Departmental Notices

Accident Rehabilitation and Compensation Insurance Corporation

Accident Insurance Act 1998

Recommendations From Consultation on the Residual Claims Levy Regulations 1999

The Residual Claims Account pays for the immediate and ongoing costs of treating and rehabilitating people who were injured in the workplace before 30 June 1999 and suffered non-work injuries prior to 1 July 1992. This Account is funded by a residual claims levy which is paid by all employers and self-employed based on their levy classification unit.

As required by section 409 of the Act, A.C.C. has completed consultation with levy payers, and has recommended changes to the residual claims levy to the Minister for Accident Insurance.

A.C.C. has recommended that from 1 April 2000 a 41.8 percent reduction in the average residual claims levy from the current rate of \$0.67 to \$0.39 (G.S.T. exclusive) for every \$100 of liable earnings. The individual classification levies would range from \$0.19 for low-risk activity sectors to \$1.74 for high-risk activity sectors.

Recommendations From Consultation on Earner Premium and Earner Levy Regulations 1999

The Earners' Account pays for the treatment of non-work injuries sustained from 1 July 1992 by New Zealanders in paid employment (except self employed who have chosen to insure with a private insurer from 1 July 1999).

The Earners' Account is funded in two ways:

- An earner premium for non-work injuries which occur on or after 1 July 1999; and
- An earner levy for those prior non-work claims, which occurred since 1 July 1992, but before 1 July 1999. This is paid by all earners including those self-employed who have chosen to insure with a private insurer from 1 July 1999.

As required by section 409 of the Accident Insurance Act 1998, A.C.C. has completed consultation with premium payers, and has recommended changes to the earner premium and earner levy to the Minister for Accident Insurance.

A.C.C. has recommended that from 1 April 1999:

- (a) A reduction in earner premium from the current rate of \$1.0756 to \$0.9967 for every \$100 of liable earnings, G.S.T. exclusive; and
- (b) A reduction in earner levy from the current rate of \$0.1689 to \$0.0700 for every \$100 of liable earnings, G.S.T. exclusive.

This results in a 14.3 percent reduction in the total earner premium rate from \$1.40 to \$1.20, G.S.T. inclusive.

A copy of the recommendation may be obtained by

contacting Trish Millward on Telephone No. (04) 918 7304.

Notes to the Financial Statements for the Year Ended 31 March 1999

1. Statement of Significant Accounting Policies

General

The financial statements presented here are for the reporting entity the Community Trust of Southland Group (the group). The group consists of the Community Trust of Southland (the trust), its wholly owned company Southland Community Trust Charities Limited, and the trust's interests in associates. The Community Trust of Southland was formed under the Trustee Banks Restructuring Act 1988, and is incorporated under the Charitable Trusts Act 1957.

The financial statements are presented in accordance with the Financial Reporting Act 1993.

The financial statements are prepared on the basis of historical cost except that investment assets are stated at valuation.

The accounting policies for trust funds have been modified this year, however as they impact only on the treatment of funds within total trust funds it has no impact on the financial position of the trust. All other policies have been applied on bases consistent with those used in the prior year.

Consolidation

The financial statements of the trust's wholly owned company Southland Community Trust Charities Limited are included in the financial statements using the purchase method of consolidation.

Associates

Associates are entities in which the group has significant influence, but not control, over the operating and financial policies. The financial statements include the group's share of the net surplus of associates on an equity accounted basis.

Initial Trust Capital

Following the sale of the group's shares in Trust Bank New Zealand Limited in April 1996 the trustees agreed that the value of the trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose the trustees agreed that \$158,460,000 would be considered as the "Initial Trust Capital" value of the group, and that this value would be maintained.

Capital Maintenance Reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the initial trust capital allowing for inflation as measured by the consumers price index (all groups).

Grants Maintenance Reserve

While the trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this a grants maintenance reserve has been established. In years when net

income from investments is higher than the level of grants, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the grants maintenance reserve to income.

Investments

The group states its equity in investments at market value, and reports realised and unrealised gains or losses on holding these investments in the statement of financial performance. These gains or losses are shown in the statement of financial performance as income from revaluation of investments. The group intends to hold bank deposits until maturity and states these investments at cost.

Fixed Assets

Fixed assets are initially stated at cost and then depreciated on a straight line basis to allocate the cost of an asset, less any residual value, over its useful life. The estimated useful lives of fixed assets are as follows:

| | |
|------------------------------|-------------|
| Land | indefinite |
| Buildings | 30–40 years |
| Furniture and fittings | 3–15 years |
| Office equipment | 3– 8 years |
| Motor vehicles | 5– 8 years |

Accounts Receivable

The group states these at expected realisable value.

Grants

The group brings these to account when approved by trustees. Unpaid grants are recorded as a liability.

Income Tax

The group provides for income tax on its net income after adjusting for tax accounting differences and any beneficiaries income determinations made pursuant to section OB1 (226) of the Income Tax Act.

Goods and Services Tax

The group is not registered for goods and services tax. The financial statements are prepared so that all components are stated inclusive of G.S.T.

7. Investments Managed by Fund Managers

The group has funds with 4 institutional investment managers (fund managers), being ANZ Funds Management, Armstrong Jones (NZ) Limited, BT Funds Management (NZ) Limited, and Morgan Stanley Dean Witter. Market values, and asset allocations, of these investments as at balance date were as follows:

| | ANZ (NZ\$m) | Armstrong Jones (NZ\$m) | B.T. (NZ\$m) | Morgan Stanley (NZ\$m) | Total 1999 Value | Total 1998 Value |
|----------------------------------|-----------------|-------------------------------|-----------------|------------------------------|------------------------|------------------------|
| New Zealand equities | 5.97 | 9.96 | 7.27 | — | 23.20 | 20.54 |

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the group's investments. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects on the items being hedged.

8. Loans

During the year short-term loans were made to 3 organisations—the balances outstanding as at 31 March were as follows:

| | 1999 \$ | 1998 \$ |
|--|------------------|--------------|
| Southland Life Education Trust | 20,000 | — |
| Topoclimate South Trust | 320,037 | — |
| Southland Museum and Art Gallery | 75,503 | — |
| | <u>\$415,540</u> | <u>\$Nil</u> |

Each loan is interest free and repayable upon demand.

10. Financial Instruments

General

The group states its investments at balance date at estimated market value. The trustees consider that the fair value of the financial assets is identical to the value in the statement of financial position.

Concentration of Credit Risk

The group has significant funds in trading bank deposits, and in TeNZ Fund units. The group limits risk by spreading the deposits over several trading banks, and the TeNZ Fund's policy of selecting 10 investments in its portfolio also limits the risk. The group has not required collateral or other security to support its financial statements. The group further limits risk through its policy of placing investment funds with 4 separate fund managers, with each fund manager having an investment mandate which requires that they diversify their investments on the group's behalf. The group has sought and obtained the advice of a professional financial adviser prior to making its investment allocation and placement decisions.

Interest Rate Risk

The bank deposits are sensitive to changes in interest rates, as are a proportion of the funds managed by the fund managers. Loans and advances do not carry interest, and therefore do not hold any interest rate risk.

11. Tax Calculation
