Fisheries (Bycatch Trade-Off) Notice (No. 4) 1994 (No. 5358)

Pursuant to section 28zG of the Fisheries Act 1983, and a delegation made pursuant to section 41 of the State Sector Act 1988, the Acting Deputy Group Director, MAF Fisheries hereby gives the following notice.

Notice

1. **Title and commencement**—(1) This notice may be cited as the Fisheries (Bycatch Trade-off) Notice (No. 4) 1994.

(2) This notice shall come into effect on the 22nd day of July 1994, and shall expire on the 15th day of October 1994.

2. **Interpretation**—In this notice:

(a) Any reference to Quota Management Area means the appropriate Quota Management Area as defined in the Fisheries (Quota Management Areas, Total Allowable Catches and Catch History) Notice 1986*;

(b) Target species and bycatch species are specified by way of fishstock codes, being Fishstock Codes defined in the Second Schedule of the Fisheries (Reporting) Regulations 1990†; and

(c) Methods are specified by way of method codes, being Method Codes defined in the Second Schedule of the Fisheries (Reporting) Regulations 1990†.

3. **Offering a lease of quota in lieu of paying deemed value**—(1) As from the date this notice comes into effect, any commercial fisherman who could be required under section 28zD of the Fisheries Act 1983 to pay the deemed value of any fish that is specified as a bycatch species in this notice, may offer the Director-General a lease or sublease of the right to take fish, being fish that are specified in this notice as a target species in relation to that bycatch species, as specified in the tables below.

(2) The ratios, as specified, are the amounts of target species which may, in lieu of such payments, be accepted by way of lease or sub-lease in relation to the amount of the bycatch species for which the offer of quota is made, e.g. if a fisher could

be required to pay deemed value for 1 tonne of BNS 1 and wishes to offer a lease of HPB 1 then the amount that can be offered is 1 tonne \times .71 = .71 tonnes of HPB 1.

Notes to the Financial Statements for the Period Ended 31 March 1994

1. Statement of Accounting Policies

General Accounting Policies

The general accounting policies adopted in the preparation of these financial statements are:

- The measurement base adopted is the historical cost basis modified by the revaluation of certain assets.
- Reliance has been placed on the fact that the entity is a going concern.
- The matching of revenues earned and expenses incurred using accrual accounting except as disclosed separate below.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and financial position:

- Dividend income from Trust Bank New Zealand Limited is included in the income and expenditure account when it is received.
- Donations made are included in the income and expenditure account when paid.
- Depreciation is charged to write off the cost of fixed assets over their expected economic lives using the straightline method:

Computer equipment	3 years.
--------------------	----------
- Shares held in Trust Bank New Zealand Limited are stated at initial public offer value.
- Government Securities are purchased primarily with the intention of holding them until maturity. They are valued on a yield to maturity basis.
- Income tax is not provided as the trust has charitable status for tax purposes therefore its income is not subject to taxation.
- G.S.T. inclusive accounting has been adopted as the trust is not registered for G.S.T. purposes.

Changes in Accounting Policies

The shares in Trust Bank New Zealand Limited, previously shown at their cost of \$11,810,000, have been revalued to their initial public offer value of \$2.10 per share. The resultant increase in value has been shown separately under trust funds as a revaluation reserve of \$61,270,000 giving a total value of \$73,080,000.

The valuation of Government securities has been changed to reflect the true yield to maturity. The effect of this change on the current year is not material.

All other policies have been consistently applied.

*Notes to the Financial Statements For the Year Ended 31 March 1994***1. Statement of Accounting Policies***General Accounting Policies*

The general accounting policies adopted in the preparation of these financial statements are:

- * The measurement base adopted is the historical cost basis, with the exception of investments in Trust Bank New Zealand Limited, which are recorded at the value established at the time of the public issue in March 1994.
- * Reliance has been placed on the fact that the entity is a going concern.
- * The matching of revenues earned and expenses incurred using accrual accounting except that dividend income and grants are accounted for on a cash basis.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and financial position:

- (a) *Dividend Income:* Dividend income from Trust Bank New Zealand Limited is included in the income and expenditure account when it is received.
- (b) *Grants:* Grants made are included in the income and expenditure account when paid.
- (c) *Shares:* Shares held in Trust Bank New Zealand Limited are stated at the price established at the time of the public issue in March 1994.

Changes in Accounting Policies

As a result of the recent Trust Bank New Zealand Limited share issue, the trust has been able to accurately determine the market value of its shares in Trust Bank New Zealand Limited for the first time. Previously, the shares were recorded at cost. The effect of this change is shown in the revaluation reserve.

There have been no other material changes in accounting policies since the previous annual financial statements. All other policies have been applied on a basis consistent with those used in the previous years annual financial statements.
