## **SUMMARY**

OF THE

## **RECEIPTS AND PAYMENTS**

OF THE

## **PUBLIC ACCOUNT**

FOR THE

YEAR ENDED 31 MARCH 1985

### INTRODUCTION TO THE SUMMARY

This summary of the receipts and payments of the Public Accounts is produced quarterly and published in terms of section 67 of the Public Finance Act 1977. The contents of the summary are as follows:

- Statement of Accounting Policies, outlines the general accounting principles on which the accounts are prepared, and the particular accounting policies adopted.
- Summary Information Section—Containing high level summaries of the financial transactions of the Public Account. The section currently comprises two tables and the intention is to include more tables as they are developed.
- Consolidated Account, the main operating account within the Public Account. All receipts must be credited to this account unless there
  is specific statutory provision to the contrary. e.g., proceeds of loans, and Road User Charges. The main revenue items in the account
  are direct and indirect taxation, interest received, dividends and profits from Corporations and trading undertakings, and departmental
  receipts.
  - The bulk of Government expenditure is met from this account by way of annual appropriations through votes (see the Estimates of Expenditure B. 7 [Pt. I]), and permanent appropriations made pursuant to various statutes.
- Loans Account, records the proceeds from all new loans raised (except those raised for redemption of loans) in New Zealand or Overseas during the financial year. The payments side of the account records the disbursement of these proceeds by annual and permanent appropriations, and by way of transfers to other accounts within the Public Account. A non cash item is included on both the receipts and payments side of the account to record the value of capital equipment purchased under credit arrangements.
- Loans Redemption Account, records how loan moneys received specifically for the purpose of repaying or redeeming public debt, together with other receipts credited to the account, have in fact been applied to convert or repay public debt. The account also records cash received and paid in respect of the issue and redemption of Treasury bills.
- National Roads Fund, is established under section 22 of the National Roads Act 1953. Its purpose is to record certain indirect taxation revenues specifically set aside to fund expenditure on construction and maintenance of roads. The account also records other moneys appropriated for these purposes.
- Reserve Account, records funds set aside to meet future contingencies. Transfers into this account are made from the Consolidated Account, but if a contingency arises the funds may be transferred to any of the other accounts within the Public Account.
- Trust Account, contains over 50 separate accounts and is primarily used to record moneys received or held in trust. Moneys paid into the account are generally available to be applied only for the specific purpose for which they were received.
- The Summary of Balances and the Composition of Balances.
- Notes to the Accounts, contains additional explanatory information on specific receipts or payments items.

#### STATEMENT OF ACCOUNTING POLICIES

#### General Accounting Policies

The Public Accounts comprise the 5 operating accounts established by sections 38 to 42 of the Public Finance Act 1977, together with a suspense account created under section 37 (1) (c) of that Act, and the National Roads Fund established by section 22 of the National Roads Act 1953. A brief description of each of the operating accounts is given in the introduction to this summary. The Suspense Account is a clearing account for receipts banked to the Public Account.

The "Public Account" refers to the bank account of that name kept at the Reserve Bank of New Zealand.

This summary reflects only those transactions relating to departments or activities operating within the Public Account. It does not reflect transactions of accounts to which sections 68 and 69 of the Public Finance Act apply. All transactions are reported on the cash basis of accounting.

The amounts shown in this summary represent the cumulative result of transactions from the beginning of the financial year at historic cost.

#### Recognition of Receipts and Payments

Receipts for money paid into the Public Account are initially credited to the Suspense Account. The receipts are subsequently recognised by debiting the Suspense Account when the revenue receiver advises Treasury of the particular account code to be credited. The balance to the credit of the Suspense Account at the end of each accounting period is disclosed in the Summary of Balances.

Payments are brought to charge as expenditure in two ways:

— if money is paid from the Public Account Disbursement Account, it is recognised as a payment immediately.

— if money was paid from an imprest account, it is recognised as a payment when Treasury is advised of the particular account code to be debited. Money advanced to Imprestees but remaining unspent at the end of each accounting period forms part of the cash balances.

### **Particular Accounting Policies**

The following particular accounting policies which affect the contents of the accounts have been adopted—

#### Recognition of Interdepartmental Transactions

Transactions occurring between Government Departments are recognised on the following basis:

if it was a cash transaction, then the accounting policy on recognition of receipts and payments above applies.

if it was a non-cash transaction, then the transaction is recognised when Treasury is advised of the accounting codes to be credited and debited.

### Foreign Currencies

As a general rule receipts and payments are converted into New Zealand currency at a special exchange rate fixed at the mid-point between the buying and selling rates for each foreign currency quoted by the Reserve Bank. This rate is retained until it is at variance by 2 percent with the actual mid-point of the buying and selling rate.

All rates are adjusted on an official revaluation and on 1 March in each year.

Any gains or losses arising from differences between actual rates of exchange used for transactions and the special mid-point rate are disclosed in the public accounts.

An exception to the general rule is made for certain types of receipts such as the proceeds from loans raised overseas and repatriated to New Zealand. In these cases the exchange rate used is the actual bank rate at which the foreign currency was converted to New Zealand dollars.

#### Investments

Investments of Public Account Balances are recorded at cost price in foreign currency and converted at the mid-point exchange rate into New Zealand dollars. These investments are subsequently adjusted when changes occur in the mid-point exchange rates. Capital gains or losses arising from investment transactions are recognised when realised and are disclosed in the public accounts. Balances of investments in Companies and Government Agencies are not reported in quarterly summaries.

### Changes in Accounting Policies

There have been two changes in accounting policies in respect of the Reserve Bank indemnity, which is payable under section 26 of the Reserve Bank of New Zealand Act 1964 to reimburse the bank for the net depreciation in its overseas assets and liabilities arising from changes in currency values in the period between 1 March and 28 February. The calculation of the indemnity includes both actual or realised losses for the period and estimated losses on forward transactions.

The changes in accounting policies are as follows:

- The total claim on the Reserve Bank indemnity for 1984-85 includes full payment for realised and unrealised exchange losses. In previous years only realised losses were settled.
- The policy of settling the indemnity by the issue of non-interest bearing stock was discontinued. This year settlement has been made by a cash payment from the Consolidated Account rather than Loans Account.

With the above exceptions there have been no changes in accounting policies, which have accordingly been applied on bases consistent with those used in previous years.

### NOTES TO THE ACCOUNTS

#### 1. Income Tax

Income tax is net of refunds, and advance payments to the Accident Compensation Corporation in respect of self-employed levies. Refunds to exporters in terms of the Income Tax Act 1976 were \$196,589,576 for 1984-85 and \$237,005,297 for 1983-84. Advance payments to Accident Compensation Corporation were \$19,726,972 for 1984-85 and \$22,478,625 for 1983-84.

#### 2. Interest on capital liability

Energy Oil and Gas

In previous years the interest on capital liabilities incurred by the Oil and Gas Division of the Ministry of Energy were capitalised. The Ministry of Energy has decided to repay a portion of the capitalised interest incurred by the Oil and Gas Division. The total interest that remains outstanding at 31 March 1985 for the division is \$15,498,225.

### Revolving fund

The initial capital liability of all revolving funds is determined under section 99 of the Public Finance Act 1977.

The amount shown is the interest on the capital liability which is transferred from the Trust Account, made up as follows—

Computer Services Division \$4,420,814 Government Printing Office \$681,127

### 3. Dividends and Profits-Post Office

The sum of \$62,000,000 is a dividend paid by the Post Office. The comparative balance for 1983-84 (\$3,560,000) is the profit from the Post Office Savings Bank which under the Post Office Amendment Act 1985 is now no longer required to be paid to the Public Account.

### 4. Miscellaneous Payments

This item includes the following payments:

- Government guarantee for \$533,373 issued in terms of section 86 (2) of the Public Finance Act 1977 in respect of Timber Stockpile Ltd.
- Reserve Bank Indemnity for \$746,187,942. Since 1981-82 the Bank was reimbursed from Loans Account however this financial year settlement was made by Cash from the Consolidated Account. The actual or realised loss is \$197,755,536 and the balance \$548,432,406 is the Bank's estimate of potential losses on forward currency purchases.

#### 5. Annual Appropriations—Vote Stabilisation

Payments previously made from this vote are now made as follows-

Subsidy on milk-from Vote Agriculture and Fisheries.

Subsidy on transport of liquid petroleum gas-from Vote Energy.

#### 6. Ministry of Energy

The Consolidated Account receipts and payments relate only to the non-trading activities of the Ministry. The Loans Account payments relate to the portion of the Ministry's trading activities advanced from the Public Account.

### 7. Special Receipts

### **Auckland Harbour Bridge Authority**

The Auckland Harbour Bridge Authority was dissolved on 31 March 1984. Investments in property and securities have been acquired by the New Zealand Government and these are being administered by the Ministry of Works and Development.

The receipt for \$780,000 represents principal repayment of short term investments.

### Christmas Island Phosphate Commission

The receipt of \$1,414,731 is the final payment received in respect of New Zealand's share of the net assets and liabilities of the Christmas Island Phosphate Commission which has now been wound up.

#### **Government Printing Office**

The receipt of \$11,969,881 is a transfer from the Government Printing Office Fund in the Trust Account being funds surplus to normal operational requirements at 31 March 1984.

### Effect of 18 July 1984 Devaluation on Public Account Balances

In accordance with the particular accounting policies pertaining to Investments and to Foreign Currencies, investments of Public Account Balances were realigned to reflect the devaluation of 18 July 1984. This has resulted in an increase in investment balances of \$53,009,197 for Reserve Account investments and \$140,552,770 for other public account investments. These figures are included respectively under the items "Adjustment of value of investments consequent on changes in exchange rates" in the Reserve Account, and "Adjustment of balances consequent on changes in exchange rates" in the Consolidated Account.

### **Notional Tax Payments**

The receipt of \$100,440,000 is a payment to the Consolidated Account in lieu of income tax from-

Government Printing Office \$1,440,000 Post Office \$99,000,000

#### Rural Banking and Finance Corporation

The repayment is in respect of an overclaim of concessions on interest for general lending in 1983-84.

#### 8. Discount on Government Stock

This discount is the difference between the purchase price and the nominal value of Government stock purchased from the Reserve Bank of New Zealand. The nominal value of the stock is included in the Loans Redemption Account under loans repaid in New Zealand.

#### 9. Suspense Account

As set out in the General Accounting Policy pertaining to recognition of receipts and payments the Suspense Account contains moneys received but not yet allocated to a particular fund or account.

B. V. Galvin, Secretary to the Treasury. 2 May 1985

C. F. Sproule, Director, Financial Management, Treasury. 2 May 1985

### REPORT OF THE AUDIT OFFICE

The Audit Office, having been appointed in terms of section 25 of the Public Finance Act 1977, has audited the foregoing summary of the receipts and payments of the Public Account for the year ended 31 March 1985. In terms of section 67 of that Act, the Audit Office is of the opinion that the summary on pages 2299 to 2313 properly reflects, in accordance with the accounting policies set out on page 2299, the financial transactions of the Public Account for the year.

J. T. Chapman, Deputy Controller and Auditor-General. 16 May 1985.
