MARGARET CLARK, of Wellington, Dean of Commerce and Administration, Victoria University of Wellington; and
IAN GORDON LYTHGOE, C.B., of Waikanae, retired Chairman of the State Services Commission:

GREETING:

Whereas concern has been expressed about the circumstances of, and the background to, the release from a psychiatric hospital of

Ian David Donaldson and about the circumstances of his arrest on the 10th day of April 1983 on charges of attempted burglary and aggravated assault and the subsequent granting to him, as a defendant on remand, of bail:

And whereas the question whether such concern is justified is a matter of public importance:

Now, therefore, pursuant to the Commissions of Inquiry Act 1908, I, Sir David Stuart Beattie, the Governor-General of New Zealand, acting by and with the advice and consent of the Executive Council, hereby appoint you, the said Paul Basil Temm, Margaret Clark, and Ian Gordon Lythgoe, to be a Commission to inquire into and report upon the circumstances of, and the background to, the release from a psychiatric hospital of Ian David Donaldson, and the circumstances of his arrest on the 10th day of April 1983 on charges of attempted burglary and aggravated assault and the subsequent granting to him, as a defendant on remand, of bail, and, in particular, to inquire into and report upon:

- (a) The history of his offending;
- (b) The nature of the psychiatric evidence that was available to the Court on each occasion on which he was sentenced;
- (c) The circumstances in which he was committed from prison to a psychiatric hospital in March 1974;
- (d) The circumstances of his subsequent detention in psychiatric hospitals and the circumstances in which he was released from Porirua Hospital on the 9th day of June 1981, and, in particular,—
 - (i) The nature of his mental disorder; and
 - (ii) His condition; and
 - (iii) What was known or believed as to his likely future behaviour;
- (e) The circumstances of and surrounding his arrest on the 10th day of April 1983 on charges of attempted burglary and aggravated assault and the circumstances of the granting to him, as a defendant on remand, of bail:

And, in inquiring into and reporting upon these matters, you are hereby directed to consider and make recommendations upon:

- (f) In the case of special patients, committed patients who were formerly special patients, and other potentially dangerous patients—
 - (i) The procedures by which such patients are admitted or transferred to psychiatric hospitals; and
 - (ii) The procedures by which such patients are considered for leave of absence from, or for discharge from, psychiatric hospitals; and
 - (iii) Where such patients are placed in the community, the arrangements (if any) made for their supervision;
- (g) Whether, and, if so, in what circumstances, information relating to the psychiatric history of a person who is or has been a special patient or a potentially dangerous patient in a psychiatric hospital and who is charged with an offence should be available to the Police at the time of his arrest, and, if such information is to be so available to the Police,—
 - (i) Whether such information should be recorded and held on the Wanganui Computer Centre computer system on a sub-system available for direct access by the Police;
 - (ii) What screening procedures are necessary or desirable to protect a defendant's psychiatric history from unnecessary access and disclosure;

- (i) Whether the law and procedure under Part VA of the Criminal Justice Act 1954 relating to the status of special patient and to the reclassification of a patient from the status of special patient to that of committed patient is adequate;
- (j) Whether any information, and, if so, what, relating to the psychiatric history of an offender undergoing a sentence of detention or relating to his transfer to a psychiatric hospital, should be recorded and held on the Wanganui Computer Centre computer system (including the sub-system of that computer system which is available to the Police and which is known as "Query history courts") and with what safeguards;
- (k) In the light of the foregoing provisions of these presents, what amendments (if any) are necessary or desirable to the Criminal Justice Act 1954, the Mental Health Act 1969, the Wanganui Computer Centre Act 1976, the Summary Proceedings Act 1957, and the provisions of the Crimes Act 1961 relating to bail;
- (l) Such other matters as you consider relevant to the matters mentioned above:

And, in relation to the matters specified in paragraphs (g), (j), and (k) above, you are authorised and required to consult with the Wanganui Computer Centre Policy Committee established by section 19 of the Wanganui Computer Centre Act 1976:

But nothing in these presents shall empower you to inquire into or report upon the circumstances of the death of Ian David

Donaldson at Pauatahanui on the 25th day of April 1983 or of the killing of Alan James Henderson on that day:

And, with the like advice and consent, I hereby appoint you, the said Paul Basil Temm, to be the Chairman of the said Commission:

And, without limiting any of your other powers to hear proceedings in private or to exclude any person from any of your proceedings, you are hereby empowered to exclude the public from any hearing including, in particular, any hearing at which submissions or evidence relating to the psychiatric condition or history of Ian David Donaldson or of any other person are being presented, if you think it proper to do so:

And you are hereby strictly charged and directed that you shall not at any time publish or otherwise disclose, except to me in pursuance of these presents or by my direction, the contents or purport of any report so made or to be made by you, or any evidence or information obtained by you in the exercise of the powers hereby conferred upon you except such evidence or information as is received in the course of a sitting open to the public:

And it is hereby declared that the powers hereby conferred shall be exercisable notwithstanding the absence at any time of any one of the members hereby appointed so long as the Chairman, or a member deputed by the Chairman to act in his stead, and one other member, are present and concur in the exercise of the powers:

And it is hereby declared that you have liberty to report your proceedings and recommendations under this Commission from time to time if you shall judge it expedient so to do:

And, using all due diligence, you are required to report to me in writing under your hand not later than the 31st day of August 1983 your findings and opinions on the matters aforesaid, together with such recommendations as you think fit to make in respect thereof.

Given in Executive Council under the hand of His Excellency the Governor-General this 23rd day of May 1983.

Decision No. 9/83

Bro. 180/81

Before the Broadcasting Tribunal

In the matter of the Broadcasting Act 1976, and in the matter of an application by *Radio Rhema Inc.* for a sound radio warrant to serve Auckland, Rotorua, and Whangarei:

DIRECTION

The application was lodged in December 1981. The purpose of the application is to establish a private non-commercial broadcasting station in Auckland using the frequency 603 kHz with relay stations established in Hamilton, Tauranga, and Whangarei on the same frequency.

The applicant is a voluntary body which established a station in Christchurch and has since been granted amendments to its warrant to permit the establishment of relay stations in Wellington and Nelson.

It is the objective of the applicant to establish a number of AM broadcasting stations either independently or in relay to provide a Christian based radio service through most of New Zealand.

The applicant suggested a hearing in June 1982 after the Auckland FM hearings would have been completed. After discussions with the Tribunal, however, it did not press for a fixture. It has now asked for a hearing date to be fixed. The views of the existing Auckland warrant holders were obtained after the application had been filed and again when this present application for a fixture was made formally. The application had been circulated to other stations and to the companies granted warrants for FM broadcasting.

In a carefully argued case the applicant refers to responses obtained early in 1982. One of the FM contenders had no interest and the other suggested that the hearings be held after the decision was made in relation to the FM applications in Auckland. The B.C.N.Z., *Radio I* and *Radio Hauraki* indicated that holding *Rhema's* hearing after the FM hearing was appropriate.

Radio Rhema considers that, as a non-commercial operator, it is no threat to the commercial viability of any commercial stations and it no way affects the advertising dollars available to the Auckland market. It states that it would not affect stations *IYA* and *IYC* who do not rely on advertising and run independently of market influences. The applicant says the 2 commercial warrants have been allocated and the future of *I2M* as a limited sponsorship station has been established and the proposal for *IYC* to be a limited advertising and sponsorship station has been made public, as has the proposed development of a concert programme FM network.

Radio Rhema pointed to public support during an Auckland short term broadcasting when over 7,000 people attended a thanksgiving service at Ellerslie Raceway. It has gathered in funds sufficient to purchase a \$700,000 building in Auckland. One-third of the applicant's members live in the Auckland area.

The response from warrant holders and those about to take up their warrants for FM stations was mixed. No comment was made by the FM companies. *Radio I* had no objection provided it was legally possible and suitable for the Tribunal, *Radio Pacific* considered it should be deferred until the effects of the introduction of FM were better understood and that the application should be

deferred for the maximum period of 3 years. *Radio Hauraki* commented that until the FM stations had broadcast the *IZM's* situation was resolved, they were unable to gauge the effect *Radio Rhema* would have on the Auckland market. They were concerned about the allocation of frequencies and asked the Tribunal to consider a reallocation of frequencies coinciding with the application of *Radio Rhema*.

The Broadcasting Corporation considered the application should be deferred because 2 Auckland commercial FM stations would be established in Auckland. That would lead to adjustments in format of some of the existing stations and changes in listening patterns. The Corporation considered that if the application were to proceed now it would be difficult, if not impossible, to give adequate consideration to some of the matters referred to in section 80. The information as to listening habits and audience preferences available to the Tribunal and other parties would be based on the existing services provided by 7 stations which would not be a valid basis to assess the situation which would exist if ten stations were broadcasting.

The Corporation considered the application should be deferred until February 1984 so that at least 2 audience surveys conducted after both FM stations had commenced broadcasting would be available.

Consideration of the establishment of relay stations in Tauranga and Hamilton would be inappropriate until it were known whether FM stations would be established to serve those areas.

In the past the Tribunal has been obliged to deal with applications for AM warrants as they have arisen and without regard to any factor other than the filing of the application and a reasonable period for other applicants to apply for warrants in the same area. This "demand" approach has led to an unpredictable and even unstable situation for existing operators, particularly the Corporation. It has inhibited planning development of future services.

This approach became inappropriate when it was decided that the introduction of FM stations should be planned and known in advance.

With the adoption of the Tribunal's recommendations contained in its report on FM broadcasting, Regulation 7B Broadcasting Rules 1977 was promulgated enabling the Tribunal to defer AM or FM applications for up to 3 years.

There are a number of factors which the Tribunal considers it should take into account in such applications. The importance to be given to each of these will vary in the individual circumstances. Broadly they will relate to frequency allocation, the development of radio services in a planned pattern, available resources and the urgency and importance of the service proposed and the relationship between the service proposed and other services nationally or locally. There will also be other considerations such as Government policy in relation to development of FM broadcasting.

It is understandable that the applicant has set its own goals and, as the Tribunal has commented previously, these are sometimes ahead of its absorption of its existing broadcasting rights. However at present the only project uncompleted for the applicant is the establishment of the relay station in the Nelson area.

The fact however that this society has, since 1978, been able to provide AM services to the second and third largest cities in New Zealand and to a provincial city, indicates that the Tribunal has not been standing in the way of its applications.

However the situation in Auckland is different. The first aspect is the availability of the frequency 603 kHz. This frequency is the last one which will be available in Auckland for an AM station of full power. Furthermore it is a frequency which would be much sought after by any broadcaster because of its coverage beyond the Auckland metropolitan area. It would normally in the past, have been considered for a regional station such as *IYA* or *IYC*.

It has been planned with synchronous transmission in Rotorua which appears to be derived from an original intention to serve Maori audience in the northern half of the North Island from 2 transmitters based in areas with large Maori populations. But whether or not it was intended to be used for a Polynesian station it is clear that once used, there will be no room for expansion of AM services in Auckland in that direction or in any other way.

There is however room for expansion of FM services. While it is not for the Tribunal to decide what is the most appropriate medium for any particular applicant, the trend shown in our report was for greater flexibility and availability of frequencies in the FM mode.

The Tribunal therefore starts from the position that it should not hasten to a hearing which might dispose of the last available AM frequency to serve the Auckland metropolitan area and region.

While it may seem urgent to the applicant to make this application for an available frequency and have it heard, in 1983 there may well be other uses in the future which would be denied to the listening public. A proper time interval and a warning to other parties should be given that this application is being made and could have these consequences.

The second and much more important point relates to the state of the Auckland radio industry.

There are 7 warranted AM stations in Auckland, most of which have been operating for many years but one, *Radio Pacific*, has been operating only since 1979.

On 1 June 1983, *IZM* will become a non-commercial station with the exception of some sponsorship. In April a new commercial FM station commenced broadcasting and the second station is to commence in May.

The introduction of 2 new commercial FM music stations and the decriminalisation of *IZM* will cause a number of disruptions to listening patterns in Auckland and will produce a period of uncertainty about ratings which will affect advertising revenue. It is not known at this stage exactly what the remaining commercial listenership will be.

It is not correct to say, as *Radio Rhema* has put it, that the introduction of a non-commercial station has no effect on commercial stations. If it takes any share of the audience it does affect the cost per thousand listeners for advertisers. It could have a depressing effect on rate cards. It is likely that the audiences will become more fragmented or segmented and that stations will seek out particular audiences.

It will be a critical year for Auckland radio. The Tribunal considers that the present situation in Auckland without any other factors at all is a justification for the deferring of the application by *Radio Rhema*.

First, the market needs time to settle down before the possible introduction of another station. Secondly, it will be impossible to truly assess the listening needs in Auckland in the light of actual listening habits until at least 2 surveys have taken place after the introduction of the second FM station and the decriminalisation of *IZM*.

The applicant while earlier anticipating high audience levels, has now accepted that it will command only a small proportion of the audience as it has in Christchurch where the average audience has been about 3 percent (although it is accepted that the cumulative audience is higher). This hardly gives it the air of urgency or the degree of importance which might override other considerations.

The Tribunal accepts the arguments put forward by the B.C.N.Z.

The Tribunal has therefore decided to defer the application until February/March 1984. The Registrar is directed to advertise the application in October and, when parties are known, to make a fixture for February or March 1984. The actual date will be fixed in November.

Dated the 11th day of May 1983.

Signed for the Tribunal:

B. H. SLANE, Chairman.
