Where either formula specified above yields a value for A or B of zero or less, then no anti-dumping duty is payable.

Note

All amounts expressed in units of currency other than New Zealand dollars shall be converted to New Zealand dollars for the purposes of applying this formula (for example, the Raw Sugar Price is quoted in US dollars per tonne) in accordance with section 143 of the Customs Act 1966 (as substituted by section 10 of the Customs Acts Amendment Act 1985),

Dated at Wellington this 22nd day of February 1990.

PETER NEILSON, Minister of Customs.

Explanatory Note

This note is not part of the notice, but is intended to indicate its general effect.

This notice amends the principal notice given by the Minister of Customs on 9 November 1988 by omitting the amount of anti-dumping duty applying to the goods to which that notice relates and substituting the formula for the calculation of the amount of anti-dumping duty specified in the Schedule to this notice. The effect of this is to change the form of calculation of anti-dumping duty payable on refined sugar imported from the Federal Republic of Germany, Malaysia and Thailand. As with the previous form of calculation, anti-dumping duty is payable only where the normal value determined for each exporting country is greater than the export price of the goods. The new form of calculation takes into account fluctuations in the price of raw sugar on the world market, and provides that the price of raw sugar to be used in the formula be established at the London time of sale.
