## **SUMMARY**

OF THE

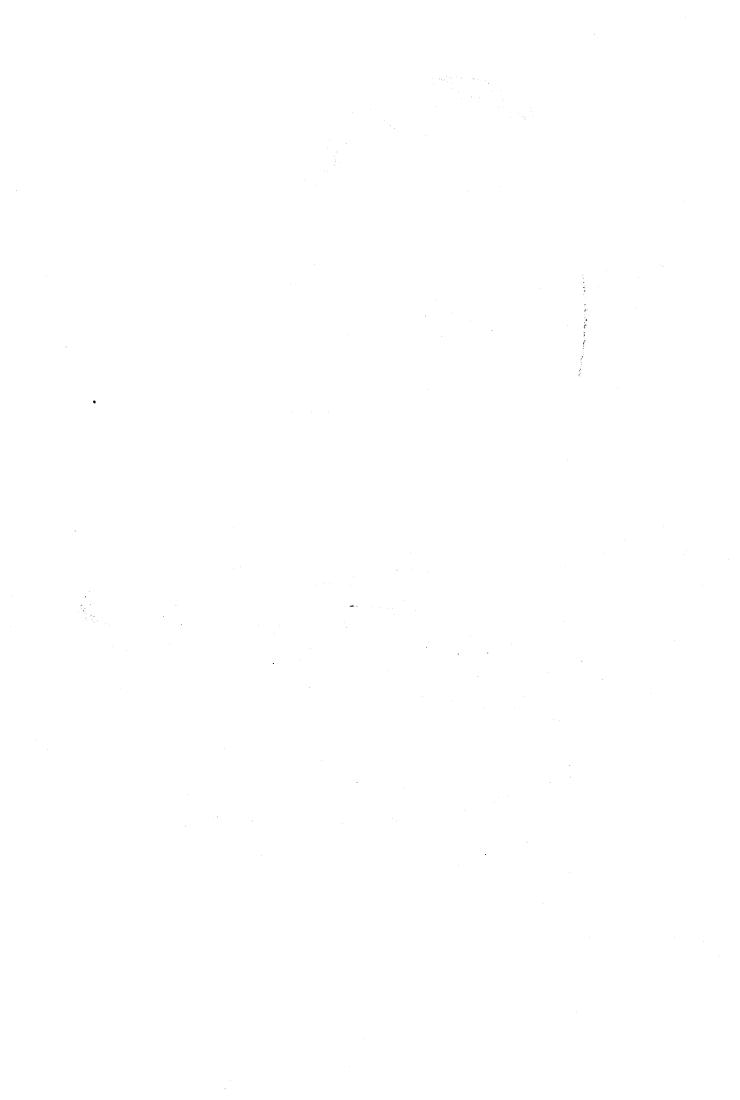

## RECEIPTS AND PAYMENTS

OF THE

## **PUBLIC ACCOUNT**

FOR THE

YEAR ENDED 31 MARCH 1984

### INTRODUCTION

This summary of the receipts and payments of the public accounts is produced quarterly and published in terms of section 67 of the Public Finance Act 1977. The contents of the summary are as follows:

- Statement of Accounting Policies, outlines the general accounting principles on which the accounts are prepared, and the particular accounting policies adopted.
- Statement of Source and Application of Funds, a summary financial report of the aggregated transactions for the year to date.
- Consolidated Account, the main operating account within the Public Account. All receipts must be credited to this account unless there is specific statutory provision to the contrary, e.g., proceeds of loans, and Road User Charges. The main revenue items in the account are direct and indirect taxation, interest received, dividends and profits from Corporations and trading undertakings, and departmental receipts.
  - The bulk of Government expenditure is met from this account by way of annual appropriations through votes (see the Estimates of Expenditure B. 7 [PT. I]), and permanent appropriations made pursuant to various statutes.
- Loans Account, records the proceeds from all new loans raised (except those raised for redemption of loans) in New Zealand or Overseas during the financial year. The payments side of the account records the disbursement of these proceeds by annual and permanent appropriations, and by way of transfers to other accounts within the Public Account. A non cash item is included on both the receipts and payments side of the account to record the value of capital equipment purchased under credit arrangements.
- Loans Redemption Account, records how loan moneys received specifically for the purpose of repaying or redeeming public debt, together with other receipts credited to the account, have in fact been applied to convert or repay public debt. The account also records cash received and paid in respect of the issue and redemption of Treasury bills.
- National Roads Fund, is established under section 22 of the National Roads Act 1953. Its purpose is to record certain indirect taxation revenues specifically set aside to fund expenditure on construction and maintenance of roads. The account also records other moneys appropriated for these purposes.
- Reserve Account, records funds set aside to meet future contingencies. Transfers into this account are made from the Consolidated Account, but if a contingency arises the funds may be transferred to any of the other accounts within the Public Account.
- Trust Account, contains over 50 separate accounts and is primarily used to record moneys received or held in trust. Moneys paid into the account are generally available to be applied only for the specific purpose for which they were received.
- The Summary of Balances and the Composition of Balances.
- Notes to the Accounts, contains additional explanatory information on specific receipts or payments items.

#### STATEMENT OF ACCOUNTING POLICIES

### General Accounting Policies

The Public Accounts comprise the 5 operating accounts established by sections 38 to 42 of the Public Finance Act 1977, together with a suspense account created under section 37 (1) (c) of that Act, and the National Roads Fund established by section 22 of the National Roads Act 1953. A brief description of each of the operating accounts is given in the introduction to this summary. The Suspense Account is a clearing account for receipts banked to the Public Account.

The "Public Account" refers to the bank account of that name kept at the Reserve Bank of New Zealand.

The transactions reflected in this summary are only those relating to departments or activities operating within the Public Account. It does not reflect transactions of accounts to which sections 68 and 69 of the Public Finance Act apply. All transactions are reported on the cash basis of accounting.

The amounts shown in this summary represent the cumulative result of transactions from the beginning of the financial year at historic cost.

#### Recognition of Receipts and Payments

Receipts for money paid into the Public Account are initially credited to the Suspense Account. The receipts are subsequently recognised by debiting the Suspense Account when the revenue receiver advises Treasury of the particular account code to be credited. The balance to the credit of the Suspense Account at the end of each accounting period is disclosed in the Summary of Balances.

Payments are brought to charge as expenditure in two ways:

 if money is paid from the Public Account Disbursement Account, it is recognised as a payment immediately.
 if money was paid from an imprest account, it is recognised as a payment when Treasury is advised of the particular account. code to be debited. Money credited to Imprestees but remaining unspent at the end of each accounting period forms part of the cash balances.

## Particular Accounting Policies

The following particular accounting policies which affect the contents of the accounts have been adopted—

#### Recognition of Interdepartmental Transactions

Transactions occurring between Government Departments are recognised on the following basis:

- if it was a cash transaction, then the accounting policy on recognition of receipts and payments above applies.

- if it was a non-cash transaction, then the transaction is recognised when Treasury is advised of the accounting codes to be credited and debited.

#### Foreign Currencies

As a general rule receipts and payments are converted into New Zealand currency at a special exchange rate fixed at the mid-point between the buying and selling rates for each foreign currency quoted by the Reserve Bank. This rate is retained until it is at variance by 2 percent with the actual mid-point of the buying and selling rate.

All rates are adjusted on an official revaluation and on 1 March in each year.

Any gains or losses arising from differences between actual rates of exchange used for transactions and the special mid-point rate are disclosed in the public accounts.

An exception to the general rule is made for certain types of receipts such as the proceeds from loans raised overseas. In these cases the exchange rate used is the actual bank rate at which the foreign currency was converted to New Zealand dollars.

#### Investments

Investments of Public Account Balances are recorded at cost price in foreign currency and converted at the relevant mid-point exchange rate into New Zealand dollars. Capital gains or losses arising from investment transactions are recognised when realised and are disclosed in the public accounts. Balances of investments in Companies and Government Agencies are not reported in quarterly summaries.

### Changes in Accounting Policies

There have been no changes in accounting policies. All policies have been applied on bases consistent with those used in previous years.

## THE NEW ZEALAND GAZETTE

## NOTES TO THE ACCOUNTS

				Ended 31 March 1984 \$(000)	Ended 31 March 1983 \$(000)
1. Income Tax					
Income tax is net of refunds, and advance payments to the Accide poration in respect of self-employed levies.	nt Com	pensation	1 Cor-		
Refunds to exporters in terms of the Income Tax Act 1976 were				237,006	232,921
Advance payments to Accident Compensation Corporation were				22,479	20,366

#### 2. State Services Commission

In terms of section 52A of the Public Finance Act 1977 a revolving fund was opened from 1 April 1983 for the functions of the Computer Services Division of the State Services Commission. Thus receipts and payments in respect of this division are now included in the Trust Account.

#### 3. Miscellaneous Payments

This item includes payments made this financial year totalling \$28,979 under a guarantee given by the Government in terms of section 86 (2) of the Public Finance Act 1977 in respect of Halfmoon and Horseshoe Bays Harbour Board.

#### 4. Government Life Insurance Corporation

On 1 October 1983 the Government Life Insurance Office became a corporation under the provisions of the Government Life Insurance Corporation Act 1983. Payments recorded in the Consolidated Account are for fees and expenses of appointed directors of the corporation.

## 5. Ministry of Energy

The Consolidated Account receipts and payments relate only to the non-trading activities of the Ministry. The Loans Account payments relate to the portion of the Ministry's trading activities advanced from the Public Account.

#### 6. Alliance Textiles Ltd.

The Consolidated Account receipt of \$2,150,000 represents the appreciation on a \$1,000,000 convertible loan made in 1980-81 and redeemed in the current year for \$3,150,000. Repayment of the \$1,000,000 principal is disclosed in the Loans Redemption Account.

#### 7. Christmas Island Phosphate Commission

The Consolidated Account receipt of \$3,730,374 is part of a progress payment of \$4,584,607 received in respect of New Zealand's share of the net assets and liabilities of the Christmas Island Phosphate Commission which has now been wound up. The balance of the payment has been credited to the Loans Redemption Account in full repayment of the Commission's loan commitments.

## 8. Rural Banking and Finance Corporation

The repayment is in respect of an overclaim of concessions on interest for general lending in 1982-83.

### 9. Loan Receipts Unallocated

With reference to the Statement of Accounting Policies, receipts for loan moneys paid into the Public Account are cleared from the Suspense Account and credited to the item loan receipts unallocated. This clears the Suspense Account of moneys which are identifiable as loan moneys but for which no final accounting documentation was received in Treasury at the end of the quarter.

### 10. Reserve Bank Indemnity

The total claim for the 1983-84 indemnity was \$183,173,158 which includes \$66,470,526 of unrealised losses. In line with the policy adopted in 1981-82, payment has been made only for realised losses which for the current year totalled \$116,702,632. The policy of settling the indemnity by a special issue of non interest bearing stock with repayment through the Loans Redemption Account has been adhered to but the settlement has been included this year as a permanent appropriation payment in the Loans Account. For comparative purposes the settlement for 1982-83 has also been included as a permanent appropriation payment.

#### 11. Discount on Government Stock

This discount is the difference between the purchase price and the nominal value of Government stock purchased from the Reserve Bank of New Zealand. The nominal value of the stock is included in the Loans Redemption Account under loans repaid in New Zealand.

#### 12. Receipts from and Purchases of Land and Property

Details of these were not separately identified before 1 April 1983.

#### 13. Suspense Account

As set out in the General Accounting Policy pertaining to recognition of receipts and payments the Suspense Account contains moneys received but not yet allocated to a particular fund or account.

## REPORT OF THE AUDIT OFFICE

The Audit Office, having been appointed in terms of section 25 of the Public Finance Act 1977, has audited the foregoing summary of the receipts and payments of the Public Account for the year ended 31 March 1984. In terms of section 67 of that Act, the Audit Office is of the opinion that the summary on pages 1744 to 1757 properly reflects, in accordance with the accounting policies set out on page 1744, the financial transactions of the Public Account for the year.

J. T. CHAPMAN, Deputy Controller and Auditor-General. 10 May 1984.
