NOTE:

Products must be wholly or principally by weight of the approved materials. However, other materials are permitted if they are of a minor nature and do not contribute towards or detract from the essential nature of the goods (e.g., filling of wood-wool)

DEFINITION OF "HANDICRAFT":

(1) The concession applies to goods which the Collector is satisfied are made;

(a) by hand;

(b) by tools held in the hand;

(c) by machines powered by foot or hand; or

(d) by any combination of the foregoing processes

(2) However, goods that have been "hand crafted" within the definition above from machine made or processed material of basic form, that is to say, materials in a form not pre-determined by its intended ultimate end-use (e.g., a rectangular sided block of stone; a billet of wood, a rectangular sheet of copper) will not normally be excluded from being "handicrafts"

(3) Goods are not precluded from being regarded as "handicrafts" by reason of the use in their manufacture of;

(a) mechanically powered tools, provided that they are held in the hand (e.g., electric drill) - this does not cover a situation where the article being produced is held in the hand and worked on a machine tool fitted to bench, stand or other support; or

(b) machines not held in the hand, provided they are hand or foot powered (e.g., treadle operated sewing machines and potters' wheels); or

(c) machine made materials and components of a minor nature that are incidental to the assembly or normal operation of those goods (e.g., sewing threads, plain buttons, plain fasteners, nails, screws, plain hinges, paint or dyes)
