The Standards Act 1965—Draft New Zealand Standard Specification Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specification is being circulated.

Number and Title of Specification

DZ 1900:Chapter 6 Model building bylaw—
Chapter 6: Construction requirements for buildings not requiring specific design—Timber and masonry. Gratis.

This proposed revision of NZS 1900 Chapter 6 is intended to supersede the current 2 divisions of the Chapter.

- 6.1 Construction requirements for buildings not requiring specific design —Timber
- 6.2 —Masonry

Division 6.1 is already in a shortened format which sets out general requirements and cites a specific Standard as being approved as a means of compliance. With the anticipated publication, within the next few months, of a New Zealand standard for concrete masonry buildings not requiring specific design, Division 6.2 can be re-written in similar shortened format. The opportunity is being taken to combine the 2 divisions into a single document. Material in the current Division 6.1 which is also covered in Chapter 9 has been omitted.

All persons who may be affected by this publication and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

NOTES OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 1984

Statement of Accounting Policies—

(a) *General Accounting Policies*—The accounting policies recognised as appropriate for the measurement and reporting of results and financial position under the historic cost method of accounting have been adopted on a basis consistent with the previous year.

(b) *Recognition of Income*—The income earned is recorded on an accrual basis and includes the amortization of premiums and discounts on the purchase of Government and local authority stock. Interest on personal loans is calculated according to the Rule of 78.

(c) *Expenditure*—Interest on depositor's accounts represents interest paid, credited or accrued for the financial year ended 31st March 1983. Other expenses, including computer development costs, are charged to the accounts in the year in which the expenditure is incurred.

(d) *Fixed Assets and Depreciation*—Fixed assets are valued at cost less accumulated depreciation. Depreciation has been charged using the straight line method based on the economic life of the assets.

The current market value of land and buildings is \$1,492,500.

(e) *Taxation*—Taxation charged against net profit is the estimated expense relating to the result of the year. It includes an amount for taxation, the payment of which is deferred to future periods, because taxation practice differs from accounting policies in the treatment of:

- (i) Interest accrued on investments,
- (ii) Depreciation charges,
- (iii) The amortization of profits and losses in respect of Government and local authority stock purchases and sales.

(f) *Valuation of Investments*—All investments are shown at cost with the exception of New Zealand Government stock.

On the basis that Government stock will normally be held to maturity the bank considers it appropriate to record such stock at nominal value. Discounts and premiums on nominal value of Government stock are amortised over the term of the investment on a straight line basis.
