##### Call for Submissions—Folate Health Claims

The authority has completed its third round of assessment of foods to be included in the register of foods approved to

carry a folate / neural tube defect (NTD) health claim. This matter is part of the review being undertaken by the authority of the general prohibition on health and related claims. It relates specifically to a pilot for permitted health claims which may be made concerning the relationship between adequate intakes of folate by women of child-bearing age and the reduction in the risk of NTDs in babies.

Subject to any public submissions received on the proposed list of additional foods, the authority will shortly make a recommendation to the Australia New Zealand Food Standards Council that the foods be added to the register and be approved to carry a folate / NTD health claim (Proposal P201 refers).

You are invited to provide comments on the authority's proposed list by **28 May 1999**. The list is available from the authority's information officer and is also available on the ANZFA home page.

Further applications for foods to be included in the pilot and inclusion on the register are welcome at any time. Applications are available from the authority's information officer. Further queries on this matter can be directed to Dr Hugh Baber on (04) 473 9942.
