The "normal" refers to the present site of the instruments. Standard period for normals is 1951-1980. No normals are available for stations with only short records.

*Indicates that the sunshine recorder is not located at the station but is in the near vicinity.

A rainday is a day with rainfall equal to or greater than 0.1 mm.

Where the extremes of temperature and rainfall have occurred more than once during the month, the date of the first occurrence is given.

THE WEATHER IN NEW ZEALAND IN APRIL 1986

General—April was a dry sunny month, with above average temperatures in most places.

Many clear nights in east coast regions from Gisborne to South Canterbury were an advantage for people who wished to view Halley's Comet.

South-westerlies prevailed over the North Island with their usual frequency and it was less windy than usual. Over the South Island north-westerlies were predominant and had their highest frequency since records began in 1956. It was windier over the South Island with the frequency of strong winds being the highest for April for over 10 years.

A dominant feature in this month's weather was an anticyclone which remained almost stationary to the east of New Zealand from the 19th to the 28th. Mean sea level pressures ranged from near normal in Southland to over 4hPa above normal in Northland.

Many farmers in Northland, the Bay of Plenty, Gisborne and Hawkes Bay reported dry conditions with little grass growth for winter feed. Most stock were reported to be in very good condition.

Rainfall—Rainfall was above average on the West Coast of the South Island, in Fiordland and in Southland. At Invercargill April's rainfall was 160 percent of normal. Throughout the remainder of the country rainfall was well below average, especially in east coast regions of both islands, and in most places to the north of Hamilton. Record low monthly rainfalls for April were recorded at the following places:

Station	Amount (mm)	Start of record
Whangarei Airport	25	1937
Warkworth	20	1972
East Cape	11	1916
Napier Airport	4	1950
Waingawa	17	1926

Other places with very low rainfall were: Gisborne Airport 13 mm, Christchurch Airport 15 mm, and Timaru Airport 19 mm.

Temperatures—In the North Island the mean daily maximum temperature was about 1°C above average. On the east coast from Gisborne to Southern Wairarapa the mean daily maximum temperature was 2 to 3°C above average. Mean daily minimum temperatures were near average to 1°C below average in most regions, except for Wellington and the Wairarapa where they were about 1°C above average.

In the South Island the mean daily maximum temperature was near or 1°C below average on the West Coast and in Fiordland,

and up to 3.5°C above average on the east coast in Canterbury and North Otago. Mean daily minimum temperatures were generally about 1°C above average, except for Invercargill where the mean daily minimum was 8.0°C (2.4°C above normal), the highest for April there since records began in 1949. Some record mean daily maximum temperatures for April are listed below:

Station	Mean Daily maximum (°C)	Departure from normal	Start of record
Napier Airport	21.9	+2.7	1974
Mount John	16.3	+3.4	1918
Christchurch Airport	20.2	+3.0	1954
Hororata	20.6	+3.2	1962
Timaru Airport	19.6	+2.9	1962
Oamaru Airport	19.3	+3.5	1968
Alexandra	19.9	+2.7	1929
Roxburgh	19.4	+2.5	1951
Dunedin Airport	18.6	+2.2	1963
Invercargill Airport	16.9	+1.9	1949

Many places on the east coast of both islands experienced warm afternoon temperatures (between 25 and 28°C) in northwesterly conditions from the 24th to the 28th.

Sunshine—Hours of bright sunshine were near or slightly below normal in Northland, Auckland, Waikato, Taranaki and on the West Coast of the South Island.

On the east coast of both Islands from Gisborne to North Otago, including Marlborough and Wellington it was particularly sunny, with total sunshine for the month ranging from 120 to 150 percent of normal. Some of the greatest departures from normal this month were:

Station	Amount of Sunshine	Departure from Normal (hours)	Start of record	Rank
Gisborne Airport	209	+47	1938	third highest on record
Waingawa	218	+73	1935	highest on record
Paraparaumu Airport	201	+53	1953	third highest on record
Kelburn (Wellington)	202	+52	1930	second highest on record
Kaikoura	227	+68	1960	highest on record
Christchurch Airport	214	+64	1949	highest on record
