Honours and Awards

His Excellency the Governor-General has announced the following awards of The Queen's Commendation for Brave Conduct:

THE QUEEN'S COMMENDATION FOR BRAVE CONDUCT

Jape WANOA, Traffic Sergeant, Ministry of Transport, Dunedin.

On 31 October 1982 a man making his maiden parachute jump over Momona Airport was blown off course and landed in the Taieri River. The river was in high flood, full of debris, discoloured, extremely cold and flowing swiftly. Mr Wanoa, then on annual leave, arrived at the scene shortly after the accident and with complete disregard for his own safety entered the river and for over 35 minutes endeavoured to locate the parachutist, whose body was recovered 7 days later.

Bruce John McMILLAN, Fireman, Feilding Volunteer Fire Brigade, New Zealand Fire Service.

For services on 29 November 1982 when he saved the life of an elderly woman at a railway level crossing by removing her from the tracks seconds before an approaching train passed. His prompt action saved the woman's life while placing his own at risk.

Ronald MacGregor RENZ, Inspector, New Zealand Police, Auckland.

Jeffrey Gary GERBICH, Traffic Sergeant, Ministry of Transport, Auckland.

Christopher John ENGLAND, Traffic Officer, Ministry of Transport, Auckland.

For services on 30 July 1983 when, at considerable personal risk to themselves, they saved the life of a driver of a motor vehicle which had crashed and caught fire. After some difficulty they managed to remove the unconscious driver from behind the wheel shortly before an explosion and the vehicle being engulfed in flames.

Private Michael John Thomas TRISTRAM (V763067), Royal New Zealand Infantry Regiment.

Private David Thomas UPTON (Y52094), Royal New Zealand Infantry Regiment.

For service on 19 February 1984 when patrolling with their section along a river bank in West Malaysia they rescued a fellow soldier who had accidentally stepped into a water-hole and disappeared. It was the wet season, the river was flooded 1.5 metres above its normal level, was dirty and flowing swiftly. The soldier surfaced some 20 metres downstream and was then dragged under a further 20 metres by the weight of his rifle and pack. Had it not been for Private Tristram and Private Upton's prompt action and disregard for their own safety, the soldier would have drowned.

Robert Wayne THOMPSON, Traffic Sergeant, Auckland Motorways, Ministry of Transport, Auckland.

For services in 1983 when he prevented a woman from jumping from the Newmarket Viaduct; in early 1984 for stopping a man from jumping from the Auckland Harbour Bridge, and in particular, on the evening of 4 June 1984, when after a violent struggle he secured a man who intended to jump from the Auckland Harbour Bridge.

David Albert SULLIVAN, of Auckland.

For services on 23 June 1984 when he single-handedly pulled 2 people from a motor vehicle which had collided with another vehicle, spun around, rolled over on its right side and burst into flames. Heat and flames prevented him from rescuing a third person, an 82-year-old passenger. Bystanders did not attempt to assist in rescuing the trapped people.

Robert Edgar BROCAS, Traffic Officer, Ministry of Transport, Meremere.

For services on the evening of 22 August 1984 when he was instrumental in saving the life of a driver from drowning by pulling him from a motor vehicle which was upside down and gradually becoming submerged in a swamp.

Dated at Wellington this 13th day of December 1984.

JAMES BROWN,
Official Secretary, Government House.

Industries Development Commission—Notice 1984/3, Review of the Town Milk Industry

(1) In a letter of 30 November 1984, the Minister of Trade and Industry requested the Commission to undertake a review of the town milk industry in New Zealand.

(2) The Minister's letter reads:

"The Government has decided that a review of the town milk industry should be undertaken by the Commission. Such a review is now considered to be appropriate, especially in view of the changes which may arise from the forthcoming removal of the consumer subsidy on milk.

It is the Government's wish that the industry be reviewed with the objective of promoting competition and efficiency in the production, distribution and marketing of milk, in the public interest.

Accordingly, I request the Commission to inquire into and report with recommendations on:

- (a) The present structure of the town milk industry (including cream) with regard to the efficient and economic use of resources in the industry;
- (b) Any changes to the present structure that are desirable or necessary in the public interest;
- (c) Without restricting the generality of the foregoing, to examine and make recommendations, in particular on:
 - (i) The pricing and marketing of all milk and cream for domestic consumption;
 - (ii) The need for regulatory mechanisms covering production, processing and distribution of all milk, with a view to fostering a more competitive and market-oriented industry;
 - (iii) Administrative and financial arrangements including the future role and functions of the Milk Board;
 - (iv) The relationship between the town milk and manufacturing dairy sector in the domestic market for milk, cream and other fresh milk products;
- (d) The implementation of the review's recommendations including any legislative changes required.

It is the Government's desire that, in conducting the review, the Commission should consult all interested parties, including the New Zealand Milk Board, all sectors of the town milk industry (including retailers), the milk pricing authorities, all relevant Government departments, users of milk and milk products and consumer groups. In addition, please note that the Government has already sought and obtained the comments of interested parties on the packaging issue. However, the Government would appreciate any views the Commission may wish to advance on the implications packaging may have on the structural and marketing aspects of the town milk industry.

The Commission is requested to submit its report on the town milk industry to the Government by 30 September 1985."

(3) Any organisation or person interested in being a party to this review is invited to register that interest with the Commission (so that all future releases can be directed to registered parties) together with brief comments upon any or all of the terms of reference gazetted above. Such response should be with the Commission by February 15th 1985. After this date parties will be advised of the time frame for submissions to the public hearings deemed appropriate and given guidelines for assistance in preparing their submissions to the Commission.

Dated at Wellington this 13th day of December 1984.

Secretary, Industries Development Commission.

Decision No. 19/84
Ind. 16/84

Before the Indecent Publications Tribunal

IN THE MATTER of the Indecent Publications Act 1963, and IN THE MATTER of an application by the Comptroller of Customs for a decision in respect of the following publication: *Graphic Man II*, published by Playgirl Inc., U.S.A.:

Chairman: Judge W. M. Willis.

Mesdames H. B. Dick and L. P. Nikera.

Messrs J. V. B. McLinden and I. W. Malcolm.

Hearing: At Wellington on the 8th day of November 1984.

Appearances: No appearance for importer, Waverley International, R. A. Simpson for Comptroller of Customs.

DECISION

THIS publication was imported through Auckland in March 1984 and was seized. Forfeiture has been disputed so that the publication is referred for classification.

The book consists of photographs of nude and semi-nude males and is devoid of any text. Mr Simpson drew our attention to Decision 1078 when we had occasion to consider a publication called *Physique*. It consisted of photographs of nude and semi-nude males and was said then that no objection could be taken to the semi-nude photographs. It was mentioned that the nude photographs showed males in contrived or posed positions. Because of these later photographs the publication was classified as indecent. In Decision 974 we considered *The Best of Sierra Domino* where once again there were photographs of males in posed and contrived positions. That publication also was classified as indecent.

The photographs in this publication are not in the same category as in *Physique* and *The Best of Sierra Domino*. The importers in written submissions referred to *Waverley Publishing Company v The Comptroller of Customs* an unreported decision of the Full Court (Wellington M34/76). On that occasion the Court considered *inter alia* a publication called *Naked Boyhood* which was classified as indecent in the hands of persons under the age of 18. Although we have not had the benefit of seeing that particular book it seems clear from the decision that the photographs were nudes not in posed or contrived positions.

There is one other matter which has a distinct bearing on our treatment of this particular book. Section 11 (1) (d) requires us to take into account the price at which a book is intended to be sold. The importer suggested that the book would probably retail in the \$40 bracket. This would give it limited appeal. We classify the publication as indecent in the hands of persons under the age of 18.

Dated at Wellington this 3rd day of December 1984.

Judge W. M. WILLIS, Chairman.

3

Decision No. 20/84
Ind. 14/84

Before the Indecent Publications Tribunal

IN THE MATTER of the Indecent Publications Act 1963, and IN THE MATTER of an application by the Comptroller of Customs for a decision in respect of the following publications: *PFI Quarterly Issues, Vol. 11 and 14*, published by Guantlet Enterprises, U.S.A.:

Chairman: Judge W. M. Willis.

Mesdames H. B. Dick and L. P. Nikera.

Messrs J. V. B. McLinden and I. W. Malcolm.

Hearing: At Wellington on the 8th day of November 1984.

Appearances: No appearance for importer, J. Ryan. R. A. Simpson for Comptroller of Customs.

DECISION

THESE are single copies of a private importation seized at Auckland in 1984. Forfeiture has been disputed by the importer so that the publications came before the Tribunal for classification. In Decision No. 1035 the Tribunal had occasion to consider issue 12 of this publication when it was classified as indecent. These 2 issues are no different.

They include illustrations of and catalogues for jewellery for body and genital piercing. This very brief description conceals the fact that they are consistent with suggesting violence to persons who might be tempted to follow the 'instructions'. We said in Decision

No. 1035 and we repeat that the illustrations and instructions might well induce some form of experiment with resultant physical or even fatal injury. The Tribunal classifies both publications as indecent.

Dated at Wellington this 3rd day of December 1984.

Judge W. M. WILLIS, Chairman.

Ind. 17/84

Before the Indecent Publications Tribunal

IN THE MATTER of the Indecent Publications Act 1963, and IN THE MATTER of an application by the Comptroller of Customs for a decision in respect of the following publication: *Big Girls*, published by Montcalm Publishing Corp., New York, U.S.A.:

Chairman: Judge W. M. Willis.

Mesdames H. B. Dick and L. P. Nikera.

Messrs J. V. B. McLinden and I. W. Malcolm.

Hearing: At Wellington on the 8th day of November 1984.

Appearances: No appearance for importer, Gordon & Gotch (N.Z.) Ltd. R. A. Simpson for Comptroller of Customs.

DECISION

THIS publication is a sample from a commercial shipment which entered the port of Auckland in June 1984. Although it was not so stated we have the impression that the importers have referred the publication to the Tribunal for classification. It consists almost entirely a semi-nude and nude models. In the main they are unobjectionable but there are some photographs in the publication which the Tribunal considers merit an age restriction. The publication is not dissimilar to those considered in Decision No. 6/84. It is classified as indecent to persons under the age of 18.

Dated at Wellington this 3rd day of December 1984.

Judge W. M. WILLIS, Chairman.

Decision No. 22/84
Ind. 19/84

Before the Indecent Publications Tribunal

IN THE MATTER of the Indecent Publications Act 1963, and IN THE MATTER of an application by the Comptroller of Customs for a decision in respect of the following publication: *A Life on the Game* by Flame, published by Gay Men's Press, England:

Chairman: Judge W. M. Willis.

Mesdames H. B. Dick and L. P. Nikera.

Messrs J. V. B. McLinden and I. W. Malcolm.

Hearing: At Wellington on the 8th day of November 1984.

Appearances: R. A. Simpson for Comptroller of Customs. No appearance for importer Benton Ross Publishers.

DECISION

WE were informed by the Comptroller of Customs that the publication, *A Life on the Game*, by Flame was commercially imported through Auckland in June 1984, and because of the sensitive nature of the subject matter, and with the concurrence of the importer, the Customs Department has referred the book to the Tribunal for classification.

The publication is a paperback, published in 1984, by the Gay Men's Press, London and describes the life of a homosexual from his birth to the age of 21 years.

As Mr Simpson writes in his submission, the publication is a 'continuing saga of sexual escapades'. It is indeed simply written, easy to read and understand, and the episodes which are solely sexual in content, are many.

The question to be considered by the Tribunal is simply, the book's honesty of purpose.

The Comptroller of Customs refers to an earlier Decision (No. 1075 of 24 August 1983) when comparing the publication *Panthology One* with the present one under consideration.

It should be noted that *Panthology One* was classified as indecent, mainly because of its support for the concept that paedophilia is acceptable, but in *A Life on the Game*, the content seems to deal with homosexual acts between males only, and has no reference to sexual relationships with children.

A Life on the Game has a ring of truth about it, and the Tribunal considers that the book is honest in its presentation although the subject matter is explicit and could give offence.

Taking all these factors into consideration, it is the Tribunal's view that *A Life on the Game* should have an age restriction placed on it. Therefore it is considered as indecent in the hands of persons under the age of 18 years.

Dated at Wellington this 3rd day of December 1984.

Judge W. M. WILLIS, Chairman.

Ind. 12/84

Before the Indecent Publications Tribunal

IN THE MATTER of the Indecent Publications Act 1963, and IN THE MATTER of an application by the Comptroller of Customs for a decision in respect of the following publication: *Blood and Guts in High School Plus Two*, published by Pan Book, U.K.:

Chairman: Judge W. M. Willis.

Mesdames H. B. Dick and L. P. Nikera.

Messrs J. V. B. McLinden and I. W. Malcolm.

Hearing: At Wellington on the 8th day of November 1984.

Appearances: R. A. Simpson for Comptroller of Customs. No appearance for importer William Collins Publishers.

DECISION

WE were informed by the Comptroller of Customs that the publication, *Blood and Guts in High School Plus Two*, was imported through Auckland and was seized by the Customs Department in April 1984.

The importer has disputed forfeiture of the book and the department therefore referred the publication to the Tribunal for classification prior to the commencement of condemnation proceedings pursuant to the Customs Act 1966. The author of *Blood and Guts in High School Plus Two*, Kathy Acker, has been described by reviewers 'as everything from post-punk porn to post-punk feminism.' This paperback edition, published in 1984, is difficult to read and understand, and here we agree with Mr Simpson in his submission to the Tribunal. The story describes a girl locked in a room where twice a day the Persian slave trader comes to teach her to be a whore. 'One day she found a pencil stub and scrap paper in a forgotten corner of the room. She began to write down her life...'

The novel purports to be an account of her experiences, almost solely of a sexual nature, written in a disjointed and difficult style, though liberally illustrated with diagrams and sketches.

We agree with Mr Simpson when he submits that 'in short, the book is considered to be mainly a vehicle for the writer to express and convey her sexual opinions', although we are not so certain that younger readers would be attracted to the publication because of its difficulty of presentation.

The publication seems to have little literary or artistic merit and does place considerable emphasis on sexual description.

The Tribunal classifies the publication as indecent.

Decision No. 24/84

Ind. 4/84

Before the Indecent Publications Tribunal

IN THE MATTER of the Indecent Publications Act 1963, and IN THE MATTER of an application by the Secretary for Justice for a decision in respect of the following publication: *The Playbook for Kids About Sex*, published by Sheba Feminist Publishers, England:

Chairman: Judge W. M. Willis.

Mesdames H. B. Dick and L. P. Nikera.

Messrs J. V. B. McLinden and I. W. Malcolm.

Hearing: At Wellington on the 8th day of November 1984.

Appearances: No appearance for Benton Ross Publishers Limited. P. J. Carroll for Secretary for Justice.

DECISION

THIS publication was referred to the Tribunal by the Secretary for Justice following a complaint by a member of the public. It was originally set down for hearing in May 1984 when submissions were made by the Secretary. Prior to the decision being released R. M.

Ross of Benton Ross Publishers Limited, which is the holder of the New Zealand rights for this publication, sought a rehearing as he had had no notice of the hearing. The rehearing was granted and was set down for 8 November when there was no appearance on behalf of the importer.

The above publication was first published in Britain in 1982 by Sheba Feminist Publishers.

It is a soft covered 'picture' book of about 50 pages. The introduction or 'What this Book Is About' says:

"This is a book about sex. It is different from most childrens' books about sex because it is mostly for girls and boys whose bodies have not started to change into grown ups."

As the introduction also points out, another different thing about this book is that you will be invited to 'write and draw a lot of it.' The readers are also invited to 'help a younger boy or girl with the book, like your brother or sister or cousin or friend'.

The book covers 4 main topics:

- The external differences between male and female bodies.
- Childrens' bodies.
- Sexual intercourse.
- Masturbation and sexual orientation.

The Tribunal would agree with the Secretary for Justice that in its favour:

- the book is well written and well illustrated.
- there is no reason to doubt the author's honesty of purpose.
- the information contained in the book is presented in a straight forward and unaffected way.
- the price of the book means that it is unlikely to be bought by children.

However the book does cause the Tribunal a lot of concern. Because of this, we have sought opinions from Gary McCrae, Registered Psychologist, Inspector of Schools, Special Education and Dr G. W. K. Bridge, Consultant Psychiatrist.

In his report, Mr McCrae includes the following points:

- reading level is approximately 10 years and is probably sighted at the 8-11 year level.
- it is written prescriptively rather than descriptively, and as it is written by adults, children subjected to reading it would see the acts suggested as the correct thing to do.
- it is a very one sided viewpoint put forward and the age group for which it is produced accept adults as the authority therefore children will do as the book suggests, this book could be misused by another to encourage a younger child to touch and be touched, etc.
- the book may be acceptable for informing adolescents about sex, but it is dangerous and prescriptive to any pre-adolescents.

Dr Bridge says:

"In my opinion, the age group it is aimed at would be far too immature to either understand or cope with much of the information promulgated in it. It would only deepen, in my view, to confuse an already difficult area of development for children to learn about."

He goes on to say:

"I am also somewhat concerned at the obsession the authors have regarding masturbation and also their leap into homosexuality as being the norm for children. Children of this age have certainly not made their own minds up regarding homosexuality as it would be a foreign experience for them."

We have taken the opportunity of showing this book to a wide cross-section of parents of children of the age at whom this book is directed. It can be said, we think, without exception that all disapproved the book and its contents. By the same token we have to bear in mind that the book has been available in book shops in New Zealand since 1983. Indeed it was because a parent had purchased the book that it was referred to the Secretary for Justice for referral to the Tribunal.

We are aware from the Department of Education also that concern has been expressed that this book should have been available for sale in book shops throughout the country. This aspect has made it very difficult for us because it savours very much of locking the stable door after the horse has bolted. Had the book been referred to us prior to being made available for sale, our conclusion might have been different but because of its availability over such a long period we feel justified in classifying it indecent for those under the age of 13 unless under instruction or supervision of parents or professional advisors.

Export Performance Taxation Incentive—Schedule of Qualifying Services—Amendment No. 3

PURSUANT to section 156C (6) of the Income Tax Act 1976, notice is hereby given by Secretary of Trade and Industry that the Minister of Finance and the Minister of Overseas Trade and Marketing have approved an amendment to the Schedule of Qualifying Services published in the *New Zealand Gazette* of 29 May 1980 which inserts into the Schedule, after the word "Planning", the following words:

"Marketing Research—the systematic collection and objective recording, classification, analysis and presentation of data concerning the behaviour, needs, attitudes, opinion, and motivations of persons and organisations (commercial

enterprises, public bodies, etc.) within the context of their economic, social, political and every-day activities. Marketing Research also covers social research, insofar as the latter uses similar approaches and techniques in its study of issues and problems not directly connected with the marketing of goods and services and includes those forms of research commonly referred to as industrial marketing research and as desk research, where these are concerned with the acquisition of original data from the field and not simply the secondary analysis of already available data."

This amendment shall apply from the income year that commenced on 1 April 1982.

Standard Grade for the Export of Apricots (Notice No. 3411; Ag. 12/2/14)

THIS notice revokes the Standard Grade for the Export of Apricots Notice 1977 (No. 1626, Ag. 12/2/14) published in the *New Zealand Gazette*, Thursday, 3 February 1977.

Pursuant to the New Zealand Grown Fruit and Vegetables Regulations 1975*, the Director-General of Agriculture and Fisheries hereby gives notice that the Standard Grade for the Export of Apricots shall be set out in this notice.

NOTICE

1. **Title**—(1) This notice may be cited as the Standard Grade for the Export of Apricots Notice 1984.

(2) This notice shall come into force on the day after the date of its notification in the *New Zealand Gazette*.

2. **Interpretation**—Unless the context otherwise requires, terms and expressions used in this notice shall have the same meaning as in the New Zealand Grown Fruit and Vegetables Regulations 1975*. Certain of these terms and expressions as applicable to fruit are defined in the First Schedule to this notice.

3. **Application of Notice**—This notice determines the standard grade for the export of apricots from New Zealand.

4. **Title and Grade**—The grade mark assigned to this standard grade shall be Class I (hereinafter referred to as 'the grade').

NOTE—Consignments to European markets may have to meet specific OECD grade requirements. Refer to Second Schedule for further information.

5. **Definition of Produce**—This grade applies to apricots grown from varieties of *Prunus armeniaca*(L) to be supplied fresh to the consumer.

6. **Provisions Concerning Quality**—The purpose of this standard is to define the quality requirements for apricots at the dispatching stage, after preparation and packaging.

(a) The apricots must be;

- free from pests and diseases and meet any quarantine and other legal requirements of the importing country;
- intact, whole fruit;
- sound;
- clean;
- reasonably well formed typical of variety and not more than slightly misshapen;
- free from abnormal external moisture;
- free of foreign smell or taste.

(b) The apricots must have been carefully picked and of a similar degree of maturity and colouring in the same line of produce. They must have matured sufficiently to complete the ripening process and be able to withstand handling, storage and transport to meet the market requirements at the place of destination.

(c) The apricots must be of good quality and have characteristics typical of the particular variety and be free of defects which:

- (i) may significantly impair the general appearance or keeping quality of the fruit, or
- (ii) are likely to make the fruit unattractive to the purchaser.

(d) The flesh must be sound, but each apricot is permitted a slight defect of shape, development or colouring and skin defects of a superficial nature such as light russet and that caused by limb or leaf rub, hail, scattered spots or speckles, healed shallow cracks or scars within the stem cavity, provided: the aggregate area of one or more defects does not exceed 0.5 square centimetres and defects of an elongated nature do not exceed 1 centimetre in length.

7. **Provisions Concerning Sizing**—Sizing is determined by the diameter of the equatorial section. The minimum size allowed for export is 40 mm. The difference in diameter of apricots in the same package shall not exceed 5 mm.

8. **Provisions Concerning Presentation**—

(a) **Uniformity**—The contents of each package must be uniform; each package must contain only apricots of the same origin, variety, quality, degree of ripeness and size.

The visible part of each package must be representative of the entire contents.

(b) **Packaging**—The apricots must be packed in such a way as to ensure that they are suitably protected.

The materials, and particularly the paper used inside the package, must be new, clean and of a quality such as to avoid causing any external or internal damage to the produce. The use of materials and particularly of paper or stamps bearing trade specifications is allowed provided that the printing or labelling has been done with a non-toxic ink or glue.

Packages must be free of all foreign matter.

9. **Provisions concerning marking**—Each package must bear the following particulars in letters grouped on the same side, legibly and indelibly marked and visible from the outside:

- Identification—registered mark of grower or packing establishment and exporter's identification;
- Nature of produce—kind and variety;
- Country of origin—New Zealand;
- Packing date code—registering the date of packing;
- Commercial specification—grade, count or size.

Labels, if used, must not be less than 40 square centimetres.

FIRST SCHEDULE

DEFINITION OF TERMS

“Clean” means free from dirt, dust, insect stains or other foreign substance or material;

“Count” means the number of fruit contained in any package;

“Mature” means that the fruit will properly complete the ripening process and is suitable for export;

“To pack” means to arrange fruit regularly and compactly in a package so that they are not loose or compressed to an extent likely to cause damage to the fruit during handling or transport;

“Sound” means free from decay, rots, overmaturity, breakdown, freezing injury, damage and similar defects which may cause rapid loss of condition or rapid decay;

“Storage defects” means decay, storage scald, fungal rots, wilt, or other injury to fruit as a result of storage.

SECOND SCHEDULE

GRADE REQUIREMENTS FOR EUROPEAN MARKETS

1. Some European countries are members of the OECD Scheme for the International Standardisation of Fruit and Vegetables and as such NZMAF is required to supply an OECD Control Certificate stating that the produce conforms to the OECD Scheme's grade standards.

2. Before exporting apricots to a European country, exporters should check with a Regional Ministry of Agriculture and Fisheries office to ascertain if the importing country requires a control certificate, and obtain a copy of the OECD grade standards.

Notwithstanding clause 2 of this Schedule it is the responsibility of the exporter to ensure that produce exported meets the legal requirements of the importing country and the specifications of the importer.

GENERAL INFORMATION

The following explanatory notes do not form part of this standard grade, but are presented for the information of growers/exporters.

1. In order to certify produce fit for export a certifying officer may require information from the exporter to the effect that the property on which the fruit was produced has been registered for export. It is the responsibility of the exporter to obtain this information from the Executive officer of the New Zealand Stonefruit Export Council.

2. To assist with the interpretation of 'sound', fruit that has not been exported within 18 days of harvest will be considered unsound.

D

3. Growers and exporters must ensure that fruit is kept under optimum storage conditions between harvest and dispatch.

NOTES TO THE ACCOUNTS

1. Statement of Accounting Policies:

(a) **General Accounting Principles**—The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profit and financial position under the historical cost method has been followed in the preparation of these accounts, except for the revaluation of land and buildings.

(b) **Particular Accounting Principles**—The following particular accounting principles which materially affect the measurement of profit and financial position have been applied:

(i) **Interest Income**—Interest is recognised on an accrual basis. Personal Loan interest excludes unearned interest, and has been apportioned according to the Rule of 78 method.

(ii) **Fixed Assets**—All fixed assets are valued at cost less accumulated depreciation with the exception of land and buildings which have been revalued to 90 percent of Professional Valuations.

For accounting purposes, depreciation is calculated using straight line rates based on the economic life of the assets. The following lives have been estimated:

Buildings	40-50 years
Furniture and Fittings	7-10 years
Office Equipment	5-10 years
Motor Vehicles	3 years to estimated residual value.

(iii) *Taxation*—The charge for Income Tax is the amount of the tax liability in respect of the accounting profit for the year and includes both current and deferred tax.

Deferred Taxation arises from timing differences between accounting and taxation recognition of income and expenditure. These differences relate to depreciation and investment income.

(iv) *Current Assets*—Debtors are valued at expected realisable value. Stock on Hand as shown in the Balance Sheet represents bulk stationery supplies valued at cost less a provision for obsolescence.

(v) *Investments*—Investments are disclosed at cost except for Government Stock which is at cost adjusted by interest accrued contained in the purchase price, and by the amortisation on a straight line basis of premiums and discounts over the term of the investment. In accordance with this policy the amortisation credited to revenue for this financial year amounts to \$155,088 (1983—\$87,425).

(c) *Changes in Accounting Policies*—There have been no changes in accounting policies that would have a material effect on the determination of profit for the year.

AUDITOR'S REPORT TO THE TRUSTEES OF THE EASTERN AND CENTRAL SAVINGS BANK

We have examined the balance sheet of the Bank as at 31 March 1984, and the related profit statement and statement of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet, profit statement and statement of changes in financial position present fairly, using the historical cost method, the financial position of the Bank at 31 March 1984, and the results of its operations and the changes in financial position for the year then ended, in conformity with generally accepted accounting principles applied on the basis consistent with that of the preceding year.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Accounting Policies

General Accounting Policies

The following accounting policies have been adopted by the Bank in the preparation of the financial statements:

- (a) The historical cost basis is used, modified for the revaluation of land and buildings, and Government and Local Authority Stock.
- (b) Accrual accounting is used to match expenses and revenue.

Particular Accounting Policies

Recognition of Income

Income shown in the profit statement is earned in the current year and includes the amortisation of premiums and discounts on the purchase of Government and Local Authority Stock. In the case of personal loans interest is added to the advance at the commencement of the loan and brought into revenue during the appropriate financial years in accordance with the 'Rule of 78'.

Expenditure

Interest Credited to Depositors

Interest on savings and current accounts is credited at 31 March and paid on accounts closed during the year. Investment accounts which are credited with interest during the year have had an appropriate adjustment made for interest accrued to 31 March.

Other Expenses

Other expenses, including expenditure on computer program development, are charged to the accounts in the year in which the expenditure is incurred.

Depreciation

Fixed assets, other than freehold land, are depreciated on a straight line basis at rates estimated to write off the cost or revalued amount, less residual value, over the economic life of each class of asset.

The principal annual rates in use are:

- Buildings—1 percent to 2 percent.
Computer equipment, office furniture and motor vehicles—10 percent to 15 percent.

Taxation

Taxation charged against profits for the year is the estimated expense for the year. Tax allocation accounting has been adopted by the Bank for significant timing differences in respect of accrued investment income, depreciation, capital profits and losses, and amortisations of Government and Local Authority Stock.

Valuation of Assets

Current Assets and Investments

All current assets and investments are shown at cost with the exception of Government and Local Authority Stocks. Government and Local Authority Stocks are valued at cost adjusted by the amortisation of the discount or premium on purchase, calculated on a yield basis, over the term of the stock. The discount or premium is calculated after adjusting for interest accrued in the purchase price.

Fixed Assets

Fixed assets are shown at cost less accumulated depreciation with the exception of revalued land and buildings which are shown at 90 percent of an independent valuation.

Changes in Accounting Policies

There have been no changes in the accounting policies this year.

AUDITORS' REPORT TO THE TRUSTEES OF THE OTAGO SAVINGS BANK

We have obtained all the information and explanations that we have required. In our opinion proper accounting records have been kept by the Bank so far as appears from our examinations of those records.

In our opinion, the financial statements on pages 1 to 6 give, using the historical cost method modified by the revaluation of land and buildings, a true and fair view of the financial position of the Bank at 31 March 1984 and the results of its operations and the source and application of funds for the year ending on that date.
