Notes to the Financial Statements for the Year Ended 31 March 1994

1. Statement of Accounting Policies

General Accounting Policies

The general accounting policies adopted in the preparation of these financial statements are:

- (a) The measurement base adopted is the historical cost basis with the exception of investments which are recorded at market value.
- (b) Reliance has been placed on the fact that the entity is a going concern.
- (c) The matching of revenues earned and expenses incurred using accrual accounting except that dividend income is accounted for on a receipts basis.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and financial position:

- (a) *Grants*—Grants made are included in the income and expenditure account when approved by the trustees.

- (b) *Taxation*—For taxation purposes the trust is deemed to be a charitable organisation. Its income is not subject to taxation.
- (c) *Goods and Services Tax*—The trust is not registered for goods and services tax purposes. Accordingly these financial statements are stated on a G.S.T. inclusive basis.
- (d) *Investments*—Investments are stated at market value. Adjustments to market value of investments are included in the income and expenditure account, with the exception of Trust Bank New Zealand shares, which are included in the share revaluation reserve. Dividend income is included in the income and expenditure account when it is received.

Changes in Accounting Policies

As a result of the recent Trust Bank New Zealand Limited share issue, the trust has been able to accurately determine the market value of its shares in Trust Bank New Zealand Limited for the first time. Previously the shares were recorded at cost. The effect of this change is shown in the share revaluation reserve.

There have been no other material changes in accounting policies since the previous annual financial statements. All other policies have been applied on a basis consistent with those used in the previous years annual financial statements.
