ASB Bank Community Trust

Notes to the Financial Statements for the Year Ended 31 March 1994

1. Statement of Accounting Policies

The ASB Bank Community Trust ("the Trust") was formed on 30 May 1988 through the creation of a trust deed in compliance with the Trustee Banks Restructuring Act 1988. Under the terms of the trust deed the Trust was settled with 60 million \$1 fully paid ordinary shares in ASB Bank Limited representing 100% of the issued capital. As at 31 March 1988 the net tangible asset backing of those 60 million shares was \$147,655,000. In 1989 45 million shares were sold to the Commonwealth Bank of Australia for \$252,000,000 which was then donated to the ASB Charitable Trust.

General Accounting Policies

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the Trust is a going concern. Accrual accounting is used to match income and expenditure.

Particular Accounting Policies

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits.

Dividends

Dividends are recognised as income when they are received by the Trust, and include imputation tax credits if any.

Donations

Donations are accounted for as they are distributed or committed to be distributed to eligible organisations as approved by the Trustees.

Expenses

Some expenses are shared jointly with the ASB Charitable Trust. Whilst each Trust bears its own specific costs, the joint expenses are allocated between each Trust on the basis of the number of applications processed by each.

Joint expense allocations were:	1994	1993
This Trust	23%	40%
ASB Charitable Trust	77%	60%

Investments

Investments in shares are valued at the net tangible asset backing as disclosed in the latest published accounts. Any revaluation difference is transferred to an Investment Revaluation Reserve.

Other investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period.

Reserves

- The Investment Revaluation Reserve reflects the increase in the net tangible asset value of the shareholding in ASB Bank Limited.
- The Investment Fluctuation Reserve consists of unrealised gains or losses.
- The Charitable Purposes Reserve Fund represents funds appropriated by ASB Charitable Trust to enable the Trust to participate in the issue of new equity by ASB Bank Limited. In order to maintain the non taxable status of this Reserve, the Trust is required to segregate these funds appropriated from ASB Charitable Trust and the income attributable thereto. There are also certain restrictions on the distribution of income from this fund.
- Transfers to other Reserves from the Unallocated Surplus are made at the discretion of the Trustees.

Taxation

Taxation includes both current and deferred tax. Deferred tax is calculated using the liability method.

Changes in Accounting Policies

There have not been any material changes in accounting policies during this accounting period.

Report of the Auditors to the Trustees of ASB Bank Community Trust

We have examined the accompanying balance sheet, statement of income and expenditure and statement of cashflows and have obtained all the information and explanations we have required.

We are of the opinion that proper accounting records have been kept by the Trust, that the balance sheet, statement of income and expenditure and statement of cashflows are properly drawn up and give, on an historical cost basis, adjusted by the revaluation of certain assets, a true and fair view of the financial position of the Trust as at 31 March 1994 and its results and cashflows for the year ended on that date.

ASB Charitable Trust

Notes to the Financial Statements for the Year Ended 31 March 1994

1. Statement of Accounting Policies

The ASB Charitable Trust ("the Trust") was formed on 31 May 1989 through the creation of a trust deed by the ASB Bank Community Trust and a donation of \$252,000,000.

General Accounting Policies

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the Trust is a going concern. Accrual accounting is used to match income and expenditure.

Particular Accounting Policies

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the Fund Managers.

Hedging Instruments

The Trust through its investment managers enters into hedging instruments such as futures, options and forward exchange contracts. These are converted to the New Zealand Dollar rate at balance date with all realised and unrealised gains and losses being recognised in income and expenditure as net income from managed funds.

Depreciation

Depreciation is provided over the useful life of the assets. The rates used are those recommended by the Inland Revenue Department.

Dividends

Dividends are recognised as income when they are received by the Trust and exclude imputation tax credits.

Income from Fund Managers

Income from Fund Managers is recorded net of fund management expenses.

Donations

Donations are accounted for as they are distributed or committed to be distributed to eligible organisations as approved by the Trustees.

Expenses

Some expenses are shared jointly with the ASB Bank Community Trust. Whilst each Trust bears its own specific costs, the joint expenses are allocated between the Trusts on the basis of the number of applications processed by each.

Joint expense allocations were:	1994	1993
This Trust	77%	60%
ASB Bank Community Trust	23%	40%

Fixed Assets

Fixed Assets are valued at cost less accumulated depreciation.

Investment Properties

These are valued at market value. Movements in the valuation of investment properties are recorded in the Statement of Income and Expenditure. No provision for depreciation is made on these properties.

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand Dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period. Investment transactions are recorded by the Fund Managers on a settlement date basis. Unsettled transactions are disclosed in the Notes as commitments.

Reserves

- Transfers to the Capital Maintenance Reserve are based on the annual movement in the Consumer Price Index.
- The Investment Fluctuation Reserve consists of unrealised gains or losses. Losses are allocated to this Reserve to the extent that they offset previous gains.
- Transfers to all other Reserves from the Unallocated Surplus are made at the discretion of the Trustees.

Taxation

The Trust has been accorded tax exempt status in New Zealand and Australia but is liable to taxation on investment income in some other overseas countries. Tax on overseas income is accounted for as a reduction of that income.

Changes in Accounting Policies

No comparison is provided between the carrying value and estimated fair value of financial instruments, due to the carrying value reflecting market price.

Report of the Auditors to the Trustees of ASB Charitable Trust

We have examined the accompanying balance sheet, statement of income and expenditure and statement of cashflows and have obtained all the information and explanations we have required.

We are of the opinion that proper accounting records have been kept by the Trust, that the balance sheet, statement of income and expenditure and statement of cashflows are properly drawn up and give, on an historical cost basis, adjusted by the revaluation of certain assets, a true and fair view of the financial position of the Trust as at 31 March 1994 and its results and cashflows for the year ended on that date.

Dated at Auckland this 30th day of May 1994.
