WELLINGTON: TUESDAY, 20 DECEMBER 1983

---

**ANZCERT: CERTAIN 1983/84 CER EX NAFTA LICENCE  
AND ANZCERT LICENCE ISSUES**

**(A) ANZCERT: CER Ex NAFTA Special Licences 1983/84 (Licence Type 11)**

In terms of Article 5, paragraph 18 of ANZCERT exclusive access for goods under NAFTA has been maintained additional to the ANZCERT access formulae.

Under Article 20, Paragraph 2 of ANZCERT the Australian Government for the 1983/84 and 1984/85 import licensing years has retained the right, for certain product categories, to nominate the Australian exporters and amounts of licence allocated, as was previously the case under Schedule A of NAFTA.

Following the 1984/85 licence period New Zealand will take over the licence issue procedures in 1985/86 for these goods on the same basis as (B).

These licences are NOT available for the importation of the following types:

- AC manual arc welding machines having a maximum welding output of 520 amps or less.
- MIG welding machines having a welding output of 200 amps or less at 100 percent duty cycle.
- TIG welding machines having a welding output of 250 amps or less.
- Resistance welding machines having a 50 percent duty cycle rating of KVA or less.

**(B) ANZCERT: CER Ex Nafta Schedule A Licences (Licence Type 10)**

In terms of Article 5, paragraph 18 of ANZCERT exclusive access for goods under Schedule A of NAFTA has been maintained additional to the ANZCERT access formulae.

Under Article 20, Paragraph 2 of ANZCERT, allocations of access will be determined by New Zealand where NAFTA Schedule A access was not fully allocated or where only one Australian exporter was interested in the market for the 1982/83 import licensing period.

For these Ex NAFTA Schedule A products, New Zealand allocates the licence to the previous licence holders. New Zealand has therefore issued 1983/84 licences to the 1982/83 New Zealand licence holders. Where the access levels have not been fully taken up, the balance is available on request. Interested importers should apply in writing to J. P. Diamond, Executive Officer, General Industries, Department of Trade and Industry, Private Bag, Wellington.

Fully allocated.

## (C) ANZCERT: Licence on Demand (Licence Type 13)

The following goods previously included under Schedule A of NAFTA have been added to the list of products subject to licence on demand procedures under ANZCERT:

Ex Item Code 40.070, Tariff Items 40.14.049.01G, 40.16.009.01B

"Spools, reels and similar supports designed for use with photographic and cinematographic film".

Applications for licence are to be lodged in the normal manner with the applicant's local Collector of Customs. Applications are to be clearly endorsed "ANZCERT—Licence on Demand", and to enable applications to be processed with the minimum of delay the description, item code and tariff items should be quoted exactly as above.

## (D) ANZCERT Whitegoods Arrangement: Ex 85.033 Domestic Electric Stoves and Ranges

The supplement to the *New Zealand Gazette* of 14 July 1983, detailed the calendar year 1983 ANZCERT whitegoods allocation for domestic electric stoves and ranges. The allocation was divided equally between the seven Australian manufacturers involved, i.e., 429 units each. One allocation to the Australian manufacturer St. George was not taken up. In addition Autocrat Sanyo returned its licence of 429 units for sourcing on Modern Maid. This left 858 units to be reallocated.

These units were reallocated in accordance with the allocation procedures for electric ranges as set out in Attachment IX of Part VI detailing the Whitegoods arrangement under Annex C of the ANZCERT. The licence was therefore divided between the four Australian manufacturers involved with first preference given to applicant New Zealand manufacturers as follows:

Australian manufacturer	Units Allocation	New Zealand Importer
ACI	143	Moffat Appliances
ACI	96	H. E. Shacklock
Simpson	238	Atlas Appliances
Email	238	Fisher & Paykel
Kirby (Roden)	143	Atlas Appliances
	<u>Total 858 units</u>	

## (E) ANZCERT—Guideline "R" Rationalisation/Complementation Policy

Guideline "R" of the *Guidelines for the Allocation of Manufacturers Exclusive Australian Licences*, is considered to be an important element of ANZCERT because it provides the basis for using the agreement to progress the development of efficient export-orientated industries in New Zealand.

By providing additional licences—Rationalisation/MEALS (R/MEALS) to companies involved in significant product rationalisation and/or product complementation proposals, Guideline "R" will enable individual manufacturers to place themselves in a better position to compete and trade successfully in New Zealand/Australia free trade area as access is progressively liberalised.

Under Guideline "R" consideration can be given to the issuing of additional licence where the share of the MEAL received by a manufacturer does not allow rationalisation/complementation to proceed as quickly as desired or where no MEALS have been received. Where Guideline "R" licences are issued these will be additional to the ANZCERT EAL formulae.

The full guidelines are detailed in the Import Licensing Policy Schedule and copies are available from the General Industries Directorate, the Department of Trade and Industry, Private Bag, Wellington.

R/MEALS issued as at 4 November 1983 read as follows:

## ANZCERT: R/MEAL Issues Under Guideline R by Item Code as at 4 November 1983

	\$
17.010	180,000
30.010	400,000
