#### Income Tax:

Income tax expense is recognised on the surplus available for distribution before taxation, adjusting for differences between taxable and accounting income.

#### Goods and Services Tax:

The subsidiary of Community Trust Charities Limited, Canterbury Trust House Limited, is registered for GST. Accordingly its financial performance and financial position have been consolidated within the accounts on a G.S.T. exclusive basis. Subject to the above, the Trust is not registered for GST purposes and therefore the financial statements have been prepared on a G.S.T. inclusive basis.

#### Financial Instruments:

Foreign currency transactions are translated to New Zealand currency at the exchange rate ruling at the dates of the transactions. Amounts receivable and payable in foreign currencies at balance date are translated at the exchange rate at that date. Exchange differences arising from the translation of amounts payable and receivable in foreign currencies are recognised in the statement of financial performance.

Off-balance sheet financial instruments that are designated as hedges are recognised on the same basis as the underlying hedged item. Off-balance sheet transactions that do not constitute specific hedges are stated at market value and any resultant gain or loss is recognised in the statement of financial performance.

The Trust operates as a charitable trust in the Canterbury, Marlborough and Nelson areas. As all operations occur within New Zealand, segmental reporting is not required.

### 11. Related Party

In the normal course of business the Trust has no related parties with any entity, other than those advised in note 1.

### 12. Financial Instruments

Investments are stated at market value at balance date. Accrued interest, accounts payable, community loans, and donations approved not yet paid are stated at the amounts expected to be received or paid. Accordingly, the Trustees consider that the fair value of each class of financial assets and financial liabilities is the same as the carrying value in the financial position.

#### *Concentration of Investments*

Ninety-eight percent (98%) of the assets of the Trust are represented by investments held with a range of financial institutions. However the Trustees consider the risk of non-recovery of these investments to be minimal.

#### *Currency Risk*

The Trust incurs currency risk as a result of investment transactions entered into by Fund Managers

#### *Interest Rate Risk*

The following investments of the Trust are sensitive to changes in interest rates: Bank call accounts and deposits, government and local authority and securities held by Fund Managers.

Loans and advances with related parties do not carry interest and therefore do not hold any interest rate risk.
