Land Information New Zealand**Public Works Act 1981****Notice of Intention to Take an Easement for the Transmission of Electricity From Bombay to Pukekohe in Franklin District**

Notice is hereby given that it is proposed, under the provisions of the Public Works Act 1981, to take, on behalf of Counties Power Limited, an easement over the land described in the Schedule, which is required for the transmission of electricity and to permit the upgrading of the existing Bombay to Pukekohe transmission lines to 110 kV.

The taking is considered reasonably necessary as the existing 33 kV lines are no longer sufficient to meet

increasing demand for power and must be upgraded to conduct 110 kV. The easement is necessary because the statutory protection to the existing lines will not extend to an upgrading.

Any person, having an estate or interest in the land may within 20 working days after the date of publication of this notice, send an objection to the Registrar, Environment Court, Tribunals Division, Department for Courts, Private Bag, Postal Centre, Wellington.

If any objection is made in accordance with this notice, a public hearing will be held, unless the objector otherwise requires, and each objector will be informed of the time and place of the hearing.

Australia New Zealand Food Authority

Australia New Zealand Food Authority Act 1991

Australia New Zealand Food Authority—Food Standards

The authority advises progress on the following matters relating to Food Standards. You are invited to present written submissions to the authority on these matters, including the potential regulatory impact on consumers, industry and government, by the dates indicated. The information papers on these matters provide further information, including advice on the authority's policy

regarding submissions. You can get these information papers from:

The Information Officer
Australia New Zealand Food Authority
P.O. Box 10-559
WELLINGTON
Telephone: (04) 473 9942
Facsimile: (04) 473 9855
Email: nz.reception@anzfa.gov.au

Matters at Full Assessment

The authority has made preliminary assessments and accepted the following applications, developed the following proposal, and will now make full assessments of them:

Maximum Residue Limits (A364 and A365) Two applications received on 22 September 1998 and 9 October 1998 respectively from the National Registration Authority to amend Australian Maximum Residue Limits (MRLs) for

a number of agricultural chemicals as currently prescribed in the Australian Food Standards Code. Submissions close **27 January 1999**.

Food sold in New Zealand which is either domestically produced or imported (other than from Australia) must comply with the MRL provisions in the New Zealand Food Regulations 1984. Food imported from Australia must comply with either the New Zealand MRLs or the Australian MRL limits. In Australia corresponding arrangements apply.

Meat, Poultry, Game and Related Products (P191) A proposal to review current Australian and New Zealand regulations in order to develop a joint Australia New Zealand standard for meat, poultry, game and related products. Submissions close **27 January 1999**.

Matters at Inquiry

The authority will conduct inquiries into the draft standards prepared at full assessment of the following proposals reviewing current Australian and New Zealand regulations in order to develop joint Australia New Zealand standards:

Dried, Evaporated and Condensed Milks (P159)

Egg and Egg Products (P190)

Submissions on these proposals close **27 January 1999**. With respect to proposal P190 the authority is satisfied that it raises issues of minor significance and complexity and that to omit to invite public submissions prior to making a full assessment will not have a significant adverse effect on the interests of any person or body. The authority has therefore decided to omit to invite public submissions prior to making a full assessment of this proposal.

Folate Health Claims

The authority has completed its second round of assessment of foods to be included in the register of foods approved to carry a folate / neural tube defect (NTD) health claim. This matter is part of the review being undertaken by the authority of the general prohibition on health and related claims. It relates specifically to a pilot for permitted health claims which may be made concerning the relationship between adequate intakes of folate by women of child-bearing age and the reduction in the risk of NTDs in babies. Subject to any public submissions received on the proposed list of additional foods, the authority will shortly make a recommendation to the Australia New Zealand Food Standards Council that the foods be added to the register and be approved to carry a folate/NTD health claim.

You are invited to provide comments on the authority's proposed list by 8 December 1998. The list is available from the authority's information officer on (04) 473 9942, facsimile (04) 473 9855 or email nz.reception@anzfa.gov.au. Given the short time for comment, the list will be mailed, faxed or emailed immediately upon request. The list is also available on the ANZFA home page <http://www.anzfa.gov.au>.

Further applications for foods to be included in the pilot will be considered for inclusion on the register and are welcome at any time. Applications are available from the authority's information officer. Further queries should be directed to Dr Hugh Baber on (04) 473 9942.
