Customs Notice—Customs Tariff Duty Concessions

THE Comptroller of Customs hereby announces the following changes which will be made to the procedures relating to the processing of applications for Customs Tariff Duty Concessions. These changes will be effective from 1 November 1984.

ADVERTISING OF APPLICANTS' NAMES

ALL applications which are advertised for objection from local manufacturers will include the name and address of the applicant in the advertisement published in the *Gazette*. Where an applicant does not wish his/her name to be published a request must accompany the application giving full details as to why the name should not be published. Consideration will then be given to that request. Approval of such requests will normally only be given where commercial confidentiality will be breached by the public revelation of an applicant's name.

ADVERTISING OF ALL APPLICATIONS RECEIVED

In addition to the publication of applications which are advertised for objection details of all other applications received will be published on receipt. This will include applications which are approved or declined and those applications which are referred to another office for consideration. The names of applicants will also be included in the published details, subject to the comments made in the above paragraph.

The details published will not include the decision taken on the application—the new procedure will be the first step in the chain of processes for each application. Details of concessions approved will be published as at present.

EXISTING PROCEDURES

All existing procedures relating to concessions and determination application processing will remain. The above changes are additional to existing procedures.

Dated at Wellington this 25th day of October 1984.

General Accounting Policies

- The measurement base adopted is that of historical cost modified by the revaluation of land and buildings. Reliance is placed on the fact that the Bank is a going concern.
- Accrual accounting is used to match expenses and revenue.
- Particular Accounting Policies
- Sundry Debtors are shown at expected realisable value.
- Government Stock and Local Authority Stock are shown at face value, adjusted by any premium paid or discount received, which is amortized or credited to revenue over the term of the investment.
- Investments in Associated Companies are shown at cost plus a share of increases in net assets since the date of acquisition of shares.
- Land and buildings are shown at a Registered Valuers current valuation less accumulated depreciation. All other Fixed Assets are shown at cost less accumulated depreciation.
- Depreciation is provided on a straight line basis which will write off the cost and revaluation over their estimated useful lives. The useful lives are estimated as follows:
 - Building 10 to 50 years
 - Office Equipment 5 to 10 years
 - Furniture 5 to 10 years
 - Vehicles 5 years.
- Interest on Personal Loans is added to the principal at the commencement of the loan, and this amount is brought into revenue during the appropriate financial year by applying the "Rule of 78". The Balance Sheet figure is net of unrecognized interest income.
- Interest on Investment Accounts is accrued at balance date at the full rate payable on the assumption that all investment accounts will go through to maturity.
- Taxation expense charged in the Profit and Loss Account recognises the effect of both current and deferred taxation.
