AUSTRALIA - NEW ZEALAND CLOSER ECONOMIC RELATIONS—TRADE AGREEMENT (ANZCERTA)

CERTAIN CER EX-NAFTA LICENCE AND OTHER
ANZCERTA LICENCE ISSUES

I CER Ex-NAFTA Schedule A Licences Allocated by the Australian Government

In terms of Article 5, paragraph 18 of ANZCERTA, exclusive access for goods under NAFTA has been maintained additional to the ANZCERTA access formula.

Under Article 20, paragraph 2 of ANZCERTA, the Australian Government retained the right for the 1983-84 and 1984-85 import licensing years, for certain product categories, to nominate the Australian exporters and apportion the licence allocation, as was previously the case under Schedule A of NAFTA. In 1983-84 these licences were issued as type 11; in 1984-85, as type 10. For 1985-86 the allocation of these licences will be taken over by the New Zealand Government. Licence will be allocated to the 1984-85 licence-holders. Where access levels have not been fully taken up, the balance is available on request to the Executive Officer, General Industries 2, Department of Trade and Industry, Private Bag, Wellington.

Although it is intended to reissue these licences for 1985-86 to the 1984-85 holders, their reissue in subsequent years could be dependent on usage.

II CER Ex-NAFTA Schedule A Licences Allocated by the New Zealand Government

In terms of Article 5, paragraph 18 of ANZCERT, exclusive access for goods under Schedule A of NAFTA has been maintained additional to the ANZCERT access formula.

Under Article 20, paragraph 2 of ANZCERT, allocations of access are determined by New Zealand where NAFTA Schedule A access was not fully allocated or where only one Australian exporter was interested in the market for the 1982-83 import licensing period.

For these Ex-NAFTA Schedule A product categories, New Zealand allocates the licence to the previous licence-holders. Although these licences are normally issued to previous licence-holders, their reissue in subsequent years could be dependent upon usage. As noted in I above, the New Zealand Government will take over the allocation of all CER Ex-NAFTA Schedule A licences for the 1985-86 import licensing period.

Where access levels have not been fully taken up, the balance is available on request. Interested importers should apply in writing to "The Executive Officer, General Industries 2, Department of Trade and Industry, Private Bag, Wellington".

(a) CER Ex-NAFTA Schedule A Licences Allocated by the New Zealand Government issued for 1983-84 (as Type 10)

Details of the large majority of these licences were published in the Supplement (No. 220) to the *New Zealand Gazette* of Thursday, 15 December 1983, published Tuesday, 20 December, "ANZCERT: Certain 1983-84 CER Ex-NAFTA Licence and ANZCERT Licence Issues" pages 4576-4577.

However, in the period between the preparation of that *Gazette*, and the expiry of the 1983-84 licensing period, 30 June 1984, the following licence was issued:

VIII ANZCERT: Guideline "R" Rationalisation/Complementation Policy

Guideline "R" of the "Guidelines for the Allocation of Manufacturers' Exclusive Australian Licences" is considered to be an important element of ANZCERT because it provides the basis for using the agreement to progress the development of efficient export-orientated industries in New Zealand.

By providing additional licences, Rationalisation/Manufacturers' Exclusive Australian Licences (R/MEALs), to companies involved in significant product rationalisation and/or product complementation proposals, Guideline "R" will enable individual manufacturers to place themselves in a better position to compete and trade successfully in the New Zealand/Australia free trade area as access is progressively liberalised.

Under Guideline "R" consideration can be given to the issuing of additional licence where the share of a MEAL received by a manufacturer does not allow rationalisation/complementation to proceed as quickly as desired, or where no MEALs have been received. Where Guideline "R" licences are issued these are additional to the ANZCERT EAL formulae.

Full details of the Guideline "R" provision are contained in the I.L.S. 1984, pages 218-219.

Rationalisation/Manufacturers' exclusive Australian licences (R/MEALs) issued to date (i.e. from 1 July 1983 to 31 January 1985), by item code and by import licensing year of their start date, excluding first-year grants of licence which have not yet expired. (However, the total of all R/MEAL issues to date is given at the end of this table).

Notes:

- (i) "R" denotes "repeat"—i.e. the second-year grant for an arrangement.
(ii) The balances of licences current at 16 August 1984 were increased automatically by Customs for devaluation.
(iii) The brief descriptions are of the goods in each item code, not the actual goods for which the licence was issued, and are, except where otherwise stated, taken from the Import Licensing Schedule 1984. Licences issued in the 1983-84 import licensing period would have been issued in terms of the Import Licensing Schedule item code descriptions current at the time.
