Mining Act 1971

Mining Act 1971

Endowment land to be brought within the operations of the Mining Act 1971.

Whereas, by notice dated the 10th day of July 1879, and

published in the *New Zealand Gazette*, 1879, Volume II, page 953, His Excellency the Governor-General in Council by the powers and authority vested in him under section 350 of "The Municipal Corporations Act 1876", did order that the land described in the Schedule hereto be reserved out of the Waste lands of the Provincial District of Westland, for the purpose of granting the same to the Corporation of the Borough of Kumara.

And whereas, the revenue from the said land is now administered by the Westland County Council who have consented to part of the said land being that part described in the Schedule hereto, being brought within the provisions of the Mining Act 1971, subject to the following conditions:

(a) That the land be brought within the provisions of the Mining Act 1971 for the duration of mining licence No. 32 2435 and of any new mining licence that may be granted to the licensee in terms of section 77 (2) of the said Act.

(b) That a 10 percent (10%) royalty payment be made to the Westland County Council on all minerals mined pursuant to the said mining licence and any new mining licence that may be granted to the licensee in terms of section 77 (2) of the said Act.

Consequent on receiving such consent, the Minister of Energy pursuant to section 28 of the Mining Act 1971, hereby gives notice that the Endowment land described in the Schedule hereto is hereby subject to the provisions of the Mining Act 1971.

While this notice remains in force, the provisions of the Mining Act 1971 shall apply to the land described herein as if the said land were Crown land open for mining. And this notice is issued for the purposes of granting mining licence No. 32 2435 over the said land described in the Schedule hereto. Such licence is issued subject to the following conditions:

1. The licensee shall not carry on mining operations by any method other than:

(a) hand methods; and

(b) mechanical methods using a mechanical digger feeding a rotary screen

to the satisfaction of the inspector of mines.

2. The licensee must vigorously and continuously carry out mining operations to the satisfaction of the inspector of mines.

3. Before starting work and at intervals not exceeding 12 months thereafter, or where a variation is required the licensee shall submit to the inspector of mines for his approval, a work programme and plan in triplicate detailing proposed operations for the subsequent 12 months. No approval shall extend for a period longer than 12 months. Except for the purposes of restoring the land surface and preventing damage to the environment, no work shall be carried out on the licence unless approval has been obtained. Each work programme and plan submitted shall give details of the area to be mined, equipment to be used, provisions for access, power and water supply, stockpiling of soil, overburden and tailings, settling ponds, area to be restored and methods of restoration, and any other significant matters. Before giving approval, the inspector may require further information to be supplied and may require alterations to the programme or plan, and may consult other parties. If approved, the inspector shall so endorse one copy of the programme and plan and return it to the licensee.

4. Before mining commences, the licensee must submit a copy of the plan approved under condition 3 of these conditions to the Westland County Council.

5. If required by the inspector of mines, the licensee shall clearly mark the boundaries of the licence or of areas defined in the approved work programme by pegs, coloured tape, or other means before working adjacent to such boundaries.

Quarry Conditions

6. Notwithstanding the provisions of the Mining Act 1971, the provision of the Quarries and Tunnels Act 1982 and the Quarries Regulations 1983 shall apply to the working of this licence.

Protection of the Environment

7. At all times mining shall be carried out in a manner which will ensure that environmental disturbance is kept to a minimum. All necessary steps shall be taken by the licensee to prevent unnecessary destruction of or damage to vegetation or property and to ensure the safety of the public and livestock.

Rehabilitation of Disturbed Areas

8. In all mining operations where disturbance of topsoil takes place any top soil present shall be progressively stripped and stockpiled so as to prevent movement into watercourses. During operations any tailings are to be progressively returned to worked areas and generally levelled off. Any fines (less than 15 mm diameter) screened from the workings and any topsoil previously removed shall be progressively respread over the levelled areas. On the completion of the operations disturbed areas shall where appropriate be sown out with seed and fertiliser or revegetated to the satisfaction of the inspector of mines after consultation with the landowner/occupier.

9. The maximum surface area to be disturbed by mining and associated works and which has not been fully restored as required by the conditions of this licence to the satisfaction of the inspector of mines shall not exceed 5 hectares at any time unless otherwise approved by the inspector in writing.

10. Spoil shall be stockpiled in such a manner as to prevent movement into watercourses.

11. Any excavations, blasting or other works are to be undertaken in such a manner as to prevent any danger to either the public or livestock. The use of explosives is not permitted unless approved by the inspector of mines.

Roading and Access

12. Before the construction or maintenance of any access tracks requiring the use of earthmoving machinery is commenced, the licensee shall submit to the inspector of mines a plan, showing the location of the proposed access together with other relevant details for the written approval of the inspector of mines after consultation with the landowner/occupier and chief engineer of the catchment board.

13. All access tracks and batters shall be maintained in a stable condition and oversown and topdressed if required.

14. Adequate drainage shall be provided on all access tracks and benches to prevent erosion of any adjacent land.

15. Any tracks shall be restricted to a width of 5 m with a maximum grade of 1 in 5 unless otherwise approved by the inspector of mines after consultation with the landowner/occupier and the chief engineer of the catchment board.

16. During mining operations involving earthworks or in the construction of any access tracks, a 5 metre buffer strip shall be left undisturbed between the operation and any stream, creek, river or lake in the area unless otherwise approved by the inspector of mines.

Buildings

17. No buildings shall be erected without the prior approval of the inspector of mines after consultation with the landowner/occupier. On completion of mining operations any plant and buildings are to be either removed or retained by mutual agreement between the landowner/occupier and the licensee with the approval of the inspector of mines.

Soil and Water Protection

18. No earthmoving machinery is to be operated in any watercourses during mining operations without the prior approval of the inspector of mines.

19. Where mining operations are taking place the suspended solids concentration of waters downstream shall not as a result of the mining be increased by more than 80 mg per litre measured 100 metres downstream of the point of discharge into any watercourse or such stricter limits as may be imposed by the conditions of any water right issued for this licence.

20. The damming of any river or stream, the taking, diversion or use of natural water, the discharge of natural water or waste into natural water and the discharge of natural water containing waste onto land or into the ground, shall not occur except in terms of a right or authorisation granted by the chief engineer of the catchment board if authorisation would normally be required.

21. In all operations that involve a discharge of water, a tailings retention pond shall be operated so as to prevent waste or noxious water from directly or indirectly entering any watercourse.

22. The licensee shall comply with all or any written notices issued by the chief engineer of the catchment board regulating the disposal of water after use and discharge of materials either directly or indirectly into any rivers, creeks or waterways adjacent to the land included in the licence area.

23. No crossing, ford, culvert, bridge or other structure shall be formed or built, in, or over any watercourse where it is likely to adversely affect the natural flow of that watercourse or initiate soil or bank erosion without the prior written approval of the inspector of mines after consultation with the catchment board.

24. On the completion of mining operations all fillings, dumps or other waste materials which may have been placed near watercourses shall be removed or treated in such a manner as to permit unimpeded stream flow so that there is no risk of fill materials, tailings or other debris entering any watercourse.

25. No vegetation, soil, or debris shall be deposited in watercourses.

26. Mining operations shall not initiate or accelerate watercourse bank slumping or erosion. Any such damage shall be repaired to the satisfaction of the inspector of mines after the consultation with the chief engineer of the catchment board.

27. Where shafts, holes or excavations are carried out in the bed of any river or lake, the surface is to be reinstated as near as possible to its natural condition.

28. The natural colour and clarity of waters shall not be changed to any noticeable extent because of silt pollution.

29. No alteration or diversion is to be made to existing waterways without the prior approval of the inspector of mines after consultation with the Ministry of Agriculture and Fisheries and the chief engineer of the catchment board.

30. The discharge of any toxic or noxious substance into any watercourse is prohibited.

Fisheries Protection

31. The licensee shall take any precautions which may be required by the inspector of mines to prevent damage to any fishery and the licensee shall not interfere with the rights of public to take stocks of fish.

General Conditions

32. The licensee shall take all necessary precautions to ensure that no fire hazard arises from mining operations.

33. Interference with livestock is to be kept to a minimum and no mining operations are to be carried out in paddocks being used for lambing without the landowner/occupier's approval.

34. At least 24 hours notice shall be given to the landowner/occupier before entering on to the property. All gates shall be left as found at all times unless otherwise requested.

35. No mining is permitted within a 10 metre radius of any trig station.

Public Liability

36. The licensee shall, prior to commencing operations, effect public liability insurance for an amount not less than fifty thousand dollars (\$50,000).

The indemnity expressed in the insurance policy shall be sufficiently wide in its coverage so as to include claims arising from damage caused by or resulting from fire or explosion and all fire fighting costs resulting from the licensee's operations in respect of the land.

The licensee shall, if so requested by the inspector of mines, provide the inspector with a copy of the insurance policy and the receipt evidencing payment of the premium in respect of such policy.

Transport Act 1962

Licensing Authority—Public Inquiry

Notice of intention to hold inquiry into operation of a Continuous Goods Service Licence.

To: Karamea Transport Service (1983) Limited. (referred to below as "the licensee")

And to: The Secretary for Transport.

Take notice that pursuant to sections 140 and 141 of the Transport Act 1962, the Licensing Authority for the Numbers 8, 9, 10 and 11 Transport Districts will hold a public inquiry into the manner of operation of service conducted under Continuous Goods Service Licence No. 04215 to determine whether it is in the public interest that the licence held by "the licensee" should be revoked, suspended or varied.

The inquiry is being conducted pursuant to section 140 of the Transport Act 1962 on the grounds that, on information supplied to the Authority by an officer of the Secretary for Transport, the Licensing Authority suspects:

(a) that the licensee no longer meets the criteria set out under section 123 of the Transport Act 1962; and

(b) that the licensee has failed to comply with the requirements of sections 127A (1) and 132 (1) (a) of the Transport Act 1962, being conditions of Continuous Goods Service Licence No. 04215.

The inquiry is being conducted pursuant to section 141 of the Transport Act 1962, on the grounds that the Licensing Authority has been informed by an officer of the Secretary for Transport that the licensee has been convicted of offences against the Road User Charges Act 1977, and the Authority considers the nature and the number of offences to be sufficiently serious.

The public inquiry will be held at Westport on the 15th day of June 1988 at the District Court, 11 Wakefield Street, Westport, at 2.30 p.m.

The licensee and Secretary for Transport are entitled to appear and to be heard at this public inquiry, and may be represented by a solicitor or other agent. Any of those persons or bodies may seek further information regarding the inquiry from the undersigned.

Dated at Christchurch this 9th day of May 1988.

K. D. GILES, Secretary.

Licensing Authority—Public Inquiry

To: Ian Charles Easton (the licensee).

And To: The Secretary for Transport.

And To: The New Zealand Railways Corporation.

Take notice that pursuant to section 141 of the Transport Act 1962, the Licensing Authority for the No. 7 Transport District will hold a public inquiry into the manner of operation of service conducted under Goods Service Licence No. 11893 to determine whether it is in the public interest that the licence should be revoked, suspended or varied.

The reason why the inquiry is to be conducted is that the Licensing Authority considers it expedient to do so, having regard to the seriousness of the offences committed in respect of the Transport Act 1962 and the provisions of the Road User Charges Act 1977, in respect of which the licensee has been convicted.

The public inquiry will be held at 10.30 a.m. on 21 June 1988 in the Courthouse, District Court, Bristol Street, Levin.

The licensee and the Secretary for Transport are entitled to appear and to be heard at the public inquiry and may be represented by a lawyer or other agent. Any of those persons or bodies may seek further information regarding the inquiry from the undersigned.

The inquiry may proceed in your absence.

Dated at Wellington this 6th day of May 1988.
