Summary of Bills Introduced*Accident Rehabilitation and Compensation Insurance Amendment (No. 3)*

Amends the Accident Rehabilitation and Compensation Insurance Act 1992 and makes a related amendment to the Health and Safety in Employment Act 1992.

Clause 3, which is retrospective to 1 July 1992, excludes from the definition of the term "accident" any treatment which is provided outside New Zealand by a person whose qualifications are equivalent to those of a registered health professional.

Clause 4 amends the Act so that personal injury which results from a drug or clinical trial which has been approved by an appropriate ethics committee will be covered as medical misadventure under the scheme. The definition of "registered health professional" is extended to include a person with the equivalent qualifications to those of a registered health professional in New Zealand.

Clauses 5, 6, and 8 propose amendments to ensure that, in the areas of gradual process, disease, or infection arising in the course of employment, and for victims of criminal conduct, the "injury" must have occurred in New Zealand or while the claimant was ordinarily resident in New Zealand. Cover under section 11 of the Act is also extended to those cases in which the employment through which the exposure occurred, continued beyond 1 April 1974.

Clause 9 repeals the provision requiring individual rehabilitation programmes to be comprehensive. Clause 10 provides that social rehabilitation regulations may include payment for teacher aides, as well as for transport to school for children requiring special assistance.

Clauses 11 to 22 relate to the calculation of earnings, work assessments, the capping of compensation payments, the cessation of weekly compensation, allowing claimants and surviving spouses to receive both national superannuation and compensation for loss of earnings, weekly compensation payable to dependants, and payments for child care.

Clause 24 allows the Corporation to change a decision made in error without needing to proceed to a review hearing. Clause 26 allows the Corporation to decline to make any payment under the Act where a claimant does not comply with an individual rehabilitation programme. Clause 27 allows the Corporation to make payments in respect of a child to persons other than the person caring for the child on the proviso that the money will then be applied for the benefit of the child.

Clause 29 repeals section 104 of the principal Act which deals with experience rating of premiums, and replaces it with a more detailed regime. Clause 31 provides that the Corporation may derive some of its funds for payments in respect of non-work, non-motor vehicle injuries from the Crown.

Clause 33 permits the remission of penalties imposed on premiums where the Corporation considers it fair and reasonable to do so.

Clause 39 extends the "grandparenting" of compensation for attendant care, payable under the former Accident Compensation Acts from the present expiry date of 30 June 1993 for an indefinite period. Where the person also had an entitlement to compensation in respect of household help immediately before 1 July 1992, that entitlement is deemed to be an entitlement to compensation in respect of attendant care and is similarly extended.

New Zealand Public Radio Charter

Incorporates National Radio, Concert FM, and News and Current Affairs, subsidiaries of Radio New Zealand Limited, as a Crown entity to be known as New Zealand Public Radio. It also provides for the establishment of the Charter of New Zealand Public Radio, which would provide a publicly funded broadcasting service to promote a national identity, cultural and educational programmes, and independent current affairs and news programmes.

The bill further provides for the dissolution of Radio New Zealand Limited and the transfer of its assets and liabilities to New Zealand Public Radio and a new State enterprise to be called New Zealand Commercial Radio.

Fisheries (Bycatch Trade-Off) Notice (No. 2) 1993 (No. 5236)

Pursuant to section 28ZG of the Fisheries Act 1983, and a delegation made pursuant to section 41 of the State Sector Act 1988, the Director (Operations), MAF Fisheries hereby gives the following notice.

Notice

1. Title and commencement—(1) This notice may be cited as the Fisheries (Bycatch Trade-off) Notice (No. 2) 1993.

(2) This notice shall come into effect on the 29th day of April 1993, and shall expire on the 15th day of July 1993.

2. Interpretation—In this notice:

(a) Any reference to Quota Management Area means the appropriate Quota Management Area as defined in the Fisheries (Quota Management Areas, Total Allowable Catches and Catch History) Notice 1986*;

(b) Target species and bycatch species are specified by way of fishstock codes, being Fishstock Codes defined in the Second Schedule of the Fisheries (Reporting) Regulations 1990†; and

(c) Methods are specified by way of method codes, being Method Codes defined in the Second Schedule of the Fisheries (Reporting) Regulations 1990†.

3. Offering a lease of quota in lieu of paying deemed value—(1) As from the date this notice comes into effect, any commercial fisherman who could be required under section 28ZD of the Fisheries Act 1983 to pay the deemed value of any fish that is specified as a bycatch species in this notice, may offer the Director-General a lease or sublease of the right to take fish, being fish that are specified in this notice as a target species in relation to that bycatch species, as specified in the tables below.

(2) The ratios, as specified, are the amounts of target species which may, in lieu of such payments, be accepted by way of lease or sub-lease in relation to the amount of the bycatch species for which the offer of quota is made, e.g. if a fisher could be required to pay deemed value for 1 tonne of ELE 3 and wishes to offer a lease of FLA 3 then the amount that can be offered is 1 tonne \times 1.52 = 1.52 tonnes of FLA 3.

(3) The bycatch species must have been taken while fishing for the target species using the method or any of the methods specified: e.g. in the case of the above example, the ELE3 bycatch must have been taken using the method of bottom trawling.

(4) Any offers that relate to bycatch species as specified in this notice must relate to fishing that has occurred in the months of April, May or June 1993 respectively.

4. **Revocation**—The Fisheries (Bycatch Trade-Off) Notice 1993, Notice 5223 appearing in the *New Zealand Gazette* on 4th day of March 1993 at page 585, is hereby revoked.

Manapouri-Te Anau Development Act 1963

Operating Guidelines for Levels of Lakes Manapouri and Te Anau

Pursuant to section 4A of the Manapouri-Te Anau Development Act 1963, I, John Luxton, Minister of Energy, based upon the recommendations of the Guardians of Lakes Manapouri and Te Anau and of the Electricity Corporation of New Zealand Limited, hereby give the following notice of the operating guidelines for the levels of Lakes Manapouri and Te Anau aimed to protect the existing patterns, ecological stability, and recreational values of their vulnerable shorelines and to optimise the energy output of Manapouri power station.

Notice

1. Title and commencement—(1) This notice may be cited as the Manapouri-Te Anau Development Act (Operating Guidelines) Notice 1992.

(2) This notice shall come into force on its publication in the *Gazette*.

2. Application and Interpretation—(1) This notice applies to Lakes Manapouri and Te Anau.

(2) In this notice, unless the context otherwise requires:

"Duration" means the number of continuous days any of the Lakes was within a particular range of level specified within the *High or Low Operating Ranges*:

"Corporation" means the Electricity Corporation of New Zealand:

"High Operating Ranges" are those set out in clause 5 of this notice:

"Interval" means, in relation to either of the Lakes, the number of continuous days that a Lake was below a particular range of level specified for the *High Operating Ranges* for that Lake:

"Lakes" means lakes Manapouri and Te Anau:

"Level" means height, in metres, above mean sea level:

"Low Operating Ranges" are those set out in clause 6 of this notice:

"Main Operating Ranges" are those set out in clause 4 of this notice:

"Maximum duration" means, in relation to any of the Lakes, the number of continuous days that a Lake may be within a particular range of level specified for the *High or Low Operating Ranges*, and in relation to the *High Operating Ranges*, subject to the specified minimum interval:

"Minimum interval" means the number of continuous days that should elapse from either of the Lakes moving below a particular range of level, until that Lake returns to within that range of level:

"Parties" means the Guardians of the Lakes and the Corporation:

"Specified ratio" means the ratio derived from dividing the minimum interval by the maximum duration, and applies only to the *High Operating Ranges*:

3. Lakes Management—The parties recognise three separate operating ranges of levels for each of the lakes within which the Corporation may operate, being Main, High, and Low, as set out in clauses 4, 5, and 6 of this notice.

4. The Main Operating Ranges—(1) The Main Operating Ranges, within which the Corporation shall endeavour to maintain continuous variation, are:

(a) For Lake Manapouri, levels from 176.8m to 178.6m; and

(b) For Lake Te Anau, levels from 201.5m to 202.7m.

(2) The Corporation shall, for each of the lakes, aim to achieve annual mean levels within the applicable Main Operating Ranges as specified in this notice.

5. The High Operating Ranges—(1) The Corporation shall use its best endeavours to:

(a) Not exceed the maximum durations; and

(b) Achieve the specified ratio in relation to the ranges of level set out in subclause (2) of this clause, where the actual interval (in days) between the Lake moving below a particular range of level and returning to within that range of level is divided by the actual duration (in days) that the Lake was originally within that range of level.

(2) Subject to subclause (3) of this clause, the High Operating Ranges are:

(a) For Lake Manapouri, above 178.6m, in accordance with the following maximum durations, minimum intervals, and specified ratios for the ranges of level set out:

Level (m)	Maximum Duration	Minimum Interval	Specified Ratio
At 180.5	1	100	100.0
Above 180.4	3	100	33.0
Above 180.1	9	100	11.0
Above 179.8	22	80	3.6
Above 179.5	35	40	1.1
Above 179.2	44	40	0.9
Above 178.9	99	20	0.2
Above 178.6	119	20	0.2

(b) For Lake Te Anau, above 202.7m, in accordance with the following maximum durations, minimum intervals, and specified ratios for the ranges of levels set out:

Level (m)	Maximum Duration	Minimum Interval	Specified Ratio
At 204.3	1	100	100.0
Above 204.2	3	100	33.0
Above 203.9	10	60	6.0
Above 203.6	22	30	1.4
Above 203.3	39	30	0.8
Above 203.0	65	30	0.5
Above 202.7	125	20	0.2

(3) Where the ratio derived from **dividing** the interval between the lake level moving below a particular range of level and returning to that range of level **by** the duration that the lake was in that range of level immediately prior to the interval—

(a) Results in a ratio greater than or equal to the specified ratio, then the guidelines are deemed to be complied with:

(b) Results in a ratio less than the specified ratio, then subject to subclause (4) of this clause, the interval occurring after a particular duration shall be added to that duration along with the duration occurring after that interval, in order to determine the duration for which the specified ratio must be achieved.

(4) The period of duration within any range of level, including accumulations as provided for in paragraph (b) of subclause (3) of this clause, shall not exceed the relevant maximum duration.

6. The Low Operating Ranges—(1) Subject to subclause (2) of this clause, the Low Operating Ranges are:

(a) For Lake Manapouri levels from 175.86m to 176.8m, with an absolute minimum level of 175.86:

Level (m)	Maximum Duration
Below 176.8	107
Below 176.5	66
Below 176.2	20
At or below 175.9	5

(b) For Lake Te Anau from 200.86m to 201.5m, with an absolute minimum level of 200.86m:

Level (m)	Maximum Duration
Below 201.5	88
Below 201.3	46
Below 201.1	21

(2) For the purposes of the Low Operating Ranges outlined in subclause (1) of this clause, the Corporation shall use its best endeavours to:

(a) Not exceed the maximum durations for the individual ranges of levels specified;

(b) Avoid lake levels below 201.1m for Lake Te Anau, and below 176.2m for Lake Manapouri, during the equinoxial periods (March, April, October and November);

(c) Not exceed, in any continuous period of 365 days, twice the maximum duration specified for any particular range of level; and

(d) Ensure the rates of drawdown do not exceed the natural rates of drawdown averaged over four days, being 0.05m per day for Lake Manapouri, and 0.03m per day for Lake Te Anau.

(3) The parties record that:

(a) In the period of natural record the level of Lake Manapouri has been below the absolute minimum level of 175.86m; and

(b) These guidelines are based on the mean of three extreme

events during the period of natural record and may result in low ranges of level being experienced more often than would have occurred naturally.

7. Gate Opening and Closing Procedures—(1) The Parties have agreed upon and adopted gate opening and closing procedures which are designed amongst other things:

(a) In the case of the Lake Te Anau Control structure, to reduce or eliminate scour action on the upper Waiau River banks, to facilitate repair following periods of extremely high flow, and to facilitate the successful spawning of salmonids; and

(b) In the case of the Lake Manapouri Control structure, to reduce potentially dangerous increases in river flow downstream of the gates, and to bypass flood flows from the Mararoa River in such a manner as to prevent dirty debris-laden water from entering Lake Manapouri.

(2) It should be noted that the procedures referred to in subclause (1) of this clause are modified from time to time by agreement between the Parties.

8. Benchmarks—For the purposes of this notice:

(a) The level of Lake Te Anau at any time shall be determined by reference to the Department of Survey and Lands Information Benchmark Z58, national grid co-ordinates (176 284) yards east (319 170) yards north, which is adjacent to the lake water level recorder and staff gauge, which benchmark shall be deemed to represent a height 205.127 metres above mean sea level; and

(b) The level of Lake Manapouri at any time shall be determined by reference to the Department of Survey and Lands Information Benchmark Z47, National grid co-ordinates (176 051) yards east (305 873) yards north which benchmark shall be deemed to represent a height of 208.910 metres above mean sea level.

9. Consequential revocation—The notice entitled "Manapouri-Te Anau Development Act 1963" dated 1 March 1990 and published in the *Gazette* of 8 March 1990 at pages 701/702, is hereby consequentially revoked.

Signed at Wellington this 14th day of April 1993.

J. LUXTON, Minister of Energy.

Note: The Guardians and the Corporation may review these guidelines from time to time with a view to having a new notice of the guidelines published.

Education**Education Act 1989****The National Education Guidelines**

Pursuant to sections 60A and 61 of the Education Act 1989, the Minister of Education hereby specifies the following National Education Goals and National Administration Guidelines which form part the National Education Guidelines for the time being in force. In terms of section 61 these guidelines are deemed to be part of the charter of every state and integrated school in New Zealand and apply to the Board of Trustees and Principal of every state and integrated school.

National Education Goals

Education is at the core of our nation's effort to achieve economic and social progress. In recognition of the fundamental importance of education, the Government sets the following goals for the education system of New Zealand.

1. The highest standards of achievement, through programmes which enable all students to realise their full potential as individuals, and to develop the values needed to become full members of New Zealand's society.
2. Equality of educational opportunity for all New Zealanders, by identifying and removing barriers to achievement.
3. Development of the knowledge, understanding and skills needed by New Zealanders to compete successfully in the modern, ever-changing world.
4. A sound foundation in the early years for future learning and achievement through programmes which include support for parents in their vital role as their children's first teachers.
5. A broad education through a balanced curriculum covering essential learning areas with high levels of competence in basic literacy and numeracy, science and technology.
6. Excellence achieved through the establishment of clear learning objectives, monitoring student performance against those objectives, and programmes to meet individual need.
7. Success in their learning for those with special needs by ensuring that they are identified and receive appropriate support.
8. Access for students to a nationally and internationally recognised qualifications system to encourage a high level of participation in post-school education in New Zealand.
9. Increased participation and success by Maori through the advancement of Maori education initiatives, including education in Te Reo Maori, consistent with the principles of the Treaty of Waitangi.
10. Respect for the diverse ethnic and cultural heritage of New Zealand people, with acknowledgement of the unique place of Maori, and New Zealand's role in the Pacific and as a member of the international community of nations.

National Administration Guidelines

In order to ensure that the National Education Goals are met, Boards of Trustees and Principals respectively, are also required to follow sound governance and management

practices involving curriculum, employment, financial and property matters applying to schools. Further details of these requirements are found in the relevant legislation, appropriate contracts of employment and, from time to time, guidelines promulgated by the Secretary for Education.

1. Boards of Trustees must foster student achievement by providing a balanced curriculum in accordance with the national curriculum statements* (i.e., the New Zealand Curriculum Framework and other documents based upon it).

In order to provide a balanced programme, each Board, through the Principal and staff, will be required to:

- i implements learning programmes based upon the underlying principles, stated essential learning areas and skills, and the national achievement objectives; and
- ii monitor student progress against the national achievement objectives; and
- iii analyse barriers to learning and achievement; and
- iv develop and implement strategies which address identified learning needs in order to overcome barriers to students' learning; and
- v assess student achievement, maintain individual records and report on student progress.

Note

* Existing syllabuses are to be regarded as national curriculum statements until they are replaced.

2. According to the legislation on employment and personnel matters, each Board of Trustees is required in particular to:

- i develop and implement personnel and industrial policies, within policy and procedural frameworks set by the Government from time to time, which promote high levels of staff performance, use educational resources effectively and recognise the needs of students;
- ii be a good employer as defined in the State Sector Act 1988 and comply with the conditions contained in employment contracts applying to teaching and non-teaching staff.

3. According to legislation on financial and property matters, each Board of Trustees is also required in particular to:

- i allocate funds to reflect the school's priorities as stated in the charter;
- ii monitor and control school expenditure, and ensure that annual accounts are prepared and audited as required by the Public Finance Act 1989 and the Education Act 1989;
- iii comply with the negotiated conditions of any current asset management agreement, and implement a maintenance programme to ensure that the school's buildings and facilities provide a safe, healthy learning environment for students.

4. Each Board of Trustees is also required to:

- i document how the national education guidelines are being implemented;
- ii maintain an ongoing programme of self-review.

5. Each Board of Trustees is also required to:

- i provide a safe physical and emotional environment for students;
- ii comply in full with any legislation currently in force or that may be developed to ensure the safety of students and employees.

6. Each Board of Trustees is also expected to comply with all general legislation concerning requirements such as attendance, the length of the school day, and the length of the school year.

The National Education Guidelines specified in notices published in the *New Zealand Gazette* on 9 November 1989,

No. 198, page 5669 and 11 January 1990, No. 1, page 6 are hereby revoked.

This notice comes into force the day after the date of this publication.

Dated at Wellington this 26th day of March 1993.

Easements in Gross to Transmit Electricity Acquired in Tauranga District

Pursuant to section 20 of the Public Works Act 1981, and to a delegation from the Minister of Lands, the District Solicitor of the Department of Survey and Land Information, Hamilton, declares that, an agreement to that effect having been entered into, between Her Majesty the Queen (hereinafter called "the owner") and The Tauranga Electric Power Board (hereinafter called "the board"), easements in gross for the right to transmit electricity as described in the First Schedule hereto (hereinafter called "the easements") are hereby acquired over the owner's land described in the Second Schedule hereto (hereinafter called "the land") and further declares that the said easements shall vest in the board on the date of publication hereof in the *Gazette*.

First Schedule

Description of Easement

a. To transmit and distribute electricity through transformers, equipment cables and wires installed on or in the easements to nearby consumers; and

b. To install, maintain, inspect, repair, replace, or add to electrical equipment on the easements (including lines, conduits, cables, terminals, supply points, transformers, manholes, boxes, or any other equipment the board considers necessary or desirable for the transmission and distribution of electricity).

AND for the above purposes, the board, its employees, contractors, or agents and all persons having business with it concerning the transmission or distribution of electricity, shall have the full free and unrestricted liberty and licence—

- a. To enter and re-enter on the land on foot or by any reasonable mode of transport.
- b. To take on to the land all necessary tools, materials, machinery and equipment.
- c. To carry out on the easements such works as are required for the exercise of the powers and authorities hereby granted.

AND the owner and the board agree:

1. The board will in exercise of the powers hereby granted, take reasonable and proper care not to damage any property of the owner.

2. The owner shall not permit the growth of any trees, shrubs, or other vegetation, or the erection or establishment of any structure, whatsoever, on the easements which:

- (a) In the opinion of the board or its appropriate officer may interfere with the board's operations; or
- (b) Endanger or cause nuisance to the board's operations, works, employees, agents, or contractors, in the course of their duties; or
- (c) Transgress any bylaw of the board or any statutory regulation relating to the board's electricity works, installations, distribution equipment, or other property.

3. All works and installations constructed by the board on the easements, shall remain at all times, subject to the supervision and control of the board and shall be deemed to remain the property of the board.

4. The board shall be deemed to have and to be free to exercise in connection with the foregoing grants and easements, all authority, power, rights and remedies vested in it by law with regard to its works and installations and the supply of power and its operations generally.

5. The board may exercise and enjoy all rights, immunities from liability powers and remedies, which it now or in the future may possess or be entitled to, or have vested in it by virtue of any statute or at common law, without being limited or restricted by anything in this grant of easements.

6. The board may exercise all or any of the rights, privileges, liberties and licences contained or implied herein, either together, with or independently of any of such as may be vested in the board at common law or by statute.

7. If any dispute or difference arises out of these easements or relating to its interpretation, the matter shall be submitted at the request of either party to the arbitration of a single arbitrator on the following terms:

- a. Arbitrator to be jointly agreed by the parties;
- (b) Failing agreement within 7 days as nominated by the President of The Hamilton District Law Society;
- (c) The reference shall be deemed to be a reference to arbitration under the Arbitration Act 1908;
- (d) The arbitrator's decision shall be final and binding and may include—
 - (i) Order for costs;
 - (ii) Order for enforcement;
 - (iii) Interest on monies payable.
