised during the normal course of business.
- (c) The charge for income tax is the amount of tax liability in respect of the accounting profit for the current year. Timing differences between accounting and taxation records are included under the heading "Provision for Deferred Taxation", with the exception of differences which, on the basis of reasonable probability, are expected to continue in the future.

(B) Investments—

- (a) The Bank's one quarter shareholding in the Northern Trustee Computerbank Ltd., as at the company's 31 May 1981 balance date has been treated on an equity accounting basis.
- (b) New Zealand Government securities have been valued on a purchase yield basis.
- (c) Other investments have been recorded at cost plus interest accrued to balance date less provision for doubtful debts.

(C) Fixed Assets and Depreciation—

Land is recorded at the higher of original cost or the 1976 Government Valuation. All other assets are recorded at cost less depreciation to date. The cost of lease goodwill has been spread evenly over the terms of the leases. Straight-line depreciation as recommended by the New Zealand Society of Accountants Statement of Standard Accounting Practice No. 3 has not otherwise been applied and maximum rates of depreciation as approved by the Commissioner of Inland Revenue have been used. This is not considered to have a significant effect on the financial statements for the year ended 31 March 1982.

(D) Changes—

There have been no changes in accounting principles used that would significantly affect profit or financial position.

GENERAL PUBLICATIONS

BALLROOM DANCING—A guide book for teachers and pupils

DEPARTMENT OF EDUCATION

89 p. 1978.

\$3 plus 55c p. & p.

Almost all people as they move through their teens to adulthood are introduced to the undoubtedly pleasurable and universal activity, ballroom dancing.

As a new edition to the sports instruction series this book makes an effort to cover the basic steps in a variety of dances. It is intended mainly for beginners and therefore the more technical terms or finer amounts of turn and footwork are not included.

The book is well illustrated throughout with black and white photos and line drawings.

All advertisements should be written on one side of the paper, and signatures, etc., should be written in a legible hand.

BASKETBALL

DEPARTMENT OF EDUCATION

50 p. 1980 Revised edition. \$3.75 plus 55c p. and p.
This booklet, Basketball, is one of a special series of sport instruction publications. It is designed to provide basic guidance on the game of basketball in all its fundamental aspects.

COMMUNITY SERVICE AND YOUTH

DEPARTMENT OF INTERNAL AFFAIRS

60 p. & appendices, 1982.

\$9.50 plus 85c p. & p.

This is a report of a working party set up by the Government in response to a proposal from the New Zealand Returned Services Association which sought the introduction of a compulsory national youth community service scheme, both within the schools and for a set period after leaving school.

BEEKEEPING IN NEW ZEALAND*By T. S. Winter*

Ministry of Agriculture and Fisheries Bulletin 267

155 p. 1980 reprint, \$8.95 plus 85c p & p

Though fundamental successful beekeeping is the same the world over, the varying seasonal conditions and the variety of nectar sources in different areas mean that the beekeeper must study local conditions and adjust his methods accordingly. Three factors govern success in beekeeping—locality, management, and the right strain of bees. This excellent book covers all aspects of beekeeping in text, photographs, and illustrations.

FISHING METHODS AND DEVICES OF THE MAORI*By Elsdon Best*

National Museum Bulletin No. 12

264 p. \$15.95 plus \$1.50 p & p

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.

FLORA OF NEW ZEALAND VOLUME III*By A. J. Healy and E. Edgar*

220 p. 1980. \$18.50 plus \$1.50 p & p

Volumes I and II of Flora of New Zealand were concerned with native plants. The authors call volume III a "weed flora". The book is an identification manual, intended for agriculturists concerned with weed control, for botanists making vegetation surveys, and for anyone who needs to identify those weedy plants.

FITNESS FOR LIVING**Physical Education in Secondary Schools**

DEPARTMENT OF EDUCATION

1980

Fitness for living involves developing the individual's potential for functional efficiency in all aspects of daily living throughout life. This series, consisting of nine titles, will help the reader to understand the nature of the human body. This in turn will lead to an understanding of the need for a balance between work, rest, food, exercise and keeping oneself in good physical condition.

Book 1: Basics. \$2.45 plus 55c p. and p.

Book 2: Through Aquatics. \$2.75 plus 55c p. and p.

FOREST LORE OF THE MAORI*By Elsdon Best*

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977. \$17.95 plus \$1.50 p & p

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so

fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

GAMES AND PASTIMES OF THE MAORI*By Elsdon Best*

(National Museum Bulletin No. 8), 1976 Reprint

334 p. \$17 plus \$1.50 p & p

First published in 1925 this bulletin is one of the series originally written by Elsdon Best, and has been reprinted without textual alteration.

Elsdon Best described it as "An account of various exercises, games, and pastimes of the natives of New Zealand, as practised in former times; including some information concerning their vocal and instrumental music".

Includes an account of musical instruments and Maori song together with games and pastimes of a relaxing nature as well as those involved in ritual and training.

Contents include: Military exercises and games, Aquatic games, Children's games, Introduced games, Maori songs and Musical instruments.

THE GEOLOGY OF NEW ZEALAND*Edited by R. P. Suggate, et al.*

820 p. 1978. \$92.50 plus \$4.80 p & p

The definitive work on New Zealand geology, this superbly produced 820-page 2-volume set has been written by some 38 specialists, under the editorship of three of New Zealand's most eminent geologists. The Geology of New Zealand is illustrated with over 370 photographs in colour and monochrome, and with more than 200 maps and line diagrams. A comprehensive supplement is included, incorporating all available new information up to the time of printing, together with five indexes.
