Government**Summary of Bills Introduced***Education Reform*

This Bill, which is divided into six Parts, amends several Acts relating to education.

Part I: Amends the Education Act 1989 in relation to a number of issues, including amendments to procedures for foreign students enrolling at a State school, the raising of the school leaving age from 15 to 16, new sections relating to the make-up Boards of Trustees, the transferring of power to fix fees for tertiary institutions from the Minister to the Council of each institution, and requirements placed on private training establishments.

Part II: Amends the Queen Elizabeth II Technicians Study Award Act 1970 relating to the make-up of the selection committees contained in that Act.

Part III: Amends the Children's Health Camps Act 1972 relating to the membership of the Board and camp committees contained in that Act.

Part IV: Amends the New Zealand Council for Educational Research Act 1972 relating to the make-up of electoral colleges.

Part V: Amends the Private Schools Conditional Intergration Act 1975 relating to the assistance to proprietors.

Part VI: Amends the Education Lands Act 1949 relating to issues such as the leasing of certain school sites and other lands.

Environment Act Amendment

This Private Member's Bill amends the Environment Act 1986 by providing for the Ministry for the Environment to report to the Minister for the Environment on the environmental implications of all aspects of policy.

Local Government (Reorganisation Proposals) Amendment

This Private Member's Bill amends section 372Q of the Local Government Act 1974 as this relates to reorganisation proposals. In particular, the bill seeks to change the population criteria applying to the Far North District and to allow the presentation of reorganisation proposals for the said district from the commencement of the Act.

Inland Revenue**Income Tax Act 1976****Determination G6D: Foreign Currency Rates**

This determination may be cited as "Determination G6D: Foreign Currency Rates".

1. *Explanation* (which does not form part of the determination).

This determination rescinds and replaces Determination G6C: Foreign Currency Rates, made on the 24th day of October 1990.

This determination differs from Determination G6C by approving the Australian foreign currency market in the currencies listed in paragraph 6 (1) of the method as a source of exchange rate information.

This determination applies where, for the purpose of calculating the income or expenditure of a person in respect of a financial arrangement denominated in a foreign currency, it is necessary to establish the rate of that currency in New Zealand currency. This will be required in the circumstances outlined in paragraph 3 of this determination.

This determination sets out the approved markets, sources of information and method to be used for determining the rate for foreign currency conversion.

2. *Reference*—This determination is made pursuant to section 64E (1) and section 64E (6) of the Income Tax Act 1976.

This determination rescinds and replaces Determination G6C: Foreign Currency Rates, made on 24 October 1990.

3. *Scope of Determination*—This determination applies where it is necessary for the purposes of sections 64B to 64M of the Income Tax Act 1976 to ascertain the value in New Zealand currency of:

- A cashflow paid or received in a foreign currency under a financial arrangement; or
- A financial arrangement denominated in a foreign currency using a method that has regard to market valuation; or
- In any other circumstances, an amount expressed in foreign currency.

4. *Principle*—(1) Markets in foreign currencies are approved having regard to the following criteria—

- The number of participants in the market or having access to the market;
- Frequency of trading in the market;

- (c) The nature of trading in the market—how the rate for the foreign currency is determined and how the foreign currency is traded on the market;
- (d) The potential or demonstrated capacity of a person or group of persons to significantly influence the market;
- (e) Significant barriers to entry; and
- (f) Discrimination on the basis of the quantity bought and sold unless based on the risks involved or the transaction costs or economies of scale.

(2) Sources of information for foreign currency rates are approved having regard to the following criteria—

- (a) Reliance on the sources of information by participants in the market; and
- (b) The accessibility of the sources of information for participants in the market.

(3) Methods of obtaining a rate for foreign currency at the end of the income year for the purposes of valuing a financial arrangement are approved if:

- (a) The rate is obtained at the cut-off time; and
- (b) The method for determining the cut-off time adopted by a person will be consistently applied in respect of each income year.

5. *Interpretation*—(1) In this determination, unless the context otherwise requires—

Expressions used, except the expression “income year”, have the same meanings as in sections 2 and 64B to 64M of the Income Tax Act 1976:

“The Act” means the Income Tax Act 1976.

“Approved foreign exchange dealer” means—

- (i) In New Zealand, a foreign exchange dealer that is a registered bank for the purposes of the Reserve Bank of New Zealand Act 1989 and is active in the market; and
- (ii) In Australia a registered bank which is an authorised dealer as defined in the Australian Commonwealth Banking (Foreign Exchange) Regulations and which has been authorised by the Reserve Bank of Australia to engage in foreign currency transactions:

“Australian foreign currency market” means the Australian market in spot contracts and forward contracts:

“Contributor page” means a page of information provided by an approved foreign exchange dealer that is displayed on a screen provided by Reuters New Zealand Limited or Telerate New Zealand Limited or an organisation in Australia or New Zealand that provides a similar service:

“Cut-off time”, in relation to a person and an income year, means the time at the end of the income year when all financial arrangements held or issued by the person are valued in order to determine the assessable income of the person for the income year:

“Forward contract” means a contract, other than a futures contract or a spot contract, for the sale or purchase of a foreign currency for delivery at a specified future time:

“Futures contract” means a contract traded on a Futures Exchange:

“Income year” means—

- (a) Where a taxpayer furnishes a return of income under section 15 of the Act for an accounting year ending with an annual balance date other than the 31st day of March, the annual accounting period ending on that balance date:
- (b) In respect of the income of any other person, the year in which that income has been derived by that person:

“Multicontributor page” means a multicontributor page of information that is displayed on a screen provided by Reuters New Zealand Limited or Telerate New Zealand Limited or an organisation in Australia or New Zealand that provides a similar service:

“New Zealand foreign currency market” means the New Zealand market in spot contracts and forward contracts:

“Spot contract” means a contract for the sale or purchase of a foreign currency for delivery in 2 days.

(2) Any reference in this determination to another determination made by the Commissioner shall be construed as referring to any fresh determination made by the Commissioner to vary, rescind, restrict, or extend that determination.

6. *Method*

(1) *Approved markets*—The New Zealand foreign currency market in European Currency Units and in the currencies of the following countries and territories are approved:

Japan
 Canada
 French Republic
 The Territory of Hong Kong
 Commonwealth of Australia
 Republic of Singapore
 The Swiss Confederation
 Federal Republic of Germany
 The United States of America
 Kingdom of the Netherlands
 United Kingdom of Great Britain and Northern Ireland
 The Federation of Malaysia
 New Zealand
 The Independent State of Papua New Guinea
 Republic of Ireland
 Portuguese Republic
 Republic of Austria
 Kingdom of Sweden
 Kingdom of Denmark
 Republic of Italy
 Kingdom of Norway
 Kingdom of Spain
 Republic of Turkey
 The Hellenic Republic
 Finland.

(2) *Sources of Information*—The following sources of information for foreign currency rates are approved:

- (a) In relation to spot contracts, a multicontributor page that quotes rates for spot contracts;
- (b) In relation to forward contracts, a multicontributor page or a contributor page that quotes rates for forward contracts; and
- (c) Where a person does not have access to a multicontributor page or a contributor page or where the rates for a forward contract are not available from a multicontributor page, advice as to the buy and sell rates for a forward contract or spot contract given to that person by an approved foreign exchange dealer, which rates shall be derived from an approved source and shall be the rates at which the approved foreign exchange dealer would perform the foreign exchange transaction.

(3) *Spot Contracts*—(a) Where, for the purposes of determining the income or expenditure of a person in respect of a financial arrangement, it is necessary to determine the rate for a spot contract at the end of an income year, the rate for the spot contract shall be the midpoint between the buy and sell rates for that spot contract.

(b) Where, for the purposes of determining the income or expenditure of a person in respect of a financial arrangement, it is necessary to ascertain in New Zealand currency the value of a cashflow paid or received in a foreign currency, the rate of exchange to be applied shall be—

- (i) Where the cashflow is not converted to New Zealand currency on the day it is paid or received, the midpoint between the buy and sell rates for a spot contract for that currency at any time on that day; or

(ii) Where the cashflow is converted to New Zealand currency on the day it is paid or received, the rate of exchange obtained in relation to the cashflow.

(c) Where a buy and sell rate for a spot contract is not quoted on a multicontributor page, the rate for the spot contract shall be the cross rate calculated by reference to—

(i) The rate quoted on a multicontributor page for the foreign currency against the United States Dollar; and

(ii) The rate quoted on a multicontributor page for the United States Dollar against the New Zealand Dollar.

(4) *Forward Contracts*—Where, for the purposes of determining the income or expenditure of a person in respect of a financial arrangement, it is necessary to determine the rate for a forward contract at the end of the income year, and—

(a) Where the buy and sell points for the forward contract are quoted on a multicontributor page, the rate for the forward contract shall be the midpoint between the buy and sell rates for that forward contract obtained by reference to the multicontributor page;

(b) Where the buy and sell points for the forward contract are not quoted on a multicontributor page, but the buy and sell points for similar forward contracts of shorter term ("the shorter contract") and of longer term ("the longer contract") are quoted on a multicontributor page, then the rate shall be the rate obtained by reference to the multicontributor page using straight line interpolation of the midpoints between the buy and sell rates for the shorter contract and the longer contract which have terms closest to the term of the forward contract;

(c) Where the rate cannot be obtained by reference to points on a multicontributor page and where the rate for that forward contract is available by reference to contributor pages, then the rate shall be the arithmetic mean of the midpoints of not less than 3 buy and sell rates for the forward contract obtained from contributor pages; and

(d) Where the rate cannot be obtained by reference to paragraphs 6 (4) (a) to (c) of this determination, the rate shall be the arithmetic mean of not less than three rates being any of—

(i) the midpoints of the buy and sell rates quoted for the forward contract by one or more approved foreign exchange dealers; or

(ii) where the points for similar forward contracts of shorter term ("the shorter contract") and of longer term ("the longer contract") are quoted on a contributor page, then the rate shall be the rate obtained by reference to the contributor page using straight line interpolation of the midpoints between the buy and sell rates for the shorter contract and the longer contract which have terms closest to the forward contract.

(5) A person applying paragraphs 6 (3) (a) or 6 (4) of this Determination may obtain the rate for a spot contract or forward contract using the method prescribed in those paragraphs at any time on the last day of the income year:

Provided that—

(a) The rate applied is the rate obtained at the cut-off time in relation to the person and the income year; and

(b) The method for determining the cut-off time adopted by that person is consistently applied in respect of each income year:

Provided further that where there is no market at the cut-off time, the rate shall be—

(c) The rate obtained at the later of—

(i) The end of trading in forward contracts or spot contracts by that person in the income year:

(ii) 3.00 p.m. New Zealand Standard Time on the last day in the income year on which there was a market; or

(d) The rate for the earlier of—

(i) The commencement of trading in forward contracts or spot contracts by that person in the following income year:

(ii) 7.30 a.m. New Zealand Standard Time on the first day in the following income year on which there was a market.

7. *Example*—This is an example of the application of the averaging process and straight line interpolation required for certain forward foreign exchange contracts under the determination.

On its balance date of 30 June 1991 a New Zealand corporate had a forward foreign exchange contract for delivery of 1.2 million New Zealand Dollars for 612,000 United States Dollars on 1 August 1992.

The contract therefore is to be fulfilled in approximately 13 months time.

At the balance date the foreign exchange quotations for the New Zealand Dollar against the United States Dollar were (from the multicontributor page ASAP on the Reuters system):

	Buy	Sell
Spot Rate	0.6095	0.6100

Also at that date the quotations of forward foreign exchange points for the United States Dollar against the New Zealand Dollar by three market participants were (as provided on their Reuters screens):

Forward Points

FX Dealer	Delivery in 1 year	Delivery in 2 years
FX Dealer 1:	585	555
FX Dealer 2:	580	530
FX Dealer 3:	575	540

Note that to obtain the forward rates the forward points need to be subtracted from the spot rate.

The mid-rates for use in the interpolation formula are therefore:

	Buy	Sell	Mid-Rate
Forward Rate			
FX Dealer 1:			
Delivery in 1 year	0.5510	0.5545	0.55275
Delivery in 2 years	0.5065	0.5140	0.51025
FX Dealer 2:			
Delivery in 1 year	0.5515	0.5570	0.55425
Delivery in 2 years	0.5055	0.5130	0.50925
FX Dealer 3:			
Delivery in 1 year	0.5520	0.5560	0.55400
Delivery in 2 years	0.5060	0.5135	0.50975

The arithmetic mean of the midpoints of the forward rates is calculated to be:

Delivery in 1 year	0.55366
Delivery in 2 years	0.50975

A suitable formula for straight line interpolation to obtain the required rate is:

$$\text{So } P_x = P_1 + \frac{(T_x - T_1) * (P_2 - P_1)}{(T_2 - T_1)}$$

P₁ is the mid-rate for the forward contract with the shorter term (= 0.55366).

P₂ is the mid-rate for the forward contract with the longer term (= 0.50975).

Px is the required rate.

T1 is the term till delivery (expressed in days) of the forward contract with the shorter term (= 365).

T2 is the term till delivery (expressed in days) of the forward contract with the longer term (= 730).

Tx is the term till delivery of the contract held (= 398).

The required rate is therefore calculated as follows:

$$\begin{aligned} \text{So } P_x &= P_1 + \frac{(T_x - T_1) * (P_2 - P_1)}{(T_2 - T_1)} \\ &= 0.55366 + \frac{(398 - 365) * (0.50975 - 0.55366)}{(730 - 365)} \\ &= 0.55366 + \frac{33 * (-0.04391)}{365} \\ &= 0.54969 \end{aligned}$$

The current value of the 612,000 United States Dollars receivable on 1 August 1992 is therefore 1,113,354.80 New Zealand Dollars.

This determination is signed by me on the 24th day of October in the year 1991.

R. D. ADAIR, Deputy Commissioner of Inland Revenue.

General

Trust Bank Otago Community Trust Inc.

Trustee Banks Restructuring Act 1988

Trust Bank Otago Community Trust Inc.

Annual Report for the Year Ended 31 March 1991

Trust Particulars

The Trust Bank Otago Community Trust Inc. was incorporated as a charitable trust in accordance with the provisions of the Trustee Banks Restructuring Act 1988. The purpose of the trust is to provide charitable, cultural, philanthropic and recreational benefits to the community.

Trustees

Trustees are appointed by the Minister of Finance. While the initial term of appointment varies, replacement appointments are for a standard term of 4 years.

The present trustees are:

C. A. Melville, Chairperson, S. E. Alexander, R. R. Allan, R. M. Gray, H. A. Irwin, N. S. Jones, B. A. Malcolm, C. D. Matthewson, R. E. Mogenson, Dr J. Ng, J. D. Polson, H. A. Russell and R. F. Walls.

Secretary: K. G. Ellwood, 60-66 Tennyson Street, P.O. Box 5751, Dunedin.

Bankers: Trust Bank Otago Limited.

Solicitors: Anderson Lloyd.

Auditors: KPMG Peat Marwick.

Trustees Report for 12 Months Ended 31 March 1991

The trustees have pleasure in presenting the third annual report of the trust. The trustees' duties, which have not changed since last year, include managing the assets of the trust and applying funds for charitable, cultural, philanthropic, recreational and other purposes, being purposes beneficial to the community generally, within the Otago provincial district. The major asset of the trust is a 13.5 percent shareholding in Trust Bank New Zealand Limited.

Small Grants

Trustees make one multi grant distribution each year, usually announced in August, after Trust Bank New Zealand Limited pays its major dividend. During the year under review the multi grant totalled \$225,475. A full list of the organisations who benefitted from this grant was published in the *Otago Daily Times*, 23 July 1990. A full list of grants made in the year to 31 March 1991 is available from the secretary, K. G. Ellwood, P.O. Box 5751, Dunedin. Trustees advertise the availability of this grant in order to acquaint as many organisations as possible of its existence. Applications are made on the trust's standard form and the grant criteria are also provided.

Large Grants

In addition, trustees endeavour to assist a lesser number of organisations with larger grants. During the year the following organisations benefitted:

Araiteuru Trust	\$	10,000
Dunedin Opera Company		65,000
Oamaru Whitestone Civic Trust		20,000
Otago Community Hospice Trust		125,000
Total		<u>\$220,000</u>

There are a number of provisionally approved projects before the trust that require further action on the part of the applicant. Approximately \$375,000 of the surplus income for the year under review is earmarked for these projects.

National Disaster Relief Fund

Our trust operates in conjunction with all other regional trust bank community trusts towards the maintenance of a national disaster relief fund. Our contribution to a top up during the year amounted to \$1,635. A grant of \$10,000 was made from this fund to the Motueka Mayoral Flood Relief Fund of which our trust share was \$1,350.

Review of Financial Results

The income of the trust has grown significantly since last year arising from increased dividends and interest on the investment of those dividends. Clearly, this excellent growth is attributable to performance of our major investment, Trust Bank New Zealand Limited. Surplus income includes the interim 1991 dividend from Trust Bank New Zealand Limited of \$245,430. This will contribute to the funding of the next multi grant to be announced in August this year. Trustees maintain a general contingency reserve of \$150,000.

The financial statements of the trust follow this report.

For and on behalf of the trustees.

Trustee: C. A. MELVILLE.

Trustee: N. S. JONES.

Auditor's Report, Trust Bank Otago Community Trust Inc.

We have examined the accompanying balance sheet, income and expenditure account and statement of cash flows and have obtained all the information and explanations we have required.

In our opinion, the balance sheet and accounts respectively give a true and fair view of the financial position of the trust as at 31 March 1991 and of the results and the cash flows for the year ended on that date.

Dated at Dunedin this 21st day of June 1991.

Notes to the Financial Statements for the 12 Months Ended 31 March 1991

1. Statement of Accounting Policies

General Accounting Policies

The general accounting policies adopted in the preparation of these financial statements are:

- The measurement base adopted is the historical cost basis.
- Reliance has been placed on the fact that the entity is a going concern.
- Revenues earned and expenses incurred are matched using accrual accounting, except that dividends received are accounted for on a receipts basis.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and the financial position:

- (a) Dividend income from trust Bank New Zealand Limited is included in the income and expenditure account when it is received.
- (b) Grants made are included in the income and expenditure account when paid.
- (c) Investments, which comprise shares held in Trust Bank New Zealand Limited are stated at cost.

2. Dividends

Dividends were received from Trust Bank New Zealand Limited comprised:

- (a) 1990 final dividend of \$897,750 received 28 June 1990.
- (b) 1991 interim dividend of \$245,430 received 14 December 1990.

3. Investment

Shares in Trust Bank New Zealand Limited, which are stated at cost, have a market value of not less than cost, in the opinion of the trustees.

4. Taxation

For taxation purposes, the trust is deemed to be a charitable organisation. Its income is not subject to taxation.

The trust is not registered for goods and services tax purposes. Accordingly, these financial statements are stated on a GST inclusive basis.

The trust has been registered as exempt from interest and dividend PAYE and holds a current certificate of exemption.

5. Contingent Liabilities

There are no contingent liabilities at 31 March 1991 (1990: \$125,000).
