## Schedules

### Schedule 1

#### Easement to Store and Release Water

1. The water may be stored and retained on or about the Operating Easement Land up to the operating levels determined from time to time by the Grantee in its sole discretion for the Dams or Structures and in accordance with any resource consents or other statutory or regulatory consents or approvals held by the Grantee from time to time. In the event of unusually heavy rainfall or unusually

heavy inflow of water which impacts on the water levels on or about the Operating Easement Land or any other cause beyond the reasonable control of the Grantee then the Grantee may store and retain water on or about the Operating Easement Land up to the designed flood level of the Dams or Structures. If lawfully directed or requested so to do by a civil defence authority or if required in any other case beyond the reasonable control of the Grantee then the storage of water may be beyond the designed flood level.

2. Where the Operating Easement Land or any part of it forms the bed of a natural waterway the Grantee shall have the right to from time to time discharge water into that waterway in accordance with resource consents or other statutory or regulatory consents or approvals held by the Grantee from time to time. If lawfully directed or requested to do so by a civil defence authority or if required in any other case beyond the reasonable control of the Grantee then the discharge of water to that waterway or to the Operating Easement Land may be made beyond the levels authorised by such consents or approvals.

3. The Grantee may from time to time if it sees fit install and maintain booms and other floating equipment on any lake or reservoir on the Operating Easement Land used for the storage of water and shall have the right to anchor such equipment on the Operating Easement Land. The Grantee may if it sees fit from time to time install and maintain monitoring and measuring equipment and structures, safety devices and similar equipment on the Operating Easement Land. Except in the case of emergency, the installation of such devices and equipment shall not be undertaken without the Grantee first having obtained the consent of the Grantor. All booms, floating equipment, monitoring and measuring equipment, structures, safety devices and similar equipment existing at the vesting day shall be deemed to be installed with the Grantor's consent.

4. The Grantee may from time to time undertake works and/or carry out planting of vegetation on or about the Operating Easement Land with a view to limiting or minimising erosion, land subsidence, land slippage, landslides or flooding. The Grantee shall use reasonable endeavours when carrying out such works and plantings to so far as practicable carry out the same in keeping with the character of the Operating Easement Land and the Grantee shall use reasonable endeavours to reduce erosion, land subsidence, land slippage and landslides on the Operating Easement Land by available practical and economic means as determined by the Grantee in its reasonable opinion. Nothing in this clause shall be taken to restrict or hinder the Grantee from raising or lowering the level of the water situated from time to time on or about the Operating Easement Land during the course of carrying on from time to time the Grantee's electricity generation business. The Grantee may from time to time remove from any water on or about the Operating Easement Land or remove from any part of the Operating Easement Land and/or redistribute or relocate, whether on the Operating Easement Land or elsewhere, any sediment or other material or any vegetation which in the opinion of the Grantee is impeding or likely to impede the efficient generation of electricity by the Grantee or to cause danger, injury or damage to persons or property on or about the Operating Easement Land. In all such cases work carried out under this clause shall (except in the case of an emergency) first have the consent of the Grantor.

5. The Grantee may from time to time erect structures and do works on the Operating Easement Land for the purpose of the exercise of any of the Grantee's rights PROVIDED THAT this right shall not be exercised without the consent of the Grantor. All structures and works existing at the

vesting day shall be deemed to have been erected with the Grantor's consent.

6. The Grantee may from time to time deposit sediment or other material on or about the Operating Easement Land PROVIDED THAT where the appearance or use of the Operating Easement Land is or may be thereby adversely affected, as agreed by both parties in consultation with each other, the Grantee shall carry out reasonable landscaping of the affected area in a manner approved by the Grantor.

7. The Grantee may from time to time store goods and materials of all kinds on or about the Operating Easement Land PROVIDED THAT this right shall not be exercised without the consent of the Grantor and PROVIDED FURTHER THAT should permanent storage be required in the reasonable opinion of the Grantee then the Grantee shall purchase that part of the Operating Easement Land at the then current market value to be determined in the manner provided in clause 14 of Schedule 9. All goods and materials stored on or about the Operating Easement Land on the vesting day shall be deemed to have been stored with the Grantor's consent.

8. The Grantee shall at all times for the purpose of exercising any of the Grantee's rights have the right to operate upon any area of water on the Operating Easement Land, any vessel, plant or equipment and in connection therewith from time to time to establish and maintain jetties, wharves, landing places and slipways PROVIDED THAT no such jetties, wharves, land places and slipways shall be established after the vesting day without the consent of the Grantor. All jetties, wharves, land places and slipways existing on the vesting day shall be deemed to have been established with the Grantor's consent.

### Schedule 9

#### Provisions Relating to All Servient Land

1. The Grantee may from time to time if it considers that there is an emergency situation involving public safety or the security of electricity generation temporarily exclude entry by any persons to all or any parts of the Servient Land. In cases where there is no emergency the Grantee may also with the Grantor's prior approval temporarily or permanently and/or from time to time exclude persons from all or any parts of the Servient Land. Where entry is excluded the Grantor will not authorise or permit entry thereon except after giving notice to the Grantee and for the purpose of inspecting the condition of the Servient Land or doing any act required to be done by it under this order.

Where permanent exclusion is warranted in the reasonable opinion of the Grantee then the Grantee shall with the prior approval of the Grantor purchase the Servient Land or part or parts thereof at the then current market value to be determined in the manner provided in clause 14 of this Schedule.

2. The Grantee may take such measures as it reasonably thinks necessary for the safety of persons or property on or about the Servient Land including without limitation the right to erect signs and notices warning of any danger.

3. The Grantee shall have the right from time to time to do all such acts and things as are reasonably necessary for the better enjoyment of the Grantee's rights of Grant of Easement or consequential thereto.

4. In all cases where the consent or approval of the Grantor is required under this order such consent or approval shall be deemed granted for the day-to-day or other activities of the Grantee properly and reasonably required for the carrying on of its electricity generation business from time to time and in the event that the consent or approval is not deemed granted, such consent or approval shall not be unreasonably withheld or granted upon unreasonable conditions, or granted subject to the payment of money or other consideration.

5. The Grantee shall be entitled from time to time to apply for any resource consents and any other statutory consents required for the purpose of the exercise of any of the Grantee's rights in the same manner as if it were the registered proprietor of the Servient Land PROVIDED THAT it shall at the time of making the relevant application forward a copy to the Grantor.

6. All structures, plant and equipment made or installed by the Grantee on the Servient Land shall remain the property of the Grantee and may at any time be removed by it PROVIDED THAT any substantial damage caused by such removal shall immediately be remedied by the Grantee at its cost.

7. The Grantee shall use all reasonable endeavours to cause as little disturbance and disruption to the carrying on of the normal business operations of the Grantor although the Grantor accepts that this provision shall not prevent, restrict or hinder the Grantee from carrying out its business in a normal manner consistent with the Grantee's rights.

8. The Grantee shall not be required to fence any of the Servient Land unless it is required as a condition of the Grantor's consent when granting any consent hereunder where that condition would be reasonable.

9. All improvements connected with the Grantee's rights shall remain in the ownership of the Grantee until they are removed by the Grantee or upon the cessation or surrender of the Grantee's rights, whereupon ownership shall vest and pass to the Grantor except where such improvements are in the process of being removed by the Grantee at the time of the cessation or surrender. The Grantee shall not be entitled to any compensation or damages for any improvements to the Servient Land effected by it.

10. The Grantor undertakes to give the Grantee not less than 6 months notice of any intention to sell, transfer or otherwise dispose of any part of the Servient Land or carrying out or permitting any development or change of use thereof and shall (before, or contemporaneously with, agreeing any contract or agreement for any such sale, transfer or other disposal with a third party) procure that that third party enter into a deed of covenant pursuant to clause 11 of this Schedule.

11.1 The Grantor agrees to procure a deed of covenant (in

such form as the Grantee may reasonably require) from any contemplated successor in title to any or all of the Servient Land that that successor in title will be bound by the terms of the easements vested by this order.

11.2 Until such time as any successor in title to the Servient Land executes a deed of covenant in accordance with clause 11.1, such successor in title shall be deemed to be bound by the terms of the easements vested by this order.

12. The Grantor shall, whenever called upon by the Grantee and at the cost of the Grantee, execute such further deeds and assurances such as registerable Easements and/or Encumbrances at a nominal rent charge in perpetuity and arrange for any titles to be produced if required by the Grantee as may be necessary to give full and proper effect to the Grantee's rights and to enable those rights to be registered against any gazette notice or title which issues in respect of the Servient Land.

13. The Grantee shall be entitled at any time to surrender at its own cost all or any of the Grantee's rights. The Grantor shall execute any deed of surrender upon request by the Grantee pursuant to clause 12 above.

14. For the purposes of clause 7 of Schedule 1 and clause 1 of this Schedule the current market value of the relevant land shall be determined by a registered valuer appointed by each party and if they cannot agree to be determined by an umpire to be appointed by those valuers prior to their entering into the determination of the matter.

15. The Grantee shall be entitled to transfer or assign the Grantee's rights as to the whole or any parts of the Servient Land. In any such case upon the assignee or transferee becoming liable under the easements vested by this order (or any of them) or notifying the Grantor that it has assumed the relevant obligations of the Grantee under the easements concerned the provisions of the easements concerned shall cease to be binding upon the assignor or transferor in respect of the relevant parts of the Servient Land (or if applicable, the whole of the Servient Land) but without prejudice to the assignor's or transferor's liability for any antecedent breach of covenant under those easements.

16.1 In the event of any dispute arising between the parties in respect of or in connection with the easements vested by this order, the parties shall, without prejudice to any other right or entitlement they may have under this Agreement or otherwise, explore whether the dispute can be resolved by use of the alternative dispute resolution technique of mediation. The rules governing such techniques shall be agreed between the parties or as recommended by the New Zealand Law Society or as selected by the Chairman of the New Zealand Chapter of LEADR (Lawyers Engaged in Alternative Dispute Resolution).

16.2 In the event the dispute is not resolved within 28 days

of written notice by one party to the other of the dispute (or such further period agreed in writing between the parties), either party may refer the dispute to arbitration under the provisions of the Arbitration Act 1996 or any amendment or re-enactment of it. The arbitrator shall be agreed between the parties within 10 days of written notice of the referral by the referring party to the other or failing agreement appointed by the President of the New Zealand Law Society. In either case, the arbitrator shall not be a person who has participated in any informal dispute resolution procedure in respect of the dispute.

17.1 All notices and communications under this order or the easements vested by it shall be delivered personally, sent by prepaid post or by facsimile to the following addresses:

Grantor:

Conservator, Wellington Conservancy, Department of Conservation, Bowen State Building, P.O. Box 5086, WELLINGTON (Telephone: 04 472-5821; Fax: 04 499-0077):

or to such other address as either party shall notify to the other. Delivery shall be deemed to have occurred when delivered personally or sent by registered mail or facsimile.

17.2 All consents approvals or other matters of whatsoever kind or nature to be given or received by the Grantor shall be given or received by the Conservator of the Wellington Conservancy, Department of Conservation and shall be given or received by the Grantor on behalf of the Grantor and shall be binding and effectual upon the Grantor and the Grantee.
