"B. For types of subject goods from a supplier listed in the Third Schedule to this notice, but in respect of which the Secretary has not established a Normal Value (Value for Duty Equivalent) amount, the rate of duty represented by the weighted average dumping margin established from the Normal Value (Value for Duty Equivalent) amounts that have been established for other types of the subject goods from that particular supplier.

"\* Customs New Zealand holds a list of the Normal Value (Value for Duty Equivalent) amounts for importations of types of the subject goods from the suppliers listed in the Third Schedule to this notice. These amounts are confidential to the suppliers concerned."

Dated at Wellington this 3rd day of July 1994.

PHILIP BURDON, Minister of Commerce.

*Explanatory Note:* This note is not part of the notice, but is intended to explain the reason for the amendment.

The original determination envisaged that for suppliers other than those investigated and for other filters from the investigated suppliers, normal values (value for duty equivalents) would be established as a basis for duty.

This was indicated by the invitation in the explanatory note to the principal notice for suppliers to lodge requests, backed by the necessary supporting evidence, for the establishment of these values.

Since the original determination, Normal Value (Value for Duty Equivalent) amounts have been established for eight additional suppliers and further oil filters have been added to the Schedules relating to the suppliers investigated.

The Normal Value (Value for Duty Equivalent) is the sum of the Normal Value established by the Secretary of Commerce with any necessary adjustments made in accordance with section 4 (1) (a) of the Act in order to establish the Export Price.

The Customs Department will hold a list of the Normal Value (Value for Duty Equivalent) amounts for importation purposes for oil filters which the Secretary of Commerce has established from individual suppliers, details of the weighted average dumping margins for those suppliers and of the weighted average dumping margin to be applied to those suppliers not investigated or for whom no Normal Value (Value for Duty Equivalent) amount has been established.

Where a Normal Value (Value for Duty Equivalent) has not been established by the Secretary for a specific oil filter, a supplier may lodge a request, backed by the necessary supporting evidence, that a normal value be established for that specific oil filter.

Normal Value (Value for Duty Equivalent) amounts established by the Secretary following such requests will be advised to the suppliers concerned and to the Customs Department.
