$$B = \text{Normal Value} - \text{Export Price}$$

WHERE:

“RSP” is the Raw Sugar Price per tonne, established as follows:

- (a) Where the refined sugar is purchased under a fixed price contract, then the RSP shall be that published by the New York Coffee, Sugar & Cocoa Exchange for its No. 11 contract spot price on the day preceding the date of the contract; or
- (b) Where the refined sugar is purchased under a variable price contract with the raw sugar component of the final contract price being variable according to the date the option to purchase is exercised, then the RSP shall be that published by the New York Coffee, Sugar & Cocoa Exchange for its No. 11 contract spot price on the day preceding the date of the exercise of the purchase option.

where x and y are values supplied to New Zealand Customs, but are confidential to the companies concerned.

BUT WHERE either A or B yields a value of zero or less then no anti-dumping duty is payable.

Note:

All amounts expressed in units of currency other than New Zealand dollars shall be converted to New Zealand dollars for the purposes of applying this formula (for example, the raw sugar price is quoted in US dollars per tonne, as are the normal values).
