TRUSTEEBANK SOUTH CANTERBURY
(Formerly—South Canterbury Savings Bank)

NOTES TO ACCOUNTS FOR YEAR ENDED 31 MARCH 1984

NOTE 1: *Statement of Accounting Policies:*

The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of profit on an historical cost basis have been followed by the bank.

The following particular accounting policies have been applied:

(a) *Recognition of Income and Expenditure—*

Investment income includes interest accrued to 31 March.

Interest on personal loans is added at the commencement of the loan. This amount is brought into revenue during the appropriate financial years by applying the "Rule of 78".

Interest on savings and current accounts represents interest credited at 31 March and the interest paid on closed accounts during the year. Investment accounts which are credited with interest during the year have had an appropriate adjustment made for the interest accrued to 31 March.

Interest paid and accrued on depositors' investment accounts has been calculated at the full rate payable on the assumption that all deposits will reach maturity.

(b) *Fixed Assets and Depreciation—*

(a) The fixed assets, have been depreciated at depreciation rates approved by the Inland Revenue department. Computer equipment has been depreciated at the first year rate of 25 percent of cost price and thereafter at 20 percent of the diminishing value each year. All assets still in use are included in the books and it is calculated that the depreciation rates being used will write off the items over the period of their useful lives. In accordance with the bank's established policy no additional depreciation as provided for in the rates set by the Inland Revenue department on the purchase of assets (other than the computer equipment) have been claimed for taxation purposes.

(b) It is considered that the amount charged in the Profit and Loss Account does not differ materially from that which would result from calculating depreciation had the straight line method been adopted.

(c) *Investment—*

The New Zealand Government stock and local authority securities are recorded at face value on purchase. Premium redemptions and discounts due on maturity of Government stock purchased under par are held in reserve to be brought to account either upon maturity or sale of the stock concerned. Similarly any premium paid on the purchase of Government stock is also held in reserve to be written off as a loss on maturity or earlier sale of the particular stock.

(d) *Taxation—*

Taxation includes current tax actually payable and deferred tax in respect of accrued interest not included in assessable income until received.
