Advertising Rates

The following rates for the insertion of materials in the *New Zealand Gazette* apply as from 1 January 1998:

Category 1

Single column notices, e.g.: Notices under the Companies Act, Insolvency Act, and Public Works Act—55c per word (no matter how big or small)*.

Category 2

Notices in table form or taking up two columns across the page, e.g.: Change of Company Name notices, Regulation Summaries—60c per word (no matter how big or small)*.

*Any word or group of alphas or numerals with a comma or full point imbedded in it will count as two words.

*Any word or letter ending with a full point, comma, shilling stroke (whether followed by a word space or no word space will count as one word, e.g., D.X. = 2 words, the end. = 2 words. The full point, comma, shilling stroke ends the word, and what follows starts another word.)

The appropriate rate to be applied to an advertisement will be determined at the time of setting up the notice for publication. Customers will be invoiced in accordance with standard commercial practices. Advertising rates are not negotiable.

All rates shown are inclusive of G.S.T.

Departmental Notices

Commerce

Commerce Act 1986

Statement to the Commerce Commission of the Economic Policy of the Government: The Dairy Industry

To the Commerce Commission

Pursuant to section 26 of the Commerce Act 1986, I hereby transmit to the Commerce Commission a statement of the economic policy of the Government on the dairy industry.

Government's Policy Objectives

The Government's overall objective is to maximise the economic welfare of New Zealand. This overall objective is achieved by policies that facilitate the efficient use of resources across the economy. The growth of an internationally competitive export sector, of which the dairy industry is a significant part, is a key component of the Government's policies.

The Government recognises that New Zealand's dairy industry is the most efficient producer of milk in the world. It also considers that there is room to generate greater

wealth for the sector while enhancing competition in domestic markets.

The Government's role is to provide the regulatory framework to facilitate wealth creation and efficient resource use. The industry's role is to develop commercial strategies within that framework with a view to creating wealth for its owners.

The Government has encouraged the dairy industry to develop a strategy for growing the wealth of dairy farmers and New Zealand. In response, the dairy industry has developed a strategy and structure that industry leaders are confident will increase the wealth of dairy farmers and New Zealand. That structure involves the amalgamation of all those existing co-operative dairy companies whose shareholders vote to join the new co-operative ('new co-op').

The Government will promote economic efficiency by providing a regulatory framework that encourages accurate transmission of domestic and international price signals. The dairy industry's economic performance will be further improved by:

- Continuing and enhancing real and sustained downward pressure on costs;
- Efficient pricing signals; and
- Strong innovation.

A regulatory package that enhances the performance of the dairy industry and the economy is outlined below. The Government has introduced legislation on matters relating to taxation, regulatory, industry good and quota issues. Issues relating to competition within New Zealand markets are for the Commerce Commission to decide.

Key Features of Reform

Changes to legislation are required to achieve the overall goals of the Government and the dairy industry. The Government will:

- Provide arrangements for markets where foreign governments exercise a high degree of control over the economic terms of access to their domestic markets. These arrangements will maximise benefits to New Zealand dairy farmers while phasing out barriers to competition in the export of dairy produce from New Zealand over time;
- Ensure competitive neutrality in the regulatory environment:
 - Through a review of all aspects of the regulatory regime associated with the dairy industry to remove and/or reduce regulatory barriers to entry; and
 - By providing for non-discriminatory access for all market participants where any regulatory functions are undertaken by the industry;
- Ensure the Commerce Act applies to domestic markets without exception; and
- Remove the statutory powers providing for a single exporter for New Zealand dairy products.

The Government considers the dairy industry must ensure that effective and efficient corporate governance arrangements are in place, including:

- Adequate commercial, including appropriate capital market, disciplines;
- Mobility of capital, which would include efficient price signals to shareholders and/or suppliers;
- Adequate protection of the interests of all shareholders;
- The separation of commercial and non-commercial activities in a manner that improves the accountability and transparency of operations; and
- Clearly defined end points for any transitional arrangements.

In general, the Government sees full tradability of shares (not linked to supply) in large commercial entities as conducive to effective corporate governance and efficient resource allocation.

While co-operative companies, where shareholding is fully tied to supply, have been a feature of the dairy industry for many years, the new co-op is expected to provide a reasonable degree of tradability.

To the extent that shares in the new co-op are tradable, the range for trading shares delinked from supply must be sufficient to provide efficient signals for the valuation of the shares.

To the extent that shares in the new co-op are not tradable, provision in the initial constitution of the new co-op for shareholders to enter and exit at fair value in a timely manner is important to the creation of effective corporate governance, efficient resource allocation and a competitive environment in all relevant markets.

“Fair value” in this context and at this stage in the dairy industry’s development, means the value that would be expected if:

- The shares were tradable among supplying shareholders on a willing buyer and willing seller basis in an arm’s length transaction;

- The earnings attributable to equity were fully unbundled and delinked from the milk price and distributed to shareholders as dividends or are reflected in the exit value; and
- The duty of directors is to maximise the earnings attributable to equity given the separation of a milk price which approximates that which would be paid in a competitive market.

For both trading among suppliers or the redemption of shares at fair value, it is essential that the rules for separation of earnings attributable to equity from the milk price be objective, independently managed and transparent.

The Government expects an increase in the degree of tradability and unbundling of returns to be a feature of the transition to a more responsive structure to external factors.

Policies to be Implemented in Legislation

Specific features of the legislation introduced, include:

1. The removal of the statutory powers providing for a single exporter for New Zealand dairy products with effect from 1 September 2000, conditional on:

- An amalgamation of two or more co-operative dairy companies under Part XIII of the Companies Act 1993; and
- The amalgamated firm being the beneficial owner of more than 75 percent of the shares in the Dairy Board; and
- The amalgamation being authorised by the Commerce Commission.

This will be achieved by:

- The repeal of the Dairy Board Act 1961; and
- The repeal, without replacement, of all existing Commerce Act exemptions in the Dairy Board Act 1961; and
- The conversion of the New Zealand Dairy Board to a company under the Companies Act 1993 using the provisions in Part II of the Fifth Schedule of the Dairy Board Act 1961.

2. Arrangements for designated markets as follows:

- Designated markets are defined as:
 - The European Community “country specific tariff quota” markets for butter, cheddar cheese and cheese for processing;
 - The United States markets for cheddar cheese, low-fat cheese, NSPF cheese, and other American type cheese;
 - The Canadian market for butter;
 - The Japanese market for prepared edible fat and natural cheese; and
 - The Dominican Republic market for milk powder.
- The new co-op is granted the exclusive right to export to those markets for between 6 years and 6 and a half years (depending on when the relevant quota year ends);
- The new co-op is granted further rights to export to those markets for a transitional period during which:
 - The exclusive rights to the European Community markets are reduced by 25 percent each year; and
 - The exclusive rights to other designated markets will be reduced on the basis of 4 successive reductions, on a basis to be determined by a new quota allocation company;
- The new quota allocation company will be established by regulation and its shares will be owned by supplying shareholders in existing dairy co-operative companies;

- Other access to designated quota markets will be allocated by the new quota allocation company; and
- The allocation by the new quota allocation company will be on a competitively neutral basis among dairy exporters.

3. The introduction of competitive neutrality in the regulatory environment. This will include:

- The repeal of sections 10, 22 to 26, 29 and 32 (1) (t), (u), (w), (x) and (za), (2), and (3) of the Dairy Industry Act 1952, and regulation 42 of the Dairy Industry Regulations, which have the potential to impose unnecessary restrictions on competition;
- New regulation-making powers under the Dairy Industry Act to regulate technical market access, and export certification and to carry out residue monitoring functions;
- New regulation making powers under the Dairy Industry Act to provide for the collection of data for the national dairy herd improvement database, the licensing of herd testers, and the provision of non-discriminatory access to that database.

To ensure efficient and effective corporate governance arrangements are in place for the longer term, the Government will conduct a review of the Co-operative Companies Act 1996 as a consequence of reforms in the dairy industry, with a view to facilitating competition and good governance arrangements.

No new registrations under Part III of the Co-operative Companies Act 1996 will be allowed from 1 September 2000, except that co-operative dairy companies not participating in the new co-op will be able to continue under that Part.

The Government considers that this legislative package provides the regulatory foundation for the transition to a competitive environment in the dairy industry.

Signed at Wellington this 30th day of July 1999.

HON. MAX BRADFORD, Minister for Enterprise and Commerce.

Notes to the Financial Statements for the Year Ended 31 March 1999**1. Statement of Accounting Policies**

The ASB Bank Community Trust ("the Trust") is the reporting entity. The trust was formed on 30 May 1988 through the creation of a trust deed in compliance with the Trustee Banks Restructuring Act 1988. Under the terms of the trust deed the trust was settled with 60 million \$1 fully paid ordinary shares in ASB Bank Limited representing 100 percent of the issued capital. As at 31 March 1988 the net tangible asset backing of those 60 million shares was \$147,655,000. In 1989 45 million shares were sold to the Commonwealth Bank of Australia for \$252,000,000 which was then donated to the ASB Charitable Trust.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but excludes charitable purposes reserve fund cash at bank and call deposits.

Dividends

Dividends are recognised as income when they are received by the trust. They are recorded net of any imputation tax credits.

Donations

Donations are accounted for as they are distributed or committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Charitable Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between each trust on the basis of the number of applications processed by each.

Joint expense allocations were:

	1999	1998
This trust	40 percent	40 percent
ASB Charitable Trust	60 percent	60 percent

Investments

Investments in shares are valued at the net tangible asset backing as disclosed in the latest published accounts. Any revaluation difference is transferred to the investment reserve.

Other investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period.

Financial Instruments

All assets and liabilities of the trust are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value or fair value or are not materially different from market value or fair value.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments, have been included throughout the financial statements where material.

Reserves

The investment reserve reflects both the realised and unrealised increase in the net tangible asset value of the shareholding in ASB Bank Limited. It excludes the portion of the increases attributable to the charitable purposes reserve fund.

The charitable purposes reserve fund represents funds contributed by ASB Charitable Trust to enable the trust to participate in the issue of new equity by ASB Bank Limited. In order to maintain the non taxable status of this reserve, the trust is

required to segregate these funds contributed from ASB Charitable Trust and the income attributable thereto. There are also certain restrictions on the distribution of income from this fund.

Transfers to other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

Taxation includes both current and deferred tax. Deferred tax is calculated using the comprehensive liability method.

Comparatives

Certain comparatives have been restated for disclosure purposes.

Changes in Accounting Policies

There have been no material changes in accounting policies during the period.

Increase in net tangible assets	21,700	20,638
Balance as at 31 March	<u>\$163,850</u>	<u>\$142,150</u>

The increase in net tangible assets is based on unaudited accounts of ASB Bank Limited as at 31 December 1998.

Change in Shareholding

The investment held in ASB Bank Limited is disclosed based on the shares held and net tangible assets of ASB Bank Limited as at 31 December 1998 in accordance with the trust's accounting policy.

On 30 March 1999 an arrangement was entered into whereby the trust exchanged its 25 percent shareholding in ASB Bank Limited for a 25 percent shareholding in ASB Group Limited. This company will hold 100 percent of the shares in ASB Bank Limited and ASB Life Assurance Limited.

This transaction has not been reflected in the current financial statements, as in substance the trust's shareholding in the new group would have effectively been the same as shown in the financial statements.

Other Investments

These consist of securities and deposits managed in-house.

Investments comprise:

Call deposits	491	110

Currency Risk

All financial instruments are held in New Zealand and therefore the trust is not subject to currency risk.

Interest Rate Risk

The trust invests in securities that are subject to interest rate risk. The trust actively monitors this risk and changes asset allocations and maturity profiles accordingly.

Credit Risk

The trust owns financial instruments that are subject to credit risk. No collateral is required in respect of financial assets. The maximum credit risk exposure to the trust is the value of investments as disclosed in the financial statements.

Fair Values

All financial instruments are carried at market value.

KPMG Audit Report to the Trustees of ASB Bank Community Trust

We have audited the financial statements comprising the statement of income and expenditure, the statement of movement in trust funds, the balance sheet, the statement of cash flows and the notes to these financial statements. The financial statements provide information about the past financial performance of the trust and its financial position as at 31 March 1999. This information is stated in accordance with the accounting policies included in the notes to these financial statements.

Trustees' Responsibilities

The trustees are responsible for the preparation of financial statements which give a true and fair view of the financial position of the trust as at 31 March 1999 and of the results of its operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the trustees in preparation of the financial statements;
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand auditing standards. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Other than in our capacity as auditors we have no relationship with or interest in the trust.

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion the financial statements:

- comply with generally accepted accounting practice;
- give a true and fair view of the financial position of the trust as at 31 March 1999 and the results of its operations and cash flows for the year ended on that date.

Our audit was completed on 31 May 1999 and our unqualified opinion is expressed as at that date.

KPMG, Auckland.

Notes to the Financial Statements for the Year Ended 31 March 1999

1. Statement of Accounting Policies

The ASB Charitable Trust ("the Trust") is the reporting entity. The trust was formed on 31 May 1989 through the creation of a trust deed by the ASB Bank Community Trust and a donation of \$252,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore the statement of cash flows does not reflect the cash flows within the fund managers' portfolios.

Depreciation

Depreciation is provided over the useful life of the assets. Buildings are depreciated on a straight line basis. Vehicle, office equipment and furniture are depreciated on a diminishing value basis. The rates used are those recommended by the Inland Revenue Department.

Dividends

Dividends are recognised as income when they are received by the trust and exclude imputation tax credits.

Donations

Donations are accounted for as they are distributed or committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Bank Community Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between the trusts on the basis of the number of applications processed by each.

Joint expense allocations were:

	1999	1998
This trust	60 percent	60 percent
ASB Bank Community Trust	40 percent	40 percent

Fixed Assets

Fixed Assets are valued at cost less accumulated depreciation.

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period.

Investment transactions are recorded by the fund managers on a settlement date basis. Unsettled transactions are disclosed in the Notes as commitments.

Financial Instruments

All assets and liabilities of the trust with the exception of fixed assets are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value or fair value or are not materially different from market value or fair value.

The trust uses financial instruments with off balance sheet risk to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments, have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the Consumer Price Index.

Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

The trust has been accorded tax exempt status in New Zealand and Australia but is liable to taxation on investment income in some other overseas countries. Tax on overseas income is accounted for as a reduction of that income.

Comparatives

Certain comparatives have been regrouped for disclosure purposes.

Changes in Accounting Policies

There have been no material changes in accounting policies during the period.

9. Commitments*Investments*

Net investment transactions receivable by the fund managers but unsettled prior to year end total \$28,960,599 (1998 (\$2,535,554)).

10. Financial Instruments*Currency Risk*

The trust invests in securities that are denominated in foreign currencies and therefore result in a currency risk. In order to minimise the currency risk, foreign currency assets are hedged.

	1999 \$000	1998 \$000
Foreign currency denominated assets	252,020	246,931
Less foreign currency contracts	178,393	172,236
	<u>\$73,627</u>	<u>\$74,695</u>

Interest Rate Risk

The trust, through its fund managers, invests in securities that are subject to interest rate risk. The trust actively monitors this risk and changes asset allocations and maturity profiles accordingly.

Credit Risk

The trust in the normal course of business enters into arrangements with other parties. These arrangements give rise to credit risk for the trust and hence policies and procedures are maintained so that this risk is minimised. No collateral is required in respect of financial assets.

For all classes of financial assets held by the trust the maximum credit risk exposure to the trust is the carrying value as disclosed in the financial statements at balance date.

Due to the diversification of the investment portfolio and the policies and procedures in place, there is no significant concentrations of credit risk.

Fair Values

All financial instruments are carried at market value.

11. Foreign Currency Monetary Assets

As at 31 March 1999, the trust had the following foreign currency monetary assets that were not hedged.

Foreign Currency Exposure

12. Events Subsequent to Balance Date

On 1 April 1999, the trust provided a 5 year term loan of \$60 million to a related party ASB Group Limited, at a fixed interest rate of 7.11 percent.

KPMG Audit Report to the Trustees of ASB Charitable Trust

We have audited the financial statements comprising the statement of income and expenditure, statement of movement in trust funds, the balance sheet, the statement of cash flows and the notes to these financial statements. The financial statements provide information about the past financial performance of the trust and its financial position as at 31 March 1999. This information is stated in accordance with the accounting policies included in the notes to these financial statements.

Trustees' Responsibilities

The trustees are responsible for the preparation of financial statements which give a true and fair view of the financial position of the trust as at 31 March 1999 and of the results of its operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion.

Basis of opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial statements;
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand auditing standards. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Other than in our capacity as auditors we have no relationship with or interest in the trust.

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion the financial statements:

- comply with generally accepted accounting practice;
- give a true and fair view of the financial position of the trust as at 31 March 1999 and the results of its operations and cash flows for the year ended on that date.

Our audit was completed on 31 May 1999 and our unqualified opinion is expressed as at that date.
