*Tariff Quota Tendering—Call for Tenders 1985/86*

PURSUANT to section 120(5) of the Customs Act 1966 and within the terms of the Australia - New Zealand Closer Economic Relations Trade Agreement (ANZCERTA), the Comptroller of Customs, acting under the delegated authority is calling tenders for Tariff Quotas (Tendered Australian Tariff Quota—TATQ) for grape wine with an FOB value of \$2 or more.

Guide notes to Tariff Quota Tendering are set out below.

Tenders should be addressed to the Comptroller of Customs, Private Bag, Wellington—attention G. A. McTaggart Tariff Concessions, or delivered by hand to the Sixth Floor, Investment House, Whitmore Street, Wellington. Tenders should reach the office of the Comptroller of Customs no later than 4 p.m. on Friday, the 2nd day of August 1985. Envelopes should be marked Tariff Quota Tender.

## NOTES

1. Tenderers are advised that quotas issued under this call for tenders will be for the importation of grape wine classified under Tariff Items 22.05.022 and 22.06.022 only. (Refer to Schedule of Tariff Items.)
2. Quota allocations made under this call for tenders will be for goods from Australia which comply with the ANZCERTA rules of origin as detailed in the Agreement. Enquiries should be directed to the Collector of Customs.
3. Tenderers should be conversant with the various statutes and regulations governing the importation and sale of wine.

## GUIDE TO TARIFF QUOTA TENDERING

1. Tenderers are to express their bids as an amount per litre, e.g. (\$1 per litre) even though the quotas will be issued on a value basis.
2. Quotas will be allocated to the successful tenderers on the basis of the number of Tariff Quota allocation sizes. The successful tenderers will receive a duty concession, issued under Reference 99 of Part II of the Customs Tariff, for Tariff Items 22.05.022 and 22.06.022 which will reduce the normal rate of duty down to the level of the bid plus 85c per litre plus 10 percent, e.g., if a bid was received for \$1 per litre the concession rate would be \$1.85 per litre plus 10 percent of the Customs Value.
3. The successful tenderers will be those who submit the highest valid bids for the available Tariff Quota units. A bid of more than \$2 per litre is unnecessary because any Australian wine with an F.O.B. value of \$2 or more per litre may be imported without Quota provided duty of \$2.85 per litre plus 10 percent of the Customs Value is paid. A Tariff Quota will not be issued for wine having an FOB value of less than \$2 per litre.
4. Results of all tenders will be published in the *Gazette* which is available at Government Bookshops. Government Bookshops are located at Hannaford Burton Building, Rutland Street (Private Bag, C.P.O.), Auckland 1; Kings Arcade, (P.O. Box 857), Hamilton; Head Office, Mulgrave Street (Private Bag), Wellington 1; Wellington Trade Centre, Cubacade (Private Bag), Wellington; 159 Hereford Street, (Private Bag), Christchurch 1; Cargill House, Princes Street (P.O. Box 1104), Dunedin.
5. Quotas obtainable under the Tariff Quota Tendering will not count towards history for the Global Tariff Quota and will not be taken into account in the administration of any policies under the general system.

## WHO CAN BID

Tenders may be submitted by any person or enterprise domiciled in New Zealand.

## LIMITATION ON BIDS

There is no restriction on the number of bids a tenderer may bid for, but it may be necessary to review the number of units allocated to individual tenderers if the total amount available for allocation is exceeded.

## TENDERING FORMAT

1. Tenders are to be made by letter,
2. The following information must be given:
  - (a) Name and address of tenderer;
  - (b) Number of units tendered;
  - (c) Amount per litre of the bid.

## ADVICE AND PUBLICATION

1. Following the closing of Tenders, bids will be publicly opened in the department's Head Office, Conference Room, Investment House, Wellington, in the presence of a Justice of the Peace, on Wednesday, the 7th day of August 1985 at 11 a.m.
2. Successful tenderers will receive a Tariff Quota Allocation which will show the c.i.f. value of the wine which may be imported and the concession rate of duty applicable.
3. Unsuccessful tenderers will be notified by letter.
4. The name and allocation of all tenderers, successful and invalid and the amount bid in each case will be published in the *Gazette* as soon as possible after the opening of the tenders.

## PERIOD OF TARIFF QUOTA

Tariff Quotas issued under this ANZCERTA Tendering will be available until the 30th day of June 1986.

#### NOTICE OF INTENTION TO TAKE LAND FOR AN ESSENTIAL WORK

SECTION 23, PUBLIC WORKS ACT 1981

NOTICE is hereby given that the Wanganui City Council proposes to take under the Public Works Act 1981, the land described in the Schedule of this notice.

The land is required for the widening of the carriageway of Somme Parade, a street in the City of Wanganui. Such a requirement is an essential work under the Public Works Act 1981 by reason of it being a public work required for a road. The Wanganui City Council further considers it essential to take the land because the road, while being designated Arterial 1 because of its planned use as a major route, is a present restricted over parts of its length to one-way traffic and the land intended to be taken is needed to carry out the road widening to its design standards.

Any person wishing to object must send a written objection to the Registrar, the Planning Tribunal, Tribunals Division, Justice Department, Private Bag, Postal Centre, Wellington, within 20 working days after publication of this notice.

#### SCHEDULE

PART of that parcel of land situated at 7 Somme Parade, Wanganui, more particularly described as 358 square metres, more or less, and being part Sections 106 and 107, Town of Wanganui and being part of certificate of title, Volume 52, folio 110 (Wellington Registry) and shown as A on S.O. 34177.

## NOTES TO THE ACCOUNTS

1. *Statement of Accounting Policies:*(a) *General Accounting Principles—*

(i) The measurement base adopted is that of historical cost modified by the revaluation of certain assets. Reliance is placed on the fact that the bank is a going concern.

(ii) Accrual accounting is used to match expenses and revenues.

(b) *Particular Accounting Principles—*The following particular accounting principles which materially affect the measurement of profit and financial position have been applied:

(i) *Interest Income*—Interest is recognised on an accrual basis. Personal Loan interest excludes unearned interest, and has been apportioned according to the Rule of 78 method.

(ii) *Fixed Assets*—Fixed assets are valued at cost less accumulated depreciation with the exception of land and buildings which have been revalued to 90 percent of Professional Valuations.

Depreciation is provided on a straight line basis at rates that will write off the cost or valuation of the assets, less their estimated residual values, over their estimated useful lives. Land is not depreciated. The useful lives of the major classes of assets have been estimated as follows:

Buildings .....	40–50 years
Furniture and fittings .....	7–10 years
Office equipment .....	5–10 years
Motor vehicles .....	3 years to estimated residual value.

(iii) *Taxation*—The charge for Income Tax is the amount of the tax liability in respect of the accounting profit for the year and includes both current and deferred tax.

Deferred Taxation arises from timing differences between accounting and taxation recognition of income and expenditure. These differences relate to depreciation and investment income.

(iv) *Current Assets*—Debtors are valued at expected realisable value. Stock on Hand as shown in the Balance Sheet represents bulk stationery supplies valued at cost less a provision for obsolescence.

(v) *Investments*—Investments are shown at cost with the exception of Government and Local Authority Stocks. Government and Local Authority securities are regarded as long term investments and are redeemable on maturity at their face value. These securities are valued at cost, adjusted by the amortisation of the discount or premium on purchase spread over the term of the stock. The discount or premium is calculated after adjusting for interest accrued in the purchase price. In accordance with this policy the amortisation credited to revenue for this financial year amounts to \$139,765 (1984, \$155,088).

(c) *Changes in Accounting Policies*—There have been no changes in accounting policies that would have a material effect on the determination of profit for the year.2. *Investments:*

Estimated market value of Government Securities as at 31 March 1985, \$63,177,449. (March 1984, \$64,369,254).

The realisable value of fixed interest securities fluctuates with movement in market yields. It is customary for such fluctuations to be disregarded in the reporting of the results of the long term institutional investor as stocks are generally held until dates of maturity.

The Government Guarantee of Depositors' Funds including accrued interest in terms of Section 44 of the Trustee Banks Act 1983 and subsequent amendments was in force at balance date and continues to remain in force. However, the requirements to hold New Zealand Government Securities pursuant to the same Act was removed on 11 February 1985.

## AUDITOR'S REPORT TO THE TRUSTEES OF THE EASTERN AND CENTRAL TRUSTEEBANK

WE have examined the balance sheet of the Bank as at 31 March 1985, and the related Profit Statement and Statement of Changes in Financial Position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we consider necessary to the circumstances.

In our opinion, the accompanying balance sheet, profit statement and statement of changes in financial position present fairly, using the historical cost method, the financial position of the Bank at 31 March 1985, and the results of its operations and the changes in financial position for the year then ended, in conformity with generally accepted accounting principles applied on the basis consistent with that of the preceding year.
