

SUPPLEMENT

TO THE

NEW ZEALAND GAZETTE

OF

THURSDAY, 28 NOVEMBER 1985

Published by Authority

WELLINGTON: FRIDAY 29 NOVEMBER 1985

SUMMARY

OF THE

RECEIPTS AND PAYMENTS

OF THE

PUBLIC ACCOUNT

FOR THE

SIX MONTHS ENDED 30 SEPTEMBER 1985

This publication is a summary of the Receipts and Payments of the Public Account with supplementary statements including a statement of the Public Debt and transactions in connection therewith.

INTRODUCTION TO THE SUMMARY

This summary of the receipts and payments of the Public Accounts is produced quarterly and published in terms of section 67 of the Public Finance Act 1977. The contents of the summary are as follows:

- Statement of Accounting Policies, outlines the general accounting principles on which the accounts are prepared, and the particular accounting policies adopted.
- Summary Information Section—Containing high level summaries of the financial transactions of the Public Account. The section currently comprises two tables and the intention is to include more tables as they are developed.
- Consolidated Account, the main operating account within the Public Account. All receipts must be credited to this account unless there is specific statutory provision to the contrary. e.g., proceeds of loans, and Road User Charges. The main revenue items in the account are direct and indirect taxation, interest received, dividends and profits from Corporations and trading undertakings, and departmental receipts.
 - The bulk of Government expenditure is met from this account by way of annual appropriations through votes (see the Estimates of Expenditure B. 7 [Pt. I]), and permanent appropriations made pursuant to various statutes.
- Loans Account, records the proceeds from all new loans raised (except those raised for redemption of loans) in New Zealand or Overseas during the financial year. The payments side of the account records the disbursement of these proceeds by annual and permanent appropriations, and by way of transfers to other accounts within the Public Account. A non cash item is included on both the receipts and payments side of the account to record the value of capital equipment purchased under credit arrangements.
- Loans Redemption Account, records how loan moneys received specifically for the purpose of repaying or redeeming public debt, together with other receipts credited to the account, have in fact been applied to convert or repay public debt. The account also records cash received and paid in respect of the issue and redemption of Treasury bills.
- National Roads Fund, is established under section 22 of the National Roads Act 1953. Its purpose is to record certain indirect taxation revenues specifically set aside to fund expenditure on construction and maintenance of roads. The account also records other moneys appropriated for these purposes.
- Reserve Account, records funds set aside to meet future contingencies. Transfers into this account are made from the Consolidated Account, but if a contingency arises the funds may be transferred to any of the other accounts within the Public Account.
- Trust Account, contains over 50 separate accounts and is primarily used to record moneys received or held in trust. Moneys paid into the account are generally available to be applied only for the specific purpose for which they were received.
- The Summary of Balances and the Composition of Balances.
- Expenditure Statement, records expenditure relating to Votes within Public Account.
- Statements of the Public Debt, and transactions in connection therewith.
- Notes to the Accounts, contains additional explanatory information on specific receipts or payments items.

STATEMENT OF ACCOUNTING POLICIES

General Accounting Policies

The Public Accounts comprise the 5 operating accounts established by sections 38 to 42 of the Public Finance Act 1977, together with a suspense account created under section 37 (1) (c) of that Act, and the National Roads Fund established by section 22 of the National Roads Act 1953. A brief description of each of the operating accounts is given in the introduction to this summary. The Suspense Account is a clearing account for receipts banked to the Public Account.

The "Public Account" refers to the bank account of that name kept at the Reserve Bank of New Zealand.

This summary reflects only those transactions relating to departments or activities operating within the Public Account. It does **not** reflect transactions of accounts to which sections 68 and 69 of the Public Finance Act apply. All transactions are reported on the cash basis of accounting.

The amounts shown in this summary represent the cumulative result of transactions from the beginning of the financial year at historic

Recognition of Receipts and Payments

Receipts for money paid into the Public Account are initially credited to the Suspense Account. The receipts are subsequently recognised by debiting the Suspense Account when the revenue receiver advises Treasury of the particular account code to be credited. The balance to the credit of the Suspense Account at the end of each accounting period is disclosed in the Summary of Balances.

Payments are brought to charge as expenditure in two ways:

- if money is paid from the Public Account Disbursement Account, it is recognised as a payment immediately.

— if money was paid from an imprest account, it is recognised as a payment when Treasury is advised of the particular account code to be debited. Money advanced to Imprestees but remaining unspent at the end of each accounting period forms part of the cash balances.

Particular Accounting Policies

The following particular accounting policies which affect the contents of the accounts have been adopted—

Recognition of Interdepartmental Transactions

Transactions occurring between Government Departments are recognised on the following basis:

if it was a cash transaction, then the accounting policy on recognition of receipts and payments above applies.

- if it was a non-cash transaction, then the transaction is recognised when Treasury is advised of the accounting codes to be credited and debited.

As a general rule receipts and payments are converted into New Zealand currency at a special exchange rate fixed at the mid-point between the buying and selling rates for each foreign currency quoted by the Reserve Bank. This rate is retained until it is at variance by 2 percent with the actual mid-point of the buying and selling rate.

All rates are adjusted on an official revaluation and on 1st day of June, September, December and March in each year.

Any gains or losses arising from differences between actual rates of exchange used for transactions and the special mid-point rate are disclosed in the public accounts.

An exception to the general rule is made for certain types of receipts such as the proceeds from loans raised overseas and repatriated to New Zealand. In these cases the exchange rate used is the actual bank rate at which the foreign currency was converted to New Zealand dollars.

Investments

Investments of Public Account Balances are recorded at cost price in foreign currency and converted at the mid-point exchange rate into New Zealand dollars. These investments are subsequently adjusted when changes occur in the mid-point exchange rates. Capital gains or losses arising from investment transactions are recognised when realised and are disclosed in the public accounts. Balances of investments in Companies and Covernment Appendix are not reported in quarterly supposite. in Companies and Government Agencies are not reported in quarterly summaries.

Changes in Accounting Policies

There has been one change in respect of accounting for foreign currencies. In previous years all exchange rates were adjusted on an official revaluation and on 1 March in each year. Commencing with the 1985-86 financial year the following will apply:

- all foreign exchange rates will be adjusted quarterly on 1 June, 1 September, 1 December and 1 March. All other policies have been applied on bases consistent with those used in previous years.

EXPENDITURE STATEMENT

Expenditure in Anticipation of Appropriation Act

This statement records expenditure relating to each Vote of the Accounts within Public Account. The Public Finance Act 1977 provides for three distinctive categories under sections 53 and 54 by which public money may be issued and applied in any financial year.

The first category relates to the period 1 April to 30 June of any financial year when money issued and applied is not permitted to exceed the total of-

(a) the unexpended balance of the amount appropriated for that Vote in the immediately preceding financial year; and (b) a sum equal to one-fourth of the amount appropriated.

The second category allows for expenditure on or after 1 July to be issued and applied under a new authority namely the Imprest Supply Bill. Imprest Supply Bills are the method utilised for carrying on financial requirements of the State until the Appropriation Bill is dealt with later in the year.

The third and final category is the Appropriation Bill which gives final authority. Once the Bill has been passed by Parliament and assented to by the Governor-General, its provisions are enacted and the Bill becomes an Act.

STATEMENTS OF THE PUBLIC DEBT OF NEW ZEALAND

These statements summarise the total amount outstanding in respect of loans raised by the Crown. The statements do not include the proceeds of any loans raised by organisations in their own names where the proceeds have been credited to any account other than the Public Accounts, e.g., loans raised by the New Zealand Railways Corporation, or loans raised by the Petroleum Corporation of New Zealand Ltd.

SUMMARY OF OUTSTANDING LOANS CHARGED ON THE PUBLIC REVENUES OF NEW ZEALAND

Under section 99 of the Public Finance Act 1977, any money advanced from the Public Account to a government agency constitutes a capital liability of that agency upon which interest is paid at a rate or rates as determined by the Minister of Finance. This table accordingly discloses the moneys received by way of interest. Interest received on Public Account investments and on other loans is also disclosed in the table.

THE NEW ZEALAND GAZETTE

13. Loan Receipts Unallocated

With reference to the Statement of Accounting Policies, receipts for loan moneys paid into the Public Account are cleared from the Suspense Account and credited to the item loan receipts unallocated. This clears the Suspense Account of moneys which are identifiable as loan moneys but for which no final accounting documentation was received in Treasury at the end of the quarter.

26. The Public Debt of New Zealand-Inflation-adjusted Savings Bonds

This figure does not include the sum of \$334,343,486 being the assessment by the Reserve Bank of New Zealand of the obligation at 30 September 1985 in respect of the premium on redemption.

27. Movements in Currency Values

In accordance with the Particular Accounting Policy adopted in respect of foreign currencies exchange rates were officially realigned on 1 September 1985. The New Zealand dollar values of overseas public debt, investments, and cash holdings were adjusted accordingly. There were also several individual alterations during the quarter which necessitated adjustment to the New Zealand dollar values of the overseas investments and cash holdings concerned.

The total net decrease in the public debt of \$1,442,709,000 arising from 1 September 1985 realignment consisted of:

Realignment 1 September 1985

REPORT OF THE AUDIT OFFICE

The Audit Office, having been appointed in terms of section 25 of the Public Finance Act 1977, has audited the summary of the receipts and payments for the six months ended 30 September 1985 as required by section 67 of that Act.

In the opinion of the Audit Office, The Summary of the Receipts and Payments appearing on pages 5430 to 5453 properly reflects, in accordance with the statement of accounting policies on page 5429 the balance of the public debt outstanding at 30 September 1985 and the transactions of the Public Account for the six months ended on that date.

J. W. CAMERON, Deputy Controller and Auditor-General. 13 November 1985.
