2.2 **Title and grade**—The grade mark assigned to this standard grade shall be grade 1 (hereinafter referred to as "the grade").

2.3 **Definition of produce**—This grade applies to buttercup squash grown from varieties of *Curcubita maxima* to be supplied fresh to the customer.

Note: Buttercup squash for industrial processing is excluded from this grade providing the packages are marked accordingly.

2.4 **Provisions concerning quality**—The purpose for this standard is to define the quality requirements for buttercup squash at the dispatching stage, after preparation and packaging.

Refer Schedules:

One—Definition of terms.

Two—Provisions concerning sizing, tolerance and presentation.

Three—Allowance for defects.

2.5 Provisions concerning packaging (refer Schedule Four).

(a) The cut surface of the stalk to dry;

(b) The remainder of the stalk to have commenced shrivelling to a firm texture with a brown withered surface.

(c) During the curing/holding process all product must be stored to allow maximum ventilation, and have a minimum of 10 cm between rows of stacked bins.

(c) a full orange colour in the flesh; and

(d) that all seed display kernel formation that is firm.

3.5 "Sound" means free from any progressive decay, rots, (including small shallow rots even if dry and calloused), breakdown freezing or chilling injury, damage and similar

defects which may cause rapid loss of condition or rapid decay.

3.6 "Storage Defects" means decay, fungal rots, wilt or other injury as a result of storage.

3.7 "Sunburn" means injury from exposure to the sun which results in sunken white areas of damaged flesh.

Callousing with raised areas such as "pimples" or odema ("warts") is not to exceed 2 square cm in aggregate area and 5 mm in height at any point.

6.5 **Bruising**—Marks resulting from pressure must not:

(a) Have broken the skin.

(b) Exceed 2 square cm in aggregate area.

6.6 **Cuts are not acceptable on squash**—Cuts are broken skin which may be caused by cutting (knives, secateurs) or impact on a sharp edge (stalks, timber, metal).

6.7 **Dirty fruit-soil, grease, bird droppings or other foreign matter on the fruit is not acceptable.**

6.8 **Shape**—The squash must be wider than it is high, and typical of the variety.

Local Government Act 1974

The Schedule

Notice of Intention to Take Land Under Section 23 of the Public Works Act 1981

All that piece of land commonly known as Turners Road and being shown as such on Deposited Plan No. 1076, situated on State Highway 54 (Bunnythorpe Road) at Aorangi, Feilding, comprising 1.0749 hectares, more or less, being part Section 149, Town of Sandon and being the balance of the land in certificate of title 51/194 (Wellington Registry). The registered proprietor of the said land is shown on the said title as Steven Robinson Turner of Feilding, gentleman. A compiled Survey Office plan of the said land has been prepared and has been lodged with the Chief Surveyor under No. S.O. 36617, a copy of such plan is available for inspection at the office of the Manawatu District Council, 40 Aorangi Street, Feilding.

The Manawatu District Council pursuant to the powers given to it under section 247F of the Local Government Act 1974, hereby gives notice under section 23 of the Public Works Act 1981, of its intention to take the land set out and described in the Schedule hereto for roading purposes. The reasons why the taking of land is considered reasonably necessary is that the land has provided road access to a number of properties from Aorangi Road, Feilding, for over 90 years and should be constituted a public road to avoid continuing problems as to maintenance and control. Inquiries in respect of this notice may be made to P. J. McHardy, District Planner for the Manawatu District Council at his office at 40 Aorangi Street, Feilding. Written objections to the taking of the said land must be lodged in writing with the Registrar, Planning Tribunal, Tribunals Division, Justice Department, Private Bag, Postal

Dated at Feilding this 5th day of November 1991.
