The Pukerimu Irrigation Order 1985

DAVID BEATTIE, Governor-General
ORDER IN COUNCIL

At the Government House at Wellington this 22nd day of July 1985

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

PURSUANT to section 208 of the Public Works Act 1981, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following order.

ORDER

1. This Order may be cited as the Pukerimu Irrigation Order 1985.
2. The Minister of Works and Development is hereby authorised to construct, maintain and control the water supply works described in the First Schedule hereto to serve the district described in the Second Schedule hereto. On completion the Waipa County Council shall administer the scheme on behalf of the Minister.
3. The area of land described in the said Second Schedule is hereby constituted as an irrigation district, to be known as the Pukerimu Irrigation District (herein referred to as "the district").
4. It is hereby declared that the annual basic charge payable on all irrigable land within the district shall be \$245 an irrigable hectare and the annual water availability charge payable in respect of water supplied shall be \$162 per 1000 cubic metres.
5. The annual basic and water availability charges shall be reduced for the first 4 seasons of supply as set out in the Third Schedule hereto.

The level of charges for the fifth and subsequent seasons are calculated so that the balance of the deferred or reduced charges of the first 4 seasons of supply are recovered uniformly over the remaining irrigation seasons for which charges under section 214 of the Act are payable.

6. Basis of allocation—supply of water is subject to water right 4724 issued by the Waikato Valley Authority. The right provides for the taking of up to 225 litres per second up to a maximum of 19 420 cubic metres per day from the Waikato River.

Water will be allocated and supplied to an occupier under a water availability agreement based on the occupier's irrigable area and the irrigation system to be employed on that area.

The minimum amount of water that will be allocated in the first 5 years of operation will be 2950 cubic metres per irrigable hectare.

Any water used in excess of the amount allocated under a water availability agreement is defined as surplus water. Within the irrigation district, any surplus water used within the defined irrigation season up to a total maximum use of 5700 cubic metres per irrigable hectare will be supplied on the same terms and conditions as those pertaining to the water availability agreement.

Any water taken within the defined irrigation season in excess of 5700 cubic metres per irrigable hectare will be charged at 125 percent of the availability charge for that irrigation season, and this availability charge will not be subject to reductions during the first 4 seasons of supply.

The availability charge for water used in excess of 5700 cubic metres per irrigable hectare, and for surplus water supplied to occupiers with no irrigable area within the irrigation district, will be reviewed annually and if necessary, adjusted accordingly.

7. The charges shall be payable for a period of 20 consecutive seasons commencing at the start of the first year of supply for the scheme as determined and notified according to section 217 of the Act. The charges shall be subject to adjustment to compensate for any difference in any element of these charges previously estimated pursuant to the provisions of the Act.

8. The irrigation season shall extend from 15 September to 30 April inclusive. Scheme charges incurred over the preceding irrigation season will be invoiced as at 30 April of each year and due for payment without penalty within 28 days of date of invoice. Scheme charges incurred between 30 April and 15 September will be invoiced as at 15 September of each year and due for payment without penalty within 28 days of date of invoice.

9. The minimum aggregate area of land held by an occupier that will be included in the irrigation district shall be 4.1 hectares.

FIRST SCHEDULE

WATER SUPPLY WORKS

THE Pukerimu Irrigation Works by which means water can be drawn from the Waikato River by a piped water supply, treated and filtered at headworks as necessary, will be pumped by variable speed pumps through the distribution works through a flow control valve as appropriate to enable trickle and spray irrigation of horticultural crops.

The said works include all reservoirs, piping, gauges, bores, valves, pumps, meters and housing and all other works incidental to or required for the construction and also initial maintenance and control of the said works for the irrigation of the district.

Commerce Act 1975

NOTICE is hereby given of decision No. 137 of the Commerce Commission dated 25 July 1985. By this decision the Commission consented to the merger or takeover proposal whereby Wattie Finance Limited may acquire up to 51 percent of the issued capital of Waitaki N.Z. Refrigerating Limited, subject to the following conditions:

- (a) In respect of sales of meatmeal by Waitaki, neither Wattie nor any of its subsidiaries will seek to alter the current trading arrangements existing between Waitaki and those feedmills which purchase Waitaki's meatmeal. Waitaki shall continue to offer meatmeal for sale on a non-discriminatory basis to any interested purchasers.
- (b) In respect of sales of poultry by Tenderkist Meats N.Z. Limited ("Tenderkist"), neither Wattie nor any of its subsidiaries or associates will seek to interfere in the existing trading arrangements between Tenderkist and its suppliers of poultry.
- (c) In respect of Kellax Foods Limited and Franklin International Export Limited, neither Wattie nor any of its subsidiaries or associates will seek to influence or alter the purchase and distribution by those companies of ice cream and frozen vegetables produced by companies other than Wattie.
- (d) In respect of the foregoing conditions, the policy embodied therein shall be made known to all Wattie and Waitaki managers.

The full text of this decision is available for inspection at the Commission's offices, Sixth Floor, 163 The Terrace (P.O. Box 10-273), Wellington. Copies may be purchased on application.

D. J. KERR, Executive Officer.

Decision No. 5/85

Bro. 123/84

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by the BROADCASTING CORPORATION OF NEW ZEALAND for renewal of warrant AM-61/4ZW. (Oamaru):

Chairman: B. H. Slane.

Member: A. E. Wilson.

Hearing: at Oamaru on 11 June 1985.

Counsel: J. B. Thomson, for the applicant.

ORAL DECISION

WE have considered the application. The station in its 5 years has developed local hours of origination through 3 stages which were originally to be at the end of 12 months, 2 years and 4 years. It was the latter, the last stage which was deferred but now the station is broadcasting 8 hours a day Monday to Friday from Oamaru studios and 7 hours on Saturdays.

We understand the difficulties which can arise for such a station when it is linked to the economy of the area in which it is based and therefore its economic fortunes to some extent follow the fortunes of the district. We have been interested to learn from the Manager, Mr Woodward of the station's programming. We advertised this application in the Press. The application itself was advertised on the station and there have been no objections to the renewal.

This probably reflects the community involvement of the station which on the evidence we have appears to be close to the public it is here to serve. Therefore the situation at the end of the 5 years must be a cause for some pleasure on the part of the local management of the Corporation that this community involvement has occurred and the stage is serving the needs of this community.

We were concerned that, for a period, an amendment was not filed to permit the deferring of the final stage of development of local origination. In view of the very short period that was involved we do not intend to reflect the actual breach of the condition and undertaking given at the time of the grant of the warrant in our decision. The Corporation did in fact make the application which was subsequently granted.

We now understand that from March this year the station has achieved that which it had hoped it would achieve a little over a year earlier.

Nevertheless we would not like it to be thought that failure to comply with any promises made at the time of an application for whatever reason is a matter to be dealt with lightly and the fact that the application was made by the Corporation in due course recognises that attitude of the Tribunal.

The warrant will be renewed for a term of 5 years.

Signed for the Tribunal.

Decision No. 4/85

Bro. 10/85

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by the OTAGO RADIO ASSOCIATION INCORPORATED for renewal of warrant AM-1/4XD:

Chairman: B. H. Slane.

Member: A. E. Wilson.

Hearing: at Dunedin on 11 June 1985.

Appearances: L. A. Rackley for Applicant.

ORAL DECISION

WE have considered the application for renewal with one or two observations we would like to make. The warrant holder has had regard to all the comments we made at the time of the last renewal, something we find to be a refreshing approach. As a result, and with its own decision making, it has had a plan of action which it has put into effect over the last 5 years. The Tribunal has noted that in accordance with approvals given by the Tribunal and amendments made to the warrant, 4XD has more than doubled the hours of broadcasting. It has extended its programme services and range and variety of programmes offered. It has provided a new signal strength and thus a better reception for listeners in the area and with the new frequency has been able to get greater audience response.

It has upgraded its equipment and vastly improved technical standards. We are pleased to note that it is now very close to the stage of complying with the technical standards laid down for radio stations. At the time we reviewed the situation 5 years ago it was a long way from being able to comply with those standards. The final steps of the installation of the generator probably mean that it is only a matter of months before it can regard itself as fully up to modern technical requirements.

The extension of the technical and engineering services must have been a considerable strain on the resources of the association which are limited but the result of a great deal of voluntary effort has been to improve a real amenity for the city of Dunedin and for the surrounding areas.

No doubt its better placed position in the spectrum and its better strength and technical standards will be reflected in the image which the station will have with the public. We are pleased to note that it has a good and firm association with the University, radio is something that can add to the community's awareness and benefit of what is happening in the Universities and this association will probably be one of several others which we imagine will develop over the next 5 years since the association has a policy of community involvement.

Despite the comments that we make about the volunteer effort that has been involved in improving the station and its output we have to say that we notice an even greater professionalism in the approach that has been taken.

The Tribunal has had no opposition at all to the application for renewal. We have pleasure in renewing the warrant for a further term of 5 years.

Signed for the Tribunal.

Bro. 122/84

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by the BROADCASTING CORPORATION OF NEW ZEALAND for renewal of warrant AM-56/3ZE (Ashburton):

Chairman: B. H. Slane.

Member: A. E. Wilson

Hearing: at Ashburton on 12 June 1985.

Counsel: J. B. Thomson, for the applicant.

ORAL DECISION

THE Tribunal has considered the application. The Tribunal has noted that the station has since it was established more than doubled the hours of local origination and that the level now, compared with 5 years ago, marks the extent to which the station has increased its commitment and involvement in the Ashburton district community. The hours now actually exceed the minimum required by the Tribunal for Saturdays. The Tribunal has heard the evidence of Mr Hope and the letters and responses that he has attached to that evidence and forms a clear impression of a station that is reflecting the support of the community and which is providing a wide range of services which seem to be well regarded by those who listen to them. The involvement with the community and the closeness to it is of course the essence of this type of station.

The Tribunal was, as Mr Thomson will be aware, concerned that there was a period for some months last year and the end of 1983 when the BCNZ had not applied for an amendment to defer the increased hours in the third stage of the development of the station.

That of course meant that the station was for a period not complying with the undertaking it had been given at the time of the grant of the warrant.

However that was dealt with. It was regarded seriously by the Corporation and an application was filed and dealt with.

In view of the very short period involved in the delay of application, the Tribunal intends to grant the renewal of the warrant for the full period of 5 years. The warrant will be so renewed.

Signed for the Tribunal.

Decision No. Dec. No. 3/85.
BRO 108/81.

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by RADIO RHEMA LTD. for a sound radio warrant to establish a broadcasting station at Auckland with relay stations at Whangarei, Hamilton and Tauranga:

Chairman: B. H. Slane.

Members: Lionel R. Sceats, Ann E. Wilson.

Co-opted Member: Murray J. Henshall.

Counsel: C. Anastasiou for the applicant. J. B. Thomson for the Broadcasting Corporation of New Zealand. B. G. Impey for Radio Pacific Ltd. T. C. Gould for Radio 1 Ltd. A. C. Scorell for Stereo FM Ltd. J. F. Galvin for New Zealand Post Office.

Hearing: At Auckland 26 February—2 March, 8 May. At Whangarei 26 March 1984. Final submissions in writing.

DECISION

The application—The applicant is the holder of a warrant for non-commercial private broadcasting station 3XG Christchurch which broadcasts also through relay stations at Wellington and Nelson.

The applicant seeks to establish another AM station in Auckland which would also network with 3XG. The station would also broadcast through relay stations sited to serve Whangarei, Hamilton and Tauranga and surrounding areas carrying either the Auckland originated programme or the common programme from 3XG Christchurch.

A request was also made for short term authorisations to permit break outs to broadcast public service announcements, conselling numbers and the like to the regions concerned from the relay stations.

The applicant—The applicant is a society incorporated to establish and operate broadcasting, production and transmission studios and stations throughout New Zealand to present material of both Christian and a general nature. The objects are to be carried out in the spirit of the "Statement of Faith" and the "Faith We Affirm Together". The Statement of Faith is a 9 paragraph statement of beliefs of a Christian faith which could be described as fundamental beliefs.

To broaden its support, it has an alternative, "The Faith We Affirm Together" as approved by the Joint Commission of the Associated Churches of Christ in New Zealand and the Anglican, Congregational, Methodist and Presbyterian Churches. This statement can be described as less fundamental, more broad based, accommodating as it does people from a variety of Christian viewpoints.

The Society relies for its funding on its own activities which generate income and capital donations from subscribers and well-wishers. Radio Rhema Inc. operates a public relations activity which is substantial and significant for its existence and its future. It does

not however directly solicit assistance or donations by broadcasts. None of those working for *Radio Rhema* receive any salary but a number of supporters make direct donations to individuals and provide them with assistance in kind. Tax for staff is paid from Radio Rhema's general account.

Other objects of the applicant are to organise and present concerts, entertainment, lectures, addresses and debates to establish support groups and to arrange for counselling services.

The proposal—The applicant proposes to broadcast on a frequency of 603 kHz which has been allocated in the Geneva Plan to Auckland and for synchronous use in the Bay of Plenty. This frequency would be used for all four transmitters, those in Auckland and Tauranga 2 kW, Hamilton 1 kW and Whangarei 600 watts. It is proposed to have the establishment of the three relay stations follow the commencement of the Auckland transmitter: at Hamilton in 6 months, at Tauranga in 12 months and at Whangarei in 18 months.

The application was originally filed in November 1981, but the Tribunal deferred the application until such time as commercial FM stations in Auckland had been fully established, in order that an assessment of the audience needs and market potential in a comparatively stable situation could be made.

The applicant stated that its overall philosophy was aimed at meeting spiritual and social needs in the community, noting the degree to which community standards were under tension and that the principals providing the foundation of our society were severely strained.

The applicant said that people were seeking guidance through what appeared to be confusion over the direction in which society is heading. Assistance needs to be given by providing a constant spiritual perspective on such matters as individual and collective goals, identity and self-worth.

The applicant believed there was a demand for a station broadcasting Christian music which, it said, has become more contemporary with major artists around the world writing and performing specially for this genre. *Radio Rhema* wished to supplement this with pleasant-listening secular music, including New Zealand artists.

The station would also broadcast news and current affairs which it said should highlight constructive forces within the community, should deal with events of lasting significance in preference to the ephemeral, should place quality before quantity and should place responsibility to the public before expediency.

The station also proposed to broadcast Christian programmes discussing day to day issues from a Christian perspective and also programmes discussing or teaching aspects of the Christian faith. Programmes would be provided for children.

There would also be a full time telephone counselling service in Auckland.

The station proposed eventually to originate programmes from Auckland during the hours from 6 a.m. to 6.30 p.m. Monday to Friday, from 6 a.m. to 2 p.m. on Saturday, Sunday and public holidays and from 10 p.m. to midnight on Sunday. The remainder of the 18 hours a day programme would be relayed from 3XG Christchurch.

Initially local origination would comprise only 4 hours (6 a.m. to 10 a.m.) Monday to Friday and 2 hours (10 p.m. to midnight) on Sunday.

Christian music would comprise approximately 60 percent of the music content. The remainder would be a combination of modern treatments of light classics through to popular ballads and light contemporary music within which there would be an orientation towards country music.

Opposition—Some written submissions from members of the public were received opposing the application, principally on the grounds of the Christian nature of the programming.

BCNZ—The Broadcasting Corporation of New Zealand (the BCNZ) opposed the granting of the last AM frequency available in Auckland to a group with limited membership representing narrow doctrinal interests. It regarded the use of the frequency 603 kHz for a regional Polynesian/ethnic/access programme for Auckland, Whangarei, Bay of Plenty and Rotorua areas as more appropriate.

It also opposed the applicant being granted the extensive networking facility it sought.

It raised questions relating to the management, the nature of the publicity in the applicant's newsletter and the material used to train counsellors.

The Corporation submitted that New Zealand's ethnic population received scant consideration in the proposals since the multi-cultural programmes were clearly inadequate in their scope. While other stations tended to establish the needs of the community and to endeavour to fulfil those needs *Radio Rhema's* goal was to gain converts to the fundamentalist view of Christianity. It criticised the lack of denominational broadcasting.

The use of the synchronous facility in several regions would result in "mush" areas which would receive a distorted signal generally regarded as unusable, the Corporation submitted. If the application were granted then pressure would come from about 5 percent of the potential audience affected to provide further frequencies to give adequate reception to those living in the mainly rural mush areas.

The Corporation had plans to use 603 kHz for a proposed access and ethnic broadcasting service and the Corporation submitted the proposed use of the only allocated frequency to Auckland of 603 kHz was not the best use of the frequency in the public interest.

Radio Pacific—*Radio Pacific*, the holder of a sound radio warrant for Auckland also opposed the application on various grounds including:

- (1) It was not in the public interest for one minority appeal organisation to establish a nationwide network.
- (2) If the Tribunal were to grant the application it would face legitimate claims from other minority groups to set up similar national networks.
- (3) The introduction of a further service would result in over-fragmentation of the radio market.
- (4) The continual addition of further services would affect the economic viability of existing services.

Unlike Wellington and Christchurch where *Radio Rhema* already broadcasts, the Auckland radio market is served by 10 radio stations, including a part-time university station, and *Radio Pacific* which has no equivalent in other centres.

Radio Pacific submitted that even though the audience for *Radio Rhema* would be small it would increase the cost for an advertiser to reach a given number of listeners (cost per thousand). That would have an effect on the charges that could be made for advertising by the commercial stations and, thus, their income.

603 kHz was the last available AM frequency in Auckland. With the exception of 1ZB, the most successful stations had the worst frequencies. The grant of a good frequency to a minority group with minority programming did not constitute good frequency management.

Radio Pacific saw the application as not just an application for a warrant but an attempt by a religious minority to convert non-believers, using radio as the means to make contact. It was concerned about the nature of the counselling service as an evangelising agency for a particular interpretation of Christian faith.

Radio Pacific was concerned that, while FM broadcasting was being developed on a planned basis as a result of the Tribunal's FM report and the establishment of Government policy, for AM broadcasting the Tribunal had not had an opportunity of putting forward a future plan and had been required to treat applications as they came. Existing operators' futures were uncertain and they faced new regional private television, commercial YC, the development of FM and a number of other matters as well as competition with press and magazines which created such a state of flux that it was unreasonable to allow further competition at this time. The station called for some "breathing space" before the Tribunal granted further applications.

Radio I—*Radio I Ltd.*, the holder of another sound radio warrant in Auckland, raised objections relating to the ability and the integrity of the applicant referring to changes by way of formal applications to amend in relation to transmitter location and a change of policy from the proposed use of 603 kHz to being willing to accept any frequencies that might be made available to it during the hearing. It, too, expressed concern regarding the counsellor training.

Radio I pointed out that the applicant, if successful, would be able to reach the major urban populations of the larger centres from Whangarei to Christchurch, a position not enjoyed by any other private radio station, commercial or non-commercial. It would then undoubtedly move to fulfil its pledge to the people of New Zealand to establish a Christian radio network throughout New Zealand.

Radio I submitted that the fact that a warrant had been granted for Christchurch with relay stations in Wellington and Nelson, should create no weight or bias in favour of the applicant. It also urged the Tribunal not to give weight to the acquisition of a building as it was up to the applicant to take the risk involved in any such major acquisition.

Radio I had concerns regarding the siting of the transmitter and most as originally proposed in the application which would have affected *Radio I* but they were met by the change of site later proposed by the applicant.

It was submitted that the Auckland radio market was still unpredictable and unstable and there were proposals which would create further instability including the advent of a third television channel which would affect the commercial stations.

Radio I claimed the applicant was not just wanting to fill a need, it was proposing to develop as great an audience as possible.

A station's audience share was an asset which it has to market.

Radio I submitted that since *Radio Rhema's* application could not be deferred any longer, the Tribunal should disallow the application but it might direct dismissal of the application to be without prejudice to any further application that might be brought later in time. It submitted that the Tribunal would be justified in this course because there was work to be done concerning the allocation of frequencies and the Tribunal would later be able to take account of the effect on the Auckland market of a further AM warrant.

Section 80—In considering the application and before determining whether or not to grant the application, the Tribunal is required by *Section 80* to have regard to the following matters, so far as they are applicable:

- (a) The extent to which the proposed service is desirable in the public interest—

The applicant would provide an alternative broadcasting service which is not provided by existing AM or recently warranted FM operations and which would command a small but significant audience.

In considering the original application by *Radio Rhema* for the 3XG warrant in Christchurch the Tribunal observed that there was a section of the community which was interested in the presentation of programmes which are inoffensive, both as to message and music with an interlacing of religious or "Christian" music.

The station also provides a high proportion of New Zealand originated material, and broadcasts a number of BBC transcription service programmes which are of high quality and of interest to New Zealand listeners.

Evidence was produced that 70.3 percent of all New Zealanders gave allegiance to some Christian church and the applicant claimed a wide range of support which was detailed both in submissions and letters in support and in evidence that was given to the Tribunal. While it is clear that at a local level there has been individual and regional mainstream church support, only the Presbyterian Church gave any support at national level. A number of churches which attract a much smaller percentage of support in the community did give their national endorsement to *Radio Rhema*.

While criticism was made that the programming did not provide denominational broadcasting we do not consider that to be a disadvantage. Undoubtedly part of the success of *Radio Rhema* is the freedom from denominational viewpoints.

Evidence in support of the application suggested that about 40 percent of the listeners were not regular churchgoers but it is unlikely that many would be people without any Christian commitment.

We have commented before on the attractiveness of the music to a small audience.

Evidence of supporters indicated a belief that the programme would make a considerable difference to the life of the community. There was no evidence from Christchurch or Wellington to bear this out and we consider expectations of many of the supporters quite out of touch with the reality of the limited influence of radio on social and personal conduct.

There is undoubtedly a desire to present a Christian message which was made clear in comments such as Mr Brewster's references to use of FM: "High quality stereo . . . would add very little, if anything, to the message."

Despite the existence of a wide range of support there was undoubtedly truth in the view which was best expressed by the Rev Michael W. Greer, Executive Officer of the Media and Communications Committee of the Methodist Church of New Zealand, when he said in a letter.

"Since its inception *Radio Rhema* has actively campaigned for the full support of the mainstream Christian churches in New Zealand. *Radio Rhema's* "Statement of Faith", presented to us when making their first approach some years ago, was not one which either then or now the Methodist Church in New Zealand would choose to be formally identified with—it represents a conservative theological viewpoint, and a somewhat narrow evangelical emphasis. In response, *Radio Rhema* adopted the statement of faith "The Faith we Affirm Together" being that approved by each of the negotiating churches as a description of the faith held in common. However, *Radio Rhema* chose to hold the Statement of Faith in tandem with the earlier statement—needless to say we felt there was some ambiguity in their action."

The extension of broadcasting by this network approach to the bulk of the audience in New Zealand would put *Radio Rhema* in a unique position, comparable more to that of the Broadcasting Corporation which is a publicly owned and appointed body, than to any other private station.

Although only two warrants were involved the station would, because of synchronous use of frequencies, broadcast to Auckland, Wellington, Christchurch, Hamilton (the four largest cities in New Zealand) and to Nelson, Tauranga and Whangarei. We have to acknowledge that this would be the grant of a near-national network to one group. It may pre-empt the possibility of diversity of programming by preventing any other group from establishing a service for the same audience in the most populous regions in New Zealand.

Evidence was given that people expressing adherence to Anglican, Catholic, Presbyterian and Methodist Churches are some 61 percent of the population. Among *Radio Rhema's* membership they constitute only about 24 percent. A great majority of membership comes from denominations which do not individually have strong numerical support within the New Zealand population. This bears out the allegations that it reflects a conservative and evangelical viewpoint.

This was reinforced by evidence of published remarks in a newsletter which referred to a spiritual war and.

"This is God's work and we are right in the centre of His will as we move, forward to push back the gates of hell and push the devil off his predominant perch that he occupies over the airwaves of Auckland."

Radio Rhema's counsel suggested, in relation to mainstream church membership, that the difference in proportions arises because of the difference between adherents and committed churchgoers. *Radio Rhema* promotes in the churches and it is generally committed churchgoers who become members. In other words, the mainstream churches do not have among their adherents a high proportion of churchgoers. Nevertheless the fact remains that its emphasis comes from those associated with a particular view of Christian belief.

Mr Anastasiou's response to the reference to the newsletter was that some of its contents amounted to Christian jargon which would be well understood by the readers.

We believe that this might be so in respect of those members of certain churches referred to with a high membership proportion, but we do not believe that those remarks are typical of material which would be found in church newsletters of the mainstream churches.

Also in the newsletter was this statement:

"We have been told that groups calling themselves "Satanists" have been formed over the last few years in Auckland, Tauranga, Nelson, Wellington and Christchurch. These groups have been praying and fasting every Wednesday to satan requesting him to break up the family units in New Zealand and to destroy *Radio Rhema*!... This news just makes us more aware of how great an impact *Radio Rhema* is already making. No wonder we are experiencing difficulties in our attempts to get the gospel into the northern region."

As Mr Thomson, for the Corporation, has pointed out, Mr Berry could not substantiate this claim which cast some doubts on the methods used to recruit support for the station.

Counselling—A considerable amount of time—in fact too much time— was spent on traversing the counselling proposal.

A proposal to associate counselling with a radio station is peripheral to the desirability of the broadcast service since any radio station can, if it wishes, promote counselling services run by any other agencies or by its own organisation.

The proposition that we should permit a radio station because it would run its own Christian counselling service, we would not in any event have regarded as lending a great deal to the application. However, it took on a different aspect when attention was fastened on to the nature of the counselling itself. There was considerable debate as to the extent to which the Jay E. Adams tapes were to be used. A copy of Mr Adam's book was produced and referred to. We were not at all satisfied as to exactly the basis of these tapes in relation to training counsellors after hearing Mr Pinkham's evidence.

We were told by Mr William Cole, a trained psychologist, called by *Radio Pacific*, that—

"The overall tenor of the techniques advised were of judgmental exhortations of a type likely to increase anxiety and guilt in people presenting with problems. In many cases this would be unhelpful. In some cases such methods could be downright dangerous, precipitating total mental collapse in already highly-stressed individuals."

Mr Ewing Stevens from *Radio Pacific*, a Presbyterian minister,

"... feared that the approach to theology was so narrow and elitist that it must not only offend those of non-religious philosophies of life and those that follow religions other than the Christian religion, but also the large majority of believing Christian people."

He saw the counselling service, if it were based on the book, to be "an undisguised attempt at proselytising human beings in their moments of extremity into a very narrow and limited approach to the Christian faith."

We were, however, impressed with Mrs Foged who was called by *Radio Rhema* to give evidence of the training of counsellors. She did, nevertheless, concede that her aim in the counselling service was evangelism and to convert, both elements of which she saw as an essential part of the Christian role.

If only because of the matters raised at the hearing, we think it likely that the counselling service would now be more carefully based. What does become clear is that the prime purpose is an evangelistic one rather than of a client centred referral service. This bears, in our opinion, on only two aspects—

1. The limited benefit of, or positive disadvantage of, permitting what is in effect a "marketing" arm of the station concerned with recruiting Christians through a counselling service.

It may be argued that this is not a positively harmful feature since those who did respond through contact with the station would be aware that it was a Christian oriented service and not one which necessarily totally respected the beliefs, or non-belief, of the individual concerned. However, it does not simply ask people who want to talk about Christian belief to contact the service. It offers counselling—helping—but is using the needs of the caller to bring about an introduction and an opportunity thereafter to influence them towards acceptance of the Christian faith.

After hearing the evidence we can say this: If we were to grant the application we could not control the counselling but we would want to lay down conditions as to the way in which the "counselling service" would be promoted and referred to.

2. The indication it gives of the purpose of the station which goes beyond the objectives of the Broadcasting Act, namely to proselytise.

(b) The economic effect which the establishment of the station to which the application relates is likely to have in respect to broadcasting stations already in operation

It is clear the station will only have a small amount of support. In Wellington its reach was given to us as 10,000 compared with *2ZB's* 142,000 and in Christchurch a reach of 22,000 compared with *3ZB's* 119,000.

The station has a comparative strength in the 7 p.m. to midnight period.

There was considerable discussion of the effect of a new operator in taking existing audience and thus increasing the cost per thousand rate for advertisers. We are satisfied that the audience will not be substantially drawn from non-listeners. Some audience will be drawn from non-commercial listeners in Auckland, although it is to be noted that they form a lower proportion of the audience in Auckland than in the southern centres.

The stations which appeal to an older audience, namely *1ZB*, *Radio 1* and *Radio Pacific*, would be affected but it would not be damaging to those stations. While it would affect the rate per thousand and while the overall performance of the station does affect advertisers' purchases, it has to be remembered that both *Radio Pacific* and *Radio 1* substantially draw on local advertising which is not so sensitive to the cost per thousand. We are satisfied that that factor is significant in advertising agency buying but is not necessarily a dominating consideration.

We do not consider that the economic effect on the other stations would be sufficient to outweigh the advantages of a worthwhile non-commercial service being introduced which appealed to say a 3 percent audience share in Auckland.

(c) The effect which the establishment of the station to which the application relates may have on broadcasting services provided by the Corporation in the public interest

We have substantially dealt with this aspect in the previous reference as to the economic effect. The loss of revenue to the Corporation would not be such as to affect services. The establishment of the station may however affect the way in which services are delivered by the Corporation and it is convenient under this heading to consider the effect on future potential services.

Evidence was given by Miss B. A. Wakem for Radio New Zealand of plans to develop 603 kHz as a Polynesian/access station. On the evidence we have at present and the changing pattern of radio development, we do not think it is possible to make a definitive judgment on the effect on future services of the Corporation in general.

We do see however an effect brought about by the loss of the proposed frequency 603 kHz which has for some years been, in policy terms, reserved for a possible use for a Polynesian/ethnic broadcasting.

The needs of New Zealand or the locality or localities proposed to be served, in respect of broadcasting services

We received many representations and saw extensive written submissions in support of the services for each of the localities.

As mentioned elsewhere there is a claim of lower listening by people who would be attracted to *Radio Rhema* since their lower listening was caused by the unsatisfactory nature of existing services as far as they were concerned. It is clear that *Radio Rhema* in these markets would tend to appeal to an older audience and sometimes children, but would not readily attract an audience of young people.

In each of the localities there is no comparable service.

There seemed to be little attempt by the applicant to provide a service to the ethnic minorities in any of the areas proposed to be served. The programming statements of a multi-cultural nature are unconvincing.

There is a group of people who undoubtedly see a need for a station that presents the *Good News*, but on proven performance the audience is in fact a fairly small one. Over a number of years *Radio Rhema* has not been able to substantially change its audience share in Christchurch where it has its deepest roots and major support. It is unlikely that its grasp of audience in the northern area will be better and it is in fact likely to be slightly less.

However, a service should not necessarily be condemned for appealing only to a minority.

Various figures were produced to us for membership of *Radio Rhema*. The total for the region was 9,400, plus 1,045 associate supporters and 207 friends of *Radio Rhema*. It should be borne in mind that membership is sought by a sophisticated and very persistent public relations campaign directed particularly at churches and church oriented groups. Membership of 711 in the 40,000 population of Whangarei does not show a groundswell of support but 1,276 members in Hamilton have produced \$31,000 of donations. This indicates a significant number of people who are prepared to put their money behind the proposal but that beyond them support is meagre.

The needs which could be satisfied may not necessarily be best satisfied by an applicant who would, as a result of this grant, command a dominating position in Christian broadcasting in the future.

The financial and commercial ability of the applicant to carry on the proposed service

Accounts were produced to us that bore out our previous knowledge and experience of this applicant. *Radio Rhema* has the ability to command a steady cash flow and it has the organisation to sustain it. It relies totally on subscriptions, donations and gifts of goods and services.

Proposed extensions would be considerable and one of the reasons stated for AM propagation rather than FM was the lower cost involved in establishing and maintaining AM transmitters which the station largely has the capability of doing from within its own resources.

It is clear that once the station was on the air it would improve its cash flow.

There have been no criticisms made of the financial or management ability other than those which were raised by Mr Thomson for the Corporation.

His concern arose from statements made by Mr Berry and his executive that they determined *Radio Rhema's* direction and policy by their interpretation of God's will which was to be obeyed regardless of a members' "own intellects".

Mr Thomson quotes Mr K. S. Clarke's evidence that, "If the executive said God wanted something to go a particular way, I would follow this."

He also raised the question of references to "Satanists" referred to earlier.

However, no situation was referred to in which any management decisions had been made which could be criticised because they were not reasonable and we have not given any weight to this criticism.

(f) The likelihood of the applicant carrying on the proposed service satisfactorily

In evidence Miss Wakem had stated that the reason *Radio Rhema's* programmes had not been taken by *Radio New Zealand* was that the standard of the particular programmes was not high enough. We did not treat this comment as making or, indeed, attempting to make a case against the application on the basis that the standards of programming proposed in it are short of that required for the holding of a warrant.

The local origination hours are not long to begin with but no doubt there will be sufficient incentive for the station to increase the hours of local origination. The applicant has its own technical staff.

Apart from our expressed reservations which relate principally to the non-broadcast activities of *Radio Rhema*, there is no reason to expect that the service would not be carried on satisfactorily.

When the warrant for 3XG was renewed we commended the station on adhering to its promises. This is not the case with some commercial operators and therefore it can be said with some assurance that it is likely the applicant would carry on the service satisfactorily.

It is however true that the management has stayed in the same hands. Should there be any change in the control or management of *Radio Rhema* we cannot be so assured. But this is so of every applicant.

(g) The results of any survey available to the Tribunal

The results of a survey conducted in Auckland by Market Research N.Z. Ltd. were given to the Tribunal. The primary findings were that 12 percent of those interviewed claimed to have listened to *Radio Rhema* during its limited broadcast exposure in Auckland and that listeners were distributed across both sexes and all age groups, although weighted towards women and persons aged 45 years and over.

Levels of favourable reaction to the amount of music in the programme, the manner and style of announcers and the coverage of items of spiritual interest were generally higher for *Radio Rhema* than for other Auckland stations and listeners' feelings after hearing *Radio Rhema* were generally reported to be substantially better than were the feelings of those listening to other stations.

Proportionately more listeners to *Radio Rhema* indicated they would be disappointed not to be able to hear further broadcasts from that station than was true of any other stations's audience.

Most significantly of all, one in three of all persons interviewed, including more non-listeners than listeners to *Radio Rhema*, and more of those who did not go to church than of those who did, claimed to recognise a particular need for *Radio Rhema* to be permitted to broadcast in Auckland. Only 7 percent denied such a need existed.

The main need was seen to be a religious or spiritual one and this applied to churchgoers and non-churchgoers.

A straw poll survey showed that 26 percent of *Radio Rhema* listeners currently rarely listened to the radio. We did not give much weight to this as an indication of where audience would come from.

Dr N. G. Grenfell compared the Auckland survey with one that was conducted in Wellington before broadcasting started there. The Auckland survey showed a slightly higher proportion who said there was a need for *Radio Rhema*.

He said that *Radio Rhema* would draw its audience from primarily new listeners and listeners to non-commercial rather than commercial stations. The objectors suggest the contrary.

The information produced by Mr O'Neill, an expert witness called by *Radio I*, was that the listening habits of *Radio Rhema* listeners in Wellington suggest that they are more attuned to 2YA and 2YC than to commercial stations when compared to radio listeners generally.

It was submitted for the applicant that primary sources of listeners would be new listeners and listeners to non-commercial stations. The Tribunal did not accept that there would necessarily be a growth in new radio listeners. This had not proved generally to be the case when new services had been introduced previously in New Zealand.

(h) The requirement that frequencies be best utilised in the public interest.

Radio Rhema applied for the use of the frequency 603 kHz which has been allocated to Auckland and Bay of Plenty in the Geneva Plan. The applicant has pointed out that the application was lodged in 1981, that the Post Office had no objection and that it was an economical use of frequencies to have co-channel use.

Mr Anastasiou pointed out that the alternative use proposed by the BCNZ for a Polynesian/ethnic/access programme was contingent on IZM going to FM. Mr Gatland for the BCNZ pointed out that FM would give greater coverage in rural areas. *Radio Rhema's* case was that the proposed use of the frequency was an effective and efficient use of it and would provide a broad coverage over a wide area for which there was a clear and demonstrated need.

Radio Rhema had not changed its position but during the course of the hearing did suggest other possible frequencies which could be allocated. It pointed out that if *IZM* was permitted by the Tribunal to transfer to FM that would release 1251 kHz and if *LYC* went to FM it would release 882 kHz.

Mr Gatland had said that the reason for the particular frequency being chosen for ethnic use was to provide a good rural audience coverage where there was an ethnic audience resident. It was also planned to use a further transmitter in the Waikato to serve Hamilton City and to cover the mush area which would occur between the Auckland and Bay of Plenty synchronous stations.

A tape was presented to illustrate the distortion which occurs in the signal when two synchronous stations' signals are received in an area at about the same strength. There is evidence that 5.5 percent of the population in the proposed areas would be affected. There was concern that at a later stage there would be pressure brought to bear by listeners to *Radio Rhema* to eliminate the coverage deficiencies caused by the mush areas through the use of another frequency or frequencies.

In evidence for *Radio Rhema* Mr S. D. Brewster said the primary reason for sticking with the AM band was the larger number of AM only receivers presently at the disposal of the public and particularly one of *Radio Rhema's* larger audience sectors, the elderly. *Radio Rhema* believed that these people were less likely to change their listening habits, either by buying a receiver with an FM band by remembering to switch bands if they did have an FM receiver or by erecting the necessary antenna which was usually attached to such a set.

Radio Rhema submitted people over 50 needed the radio because of changes, increase in infirmity and general loss of confidence. Other reasons which Mr Brewster described as compelling were—

1. The high cost of linking transmitters for stereo operation. Although *Radio Rhema* would love to broadcast high quality stereo which its studios were set up to do, that desire had to be balanced against the considerably greater running costs and the fact that the different mode would add very little, if anything to the station's message.
2. The high cost of co-siting with the BCNZ.
3. The ability to make use of existing AM transmitting equipment.
4. At least one AM warrant holder would opt to change to FM or cease operations which would make another frequency available and the Concert Programme would relocate on the FM band.
5. The dynamics were such that things were unlikely to remain as they were for any great length of time so to be over concerned about apparently diminishing resources may be unnecessary in the longer term.

Radio Rhema saw a place for FM broadcasting where there was low ground conductivity such as in the Taupo area or as a last resort where a AM frequency was not available and the terrain was suitable for FM, or where, for a combination of reasons, FM may be the more desirable mode.

Mr Anastasiou pointed out that since 1981 no application had been lodged for the use of 603 kHz, and that there were other possible frequencies that could be allocated to Auckland.

While the use of the proposed frequency is economical in that it can cover four areas for *Radio Rhema*, the corollary is that the use of other frequencies will be required to provide later services. If *Radio Rhema* were to use several frequencies then 603 kHz would remain available as a regional frequency for other uses in the future. A significant use of the spectrum is thus involved in covering four centres.

The Tribunal considers the situation from the standpoint of concern for conservation. Only the Tribunal can exercise this consideration since the Post Office is only concerned with certifying the frequencies for stations in relation to proposed locations.

The Tribunal is concerned that the last major frequency at present available in Auckland should be allocated for use when later it may be required for any one of a number of uses which it may not at present be possible to imagine.

The Tribunal is particularly concerned because the frequency at the lower end of the AM band provides extraordinarily good coverage of rural areas, hence its possible use for ethnic or Polynesian broadcasting.

On the other hand the Tribunal is also aware that we are in a period of rapid change, that radio needs and developments will themselves need to be reassessed from time to time.

In our consideration of this matter we are not convinced that the *Radio Rhema* case for use of 603 kHz has been made out. While it does provide an economical use from the point of view of *Radio Rhema*, we must take a different view from that of an operator who seeks merely the best solution for his own purposes and we must look at the case for best use of frequencies in the public interest.

The reasons for not accepting a FM system of broadcasting are personal to *Radio Rhema*. We do not accept the argument which relates to the unwillingness of their potential audience to switch to FM as an overwhelming argument when it is clear that in a short time a large number of radio services in New Zealand will be provided on the FM band. These will include the Concert Programme which has a following of older listeners who will all have to make the adaptation.

We cannot comment on the actual cost of co-siting, but we can note that the best use of frequencies does not necessarily result in the cheapest solution for any one party.

(i) The desirability of avoiding monopolies in the ownership or control of news media

The *Radio Rhema* proposal would introduce a new news service with four and a half minute bulletins. It would also bring in some *BBC* current affairs programmes.

The hours during which the applicant proposes to broadcast programmes

The station would provide an 18-hour service daily and this appears to be adequate for its target audience. The local origination periods appear to be adequate and we would not have considered it necessary to impose any conditions in that respect.

(n) All relevant evidence or representations received by it at the hearing

The representation that we should refuse the warrant because the station would promote Christianity we did not find easy to deal with.

However we did decide previously that the services of Christian oriented talk and music offered in Christchurch by *Radio Rhema* fulfilled an audience need. Care has to be taken to comply with the Act and, in particular, in matters of controversy to give an opportunity for significant points of view to be expressed, which could prove difficult for the station, but in fact complaints have not been a problem.

(o) Such other matters as may be prescribed in regulations on that behalf

By regulation 15A, Broadcasting Regulations 1977, the Tribunal is required to have regard to Government policy under which FM broadcasting is to be developed as an integral part of sound-radio broadcasting.

We do not find that the reasons put by the applicant for spurning FM, such as costs and set penetration to be compelling. The programming is suitable for either AM or FM.

Government policy is to develop FM broadcasting. This application does not fall in with that policy which has been in effect since 1981. That policy has in fact changed radio in New Zealand.

Conclusion—We have to weigh not only the merits of the application, but also the somewhat limited nature of the programme material, the limited background and direction of the station itself and the extension of its power and authority to cover the bulk of the audience in New Zealand.

It may well be that ultimately an AM frequency can be made available for this warrant holder. At this stage we cannot satisfy ourselves that the advantages of allocating the last immediately available frequency would outweigh the disadvantages.

The application has pointed up the need for an analysis of Auckland's frequency needs with an emphasis on the large urban population in Auckland and its obvious claim for a choice of services. A reappraisal of frequency planning should be combined with the consideration of potential uses in Auckland and the possible reallocation where necessary of frequencies among existing stations.

The Tribunal is aware (and it is public knowledge) that applications are likely to be made for the transfer of some AM warrants to FM and there is other interest in the establishment of stations in and around Auckland.

A consideration of Auckland's present and foreseeable radio needs could be undertaken—by the Tribunal requiring all those interested to lodge notifications of any interest in applications for warrants or changes of frequencies. These could be heard next year and proper weight given to the comparative merits of the particular proposals and the availability of frequencies, including FM frequencies.

The Tribunal is not prepared to grant the present application now.

As the application was made in 1981, in 1985 it is not appropriate to defer a decision even further.

If we were to do so, in order to reconsider it in 1986, together with a review of frequencies, it would be out of date. A new application would be needed.

That would give *Radio Rhema* an opportunity to consolidate and reassess its position and establish policies for the late 1980's and 1990's.

We have therefore resolved to decline the application.

That does not put out of question another application. This application has enabled us to assess the desirability of the proposal and to identify its weaknesses. We have also been able to put it in the context of the public interest—and in particular in relation to use of the frequency spectrum which is a publicly owned resource. Once committed by the grant of a warrant a frequency cannot be taken away without assigning another.

The proposal we were asked to approve would constrict future frequency use and planning.

We appreciate that this long awaited decision will be a disappointment to many enthusiastic supporters of and in *Radio Rhema*. We have been anxious to be just to their ambitions but ultimately the public interest must predominate.

A wider look at the Auckland situation in the next period will enable a more coherent approach and, we hope, longer lasting solutions to the competing claims of so many present and future applicants for a voice in Auckland.

Co-opted Members—The Tribunal co-opted Mr Henshall as a person whose qualifications or experience were likely, in the opinion of the Tribunal, to be of assistance to the Tribunal in dealing with the application. He took part in the hearing and the deliberations of the Tribunal, but the decision is that of the permanent members.

Dated the 4th day of July 1985.

Signed for the Tribunal:

B. H. SLANE, Chairman.

NAPIER CITY COUNCIL

NOTICE OF INTENTION TO TAKE LAND

NOTICE is hereby given that the Napier City Council proposes, under the provisions of the Public Works Act 1981, to execute certain public works, namely drainage works, and for the purpose of such public works the land described in the Schedule hereto is required to be taken for drainage purposes; and notice is hereby further given that a plan of the land so required to be taken is deposited in the public office of the Napier City Council situate in Hastings Street, Napier and is there open for inspection without fee by all persons during ordinary office hours.

The reason why the Napier City Council considers it essential to take the land is that the land will be used for drainage purposes forming part of the drainage network of the area.

All persons affected by the execution of the said public works or by the taking of the said land should, if they have any objections to the execution of the said public works or to the taking of the said land, not being objections to the amount or payment of compensation, set forth such objection in writing and send the same to the Registrar, Planning Tribunal, Tribunals Division, Justice Department, Private Bag Postal Centre, Wellington on or before the 27th day of August 1985.

If any objection is made in accordance with this notice, a public hearing of the objection will be held, unless the objector otherwise requires, and each objector will be advised of the time and place of the hearing.

GUIDELINES FOR AUTHORS: Preparing Manuscripts for Publication

Edited by Paula J. Wagemaker

52 p. 1984. \$7.50 plus 85c p & p

Submitting a manuscript to a publisher is not simply a matter of handing over a sheaf of paper. Publishers usually insist that a manuscript and its accompanying illustrative material be presented to defined standards of preparation. The standards of preparation required are detailed in these guidelines which have been produced in the interest of ensuring harmonious relationship between authors and their publishers.

PUBLIC AND PRIVATE ENTERPRISE IN NEW ZEALAND

Edited by R. C. Mascarenhas

133 p. 1984. \$15.00 plus \$1.50 p & p

This volume is the result of a conference "Public enterprise and Private enterprise: Protagonist or Partners?" sponsored by the New Zealand Institute of Public Administration. The conference took place from 23-25 August 1982, at Dunedin, and its purpose was to examine the relative roles of the public and private sectors and to identify the social and political issues which are likely to have significant implications for public administration.

INTRODUCING MANAGEMENT SERVICES IN THE PUBLIC SERVICE

STATE SERVICES COMMISSION

34 p. 1982 reprinted. \$2.75 plus 55c p & p

Management Services is one means by which managers may obtain objective advice on their methods of carrying out their management role. This booklet is designed to explain to Public Service Managers how Management Services may help them to fulfil their management task.

OPEN JUSTICE*A Guide to Information Within the Department of Justice*

DEPARTMENT OF JUSTICE

88 p. 1982. \$3.50 plus 55c p & p

Produced jointly by Brian Priestley and the Department of Justice, this publication is intended to capture and hold the reader's attention and facility to ready referencing of the subject covered. It does this admirably in being a guide to the information available to the public within one of New Zealand's most important and complex Government departments, as well as a booklet which is likely to be read and considered by many people interested in the campaign for more openness in government.

WAYS AND MEANINGS*A Guide to Interviewing Pacific Islanders*

STATE SERVICES COMMISSION

8 p. 1981. \$1.00 plus 40c p & p

This booklet is intended as a guide for those whose work involves interviewing, for various purposes, recent Pacific Island migrants to New Zealand.

WHO MAKES SOCIAL POLICY?

N.Z. PLANNING COUNCIL

60 p. 1982 N.Z. Planning Council. Paper No. 20. \$5.25 plus 85c p & p

This report is largely descriptive and interpretive. It reaches conclusions, but stops short of making recommendations for improvement. It is believed that its analysis and conclusions will be useful to many people concerned with social policy, inside and outside the Government system.

THE BOAT OWNER'S GUIDE TO CORROSION

by L. H. Bolton

DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH

31 p. 1982. Illustrated. D.S.I.R. Info. Series No. 155. \$4.25 plus 55c p & p

Much has been written about marine corrosion and its mitigation and yet the same problems and many old misconceptions still seem to persist. This booklet aims to assist the boat owner to identify the basic types of metallic corrosion, to understand their causes and the procedures that should be followed to avoid corrosion situations from developing in the first instance.

NEW ZEALAND ATLAS OF COASTAL RESOURCES

Edited by Philip Tortell

28 p. 1981. Illustrated. Coastal Maps. \$29.50 plus \$3.00 p & p

Encased in its own sturdy and attractive cylinder, the Atlas will be of interest to all those who use the coast to work and play, and is of particular value to students and teachers, engineers, planners, scientists, fishermen, boat owners, divers, marine farmers, and many other people interested in coastal resources.

MANPOWER PLANNING IN PUBLIC ADMINISTRATION

STATE SERVICES COMMISSION

51 p. 1981. Discussion Paper No. 1. \$3.95 plus 55c p & p

'Manpower planning' is a term which has a wide and rather ill-defined meaning. This report, addressed to the central question: "What is manpower planning?", opens with the philosophy of manpower planning, what it is, its aims and objectives. This is followed by a discussion of what is involved in forecasting the supply and demand for people and skills in the public service. The essentials of departmental manpower is then discussed followed by a chapter devoted to the practice of career development and concluding with a statement on the future development of manpower planning in the public service.

THE PATH TO REFORM*Edited by C. Burns*

219 p. 1982.

\$15.75 plus \$1.50 p & p

The Path to Reform, derived from the 1981 Convention of the New Zealand Institute of Public Administration is about the path to administrative reform in the State Services in New Zealand. It continues the exploration of the States Services begun in "State Servants and the Public in the 1980's" and continued in the "Accountability of Executive." Like its predecessors, "The Path to Reform" reads like a Who's Who of New Zealand public administrators.

PEOPLE LIKE US**Celebrating Cultural Diversity**

120 p. 1982. Illustrated.

\$9.95 plus 85c p & p

People Like Us is a story of the contribution made by people from Asia, Africa, Europe, and the Pacific to our neighbourhoods. It contains stories which are told by individuals and families on their reasons for coming to New Zealand; what they found and how they are coping. Subjects range from mixed marriages to different foods. It is a book of human interest for all the family and with its striking photographs, 25 monochrome, and 23 colour, *People Like Us* will make a lovely and interesting gift for overseas friends.

STYLE BOOK**GOVERNMENT PRINTING OFFICE**

248 p. 1981 third edition.

\$12.50 plus \$1.50 p & p

Since 1958 the Style Book has served as a guide to writers, editors, and all who prepare copy for printing. This edition contains new and revised material; the chapters dealing with the preparation of copy, abbreviations, and compound words have been revised; new material has been added to the chapters dealing with common names of animals and plants, errors in the use of English in official writing, and terms used in printing.

NEW ZEALAND OFFICIAL YEARBOOK

The Yearbook is the standard New Zealand encyclopaedic annual which has a place in every home, school, and office. Not only does it present a comprehensive statistical survey of the economy and population in New Zealand but it is also a very useful fact book for use in the home. In addition to the statistical facts supplied, the Yearbook also provides a background and historical perspective on each of the subjects covered.

(Customers may place their name on the Standing Order Service for this annual at the nearest Government Bookshop. A prepayment form to cover the cost of the publication plus post and packing will be forwarded when the publication is printed.)

NEW ZEALAND POCKET DIGEST OF STATISTICS

THE SURRENDER AND OCCUPATION OF JAPAN*Edited by Robin Kay*

DEPARTMENT OF INTERNAL AFFAIRS

1782 p. 1982.

\$75.00 plus \$4.80 p & p

This is the second of a series of three volumes of documents on New Zealand's external relations: the first, "The Australian-New Zealand Agreement 1944", this volume "The Surrender and Occupation of Japan" which covers six divisions of the period, selected by topic but dealt with chronologically within topics, and reveals the growing awareness amongst those responsible for a New Zealand policy of what New Zealand's interest actually were; the third volume, "The ANZUS Pact and the Treaty of Peace With Japan", not yet published, will show something of the new order of things in the Pacific and the difficulties in the role of a small, though articulate, power in the formation of what in fact were Great Power policies.
