Guide To Import Licence Tendering 7 November 1986

(This supersedes the Guide issued in October 1985)

INTRODUCTION

1. These notes set out the provisions for tenders called from time to time for the issue of global import licences including those under industry development plans. Special provisions may be introduced for tendering under industry development plans from time to time and these will be notified in the *New Zealand Gazette*.

The determination of the results of tendering under the ANZCERTA is set out in separate guide notes. These may be obtained from the Department of Trade and Industry on request.

2. The import licence tendering scheme is administered by the Department of Trade and Industry pursuant to regulation 9A of the Import Control Regulations 1973. Import licences granted under the scheme are subject to the normal terms and conditions applying to import licences.

3. The Registrar of Import Licence Tendering administers tendering. The address is P.O. Box 3146, Wellington.

4. The objectives of import licence tendering are to allocate import licences on an open and competitive basis and to introduce more import competition into the domestic production sector.

WHO MAY BID

5. Import licence tendering is open to all entities which are entitled to obtain an import licence in accordance with the Import Licence Schedule reference to "Who Can Apply".

REGISTER OF TENDERERS

6. A Register of Tenderers is maintained by the department. Each tenderer is allocated a confidential registration number.

7. Tenderers on the Register receive all mailings of the Calls for Tenders, other notes, and a supply of green bid forms T&I 335D.

8. Tenderers who submit bids without first having been allocated a registration number will be entered on to the register at the time bids are opened. Those bidding for the first time without a registration number must use the pink bid form T&I 335E. Data from this bid form will be used to enter the tenderer on to the register and the arrangements in paragraph 7 apply thereafter.

Any Change Required to Information Held on the Register Should Be Notified Quickly and in Writing to the Registrar

CALLS FOR TENDERS

9. The Call for Tenders is published in the *New Zealand Gazette* or in supplements to the *Gazette*. These are posted to tenderers on the Register or may be purchased from bookshops of the New Zealand Government Printer. These bookshops are listed at the back of these notes.

10. Calls for Tenders will specify the tender number, the item code, the tariff item(s) when not all tariff items in the item code are being tendered, a brief description of the goods involved, and the total number of licence units to be tendered under each tender number. Each unit allows goods to be imported to a value of \$2,000 c.i.f. (unless otherwise stated). Each separate Call for Tenders is referred to as a Round.

11. The Call for Tenders may be amended in whole or in part and tenders withdrawn by notice in the *New Zealand Gazette*.

HOW TO BID

12. Bid forms T&I 335D are supplied with the mailing of the *Gazette* or they may be obtained from any office of the department. Unregistered i.e., first time bidders must use the pink bid form T & I 335E. Each form is designed to allow a total of 30 bids to be made under as many as 6 different tender numbers. If, however, more than 5 bids per tender number are required, 2 or more bidding panels may be used for the same tender number. The tender number blocks need to be completed in each case. Item codes and tariff numbers are not acceptable in place of the tender number. To complete the bid form:

- (a) Type in the correct tender number from the Gazette in each of the bidding panels used.
- (b) Type in the number of licence units sought (each unit is for \$2,000 c.i.f. unless otherwise stated).
- (c) Type in the amount bid per unit. Zero bids may be made. Zero bids should be entered as 0. Other bids should be in whole dollars.
- (d) If an information label is attached to the bid form the bidder needs only to complete the bid panels and sign the form. A form with an information label may be photocopied for the submission of other bids providing they are all for the one entity. Each such form must bear an original signature and the photocopy must be legible.
- (e) Where an information label is not attached, the registration number and all other information required must be entered by the bidder. Except where an entity is bidding for the first time failure to enter the registration number will invalidate the bids. Bid forms for unregistered bidders may be submitted with the registration number still blank on the first occasion only. A number will be allocated to the bidder when the tender is opened and this will be communicated to the bidder later.
- (f) Sign the form in ink. *Failure to sign the form will invalidate the bids.*

RESPONSIBILITY FOR CLASSIFICATION

13. It is the responsibility of the tenderer to ensure that the goods to be imported against a given tender number are correctly classified in the Item Code, Tariff Item(s) and/or Statistical Keys included in the relevant tender number.

IMPORT DOCUMENTATION

14. Tender import licences are frequently issued on a Tariff Item or Statistical Key basis. Port Officers will determine the appropriate Statistical Key for the goods from the descriptions of goods on overseas suppliers' invoices provided the descriptions are sufficiently specific. In any case where importers consider that the descriptions on the overseas suppliers' invoices are insufficient for Customs Department purposes, additional material should be supplied to enable Statistical Keys to be verified. This will avoid delay in clearance.

CLOSING OF BIDS

15. Bids must be received by the Registrar of Tenders in Wellington by the closing date and time specified in the Call for Tenders.

16. Bids may be submitted by post, courier, the Post Office Bureaufax system or by hand. Bids will not be accepted on other than the official bid form. Bids should be addressed to the Registrar of Tenders, P.O. Box 3146, Wellington, and envelopes should be clearly marked "IMPORT LICENCE TENDER" in the bottom right hand corner of the envelope.

17. Tenders submitted through the bureaufax system of the Department of Trade and Industry or any other department will NOT be accepted.

LATE BIDS

19. Bids received after the closing time will not be accepted.

PROCESSING OF BIDS

20. Bids are opened under the supervision of a Justice of the Peace. Each bid is given a security number. A computer tape is then prepared. The registration number is entered into the computer at this stage to identify each tenderer and to produce the correct name and address on result letters, invoices and licences. It is extremely important therefore that the correct registration number appears on all bid forms. Until the bids are processed and a computer print-out is obtained, it is not possible for staff to confirm the arrival of particular bids. It is also important that any change of company name or address be communicated to the Registrar.

INVALID BIDS

21. Bids will be invalid where:
- (a) No tender number is shown.
 - (b) No Registration number is entered by a registered bidder.
 - (c) The number of units required and/or the premium bid per unit is not shown.
 - (d) Bid is not legible.
 - (e) Bid is not signed.
 - (f) Late Bid.
 - (g) Bidder does not meet requirements under Who May Bid.
 - (h) Non-existent or past tender number is entered.
 - (i) Bid is not made on bid form.
 - (j) Bid is submitted through departmental bureaufax.

DETERMINATION OF RESULTS

22. The highest bids win the licence units available. See, however, notes on determination of results under ANZCERTA.

23. Where the lowest winning bids are all at the same rate per licence unit, the computer is programmed to make a random choice of the winning bid.

24. The value of all winning bids made by a tenderer in any particular tender number will be amalgamated into one licence. The premiums due for such licence will likewise be amalgamated and be payable as a 20 percent deposit and an eighty percent balance.

ANNOUNCEMENT OF RESULTS

25. The results of each tenderer's bids are sent out on a computer printed letter. These are usually ready within a month of the closing of bids.

PUBLICATION OF RESULTS

26. Results are published in the *New Zealand Gazette*.

27. Copies of the *Gazette* may be obtained on a subscription basis from the New Zealand Government Printer on a March year basis on payment of that year's subscription. Payment should be made direct to the Subscription Clerk, Government Printer, Private Bag, Wellington. Alternatively, copies may be obtained through the bookshops of the Government Printer.

PAYMENT OF PREMIUMS

28. The results letter shows the total premiums due. A 20 percent deposit is payable within 14 days of the date of the results letter. Payment may be made by cheque.

29. Licence units which have become available through insufficient bids will be made available as residual licence. Where the deposit is not paid on up to 50 percent of the licence units tendered, those units will also become residual licence. The availability of residual licence will be published with the results of the round of tendering in the *New Zealand Gazette*.

Where, however, the deposit is not paid on 50 percent or more of the units tendered in any one tender, the licence units will be reallocated to other bidders ranked in descending bid rate order until all available units are distributed. Such tenderers will be notified of the new outcome by telegram. Payment will be required within 7 days of the time of the despatch of the telegram advice if clients wish to take up the offer. The non receipt of payment will be deemed to indicate no interest and the units will be offered to the next bidder(s) on the same basis.

30. The balance of the premiums is payable within 3 months of the date of the results letter. An invoice will be sent for this balance. Cheques are subject to a 5 working day clearance. Payment by bank cheque allows the department to issue licences more promptly than if payment is made by personal or company cheque.

31. All payments should be made to the Finance Officer, Department of Trade and Industry, Private Bag, Wellington.

MOVEMENT OF GOODS TO LICENCE ON DEMAND

(Global licence under the general tenders scheme only)

32. The notes in paragraph 33 to 35 apply only to the annual tender of global licence under the general tenders scheme.

33. After the 14 day payment period, referred to in paragraph 28 the average successful premium of each tender will be calculated, added to the percentage for the previous relevant round of tenders and divided by two. Where the simple arithmetic average of those rounds is 7.5 percent or less the goods will move to licence on demand.

34. Those who have successfully tendered for licence which later moves to licence on demand as referred to in paragraph 33, will be given the option of withdrawing from the tender(s) entirely. If instead the tenderer uplifts all licence won, a refund on the balance of licence unused when the goods become licence on demand may be requested.

35. Goods might also move to licence on demand after the 3 months' payment period when the average premiums are re-calculated for tenders where there are non-payments. In this case a refund will be made if any part of licences already paid for in full has not been used.

RESIDUAL LICENCE

36. Licence not bid for, or licence for which deposits have not been received will be made available as residual licence at the average premium determined after the 14 day period allowed for the payment of deposits in accordance with paragraph 29.

37. The availability of residual licence at this stage will be published in the *New Zealand Gazette*. A period of 3 weeks after the publication of the *Gazette* will be provided for applications to be made. Applications must be made on T&I 401. After result letters

are despatched successful entities will be required to pay within 1 month of the date of the results letter. Applicants *must* ensure that the department has all the necessary information available for the preparation of a licence, especially the importer code. Licence units are allocated by computer by random selection where requests for licence exceeds supply.

38. Licence not applied for in the 3 week period will continue to be available on request at the price referred to in paragraph 36. Payment should be made at the time a request on T&I 401 is lodged.

39. After the 3 month payment date for the tender round, licence not paid for will be added to the residual pool and be made available at a recalculated price which allows for non-payments. The availability of this licence will be published in the *New Zealand Gazette* which may be obtained from the Government Printer as noted in paragraph 27. A period of 1 month will be provided for payment from the date of the results letter.

CONTINUITY LICENCE

40. Continuity licence will be made available unless the Call for Tenders states otherwise. Licence holders may buy a licence worth 50 percent of the total c.i.f. value (or volume) of licence won and paid for in a previous round of tenders so that it will be available for the following year. Continuity licence will be charged for at the same bid rate as for the original licence. Continuity licence will be issued after invoicing and on payment of the appropriate portion of the premium paid for the original licence. Licences and invoices will be made out to the nearest dollar.

41. Continuity licence will be available on assigned licences and residual licences where the assignment has taken place or the residual licence has been obtained in the first nine months of the validity period of the tender licence.

42. Payment for continuity licence must be made within 3 months of the licence starting date.

EXTENSION OF LICENCE

44. Tender licences will not be extended beyond their expiry date except in the following circumstances. In cases where goods have been ordered in time to arrive before the licence expires but are delayed for reasons outside the importer's control (e.g. delay of ships) licences can be extended for 60 days beyond the expiry date by an endorsement of the licence by a Customs Department Licensing Officer. Requests for such extensions of licences must explain the reasons for the delay, provide evidence that the goods were ordered in time to arrive before the expiry of the licence and that they will arrive within the 60 day extension period.

ASSIGNMENT OF LICENCE

45. When a licence has been paid for entirely it is deemed to be the property of the importer. It may then be assigned in full or in part to one or more other parties. Payment may be made by one or all parties concerned but the whole amount due has to be paid at one time. Parties to an assignment must signify their agreement to the assignment on the appropriate form which can be obtained from any office of the department.

GOODS AND SERVICES TAX

46. GST is not payable on the premiums.

RECEIVERSHIP/LIQUIDATION/BANKRUPTCY

47. If during the payment period, the successful tenderer should go into bankruptcy, receivership, liquidation or is commenced to be wound-up under the Companies Act 1955, without payment of the premium being made, the Official Assignee, Receiver or Liquidator (as the case may be) may pay or cause to be paid the premium and;

(a) Uplift the licence and use it in accordance with its conditions and this Guide; or

(b) Assign the licence to another party in accordance with paragraph 45.

48. Where a company in receivership or liquidation continues to trade it is not precluded by that fact from lodging bids in future rounds.

TAKEOVER/MERGER OF BUSINESS

49. If during the payment period the successful tenderer's business is the subject of a takeover or merger, the terms of which gives a different entity the contingent interest in the unredeemed licence, the successful tenderer shall immediately notify the Registrar in writing accordingly.

50. An assignment of the licence to the different entity will be granted where a prompt notice is received in terms of paragraph 49 and the criteria as set out in paragraphs 45 of the Guide are satisfied.

GOODS MADE EXEMPT

51. Where goods are made exempt or subject to licence on demand during the period of validity of a licence, a refund may be allowed for unused licence. Tenderers should apply in writing to the Registrar.

SHORTFALL OF LICENCE

52. Additional tender licence cannot be issued to cover shortfalls in licence value. Imports in excess of the value of licences held will be considered in terms of the section "Importation of Goods without Licence or Permit" in Annex III of the Import Licensing Schedule.

LOST OR DESTROYED LICENCES

53. If a licence is lost or destroyed, the appropriate declaration should be made with the Collector of Customs. The value of any balance on the licence should be certified where possible by the Collector. The declaration should then be forwarded to the Registrar. The onus is on the tenderer to notify the Registrar promptly.

PILLAGED GOODS

54. Details of the value of pillaged goods, insurance documents and marked-off licences should be submitted to the Customs Department for a write back of licence to be considered.

GOODS EXPORTED

55. Where goods brought in under tender licence are subsequently exported, an application should be lodged under normal licensing procedures for a replacement licence for the c.i.f. value of goods concerned. The application should be supported by documentary evidence of the export transaction.

LICENCE USAGE

56. As tendering aims to provide increased opportunities for importers by way of open and competitive licence allocation, and to foster competition, tender licence-holders are expected to make reasonable use of their licences.

57. If it is established that any tender licence-holder may be frustrating the aims of tendering by substantially under-using tender licence the company and possibly subsidiaries and associates will be barred from tendering for a 2-year period. The use of less than 75 percent of licence would generally be regarded as substantial under-utilisation.

NOTICE OF EXTRAORDINARY GENERAL MEETING

NOTICE is hereby given that an extraordinary general meeting of members of A. A. Mutual Insurance Company will be held at Level 5, AA Centre, 342 Lambton Quay, Wellington at 9 a.m. on Tuesday, the 25th day of November 1986.

Special Business:

To consider and if thought fit to pass special resolutions to alter the memorandum and articles of association with or without modification or amendment.

By order of the board:

C. E. NORRIS, Company Secretary.

Wellington, 24 October 1986.

EXPLANATORY NOTE

1. *Memorandum of Association*—Along with many other companies who have changed their memorandum of association since recent changes in the law, the directors consider it to be desirable for the company to have all the rights and powers of a natural person without restriction so that the company may enter into any undertakings or types of business which may benefit the members.

2. *Articles of Association*—The directors have been advised that the existing articles of association contain some rather inflexible provisions relating to the passing of directors' resolutions, the holding of directors' meetings and some other administrative matters.

The proposed changes to the articles of association will enable the directors to better carry out their functions and will facilitate the calling of meetings and allow urgent business to be dealt with promptly.

Members of the company are asked to note that full copies of the text of the proposed special resolutions are available for inspection at any office of the company.
