### DECISION

*Dated the 25th day of June 1987*

#### Applications

The Broadcasting Tribunal called for applications for commercial FM stations to provide a service to the provisional coverage area presently served by television transmissions from Mount Egmont.

The provisional coverage area includes a service to both north and south Taranaki including the City of New Plymouth in the north and Hawera in the south and extends down as far as Waverley Beach in the South Taranaki Bite.

The population covered was estimated to be 90 000 (84 percent of the provincial population) of whom about half live in New Plymouth.

#### Current Services in the Area

The following services are available in Taranaki:

##### Commercial

2ZP, a Radio New Zealand community station, serves north and central Taranaki from New Plymouth. 2ZH serves central and southern Taranaki from Hawera.

2ZP originates the main commercial programme, which is relayed by 2ZH except when 2ZH originates a breakfast programme on weekdays. 2ZH can also break out as necessary.

##### Non-commercial

2YP relays the National Programme to New Plymouth and North Taranaki except on Saturday and Sunday evenings when it relays the Concert Programme. 2YA's National Programme coverage takes in central and south Taranaki from transmissions in Wellington. The Concert Programme is not available apart from Saturday and Sunday evenings through 2YP.

Station 2ZP and 2ZH target a 25-54 aged audience. The stations are intended to be parochial, community based, provincial stations. Their programme objectives are entertainment and information with a community focus. Programmes are locally originated between 6 a.m. and 6 p.m.

Broadcasting Corporation of New Zealand (BRO 115/85)

The Broadcasting Corporation of New Zealand ("the corporation") proposed a ZM/FM station similar to that approved by the tribunal for Palmerston North.

The corporation's intention was to extend to Taranaki the main centre ZM service by a network operation from Wellington with 4 hours of local origination during peak hours from 6 a.m. to 10 a.m. During the network period up to midnight material could be prepared locally for insertion by an electronic trigger from Wellington to give the network programming a local flavour. This would apply to both local commercials and capsules of local information.

The station would be a contemporary music station with a carefully defined target audience of 15-29 years and a core audience of 15-24 years.

The BCNZ saw 2ZP continuing to provide a news, sport, information, current affairs and music service for the 25-54 age group and the National Programme relay providing that network service.

The corporation said that the inauguration of a ZM/FM service would enable it to commence broadcasting the Concert Programme on FM in Taranaki as had been authorised by the tribunal in 1984.

Action FM Ltd. (BRO 119/85)

If Action FM Ltd. (Action FM) were successful in its application its share capital would be increased to \$700,000. The largest shareholders would be Mr K. W. Irwin, a New Plymouth solicitor with 19.39 percent, New Plymouth Friendly Societies Pharmacies Ltd. with 15.71 percent and Taranaki Newspapers Ltd., publishers of the 2 daily newspapers and 1 weekly newspaper in New Plymouth, with 14.9 percent. The 3 largest shareholders would hold 50 percent of the equity capital.

Other local shareholders, none of whom hold more than 10 percent, would bring the total local shareholding to 95 percent. One shareholder resides in Auckland.

The proposed manager of Action FM Ltd. ("Action FM") was Mr S. A. Rowe, national sales manager for Hauraki Enterprises Ltd. and a former sales manager for Radio Taranaki.

The directors would be M. D. L. Lean, Mayor of New Plymouth (chairman), K. W. Irwin, R. J. Avery, general manager of Taranaki Newspapers, I. D. Lobb, a chemist and Mr A. H. Golden, general manager of New Zealand News Ltd.'s Electronic Communications

Division, as an alternate director to Mr R. J. Avery (Taranaki Newspapers Ltd., publisher of both daily newspapers in New Plymouth, is a wholly owned subsidiary of New Zealand News Ltd), Mr R. L. McKay and Mr T. Egerton, joint managing directors of Metropolitan FM Ltd., Auckland, would be consultants.

Action FM proposed to extend its coverage area by translators to Mahoe and Opunake in the second year and to the West and north-west sides of Mount Egmont at a later stage.

The station proposed initially to broadcast 18 hours daily on weekdays but to extend the service to a continuous one from Friday night until midnight Sunday. The applicant described the target age group as all people under 40 with a core audience aged 18-35. The music was described as being "familiar and consistent with a wide variety of current and old hits spanning years 1965-1985" with 60 percent of available air time devoted to current music and 40 percent to a wide variety of "oldies".

Energy Enterprises Ltd. (BRO 120/85)

The applicant company would have a capital of \$750,000. An additional subscription of \$100,000 is said to be available if needed.

Energy Holdings Ltd. holds \$385,000 of the capital (51 percent). It is owned by the 5 promoters, Messrs Q. T. Bright, J. B. Corbett, S. L. Joyce, V. D. Noldus and D. J. Reid with equal shares.

These promoters have been responsible for Energy Enterprises Ltd. ("Energy Enterprises") applying for 2 short-term broadcasting authorisations during the Christmas period 1984/85 and 1985/86.

The balance of the capital would be held by 23 shareholders. All but 2 of the shareholders reside in Taranaki. The station proposed to broadcast continuously, providing a programme directed to the needs of the 15-39 year old audience and centred around contemporary music presented in a hit radio format.

The proposed joint managing directors of the company are to be Messrs Noldus and Joyce. The other directors would be Mr N. R. Moller (chairman), J. G. Armstrong and D. S. R. Lowe (managing director of Radio Pacific Ltd.). Mr G. C. Smith, managing director of Radio Bay of Plenty Ltd., Whakatane, would be a consultant.

#### Issues

Many of the issues to be decided in respect of these applications also arose in Nelson. Some corporation witnesses gave evidence at both hearings, so we had more than one opportunity to assess credibility and worth of the evidence. We have carefully considered the evidence given in New Plymouth and there are differences which have led to some different conclusions. However we have tried to avoid repeating verbatim many observations made in the Nelson decision which apply equally here. Our assessment of private and corporation applicants led us to similar conclusions as to their relative merits. We confirm our assessment of many of the issues made in our Nelson decision and have applied them in this decision without explaining them in detail again.

#### Section 80

In considering the applications for warrants the tribunal, before determining whether or not to grant the applications, has had regard to the following matters, so far as they are applicable:

- (a) The extent to which the proposed service is desirable in the public interest:

The ZM/FM station could be described as a hybrid between a network outlet and a mini station. It would broadcast a commercial service with locally originated programmes for 4 hours per day and with inserts of local programming at other times.

We have described the programming and merits of this operation in our Manawatu decision 14/85 and more recently in our Nelson decision (15/87). We do not repeat that material again but, after hearing the evidence in this application, confirm our previously stated views.

Both private applicants proposed a commercial service, locally based, originating a local programme.

The tribunal came to the conclusion that the private operators' proposals were of a more desirable type for the first of any extra services to the area.

Further, the tribunal concluded that if only 1 warrant were to be granted, it should be granted to the better of the private applicants and that if 2 were to be granted, then there would be strong justification for the second warrant being granted to the Broadcasting Corporation to provide a metropolitan music service.

There were differences in the programme services to be provided by Energy Enterprises and Action FM. We found the Energy Enterprises service to be marginally more attractive than the Action FM proposal.

Energy Enterprises includes a young and able group with additional local support bringing a basically local ownership, serving a somewhat wider demographic target audience with a 24-hour service. It was a well prepared and programmed application, not over ambitious but based on an awareness of limitations on what can be achieved and of financial resources.

We believe the station would have a ready identification with the local audience and be successful.

The Action FM proposal was put together by some competent broadcasters based in Auckland, well but differently programmed and also with good financial resources. It would provide an extension of service later but, on balance, we found it to be less attractive than the Energy Enterprises proposals.

- (b) The economic effect which the establishment of the station to which the application relates is likely to have in respect of broadcasting stations already in operation:
- (c) The effect which the establishment of the station to which the application relates may have on broadcasting services provided by the corporation in the public interest:

We heard considerable evidence on the effect on the BCNZ. However we are satisfied that market expansion would ensure little impact on the existing station resulting from a new warrant. Even at modest calculations of expansion the potential impact need not be so large as to outweigh the advantage of introducing a new station. We demonstrate from the BCNZ's own evidence one approach to such estimates.

Mr J. G. McElhinney made a number of calculations as to the effect of specific additional services on the market. In an analysis assuming some market expansion on the addition of a radio station, he made these calculations:

#### Effect on 2ZP

	20%	30%	40%
	expansion	expansion	expansion
	\$	\$	\$

#### One additional station:

ZM/FM	43,000	(187,000)	(417,000)
Energy	175,000	55,000	(285,000)
Action	300,000	70,000	(285,000)

#### Two additional stations:

ZM/FM and Energy	678,000	448,000	218,000
ZM/FM and Action	803,000	573,000	343,000
Energy and Action	935,000	705,000	475,000

Unbracketed figures indicate the revenue to be foregone by 2ZP. The bracketed figures indicate amounts available for growth, i.e., there need be no reduction in 2ZP's income if other stations achieve the revenue estimates.

The tribunal has concluded that it is not unreasonable to expect 40 percent expansion in the market. The effect on 2ZP of a 40 percent increase in the case of a grant of a warrant to Energy Enterprises would be nil. The effect of the grant of a warrant to Action FM would also be nil. The effect of granting ZM/FM and Energy would be up to \$218,000 and the impact of ZM/FM and Action would be up to \$343,000.

It will be seen that on Mr McElhinney's analysis a 30 percent expansion would affect 2ZP by \$55,000 in the case of a grant to Energy, \$70,000 in the case of Action and not at all in the case of ZM-FM.

The effect on the corporation of the addition of the ZM station only is for ZM/FM to take a projected \$503,000 out of the market but to produce a "surplus" for ZM/FM of \$122,988. If 40 percent expansion in the market occurs, that would still leave \$417,000 for growth by 2ZP. The entrance to the market of Energy only would leave \$285,000 for growth. The effect of ZM/FM and Energy would be to cause a possible loss of revenue of \$218,000 to 2ZP offset to the extent of \$123,000 by the ZM/FM surplus.

At 30 percent the possible loss of revenue to 2ZP is \$448,000 offset by the \$123,000.

The tribunal considers that the advantages of two new services and their relationship to the disadvantages in terms of the cost to the corporation will ultimately be a matter for the corporation to determine. The corporation is not compelled to take up the ZM/FM proposal. If the corporation believes the cost to be too high, it could delay proceeding with the ZM/FM service. If a choice had to be made on the basis of needs of the area or desirability of service we would consider the corporation could be justified in abandoning the ZM/FM proposal and contenting itself with a profitable 2ZP and an extension of the Concert Programme based on that profitability alone.

We do not necessarily accept the above analysis as it depends on a number of assumptions and judgments. What it does is examine the possible revenue available if stations operate to predicted patterns and there is market expansion. It measures room in the market but, of course, the actual impact on 2ZP of actual competitors depends on 2ZP's performance. It may be a newcomer who fails to realise the potential revenue.

In his final submissions Mr McGrath relied on the corporation's evidence relating to the New Plymouth market. We prefer not to follow that reasoning without a reassessment of growth prospects which must be better in that city than in the region as a whole.

The corporation said a loss of income for 2ZP would cause a cut in services. When pressed however the manager could only point specifically to one matter of any substance having to move into cheaper premises. He felt the present building was not too big for one station, which simply indicated that normal action would be taken to keep costs down.

We have had to bear in mind the impact of ZM/FM, in conjunction with 2ZP, on a private station.

(d) The needs of New Zealand or the locality or localities proposed to be served, in respect of broadcasting services:

As has been explained already, the ZM/FM service provides a largely metropolitan service to the younger end of the listening audience with a core target of 15 to 24 years.

We believe that the initial need in the area is for a station with wider demographic base, providing a local service preferably full-time. Despite the criticism by the corporation that the core audiences of the other applicants were too wide, we preferred the inclusion of an older age group in the target audience. Energy Enterprises assessed that need better than Action FM.

We note that the corporation's commercial 2ZP service is for nearly half the 24-hour day network operation from Wellington, and the National Programme is a network relay service.

Despite the elements of local origination and local activity, the ZM service is likely to be seen as a metropolitan based music service with local injects. (It is much less likely to be identified as "our station" than 2ZH).

Because ZM/FM would serve a narrower age group (albeit with some spill over to an older audience), we do not believe that the institution of this service is as urgent as the institution of a fully local service.

We therefore propose that the ZM/FM service should commence 12 months after the commencement of the Energy Enterprises service. The delay will cause no significant hardship to the potential listening audience because the Energy Enterprises services will provide a hitherto unavailable stereo FM music programme directed to their needs. The ZM/FM proposal will give them a choice.

The tribunal does not consider there is a need for 2 new similar commercial stations such as Action and Energy. The ZM/FM option in conjunction with either private station would provide a contrasting service. It also requires less revenue because of its network.

With the commencement of the ZM/FM service, the target audience of Energy Enterprises would move up the age groups, with greater emphasis on the 18-39 age group or even 25-39 with some spillover to the 39-44 age group.

All these factors go to meeting the needs of the people in the region.

Without the introduction of a private warrant holder the corporation would have a monopoly of radio service for Taranaki.

(e) The financial and commercial ability of the applicant to carry on the proposed service:

There was some criticism of the financial and commercial ability of Energy Enterprises Ltd. and there was specific criticism of the personal financing arrangements of the participants. We are satisfied these arrangements are adequate and consider the family support and support of each other a strength.

There was also criticism of their having control of a majority of the shareholding in the applicant company through Energy Holdings Ltd. The tribunal takes no objection to this any more than it would if the majority shares of the station were owned by a local company. On the contrary an arrangement whereby some people dedicated to this particular purpose who, as a team, want to keep the overall shareholding control of the station is seen as a stabilising influence.

We consider it a desirable feature which ought to be retained but would be changed by the acquisition of Energy Holdings Ltd. The tribunal will impose a condition that requires the consent of the tribunal to any change of control of Energy Holdings Ltd. while it holds a prescribed interest in the warrant holder.

Having seen and heard Messrs Joyce and Noldus who gave evidence we are satisfied as to their ability. We are impressed with the content of their application, and their realism moderates their dedication and enthusiasm. We place some reliance on Mr Lowe's assessment of them and his confidence in being a director. Five operational staff were named.

Criticism was also made of Action FM's manager and doubt cast on whether he would take up his appointment. We do not accept that these speculations should affect our judgment that he is competent.

We concluded in the end that although the situations were different, there was little on balance to separate the two companies as far as station managers was concerned. Both have good boards of directors, although Action FM's includes only one with previous, though limited, broadcasting experience.

On balance we concluded the Energy Enterprises board and management gave it a slight edge over Action FM under this heading.

(f) The likelihood of the applicant carrying on the proposed service satisfactorily:

We concluded that all of the applicants were likely to carry on their proposed services satisfactorily.

(g) The results of any survey available to the tribunal:

The BCNZ conducted a survey in New Plymouth to ascertain music tastes, radio needs and FM interests and expectations.

It was taken over a 2-week period involving 329 people randomly selected from the telephone book.

Among the findings were conclusions that the market was ready for a wider range of listening options and that there was strong support for the introduction of FM, particularly among 15 to 24-year olds who gave their main reason for radio listening as music enjoyment.

The 30 to 44 years age group was also interested in FM and wanted enhanced sound quality but tended to give news and information as a main reason for listening.

A survey on business attitudes to radio services was also conducted by the corporation when 2 short-term broadcasting authorisations were operating.

It was conducted over a 2-week period and 115 businesses were randomly selected from the telephone book.

There was a high degree of satisfaction with the usage of radio by the business community, but there was some demand for additional services. In reference to advertising needs 71 percent said that the present services were sufficient for their advertising needs and 18.3 percent said they were insufficient, while 10.4 percent said they did not know.

Ownership of the station was not seen as important by 56 percent of respondents. Of the 44 percent of businesses who thought it was important, the greatest preference was for local ownership.

Mr Joyce gave evidence of surveys done for Energy Enterprises Ltd. but they were not relied upon for the warrant application.

In 1984/85 a random door-to-door survey of 770 north Taranaki households was conducted. The results showed that 27.9 percent of the 10+ respondents said their favourite station was Energy and 49.7 percent of the 10- to 35-year-old target group chose Energy.

In 1985/86 Energy Enterprises commissioned a local marketing company to survey listening preferences, set penetration, acceptance of Energy, and the need for the Energy service. The results were said to be for their own purposes only and were claimed to show acceptable listenership to Energy among under-40s and acceptance of programme format.

Energy claimed all the survey material was supportive of its application and that the corporation's surveys showed a clear preference for the establishment of a station which was private and locally backed. Energy Enterprises said the McDonald Marketing Survey was an indicator of the considerable interest in any Energy FM service.

The corporation considered that the latter survey should be disregarded for technical reasons, but urged that its own survey should be taken into account.

All research, including the Radio New Zealand survey, clearly pointed to substantial interest in the provision of a truly local service.

The corporation survey evidence did show high support for popular music on FM for teenagers and young adults. Their music needs, however, have to be considered along with those of the under 40 audience as a whole. We consider they will be met (along with others' needs) to a reasonable degree by the Energy Enterprises format and, more specifically later, by the additional choice of ZM/FM.

- (h) The requirement that frequencies be utilised in the public interest:

There were no submissions relevant to this heading.

- (i) The desirability of avoiding monopolies in the ownership or control of news media:

The Action FM station was supported by Taranaki Newspapers Ltd. which, before the hearing, reduced its proposed interest from 40 percent to 14.9 percent.

We have had some regard to the New Zealand News (and Brierley Investments Ltd. as the majority shareholder in New Zealand News) ownership and dominance of the print media services available in Taranaki to both public and advertisers.

FM applications involving newspaper ownership are, in terms of Government policy, to be taken on their merits but the tendency towards dominance in this case is also a factor to which we should give some weight. That will be slight in this case because the interest in the warrant is less than a prescribed interest.

Both the private stations would introduce a news service to the area. A ZM/FM service would also have some different news but would use the basic New Zealand wide Radio New Zealand News service which is already available on 2ZP.

A private operator would introduce different news sources. Energy's would introduce one not associated with existing media in Taranaki.

- (j) The hours during which the applicant proposes to broadcast programmes:

Energy Enterprises Ltd. would provide a 24-hour locally originated programme service. Action FM proposed an 18-hour a day service on week days initially. In the particular circumstances we consider this a slight disadvantage compared with the fuller service offered by Energy.

The ZM service would be 24 hours a day but only 4 hours of it would be fully locally originated. Local information would be inserted into the programme at some other times but there are some limitations on this. It will be seen as a network operation for about half the day and a network dominated one for about 8 of the remaining hours and at weekends.

Although the corporation claimed the ZM/FM service would have local news, weather, etc. inserted for up to 18 hours a day, the level of local manning proposed indicates a much less topical local service for the evening hours.

- (k) The extent of advertising matter which the applicant proposes to broadcast:

The corporation proposed no limit on advertising volume.

Both private applicants proposed that there should be self-imposed limits of 8 minutes per hour. The tribunal considers such limits should be imposed by the tribunal as conditions. It is always open for parties at a later stage to apply for amendments, particularly where there is some FM competition.

During the period that Energy Enterprises is operating as a solo operation its maximum minutes per hour would be limited to 8.

In view of the effect on the private station of the corporation's operations, the ZM/FM station will be limited to 6 minutes per hour.

Although the corporation claimed that there was no basis for giving some protection to a new private applicant, the tribunal must take account of the enormous resources and ability of the corporation in both its selling organisation and its network privileges to sell advertising competitively. We consider that, for an initial period at least, it is important that there be some restriction on the market. The effect of the restriction of course is to benefit both 2ZP and the private station. The benefits do not fall entirely to the private operator.

- (l) The proposed rates and changes to be made in respect of advertising programmes:

There was criticism levelled at the corporation budgeting on a 100 percent sale of inventory and the effect this had on rates.

There were also allegations that the ZM/FM rate was unrealistically low. These were countered by the corporation which considered them consistent with its charge for ZM/FM services elsewhere on a 10 percent market share.

The tribunal would be concerned if there was any so-called "predatory pricing" being undertaken by the corporation but it considers this unlikely if available advertising minutes were limited to 6 per hour.

- (m) Such matters as may be necessary for the purposes of imposing conditions under section 71A of this Act:

We have referred to the 51 percent shareholding of Energy Holdings Ltd. in Energy Enterprises. As this company has a prescribed interest—and a controlling one—it will be necessary to impose conditions making it a condition that, as long as Energy Holdings ("Holdings") has a prescribed interest in the warrant, it will be a condition of the warrant that—

- (a) Any change in the shareholding of Holdings which results in any person obtaining a prescribed interest in the warrant indirectly will require the consent of the tribunal.

- (b) Any disposal by Holdings of its shares in the warrant holder

- to any news media company or
- to any person who will then hold a prescribed interest will require the approval of the tribunal.

- (n) All relevant evidence or representations made at the hearing.

- (o) Such other matters as may be prescribed in regulations in that behalf:

Regulation 15A of the Broadcasting Regulations requires the tribunal to have regard to the general policy of the Government in relation to the development of FM broadcasting as an integral part of sound-radio broadcasting in New Zealand.

The tribunal is required by section 68 of the Broadcasting Act 1976 to have regard to the policy of the Government.

In our Nelson decision (decision No. 15/87) we set out our understanding of the effect of the 2 sections of the Act, i.e., section 80 and section 68. We have also given consideration to the Government policy stated in the ministerial notices referred to and detailed in that decision. Our general position on the Government policy question set out fully in that decision is the position we have taken here.

Regard to Government policy in this instance has resulted in our giving a more favourable decision to the ZM/FM application. While we would not have placed the Action FM application ahead of it, the weight we gave the policy influenced us in our decision to grant the ZM/FM application at this stage rather than decline the application and suggest a further application would be considered at some indefinite date in the future.

We believe the ZM/FM service should, as a second priority, follow and not commence contemporaneously with the private operation which we consider to be more desirable in overall terms and in time scale.

After careful consideration then, the tribunal has concluded that it should grant 2 warrants, 1 to Energy and 1 to the BCNZ for a ZM/FM station, with the ZM/FM warrant deferred until 12 months after the commencement of broadcasting by Energy.

We accept that the FM Concert programme, which would be "piggy-backed" into the area on the ZM/FM programme, may be thus deferred. The corporation may well consider that since the actual operations of the ZM station are not closely linked with its support for the cost of the FM installation, and since the corporation's revenue on its own estimates may in fact increase on the commencement of the Energy Enterprises station, it may be appropriate to take the opportunity to install and co-site a Concert Programme transmitter with the private FM transmitter and commence the service at the same time. The unusual delay in the completion of this decision will have been of some benefit to the corporation. That may allow a more positive view to be taken on the commencement of the Concert Programme FM service.

Our comments on the Nelson situation are pertinent. In Taranaki, the corporation may well decide in public interest terms whether it is as important to introduce the ZM/FM service (a commercial operation) or the Concert Programme in FM stereo.

It is convenient here to consider Mr MacLaren's argument that regulation 14A required the surrender of the 2ZP warrant if the ZM/FM station was granted a warrant. We find the position to be the same as in our Manawatu decision (No. 14/85) and that special circumstances exist, namely that ZM/FM is not a conversion of 2ZP, that ZM/FM is serving a different audience from 2ZP and the introduction of the Concert Programme FM service. The reasoning is set out in the Manawatu decision.

#### Decisions

The Action FM application is declined.

The tribunal grants a warrant to Energy Enterprises Ltd. on the following conditions:

1. The coverage will be as defined by the technical evidence.
2. News media ownership will be limited to 30 percent.
3. The usual restriction on networking with the usual exemptions at present applying to private stations.
4. There will be the usual advertising conditions and also a limit of 8 minutes per clock hour on advertising while it is the only commercial FM station broadcasting.
5. The warrant holder shall not substantially depart from the basic format and content of its proposed programmes or the type or extent of the services intended to be provided at the time of the grant of the warrant without the prior consent of the Broadcasting Tribunal and subject to any conditions which the tribunal might impose in the public interest:

Provided however if the corporation's ZM/FM station is broadcasting the warrant holder may extend its target audience to an older age group.

6. The usual condition as to technical standards.
7. The station will co-site with the Television New Zealand installation on Mount Egmont.
8. The warrant will lapse if broadcasting does not commence within 1 year of this decision or final determination of any appeal against this decision or such further period as the tribunal may determine.
9. As long as Energy Holdings Ltd. has a prescribed interest in the warrant—
  - (a) Any change in the shareholding of Holdings which results in any person obtaining a prescribed interest in the warrant indirectly will require the consent of the tribunal.
  - (b) Any disposal by Holdings of its shares in the warrant holder
    - to any news media company or
    - to any person who will then hold a prescribed interest will require the approval of the tribunal.

The BCNZ will be granted a warrant for ZM/FM on the following conditions:

1. That the broadcasting commence not sooner than 12 months after the commencement of broadcasting by Energy Enterprises Ltd.
2. The warrant will lapse if broadcasting does not commence within 3 years of the commencement of broadcasting by Energy Enterprises or within 4 years of this decision or the final determination of any appeal against this decision (whichever shall be the later) or such further period as the tribunal may determine.
3. Broadcasting shall not commence earlier than the time when Concert Programme FM broadcasting is commenced or will concurrently commence.
4. The warrant holder shall not substantially depart from the basic format and content of its proposed programmes or the type or extent of the services intended to be provided at the time of the grant of the warrant without the prior consent of the Broadcasting Tribunal and subject to any conditions which the tribunal might impose in the public interest.
5. The usual condition as to technical standards.
6. The usual condition on advertising and a limit of 6 minutes per clock hour.
7. The station will co-site with the Television New Zealand installation at Mount Egmont.

#### Concert Programme

It is convenient to refer here to evidence filed by the corporation to support the establishment of a FM Concert Programme relay of 2YC.

The tribunal approved in 1984 the establishment of such a station. The tribunal has approved the amendment to the 2YC warrant with the coverage area being the area served by television transmission from Television New Zealand at Mount Egmont.

Signed for the tribunal:

#### Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of an application by RADIO PACIFIC LTD. for amendment of sound radio warrant AM-501XP:

Chairman: B. H. Slane.

Member: Ann E. Wilson.

#### DECISION

Dated the 25th day of June 1987

IN its earlier decision (decision No. 8/84) the tribunal granted an amendment deleting condition 4 (d) of the warrant which related to the limit of 10 percent on any shareholding in Radio Pacific Ltd.

The applicant also sought to delete the condition 4 (b) which arose from an undertaking by the warrant holder.

The tribunal indicated in decision No. 8/84 that it would delete that condition and substitute the one applied for modified to require that significant elements of programming be directed to the listening needs of a multicultural audience.

The tribunal encouraged the parties to come to some agreement about the wording of that substitute condition but this proved impossible. After considering the submissions carefully the Tribunal has decided to impose the condition indicated in the following form.

In substitution for condition 4 (b), the following condition will apply:

"The warrant holder shall not substantially depart from the basic format and content of its proposed programmes or the type or the extent of the services intended to be provided in August 1983 (at the time of the hearing of the application to amend this condition) without the prior consent of the Broadcasting Tribunal and subject to any conditions that the tribunal might impose in the public interest:

Provided however that the warrant holder is required to respond to the specific needs identified in the application for a warrant—namely, to foster the cultural identity of minority ethnic groups in Auckland and to develop community involvement, health education and a caring understanding society and to that end shall ensure that significant elements of programming shall be directed to meeting those specific needs and other needs of a multicultural audience within the talk/talk-back format."

This condition is intended to require the warrant holder to take specific steps to reflect the various ethnic elements among Auckland listeners in its on-air staff and guests, and to comply with this condition it is likely to have to apply resources additional to those which might otherwise be considered adequate.

In the light of submissions made to the tribunal it should be made clear that the tribunal found:

1. That at the time of the original grant of the warrant, the tribunal had no statutory power to impose conditions. The conditions were those contained in an undertaking at the time of an appeal to the High Court by the applicant for the warrant.
2. That the original proposal was not for a multi-lingual ethnic station.
3. That there are limitations on the types of audience which can be catered to and the types of programmes which can be provided within the talk/talk-back format. If the station had a wider format which encompassed extensive music, then some of the objectives might be met musically.

Finally, the tribunal observes that participation in talk-back is open to all people in Auckland. It considers that Radio Pacific should encourage Aucklanders of all races to participate, and that if hosts were to encourage racist or bigoted callers the station may not appear to members of ethnic minorities as one which encouraged their participation. The performance of hosts, their very identities, and the use of guests who have cross-cultural understanding would make it clear that such participation is actively encouraged.

Signed for the tribunal:

B. H. SLANE, Chairman.

IN THE MATTER of sections 205 and 206 of the Companies Act 1955, and IN THE MATTER of MASTER PINE LIMITED, a duly incorporated company having its registered office at Wellington and carrying on business of sawmillers (in receivership)—*Applicant:*

NOTICE is hereby given that by an order dated the 23rd day of June 1987, the High Court of New Zealand has directed that separate meetings of the two classes of creditors of the above-named company be held for the purpose of:

1. Considering and if thought fit, approving with or without modification the scheme of arrangement proposed to be made between the company and its creditors.
2. Electing members of the committee if the scheme is approved.

The meeting will be held, on Friday, the 24th day of July 1987 at The Sharella Motor Lodge, 20 Glenmore Street, Wellington.

That for class A creditors commencing at 1.30 p.m. and that for class B creditors commencing immediately after the class A creditors meeting closes. All creditors of the company affected by the arrangement are requested to attend at the meeting. A document setting out the proposed scheme of arrangement, an explanatory statement and proxy forms are enclosed.

The general purpose of the scheme of arrangement is to obtain the agreement of creditors to the deferment for 10 months of their right to payment so as to enable the company to trade normally over that period and to complete existing and new contracts and, if thought fit, to dispose of the business as a going concern. The debts affected by the proposed arrangement are those incurred prior to 15 June 1987.

The Court has appointed Roland Stute of Wellington, chartered accountant, to be chairman of the meetings. The scheme, if adopted, will be subject to the subsequent sanction of the High Court.

Dated this 9th day of July 1987.

**PARLIAMENT AND THE PEOPLE**

*Beth Bowden*

64 pp. 1984. \$8.25 plus \$2.20 p & p

This book was written primarily for visitors to Parliament, but will also appeal to those who wish to learn about New Zealand's constitution and its development. It looks at the history of Parliament, elections, how a Bill is transformed into law, how the House of Representatives works, the appointment of the Executive Council, and the constitutional role of the Governor-General. The author has set out:

- To describe New Zealand's constitution.
- To show in a reasonably simple way how it works.
- To give an account of where it came from and how it developed.
- To define a number of terms that are used in connection with these matters.

**PEOPLE LIKE US**

*A Hass, A. Webber, P. Brown, Editors*

120 pp. 1982. \$10.95 plus \$2.92 p & p

In his introduction to this compassionate and understanding account of the personal experiences of New Zealanders who have come from widely different cultural backgrounds, Sir Guy Powles stresses that we must learn to recognise, respect, accept, and enjoy the qualities of life that a variety of cultures bring to our society. *People Like Us* is essential reading for all who care about New Zealand's multi-racial society, and is an invaluable resource book for teachers, social workers, and the general public.

**THE RESTLESS LAND: The Story of Tongariro National Park**  
DEPARTMENT OF LANDS AND SURVEY
