OF THURSDAY, 23 FEBRUARY 1989

SUMMARY

OF THE

RECEIPTS AND PAYMENTS

OF THE

PUBLIC ACCOUNT

FOR THE

NINE MONTHS ENDED 31 DECEMBER 1988

This publication is a summary of the Receipts and Payments of the Public Account with supplementary statements including a statement of the Public Debt and transactions in connection therewith.

INTRODUCTION TO THE SUMMARY

This summary of the receipts and payments of the Public Accounts is produced quarterly and published in terms of section 67 of the Public Finance Act 1977. The contents of the summary are as follows:

- Statement of Accounting Policies, outlines the general accounting principles on which the accounts are prepared, and the particular accounting policies adopted.
- Summary Information Section-Containing high level summaries of the financial transactions of the Public Account.
- Consolidated Account, the main operating account within the Public Account. All receipts must be credited to this account unless there is specific statutory provision to the contrary. e.g., proceeds of loans, and Road User Charges. The main revenue items in the account are direct and indirect taxation, interest received, dividends and profits from Corporations and trading undertakings, and departmental receipts.
 The bulk of Government expenditure is met from this account by way of annual appropriations through Votes (see the Estimates of Expenditure B. 7 [Pt. I]), and permanent appropriations made pursuant to various statutes.
- Loans Account, records the proceeds from all new loans raised (except those raised for redemption of loans) in New Zealand or Overseas during the financial year. The payments side of the account records the disbursement of these proceeds by annual and permanent appropriations, and by way of transfers to other accounts within the Public Account. A non cash item is included on both the receipts and payments side of the account to record the value of capital equipment purchased under credit arrangements.
- Loans Redemption Account, records how loan moneys received specifically for the purpose of repaying or redeeming public debt, together with other receipts credited to the account, have in fact been applied to convert or repay public debt. The account also records cash received and paid in respect of the issue and redemption of Treasury bills.
- National Roads Fund, is established under section 22 of the National Roads Act 1953. Its purpose is to record certain indirect taxation revenues specifically set aside to fund expenditure on construction and maintenance of roads. The account also records other moneys appropriated for these purposes.
- Reserve Account, records funds set aside to meet future contingencies. Transfers into this account are made from the Consolidated Account, but if a contingency arises the funds may be transferred to any of the other accounts within the Public Account.
- Trust Account, contains over 50 separate accounts and is primarily used to record moneys received or held in trust. Moneys paid into the account are generally available to be applied only for the specific purpose for which they were received.
- The Summary of Balances and the Composition of Balances.
- Appropriation and Expenditure Statement, records expenditure relating to Votes within Public Account.
- Statements of the Public Debt, and transactions in connection therewith.
- Notes to the Accounts, contains additional explanatory information on specific receipts or payments items.

STATEMENT OF ACCOUNTING POLICIES

General Accounting Policies

The Public Accounts comprise the five operating accounts established by sections 38 to 42 of the Public Finance Act 1977, together with a suspense account created under section 37 (1) (c) of that Act, and the National Roads Fund established by section 22 of the National Roads Act 1953. A brief description of each of the operating accounts is given in the introduction to this summary. The Suspense Account is a clearing account for receipts banked to the Public Account.

The "Public Account" refers to the bank account of that name kept at the Reserve Bank of New Zealand.

This summary reflects only those transactions relating to departments or activities operating within the Public Account. It does not reflect transactions of accounts to which sections 68 and 69 of the Public Finance Act apply. All transactions are reported on the cash basis of accounting. The amounts shown in this summary represent the cumulative result of transactions from the beginning of the financial year at historic cost.

Recognition of Receipts and Payments

Receipts for money paid into the Public Account are initially credited to the Suspense Account. The receipts are subsequently recognised by debiting the Suspense Account when the revenue receiver advises Treasury of the particular account code to be credited. The balance to the credit of the Suspense Account at the end of each accounting period is disclosed in the Summary of Balances.

Payments are brought to charge in two ways:

- if money is paid from the Public Account Disbursement Account, it is recognised as a payment immediately.
- if money was paid from an imprest account, it is recognised as a payment when Treasury is advised of the particular account code to be debited. Money advanced to Imprestees but remaining unspent at the end of each accounting period forms part of the cash balances.

Particular Accounting Policies

The following particular accounting policies which affect the contents of the accounts have been adopted—

Recognition of Interdepartmental Transactions

Transactions occurring between Government Departments are recognised on the following basis:

- if it was a cash transaction, then the accounting policy on recognition of receipts and payments above applies
- if it was a non-cash transaction, then the transaction is recognised when Treasury is advised of the accounting codes to be credited and debited.

Foreign Currencies

Receipts and payments are translated into New Zealand currency at the actual bank rate for each currency.

All rates are adjusted on an official revaluation and on the last working day of June, September, December and March in each year. The rates so obtained are used to realign foreign investments, liabilities and cash balances. Balances in foreign imprest accounts are realigned at the bank rates applying on the last date Treasury is advised of imprest transactions for the quarter.

Investments

Investments of Public Account Balances are recorded at cost price in foreign currency and converted at the actual bank rate into New Zealand dollars. Capital gains or losses arising from investment transactions are recognised when realised and are disclosed in the public accounts.

Changes in Accounting Policies

There have been two changes in the current financial year in respect of accounting for foreign currencies.

Prior to 1 April 1988, the accounting treatment was as follows:

- foreign currency transactions excluding the Sovereign Note Program were converted into New Zealand currency at the actual bank rate obtained on the last working day preceding 1 June, 1 September, 1 December and 1 March.
- in respect of the Sovereign Note Program the aggregate results of transactions for each month were converted into New Zealand currency at the actual bank rate prevailing on the last working day of the month.

From 1 April 1988 the accounting policy in respect of all foreign currency transactions is as follows:

- all receipts and payments will be translated and at the actual bank rate.
- all rates are now adjusted on the last working day in June, September, December and March.

All other policies have been applied on bases consistent with those used in previous years.

4. Interest on Capital Liabilities and Investments

Under section 99 of the Public Finance Act 1977, any money advanced from the Public Account to a government agency constitutes a capital liability of that agency upon which interest is paid at a rate or rates as determined by the Minister of Finance. This table accordingly discloses the moneys received by way of interest. Interest received on Public Account investments and on other loans is also disclosed in the table.

8. Special Receipts The following are details of this category of receipts:		
Airways Corporation of New Zealand Ltd. The price of assets purchased from the Crown by the Airways Corporation of New Zealand Ltd. was \$51,000,000. The Crown advanced \$41,000,000 in consideration for the issue of 41,000,000 ordinary \$1 shares.	51,000	••
Auckland Harbour Bridge Authority	••	250
Auckland International Airport Ltd. The Crown owns 50% of Auckland International Airport Ltd., holding 105 million ordinary shares of \$1.00. In addition the Crown is the holder of debt totalling \$67,859,531. Offsetting these items of expenditure, the sale of assets to the company realised \$172,859,531 to the Crown, which was recorded as a Consolidated Account receipt.	172,860	
Christchurch International Airport Ltd. In conjunction with the establishment of Christchurch International Airport Ltd., the Crown agreed to provide \$30,720,000 as an advance and subscribe for 14,400,000 fully paid \$1.00 shares. The Crown received \$54,394,999 being proceeds from the sale of its assets, share of joint venture funds and management fee payable by the company. This was recorded as a receipt to the Consolidated Account.	54,395	
Crown Proceedings Act	••	1,029
DFC New Zealand Ltd. The sale of 55,000,000 ordinary shares of \$1.00, being 100% of the issued share capital of the DFC New Zealand Ltd. realised \$111,280,000. Of this sum \$53,275,000 was applied against debt outstanding to the Crown, and \$58,005,000 was received into the Consolidated Account as a special receipt.	58,005	
Earthquake and War Damage Commission	80,000	
Electricity Corporation of New Zealand Ltd. In the sale and purchase agreement with Electricity Corporation of New Zealand Ltd., the Crown agreed to advance \$6,300,000,000 to the Corporation (\$3,300,000,000 being an equity advance and \$3,000,000,000 being a loan advance). Of the \$6,300,000,000 the Corporation paid to the Crown, \$2,515,213,000 was used to repay its outstanding liability to the Crown and the balance of \$3,784,787,000 was recorded as a Consolidated Account receipt.	3,784,787	
Employer Superannuation Subsidy To show the true cost of departmental activities, those departments which are not liable to pay an employer's contribution into the Government Superannuation Fund are now levied a notional charge. The departments thus affected are debited with an assessment of the future superannuation liability associated with current employees. The revenue item appearing here represents the contra entry to the aggregate of this notional superannuation charge to the various votes.	150,335	
Fletcher Challenge Limited	••	31
Government Computing Services Ltd. In the sale and purchase agreement with Government Computing Services Ltd., the Crown received \$55,000,000 which was recorded as a receipt to the Consolidated Account. In return, the Crown agreed to advance \$27,500,000 as loan capital and a further \$27,500,000 as share capital. The loan has subsequently been repaid. (See Note 16)	55,000	
Government Property Services Ltd. The price of the assets purchased from the Crown by Government Property Services Ltd. was \$495,108,000. Of this sum \$215,297,000 was received in the year ending 31 March 1988, and the net balance was recorded as a Consolidated Account receipt in the current financial year. This amount is different from that shown in the June Quarterly Public Accounts as an overpayment of \$17,154,000 by Government Property Services Ltd. in the 1987/88 financial year, was refunded in the September quarter.	279,811

Footnote:

The charges and expenses in connection with raising and repaying loans are now recorded in the Loans Redemption Account where loan proceeds are credited, because these loans are raised for refinancing purposes.

Management charges and expenses/receipts in connection with swap transactions result from the net effect of upfront swap receipts exceeding payments for the quarter.

27. Swap Transactions

As permitted by Section 91A of the Public Finance Act 1977, the Government entered into currency swap arrangements during the year. Under such arrangements the proceeds of a borrowing are converted into a different currency and, simultaneously, a forward exchange agreement is executed providing for a schedule of future exchanges of the two currencies in order to recover the currency converted. The effect is to transform the cost of the original borrowing to a cost which reflects the market yield of the currency obtained in the conversion.

While it is impracticable to record the details of the swap arrangements in the public debt tables, the following schedule shows the effect of the swap transactions undertaken during the year. The amounts in brackets disclose the equivalent principal payments required under the swap agreements while other amounts disclose the resulting equivalent principal receipts accruing from the swap agreements. The amounts have been calculated using exchange rates applying as at 31 December 1988. The amounts stated below in New Zealand dollars relates to the following currencies.

REPORT OF THE AUDIT OFFICE

The Audit Office, having been appointed in terms of section 25 of the Public Finance Act 1977, has audited the summary of receipts and payments for the nine months ended 31 December 1988 as required by section 67 of that Act

In the opinion of the Audit Office, the Summary of Receipts and Payments appearing on pages 764 to 790 properly reflects, in accordance with the statement of accounting policies on page 763 the balance of the public debt outstanding at 31 December 1988 and the transactions of the Public Account for the Nine months ended on that date.

J. W. CAMERON
Deputy Controller and Auditor-General.
13 February 1989.
