The Electoral Main Rolls Closing Notice 1985

PURSUANT to section 61 (2) (b) of the Electoral Act 1956, the Chief Registrar of Electors hereby gives the following notice.

NOTICE

1. Title and commencement—(1) This notice may be cited as the Electoral Main Rolls Closing Notice 1985.

(2) This notice shall come into force on the day after the date of its publication in the *Gazette*.

2. Date for closing of main rolls—The main roll for every general electoral district and for every Maori electoral district shall close on the 4th day of October 1985.

Dated at Wellington this 2nd day of September 1985.

F. MCINERNEY, Chief Registrar of Electors.

EXPLANATORY NOTE

This note is not part of the notice, but is intended to indicate its general effect.

This notice closes, as at 4 October 1985, the main rolls for all electoral districts. This enables the main rolls to be printed and published as at that date. They will then be available to the public for checking.

The Electoral Act 1956 requires that this printing of the rolls be done at least once in each year.

Before the Broadcasting Tribunal

IN THE MATTER of the Broadcasting Act 1976, and IN THE MATTER of an application by CANTERBURY FROZEN MEAT COMPANY LIMITED to establish an FM Broadcast Station at Timaru:

Chairman: B. H. Slane.

Members: A. E. Wilson and R. H. Boyd-Bell.

Hearing: At Auckland on the 29th day of July 1985.

DECISION

THE Canterbury Frozen Meat Company Limited, Pareora Works filed an application for an FM sound-radio warrant on 14 May 1985. The proposal was to set up an FM station at the Canterbury Frozen Meat Company (CFM) Pareora Works and rebroadcast in FM mono the present programme broadcast in AM by the BCNZ's Timaru station 3ZC, known as *Radio Caroline*.

The application was advertised and no objections were received. A public hearing was held in Auckland on 29 July 1985 at which there were no appearances.

Evidence by affidavit by T. G. Stagg, the Chief Engineer of the CFM Works at Pareora. He stated that the Pareora township, which is 13 kms out of Timaru, has a population of approximately 300 people. The works are the only industry in the immediate vicinity. The total number of employees during the peak season, which lasts about 7 months of the year is around 960 people. That number reduces to approximately 250 in the off-season.

Mr Stagg outlined the background to the application. Some 15 months ago, company employees expressed dissatisfaction at the existent radio coverage. *Radio Caroline* had been broadcast over a loud speaker system but this was found to be inadequate due to distortion and the general noise level.

The Department of Labour did an inspection of the works in November 1984 and made noise level recordings. The noise level was high and the loud speaker system increased it.

The new programme will not be broadcast by loud speaker, but any employee who wishes to listen to it will use radio headsets which they would purchase themselves.

The proposed station will therefore not only supply music to the employees but will assist in keeping the noise level down. The Department of Labour advised the applicant that they have no objection to this proposal, provided the volume on the radio is controlled to less than 85 dBa.

Attached to Mr Stagg's evidence was a letter from B. J. Dorgan, the Secretary of Pareora Sub Branch of the Canterbury Meatworkers' Union. He expressed the sub branch's support for the CFM application. He noted that not only would the application reduce noise levels in working areas and supply a choice to the employees as to whether they listened to the radio or not, but it would also result in a reduction in the boredom problem in the repetitive jobs. He felt that the proposal would lead to an overall improvement in worker-employer harmony and industrial relations in general at the plant.

A further letter was attached to Mr Stagg's evidence. This was from A. R. Keen the Managing Director of KM Electronics which is the company that would supply and instal the necessary equipment for the station. He of course supported the application and pointed out that the proposal would have a further benefit: an alarm system would be built into the station which would be used for evacuation in times of emergency. This obviously included fire, but he pointed out that the works have had many bomb scares in the past and the new alarm system would be useful should any more occur.

The application is for a very low power transmitter of 0.02 watts. It would be located in the foreman's office. It is a small unit which would require little space and, it is expected, little maintenance. There would be no studio required nor any staff as the station is a repeat of *Radio Caroline* and will be self-running. The CFM Company will finance and maintain the transmitter and the aerials.

The applicant has reached agreement with the Corporation to rebroadcast *Radio Caroline*. The BCNZ applauded the initiative of the applicant in making this proposal.

The Tribunal has considered the application and the evidence in support. The matters required to be considered by section 80 of the Broadcasting Act 1976 have been taken into account.

The station will have no economic effect on any existing station or the Corporation. The applicant has the ability to carry on the proposed service and is likely to do so satisfactorily.

The question of simulcasting was raised by the Post Office. Simulcasting will be permitted because the situation is a special one, established to allow listening by earphone radios not to establish a FM service.

The applicant will be broadcasting advertising matter as of course *Radio Caroline* does. However it will not add any advertising of its own and its warrant will be limited to the same programme and advertising as *Radio Caroline*.

The applicant has established a need at the Pareora Works for such a service. The Tribunal feels that this is a special situation and is impressed by this innovative solution to a problem. In the public interest this proposal is clearly desirable.

The application for the warrant is granted.

As the intention is to rebroadcast only the programmes of *Radio Caroline* it will be a condition of the warrant that no other programme material be broadcast without the consent of the Tribunal. The prohibition against networking will be modified to permit networking with 3ZC. Otherwise the usual conditions will apply.

Dated this 3rd day of September 1985.

B. H. SLANE, Chairman.

LPG Fuel System Approvals

PURSUANT to regulation 90B of the Traffic Regulations 1976* (as inserted by the Traffic Regulations 1976, Amendment No. 7) and pursuant to the powers delegated to me by the Secretary for Transport, I, Robert Norman Abram, Chief Automotive Engineer, hereby approve the components listed in the Schedule hereto for inclusion in any LPG automotive fuel system installed and operated in accordance with the requirements of New Zealand Standard NZS 5422, Part 1, 1980 (and any standard made in amendment thereto or in substitution therefor) subject to the conditions (if any) set out in respect of any component in the said Schedule.

SCHEDULE
LPG FUEL CYLINDERS

MOT Reference	Manufacturer	Country of Origin	Specification	Material	Inspection Authority	Working Pressure Rating (MPa)	Test Pressure (MPa)
AF LO3B 027	Van Leer	Belgium	AS 1210 Int. 1	Steel	Apragaz	2.55	3.3

CONDITIONS OF APPROVAL

LPG fuel cylinders are approved subject to the following conditions—

1. That they be permanently and clearly marked, on a suitably attached metal plate, with characters not less than 6 mm high if space permits but in any case not less than 3 mm high, displaying the following information:
 - (a) The specification to which the cylinder was manufactured.
 - (b) The manufacturer's name or mark and the serial number of the cylinder.
 - (c) The date of the original cylinder inspection and the identification mark of the inspection authority who made the inspection.
 - (d) The date of periodic cylinder test and the identification mark of the cylinder testing station who made each test.
 - (e) The cylinder test pressure.
 - (f) The nominal water capacity of the cylinder.
 - (g) The tare weight of the cylinder.
2. That they be clearly marked or labelled to indicate that the cylinder is suitable for use with LPG.

CONDITIONS OF APPROVAL

3. That they be provided with valve threads and fittings which provide the following functions—
 - (a) Filling connection incorporating a non-return valve.
 - (b) Service valve incorporating an excess flow valve.
 - (c) Contents gauge.
 - (d) Safety valve.
 - (e) A fixed liquid level indicator or an automatic fill shut off device which prevents the cylinder being filled beyond 85 percent of the total cylinder capacity.

Valves and fittings shall have a service pressure rating of at least that of the cylinder to which they are fitted and shall be dimensioned, threaded and marked in accordance with the requirements of section 2.3 of New Zealand Standard NZS 5422 "The use of LPG and CNG Fuels in Internal Combustion Engines—Part 1 LPG Fuel".
4. That they be tested at periods not exceeding 5 years in accordance with the requirements of Australian Standard AS 2337-1980 or in accordance with the periodic test requirements laid down in the specification to which the cylinder was manufactured.

Dated at Wellington this 3rd day of September 1985.

R. N. ABRAM, Chief Automotive Engineer.

TRUSTEEBANK SOUTH CANTERBURY

NOTES TO FINANCIAL STATEMENTS

NOTE 1: Accounting Policies:

General Accounting Policies—

The following accounting policies have been adopted by the Bank in the preparation of the financial statements:

- The historical cost basis is used, modified for government and local authority stock.
- Accrual accounting is used to match expenses and revenue.
- Reliance is placed on the fact that the Bank is a going concern.

*Particular Accounting Policies:**Recognition of Income—*

Income shown in the Profit and Loss Account is earned in the current year and includes the amortisation of premiums and discounts on the purchase of government and local authority stock. In the case of personal loans, interest is added to the advance at the commencement of the loan and brought into revenue during the appropriate financial years in accordance with the "Rule of 78".

Expenditure—

Interest credited to depositors.

Depositors accounts which are credited with interest during the year have an appropriate adjustment made for interest accrued to March 31.

Other expenses.

Other expenses are charged to the accounts in the year in which the expenditure is incurred.

Depreciation.

Fixed assets, other than freehold land, are depreciated on a straight line basis estimated to write off the cost less residual value, over the economic life of each class of asset.

The following are the estimated lives of the major categories of fixed assets:

Buildings	50–100 years
Computer equipment	4 years
Office furniture and equipment and motor vehicles	3–20 years

Taxation—

Taxation charged against profits for the year is the estimated expense for the year. Tax allocation accounting has been adopted by the Bank for significant timing differences in respect of accrued investment income, depreciation, capital profits and losses, and amortisations of government and local authority stock.

Valuation of Assets—Current Assets and Investments—

All current assets and investments are shown at cost with the exception of government and local authority stock. Government and local authority stocks are regarded as long term investments and are redeemable at maturity at their face value. These stocks are valued at cost, adjusted by the amortisation of the discount or premium on purchase calculated on a straight line basis over the term of the stock. The discount or premium is calculated after adjusting for interest accrued in the purchase price.

The realisable value of fixed interest securities fluctuates with movement in market yields and it is customary for such fluctuations to be disregarded in the reporting of the results of the long term institutional investor.

Fixed Assets—

Fixed assets are shown at cost less accumulated depreciation.

Changes in Accounting Policies—

1.1 Amortisation of discounts on Government stock.

The accounting treatment of discounts and premiums arising on the purchase of government stocks has been changed to amortise those discounts and premiums over the term of the stock. Previously discounts and premiums arising on the purchase of government stocks were not recognised in the revenue account until they were sold. The effect of this change in accounting policy is to increase this year's profit by \$169,930.

1.2 Depreciation of fixed assets.

Fixed assets other than freehold land have been depreciated on a straight line basis. Previously fixed assets have been depreciated at depreciation rates set by the Inland Revenue Department. The effect of this change in depreciation method has not materially affected the depreciation charge for the year.

NOTE 2: *Government and Local Authority Stock:*

	Government		Local Authority

Market value	23,383,394	22,391,588	264,505	131,918

The Government Guarantee of Depositors' Fund including accrued interest in terms of section 44 of The Trustee Banks Act 1983 and subsequent amendments was in force at balance date and continues to remain in force. However, the requirement to hold New Zealand Government Stocks pursuant to the same Act was removed on February 11, 1985.

AUDITORS' REPORT TO THE TRUSTEES OF TRUSTEEBANK SOUTH CANTERBURY

WE have obtained all the information and explanations that we have required. In our opinion, proper accounting records have been kept by the Bank so far as appears from our examination of those records.

In our opinion, the financial statements give, using the historical cost method a true and fair view of the financial position of the Bank as at March 31, 1985 and the results of its operations and the source and application of funds for the year ending on that date.
