PAPER REVIEW - CHAPTER 48 CONCESSIONS

The following concessions are the result of the review of tariff concessions of Chapter 48 (previously advertised in Tariff Notice 84/263). These replace all the existing concessions of Chapter 48 which are cancelled by this notice.

The threshold values for determinations are currently being considered and any amendments will be published in a later notice.

A number of concessions have been cancelled, including some recently approved by Ports. In general, the reason is that these are either duplications of existing concessions or the wording is being assessed for possible reinstatement.

Applications for individual shipments will be considered where goods were imported and not covered by concession at the time of importation prior to implementation of the new concessions. Applications should be forwarded to:
