1. Tenderers are to express their bids as an amount per litre (e.g., \$1.00 per litre) even though the quotas will be issued on a value basis.

2. Quotas will be allocated to the successful tenderers on the basis of the number of Tariff Quota allocation sizes. The successful tenderers will receive a duty concession, issued under reference 99 of Part II of the Customs Tariff, for Tariff Items 22.05.022 and 22.06.022 which will reduce the rate of duty down to the level of the bid plus the relevant rate set out in the New Zealand Tariff. The relevant rates set out in the Tariff for the 1986/87 year effective 1/7/86 are:

Normal	68c plus 20%
Aul	68c plus 10%
LDC	68c plus 10%
LLDC	Free
PAC	Free

EXAMPLE: A bid for \$1 per litre would mean the concession rate would be \$1.68 per litre plus 20% of the Customs value (Normal rate of duty).

3. The successful tenderers will be those who submit the highest valid bids for the available Tariff Quota Units. A bid of more than \$2 per litre is unnecessary because any wine with an FOB value of \$2 or more per litre may be imported without quota provided the rates of duty set out in the Customs Tariff under Tariff Items 22.05.017 and 22.06.017 is paid. Under this 'Call for Tender' Global Tariff Quota tender will not be issued for wine having an FOB value of less than \$2 per litre.

4. Results of all tenders will be published in the *Gazette* which is available at Government bookshops. Government bookshops are located at Hannaford Burton Building, Rutland Street (Private Bag, C.P.O.), Auckland 1; Kings Arcade, (P.O. Box 857), Hamilton; Head Office, Mulgrave Street (Private Bag), Wellington 1; Wellington Trade Centre, Cubacade (Private Bag), Wellington; 159 Hereford Street, (Private Bag), Christchurch 1; Cargill House, Princes Street (P.O. NOTES TO THE ACCOUNTS

1. *Statement of Accounting Policies—*1.1 *General Accounting Policies*

The going concern concept has been adopted in the preparation of these accounts, with historical cost as the measurement base.

Accrual accounting is used to match income and expenses.

Particular Accounting Policies(a) *Current Assets and Investments*

All current assets and investments are shown at cost with the exception of government and local authority securities. Government and local authority securities are regarded as long term investments and are redeemable at maturity at their face value. These securities are valued at cost, adjusted by the amortisation of the discount or premium on purchase, on a straight line basis over the term of the security. The discount or premium is calculated after adjusting for interest accrued in the purchase price.

The realisable value of fixed interest securities fluctuates with movement in market yields and it is customary for such fluctuations to be disregarded in the reporting of the results of the long term institutional investor.

(b) *Investment Income*

Interest on investments is accrued to balance date on a daily basis at the appropriate rate of interest.

(c) *Depreciation*

Fixed assets are depreciated on the straight-line method at rates which will write off the cost over their estimated useful lives. The principal rates are:

Furniture and fittings	10% to 20%
Computer equipment	20% to 25%
Vehicles	20%

(d) *Taxation*

Provision is made for taxation after taking advantage of all deductions available under current taxation legislation.

Deferred taxation is provided under the partial liability method to the extent that timing differences are expected to reverse in the foreseeable future.

The major timing differences relate to depreciation and the recognition of investment income.

The 1985 Budget announced increase tax rates applicable from 1 April 1986. Additional tax applicable to future deferred tax liabilities has been recognised.

(e) *Changes in Accounting Policies*

There have been no changes in accounting policies. All policies have been applied on basis consistent with those used in prior years.
