Schedule

The Business Development Programme

I Provision of Information

1 Boards shall endeavour to provide relevant and timely information for SMEs within the following main categories:

(a) The overall economic and regulatory environment in which businesses operate, highlighting the significance of particular developments for SMEs;

(b) New Zealand's trading activity and the regional economy, highlighting opportunities for SMEs;

(c) Techniques to improve business skills;

(d) Sources of advice and assistance for SMEs.

II Business Capability Improvement

2 Assistance provided under the business capability improvement component may involve:

(a) *Preliminary business appraisal*—designed to assess individuals and businesses' capability/skill and performance levels at a given point in time. This provides a basis for developing an ongoing programme for improving skill and performance levels and for considering what assistance can be offered to help the firm make progress; and/or

(b) *Business training/educative element*—based on skills/knowledge/capability 'gaps' identified in the appraisal. Clients will be referred to business training of a level and duration appropriate to their needs to develop their capabilities/skills/performance; and/or

(c) *Grant scheme*—the provision of funding by which a client can test/apply the new capabilities/skills gained through the business training educative element. Three critical areas are skills in innovation/research and development, strategy, implementation; and/or

(d) *Business Best Practice education and recognition initiatives including the Business Development Quality Awards*—directed at fostering the application of total quality management principles and practices in New Zealand organisations, particularly SMEs. Businesses will be encouraged to apply total quality management principles—

(i) by receiving advice and information; and

(ii) by having their achievement recognised through the Business Development Quality Awards.

II.a Preliminary business appraisal component

3 This component will focus on 8 business capabilities:

-business planning

-marketing

-operations management

-financial and information systems

-organisation and human resource management

-product design, research and development management

-quality

-environmental management

4 The appraisal will be carried out by a person selected by the applicant. A grant of up to \$500 (G.S.T. inclusive) may be provided. No grant will exceed 50% of the cost of the appraisal. The maximum grant will be \$500.

5 A pre-appraisal may be carried out for individual (non-SMEs) applicants by the Board for free. This may be a substitute for a full business appraisal.

II.b Business training/educative component

6 The eight capabilities covered in the preliminary business appraisal component provide the basis for this component.

It involves a training/educative element which is based on skills/knowledge/capability gaps which have been identified through the appraisal.

7 Boards will refer applicants to persons or entities who provide training in the relevant skill. No money will be provided by the Board to individual course attendees under this component.

8 Where the costs of running a seminar or training meeting cannot be met in full by fees paid by participants, Boards may underwrite the trainer's fees.

II.c Grant scheme

9 The purpose of the grant scheme is to provide funding by which a business can test/apply relevant capabilities/skills (either gained through the business education training package or independently acquired). Grant money may be available for activities in the following three areas:

i) innovation/research and development,

ii) strategy,

iii) implementation.

10 The strategy element will help businesses to determine their goals and objectives, ways of meeting them, and identify any necessary resource requirements. The innovation/research and development and implementation elements will enable businesses to test this strategic focus. A strategic review option is also available to measure progress and to make any modifications necessary to enable the business' long-term objectives to be kept in focus.

Limits

11 Assistance is offered on the basis of one dollar of funding under the scheme for every dollar contributed by the applicant to a maximum grant of \$50,000 for all time to any one applicant. Applicants can make any number of applications against this \$50,000 maximum but approvals are subject to a maximum of \$20,000 in any one July/June year. The \$50,000 and \$20,000 maximums apply to the amounts actually uplifted. Grants are G.S.T. inclusive.

12 Any grant for the innovation/research and development component shall not exceed \$10,000 per annum.

II.d Elements of the grant component—further details Innovation/research and development

13 This element will cover the following 8 areas:

(a) Market assessments

(b) Financial analysis (budgets, cash flows, pricing and costing and funding needs)

(c) Research and Development, including the development of prototypes

(d) Production feasibility studies

(e) Intellectual property protection

(f) Accessing technology

(g) Regulatory requirements

(h) Distribution

14 Applicants seeking a grant under the innovation/research and development element will have to show that they are developing a product/service new to the region (research and development component) or that they are looking to introduce new technology into an existing product or service (innovation component).

Strategy

15 As noted in clause 3 of this Schedule, eight capability areas will be covered. The maximum grant under this element is \$20,000 per annum.

Implementation

16 This element will cover 5 areas each with a maximum 50% grant component:

- (a) Market research into new overseas markets, \$2,500
- (b) Exploration visits to new overseas markets, \$3,000 (covers one airfare/visit only and no ground travel; applicant must show prior evidence of research and prescheduled appointments)
- (c) Trade fair participation, \$7,500 (may include travel)
- (d) Promotion/advertising in new overseas markets, \$5,000
- (e) Intellectual property protection, \$2,000.

III Applicant Criteria

Who may apply

17 Applications can be made by any individual, business, trust, organisation, iwi authority or incorporation etc, resident in NZ and registered for either income tax or G.S.T. purposes (ie based in NZ for the purposes of tax)

18 Applicants employing more than 50 full-time or full-time equivalent employees are not eligible to apply. This criteria ensures that the programme remains targeted at SMEs.

19 For the purposes of the Business Development Programme any 2 or more corporate bodies are deemed to be one person if—

(a) One of them is a body corporate of which the others are subsidiaries within the meaning of—

- (i) Sections 158 and 158A of the Companies Act 1955, in relation to a body corporate registered under that Act; or
- (ii) Sections 5 and 6 of the Companies Act 1993, in relation to any other body corporate; or

(b) All of them are subsidiaries (within the meaning of those sections) of one and the same body corporate.

What activities may be considered

20 The grant scheme is only available to those able to show that the goods/services they produce/provide already compete, or show potential to compete, in either domestic or international markets. This is confined to businesses/individuals who are selling or intending to sell in overseas markets and those selling in competition with imports.

21 Assistance is only available for legal activities.

22 Assistance is not available for activities which are directed at the Australian market; this is in line with NZ's obligations under the Australia and New Zealand Closer Economic Relations Trade Agreement (ANZCERTA).

Skills

23 To gain entry to the scheme applicants will have to satisfy their Board that they are at the stage where a grant is appropriate, ie that they wish to test or apply a skill that they have acquired or have had access to through either the programme's business training/educative element or through some other means. The Board will base its decision on the appropriateness of the grant on the basis of the preliminary appraisal - which will clearly show the level of capability/skill—or it may waive this requirement if applicants are able to demonstrate their skill/capability level through some other means.

IV Payment of Claims

24 Claims against approved grants can be made any time after the grant has been accepted.

25 Grants are paid on a reimbursement basis.

26 The only basis on which claims will be paid out is:

- (a) on matching receipts to original invoices; or
- (b) on an accountant's certification of costs paid; this must be from an independent accountant (ie not the

applicant's in-house accountant) in public practice and must match expenditure to the approved qualifying costs (the cost of obtaining such a certification is a qualifying cost of the Programme).

27 No other Government funds may be used for the balance of the costs funded under the Business Development Programme. Grants will be required to be repaid if this condition is breached.

V Approval Times and Extension Requests

28 Grant approval times should be for no more than one year from the date of approval.

29 Boards can consider requests for time extensions for grants if these have been received by Boards before the expiry date. Requests for time extensions should be approved in exceptional circumstances only with applicants outlining the circumstances outside their control which have led to the extension request. The maximum time available for extensions is six months.

Dated at Wellington this 6th day of December 1995.

ROGER F. H. MAXWELL, Minister of Business Development.
