## Proposed Determination

Column One	Column Two	Column Three
Classes of Motor Vehicles	Goods	Condition in which such goods shall be imported
(A) CLASS I Motor vehicles (other than omnibuses), being sedans, station wagons, utilities, vans capable of carrying passengers and goods or a combination of passengers and goods, chassis/cabs, providing that the gross vehicle weight of such vehicles does not exceed 3,500 kg	(i) Chassis, consisting of:  A metal underbody, side members, end members, cross members, sub-frame, tank supports, brackets for fixing engine, springbrackets, engine, and gearbox.  (ii) Bodies, the following parts:  Panels, and framework (if any).	These goods (except the engine and gearbox) may be built up into a 'frame' and the engine and gearbox may be fully assembled and attached to a frame. The frame must not be further assembled but such other minor fittings, for example, stays, lugs, and brackets as are ordinarily affixed to the frame may be so affixed.  May be built up into the form of a 'shell', with doors attached thereto.  The shell may have a coat of grease, oil, red oxide, or similar protective coating, not including cellulose or pyroxylin or similar lacquer. The shell shall not be advanced in manufacture beyond the stage where the necessary welding processes have been performed; for example, the seams shall not be soldered, filled or smoothed. The shell may not be attached to the model underbody or frame or to parts affixed thereto as referred to in (i) above but may, subject to the foregoing restrictions, be imported in such condition as the importer elects.

The components nominated below, if imported to be used in the assembly, completion or manufacture of Class I motor vehicles must be entered in accordance with the appropriate Tariff item in Part I of the Tariff:

### Dumping and Countervailing Duties Act 1988

#### Termination of Subsidy Investigation: Baked Beans in Tomato Sauce From Italy

Notice is hereby given that, acting pursuant to section 11 of the Dumping and Countervailing Duties Act 1988 (hereinafter referred to as "the Act"), I have terminated a subsidy investigation in respect of baked beans in tomato sauce in retail sized cans exported from Italy (hereinafter referred to as "the subject goods", as described in the Notice of Initiation of Dumping Investigation of 1 March 1996, and published in the *New Zealand Gazette*, 7 March 1996, page 719), and imported or intended to be imported into New Zealand.

The reason that I have terminated the investigation is because I am satisfied under section 11 (1) (b) of the Act that, as a result of investigations carried out, there is insufficient evidence that material injury to a New Zealand industry has been or is being caused or is threatened by means of the subsidisation of the goods.

Dated at Wellington this 28th day of August 1996.

JOHN LUXTON, Minister of Commerce.

*A copy of the non-confidential version of the Final Report, which contains details of the investigation and the conclusions reached, is available from the Manager, Trade Remedies Group, Ministry of Commerce, P.O. Box 1473, Wellington.*

#### Notice of Initiation of a Duty Reassessment for Canned Peaches From South Africa

Pursuant to section 14 (6) of the Dumping and Countervailing Duties Act 1988 ("the Act"), and under delegated authority from the Secretary of Commerce, I hereby give notice that I have initiated a reassessment of the amount of anti-dumping duty in respect of imports into New Zealand of the goods described in the Schedule imported from South Africa.

The purpose of the reassessment is to ensure that any changes in the elements of normal value and export price of these goods which may have occurred, are incorporated into the current anti-dumping remedy.
