Research, Science and Technology

Foundation for Research, Science and Technology Act 1990

Professor I Axford
Presiding Member
Foundation for Research, Science and Technology
PO Box 12 240
WELLINGTON

Dear Professor Axford

On 17 August 1993, pursuant to section 8A (1) of the Foundation for Research, Science and Technology Act 1990, I directed the Foundation for Research, Science and Technology to allocate funds under the Ministerial Scheme entitled "The Technology for Business Growth Scheme".

Details of the Scheme were published in the *New Zealand Gazette* on 26 August 1993 (referred to as "the 1993 notice"). This scheme shall continue in full force and effect in respect of funds allocated to it in the 1993/1994 financial year as was specified in the 1993 notice.

Pursuant to section 8A (2) of the Act, I now amend the directions given in the 1993 notice to apply to the scheme funded in 1994/95 and subsequent years as follows:

The Technology for Business Growth Scheme will be amended as follows:

1. Exclusion of Technology Transfer from Market-Driven Criteria

Under the heading:

"The Objectives of the Expanded Technology for Business Growth Scheme"

Material beginning "The broad criteria...." and ending "... The following programmes apply within the Scheme." is deleted and replaced with:

"The broad criteria or constraints which will apply to all programmes within the scheme are as follows:

- The scheme will not target specific sectors, rather there will be a general requirement to ensure that the scheme spreads over a number of sectors rather than concentrated on just a few.
- The scheme will be aimed at funding initiatives which result in establishing or enhancing technological capability or capacity within enterprises, and which would not otherwise receive adequate support ie funds will not support projects which would have gone ahead anyway.

Additional criteria applying to all programmes other than the Technology Transfer Programme are:

- In general, user contribution of funding should be more than 50% of the cost of the project, subject to variation according to project needs. This demonstrates a credible and sustainable end-use commitment to the particular proposal.
- A key element of the programmes is that proposals should be strongly user linked and market driven. This should be demonstrated principally through the provision of user funding and the commitment of a user to take up the end product of the project. This will create an increase in private sector investment as a result and also a strong commitment to overall management of the projects supported.

To achieve these objectives, interlinked programmes are to be established, to be administered by the Foundation for Research, Science and Technology.

The following programmes apply within the Scheme:"

2. Combining of Co-operative Research and Technology Joint Venture Programmes

Under the heading: "*Co-operative Research Programme*" the heading and the whole section are deleted and replaced with:

"*Co-operative Research and Technology Programme*"

This programme is a consolidation of the separate programmes previously referred to as *Co-operative Research* and *Technology Joint Venture* respectively. This programme will support co-operative research between research institutions and companies including the placement of scientists and technologists in private sector organisations. The programme will also encourage joint venture technology exploitation between enterprises and public sector science agencies to help in overcoming barriers to technology uptake.

It is expected that this programme will foster links between enterprises and research organisations with an aim of overcoming the lack of scientific and technological skills in enterprises. It is primarily designed to encourage enterprises to use scientific capabilities (particularly staff) to assist embryonic research programmes and innovation in those enterprises. Proposals can be initiated by the enterprise but in collaboration with the research organisation providing the capability;

In addition to the criteria set out above, the following additional criteria apply specifically to this programme:

- All proposals should be jointly made between an enterprise (or group of enterprises) and a suitable research institution. However the industry partner should be clearly in the lead role to ensure "ownership" of the outcome.
- Enterprises with effectively no or low levels of in-house r&d capacity or little record of r&d investment but demonstrating a commitment to a change in approach will be encouraged to apply."

Material under the heading "*Technology Joint Venture Programme*" is deleted.

3. Provision for Carrying Forward Unused Funding for Previous Year

Material under the heading "**Funding for the Scheme**" is deleted and replaced with the following:

"The Foundation for Research, Science and Technology will be appropriated \$10.622 million through Vote : Research, Science and Technology for the 1994/95 financial year which will be disbursed to participants through the allocative processes adopted by the Foundation. Future appropriations for this Scheme will be dependent on the annual budgetary process of Government. The

indicative funding split amongst the three programmes is as follows:

<i>Programme</i>	<i>\$ Allocated</i>
Co-operative Research and Technology	\$ 7,671,000
Technology Transfer	\$ 2,460,000
In-house R&D	\$ 491,000
Total	\$10,622,000

The Foundation will have the discretion to vary this funding split by 10% plus or minus to any one programme. Variations (either cumulative or singular) of greater than 10% will require the prior approval of the Minister of Research, Science and Technology. Funds allocated through the Scheme in 1994/95 will be \$10.662 million, plus any funds accumulated from previous years."

In accordance with the Foundation for Research, Science and Technology Act 1990, a copy of this notice will be published in the *New Zealand Gazette* and a copy laid before the House of Representatives.

SIMON UPTON, Minister of Research, Science and Technology.

A copy of the full text of the Technology For Business Growth Scheme as amended by this notice is obtainable from the Ministry of Research, Science and Technology, PO Box 5336, Wellington.

Trustee Banks Restructuring Act 1988

Trust Bank South Canterbury Community Trust Inc.

Trust Particulars

The Trust Bank South Canterbury Community Trust Inc. was incorporated as a charitable trust in accordance with the provisions of the Trustee Banks Restructuring Act 1988. The purpose of the community trust is to provide charitable, cultural, philanthropic and recreational benefits to the community.

Trustees:

Mr A. F. McLay (Chairperson), Mr A. H. Carlton, Ms R. A. Carruthers, Mr L. K. Cooney, Mr R. B. McCully, Mr A. R. McKay, Mrs J. J. Rayne, Mr C. P. Sparrow, Mr J. R. Sutton, Mr J. E. Thompson, Mr D. B. Timpany, Mr R. J. Underdown.

Bankers:

Trust Bank South Canterbury Limited, 243 Stafford Street, Timaru.

Auditors:

Martin Wakefield, Chartered Accountants, 26 Canon Street, Timaru.

Secretary:

K. A. Churcher, Chartered Accountant, P.O. Box 591, 39 George Street, Timaru.

Trustees' Report for the Period Ended 31 March 1994

Objectives of the Trust: The trust's objectives are to provide financial assistance to organisations carrying on charitable, cultural, philanthropic and recreational work which is of benefit to the community, principally in the regions of South Canterbury and Mid Canterbury.

Policies and Structure of the Trust: All purposes of the trust are deemed to be charitable, to administer capital and to distribute income for charitable purposes in the Mid and South Canterbury areas.

The community trust now comprises 12 trustees who are representative of the Mid and South Canterbury communities. Trustees are appointed by the Minister of Finance and reside in either Mid or South Canterbury.

Trustees retire by rotation and during the past year the terms of office expired on 31 May 1993 for Mrs P. P. Cornelius and Mr A. J. Srhoy. Mrs Cornelius and Mr Srhoy were replaced by Ms R. A. Carruthers and Mr A. R. McKay. We are grateful to Mrs Cornelius and Mr Srhoy for their contribution as trustees since the inception of the trust.

Activities of the Trust: The past year was indeed a very busy one for the trustees. Apart from the usual pursuit of the objects of the trust which is considering the many applications for financial assistance from community organisations of a very diversified nature, considerable time was spent studying and discussing the propositions with reference to the restructuring of Trust Bank New Zealand Limited. In common with the other 8 community trusts who are shareholders in the bank it has been pleasing to find that the eventual share float itself was very successful.

The trust printed a new application form for those requesting donations and also a brochure which explains the procedure required and the general criteria considered by the trustees in dealing with all applications.

Review of Results and Financial Position of Trust: The main income of the trust was received by way of dividends from Trust Bank New Zealand Limited, totalling \$389,259 and after adding the investment income the total gross income was \$414,125. The net income (before donations) was \$365,863 and after deducting the donations to community groups the surplus transferred to undistributed funds was \$168,933.

Restructuring costs have been an abnormal expense for the trust in this financial year relating to events prior to the share float by Trust Bank New Zealand Limited. The total of \$6,959 includes the cost of obtaining expert opinion and legal expenses arising from the restructuring process.

Prior to the share float the trust received a bonus issue of 2 700 000 shares from Trust Bank New Zealand Limited bringing the total shareholding of the trust to 10 800 000 after conversion from \$1 to 50 cent shares. Consequently it is expected that the dividends available in the future will reflect an increase due to our increased shareholding.

It is expected that our trust will continue to play a vital part in assisting many community groups in Mid and South Canterbury districts.
