Land Transport Safety Authority

Heavy Motor Vehicle Regulations 1974

Exemption from Specific Requirements of the Heavy Motor Vehicle Regulations 1974

Pursuant to Regulation 16A(2) of the Heavy Motor Vehicle Regulations 1974 and pursuant to Regulation 1(7)(a) of the

Goods Service (Constructional) Regulations 1936, and pursuant to the powers delegated to me by the Director of Land Transport Safety, I, Peter Waring, Senior Engineer, hereby exempt the vehicles listed in Schedule 3 of this notice from the requirements in Schedule 1, subject to the conditions specified in Schedule 2.

Schedule 1

Regulation 16A(1)(b) of the Heavy Motor Vehicle Regulations 1974.

Schedule 2

Compliance with the Second Edition of the New Zealand Heavy Vehicle Brake Code as an alternative standard to the Interim Performance Specification for Heavy Vehicle Braking required by Regulation 16A(1)(b) of the Heavy Motor Vehicle Regulations, for the vehicles listed in Schedule 3 of this notice, when fitted with Don 4515D 1367 brake lining material in lieu of Don 4515E 7122 material as specified in the certificates of compliance with the Brake Code for the listed vehicles.

This exemption applies to the listed vehicles only pending the use of Don 4515E 7122 material, or pending the use of Don 4515D 1367 material manufactured subsequent to testing and approval of Don 4515D 1367 material to the requirements of Directive 71/320 EEC for which evidence of compliance is supplied.

New Zealand Dairy Board

Dairy Board Act 1961 Herd Testing Regulations 1958

"NEW ZEALAND DAIRY BOARD"

At its meeting on 25 July 2000, the Dairy Board resolved (Board Resolution No: 11306) to approve the Terms and Conditions of Herd Testing Licences issued by the New Zealand Dairy Board pursuant to the Herd Testing Regulations 1958 as set out below, to take effect on the issue of any new licences.

L. A. J KAVANAGH, Corporate Secretary, New Zealand Dairy Board".

TERMS AND CONDITIONS OF HERD TESTING LICENCES ISSUED BY NEW ZEALAND DAIRY BOARD

Pursuant to its powers under the Dairy Board Act 1961 and the Herd Testing Regulations 1958, the New Zealand Dairy Board ("NZDB") sets the following terms and conditions ("Conditions") to apply to all herd testing licences issued by the NZDB. The purpose of these Conditions is to ensure the integrity of data supplied to or held in the National Dairy Herd Improvement Database ("Database") by:

- (a) setting and maintaining uniform standards for the accurate collection and processing of all herd testing data; and
- (b) ensuring that all herd testing in New Zealand is conducted in a consistent and uniform manner nationwide.

The integrity of herd testing data is essential in order to optimise milk quality and the rate of genetic gain in the national dairy herd to the benefit of the New Zealand dairy industry.

Licence Holder to Supply All Herd Testing Data

1.1 The Licence Holder shall faithfully and accurately collect and supply to the Database Manager all herd testing data relating to its herd testing activities and such other data as may be required from time to time by the Database Manager. All data shall be provided strictly in accordance with any time limits prescribed by these Conditions or by the Database Manager, or where no time is specified, forthwith as soon as reasonably possible. In default of the Licence Holder supplying such data, the Database Manager may obtain these.

1.2 The Licence Holder shall supply to the Database Manager, within 7 days of the data coming under its control, a copy of the RDIPM for every animal for which information is received or recorded by the Licence Holder.

1.3 The Licence Holder shall supply to the Database Manager before 31 July in each year such data as will enable the Database Manager to provide NZDB with a summary of its herd testing operations showing all herds, cows and samples tested and test results for the previous 12 month season for which the licence has been granted.

1.4 All data collected by the Licence Holder pursuant to a herd testing licence shall be supplied to the Database Manager and not to any other person, except as is otherwise permitted in accordance with the Access Code.

Integrity of Information

2.1 The Licence Holder shall ensure that all data it supplies is valid, accurate and complete in accordance with the Database Manager's requirements.

2.2 The Licence Holder shall take out or maintain adequate insurance against any failure, breach or default of these Conditions by the Licence Holder and hereby indemnifies the NZDB in respect of all damages, costs, claims or expenses (including legal fees) incurred by or awarded or made against the NZDB and arising out of or in connection with such failure, default or breach.

2.3 The Licence Holder shall comply with all methods or systems of identification of farms, farmers, herds, animals, locations and stored genetic material, and with all quality control procedures and record formats that may from time to time be required by the Database Manager.

2.4 The Licence Holder shall on request (but no more frequently than annually) demonstrate to the satisfaction of the Database Manager or the NZDB that it operates quality control procedures to ensure as far as it is practicable that the animal details, the location details for the herd and the herd testing results it has reported for each animal, are suitable for use in animal evaluation and for research, in that:

- (a) Up-to-date, complete and accurate date of birth, identification, mating and birth details for each animal that has been in the herd during the period that the herd test service has been provided by the licence holder are recorded on the database.
- (b) The lactation identification and test day production detail information associated with each animal can be field verified to the specific cow;
- (c) The cows tested are not treated in any way so as to cause the herd test results for the period they are

reported to represent to be other than representative of the normal production for the cow for that period;

- (d) Where a cow or a group of cows from a herd are separated from the rest of the herd and/or receive different treatment or management, such separation or differing treatment is advised to the database manager;
- (e) The milk tested or the sample taken to determine composition has not been modified in any way to cause the results of the composition analysis to be other than an accurate reflection of the production from the cow; and
- (f) Any abnormalities associated with the production of an individual cow or the quality/treatment of samples used for milk analysis are indicated by use of the appropriate codes.

2.5 The Licence Holder shall ensure that the equipment and methods used for the purposes of sampling, measuring and analysing milk meet the required operating and accuracy specifications as approved for the purpose from time to time by the Database Manager and published in the *New Zealand Gazette* or as described in Appendix I.

Use of Information

3.1 The Database Manager shall not be obliged to enter any data into the Database unless it is satisfied that the data or the manner in which it has been supplied complies with these Conditions.

3.2 The NZDB or the Database Manager, acting on its behalf, shall be entitled to use any data supplied by a Licence Holder in any manner at any time as it sees fit provided that such use complies with the Access Code.

Licensed Territory

4.0 Each Licence Holder shall offer its service to all farmers within the boundaries fixed by the NZDB and annexed to its herd testing licence. If no boundaries are defined, the district shall be the whole of New Zealand.

Variations

5.0 The NZDB may, from time to time, change or revoke these Conditions or part of them provided that 60 days' written notice of such changes or revocation has been given to each Licence Holder. Any revocation will be subject to clause 6 of these Conditions.

Cancellation

6.0 The NZDB may at any time cancel any herd testing licence if:

- (a) the Licence Holder fails to remedy, within 30 days of having received a written notice requesting it to remedy, any non-compliance with the general intent of, or any default on any of its specific obligations under, these Conditions, including a failure to comply with any requirement in any Appendix; or
- (b) after having given the Licence Holder 30 days' notice to answer any allegations, the NZDB is of the opinion that any claim made or implied by the Licence Holder about the value or quality of the information is either false or materially misleading.

Dispute Resolution

7.1 In the event of any dispute or difference arising between the Licence Holder, the NZDB or the Database Manager as to any matter concerning herd testing, either from these Conditions or otherwise, the parties to the dispute or difference shall in the first instance use their best efforts to resolve their dispute or difference by negotiation, but if the dispute or difference is not resolved within 7 days they shall refer it to the Dairy Herd Improvement Tribunal ("Tribunal") which may then either refer it to conciliation or decide the issue in accordance with its own procedures as a

submission to arbitration under the Arbitration Act 1908 and its amendments.

7.2 If the Tribunal refers any dispute or difference to conciliation and that process is terminated without agreement having been reached, then the Tribunal shall decide the issue by arbitration as described in the preceding paragraph.

7.3 Pending a reference to the Tribunal and its decision being made known, the Licence Holder shall at the option of the NZDB continue to perform all its obligations under these Conditions without prejudice.

7.4 The Tribunal's decision, whether as a result of the conciliation or the arbitration procedure, shall be final and binding on all parties.

Definitions

Unless the context otherwise requires:

"Access Code":

means the code developed by the Dairy Herd Improvement Tribunal to govern that Tribunal and the conditions of access to the National Dairy Herd Improvement Database.

"Appendix" or "Appendices":

means the appendices relating to record formats, technical specifications or to other aspects of herd testing activities, annexed to and forming part of these Conditions.

"AB code identification":

means for every animal identified by this method the unique code issued by the Database Manager for identification of bull semen used in New Zealand.

"birth details":

means in each herd for each calf born at a calving, the cow number and if known the birth identification of the dam, together with sequence number, sex, fate, and if known birth identification, sire (AB code identification, or herdbook identification, or birth identification), and if recorded for the calf a comment code.

"birth identification":

means for each animal identified by this method a participant identification, year digits and sequence number.

"calving details":

means in each herd for every cow calving, the cow number and if known the birth identification of the cow, together with the date, number born, and if known, the assistance given.

"conciliation":

means the following procedure whereby the Tribunal refers a dispute or difference to a conciliator. In the event of a referral to conciliation under clause 7 of these Conditions, the conciliator shall forthwith assist the parties in an independent and impartial manner to reconcile their views on the dispute or difference to reach an amicable settlement or solution.

If they are unable to reach such an agreement or solution, the conciliator may formulate the terms of its determination or proposal for a settlement or solution. Such determination or proposal shall be binding on both parties unless within 5 days one party notifies the other that it rejects the conciliator's determination or proposal.

The conciliation procedure shall be deemed to have terminated:

- (i) by the signing of a settlement agreement by the parties; or

- (ii) by a written declaration of one party to the other and to the conciliator that the conciliation is terminated; or
- (iii) by a written declaration by the conciliator to the parties that further efforts at conciliation are no longer justified; or
- (iv) by the parties not objecting to the conciliator's determination or proposal within 5 days.

“Dairy Herd Improvement Tribunal”:

means the tribunal established by the New Zealand Dairy Board on the recommendation of the Macdonald Committee Report 1992 to develop, among other things, guidelines, and to mediate on any issues, relating to access to the Database.

“data”

means any data, information or records, whether in electronic or manual form, which is obtained or provided pursuant to either a herd testing licence or service.

“Database Manager”:

means the entity appointed by the New Zealand Dairy Board to operate and manage the National Dairy Herd Improvement Database.

“farm and herd identification”:

means for a herd the map reference, herd number, and participant identification of the herd owner. These will be issued by the Database Manager for each herd each season.

“herdbook identification”:

means (where applicable) for every animal identified by this method the Breed Society, sex and herdbook number.

“herd testing”:

means the operation of testing milch cows in any two or more herds the property of different persons for the purpose of recording the milk production, milk composition and milk quality of individual cows within those herds in respect of milk volume and milk solids or characteristics, or any of them.

“lactation identification”:

means for each herd for every cow with a lactation the test number of the animal together with calving date, condition at calving if known, the drying off date at the end of the lactation if recorded.

“Licence Holder”:

means those persons or entities who have been granted a herd testing licence by the New Zealand Dairy Board, pursuant to the Herd Testing Regulations 1958.

“LIA identification”:

means (where applicable) for each animal identified by this method a region number, herd number, year number, and sequence number.

“location identification”:

means the cow number (or birth identification) of the animal together with the map reference, herd number, date in and, if the animal is no longer at this location, the date out, fate and cause code.

“mating detail”

means for each location the cow number or birth identification of the animal together with the following details for each recorded mating:

- either for single matings:
 - date of mating, mating type, and
 - if the mating is by artificial insemination, the AB code of the semen, participant code of the

inseminator and, if known, the semen batch number, or

- if the mating is natural, the birth identification, or herdbook number, or AB code of the bull.
- or for animals run with a bull:
 - date bull starts to run with animal, and
 - birth identification, or herdbook identification of the bull, and
 - date bull stops running with the animal.

“participant identification”:

means for every legal entity involved in herd ownership in New Zealand, the unique participant code issued by the Database Manager.

“RDIPM”:

means the record of details of identification, production and mating being a schedule, provided on electronic media of a type agreed from time to time with the Database Manager, with the following information recorded:

- farm and herd identifications,
- location identifications,
- birth identifications,
- calving details,
- birth details,
- lactation details,
- test day production details, and
- mating details.

Detailed formats, default values and codes are those approved for the purpose from time to time by the Database Manager and published in the *New Zealand Gazette* or as described in Appendix II.

“season”:

means the period of 12 months ending with the 31st day of May in any year.

“test day production detail”:

means for each herd the cow number of the animal together with the following details for each test:

- the date of test, abnormal code, and
- the milk volume for each milking carried out over the period of the test, and a calculated 24-hour milk volume equivalent, and
- based on a representative sample of the 24-hour milk production, the fat %, protein % and the somatic cell concentration, and/or
- any other characteristics of milk that may have been determined or be required.

Notice No. 4618 in the *New Zealand Gazette* dated 2 July 1998, No. 89, page 2027-2034 is hereby revoked.

Dated this 25th day of July 2000.

The Common Seal of New Zealand Dairy Board was hereunto affixed in the presence of:

E. S. RATTRAY, Director.

I. L. ROBB, Director.

M.D. HAMILTON, Assistant Secretary.

APPENDIX I

TECHNICAL SPECIFICATIONS

The following specifications shall generally be required to be met for equipment to be considered for approval for use and inclusion to the schedule of approved equipment.

1. Milk Meters

Target Accuracy for Total Yield (in litres to one decimal point) for each animal shall be:

When herd test determinations are carried out less frequently than at every milking:

- 95% of milk yield measurements to be within $\pm 7.5\%$
- 99% of milk yield measurements to be within $\pm 10\%$

The first requirement has been interpreted as $\pm 7.5\%$ where the true volume is 4.0 litres or more, and ± 300 grams where the true volume is less than 4.0 litres.

When herd test determinations are carried out at every milking

- 95% of milk yield measurements to be within $\pm 15\%$
- 99% of milk yield measurements to be within $\pm 20\%$

The first requirement has been interpreted as $\pm 15\%$ where the true volume is 4.0 litres or more, and ± 600 grams where the true volume is less than 4.0 litres.

The target accuracy shall be maintained under the following conditions:

- (i) flow rates between 0.5 litres/min and 9.0 litres/min, that exist for at least two minutes.
- (ii) air pipeline vacuum levels between 36 and 56 kPa.
- (iii) air admission rates between 4 and 12 litres/min, with a milk flow rate of 3 litres/min and air pipeline vacuum level of 50 kPa.
- (iv) meter tilt of ± 5 degrees in forward, back, left and right directions, with a milk flow of 3 litres/min.
- (v) the meter should perform to requirement on all types of installations when fitted in accordance with the manufacturer's instructions.

Yield Range

The measuring range for total yield shall not be less than 0-20 litres.

Hygiene Requirements

Surfaces of the meter which come in to contact with milk and wash water/chemicals shall be of materials which conform with the requirements of MAFQAL hygiene specifications.

The materials used for the meter shall be capable of repeatedly sustaining a continuous temperature of 95 degrees C for a period of 3 minutes, without affecting accuracy during subsequent milkings or causing visible deterioration of materials.

2. Component Sampling Accuracy

Target accuracy for subsample measurement shall be:

- (i) within $\pm 0.1\%$ for milkfat and/or protein units of the reference sample for 95% of all measurements.
- (ii) within $\pm 0.2\%$ milkfat and/or protein units of the reference sample for 99% of all measurements.
- (iii) subsampler bias less than $\pm 0.1\%$ for milkfat and/or protein units compared with the reference sample.
- (iv) standard deviation for subsampler errors less than 0.05% units.

3. Component Analysis Accuracy

When herd test determinations are carried out less frequently than at every milking:

Component	Range	Repeatability C_v^*	Accuracy C_v^*	
			Bulk Samples	Single Cows
Fat _A	2-10% W/V	$\leq 0.5\%$	$\leq 1.5\%$	$\leq 2.0\%$
Fat _B			$\leq 1.0\%$	$\leq 1.5\%$
Protein	2-20% W/V	$\leq 0.5\%$		
Lactose				
Solids				

$C_v^* =$ Coefficient of variations (standard deviation divided by average value of samples tested).
Reference methods: Rose-Gottlieb. Kjeldahl calibrated analysis.

Somatic Cells

Measuring range	...	up to 10,000,000 cells/ml
Repeatability (relative SD)	...	4% at 500,000 cells/ml
	...	5% at 300,000 cells/ml
	...	6% at 100,000 cells/ml
Accuracy (rel. mean diff. from direct microscope count MC)	...	Typically better than 10% in the range 100,000 to 1,500,000 cells/ml
Correlation to DMC	...	0.96 - 0.99

When herd test determinations are carried out at every milking.

The average of all of the determinations carried out shall not be less accurate than those specified for the previous category.

APPENDIX II**RECORD FORMATS**

The following is the list of record formats approved by the database manager (ref 1.2) as at 1 June 1998.

Note: Where the contents of a text field do not fill the field, spaces are leading.

All numeric fields are left zero filled.

Null value for all text fields is spaces, null value for all numeric fields is zero.

FARM LOCATION:

Type Text Length 10

Map reference of farm entrance from New Zealand map series and contains map sheet number and East and North grid references to a tenth of a division.

HERD NUMBER:

Type Numeric Length 2

The number of a herd within a location. At any one location there may be 0 1 or more herds.

Each herd is a distinct business unit. An animal may belong to only one herd at any one time.

PARTICIPANT CODE:

Type Text Length 4

The code assigned to each person or business unit owning or having contractual rights to a herd under test.

"NEW COW" INDICATOR

Type Text Length 1

An indicator showing whether the details in this record should be added to those already recorded for an animal on the Database, or a set of records should be created on the Database to accommodate a previously unrecorded animal.

Blank This animal is already recorded on the Database.

1 This animal has no information currently recorded on the Database.

ANIMAL IDENTIFICATION:**BIRTH IDENTIFICATION:***Owner*

Type Text Length 4

Participant code of owner of herd which the animal is born.

Year

Type Numeric Length 4

Year of identification of animal.

Birth Identification Number

Type Numeric Length 4

Number which uniquely identifies the animal in that year in that herd.

AB Code:

Type Numeric Length 6

Code allocated by LIC to uniquely identify all bulls used in AB. Also used for grade bulls born prior to 1985.

LIVESTOCK IMPROVEMENT ASSOCIATION (LIA) IDENTIFICATION (USED ONLY FOR ANIMALS BORN PRIOR TO 1985):*LIA Region*

Type Text Length 4

- L1 - Northland
- L2 - Auckland
- L3 - Bay of Plenty/East Coast
- L4 - Taranaki
- L5 - Wellington/Hawkes Bay
- L6 - South Island

LIA Herdcode

Type Numeric Length 6

Herdcode allocated by LIA to the member recording the birth of the animal.

LIA Identification Year

Type Numeric Length 4

Year of identification of animal.

LIA Identification Tag/Tattoo

Type Text Length 6

Tattoo or ear tag which uniquely identifies the animal in that herd in that year.

PEDIGREE HERDBOOK IDENTIFICATION:

These records are provided and controlled by the Breeds Societies who are participating members in the database.

Herdbook Number:

Type Text Length 6

Number recorded in a herdbook of a New Zealand Pedigree Breed Society.

Breed Society:

Type Text Length 6

Code identifying the herdbook to which the herdbook number refers.

- AY - Ayrshire
- FR - Friesian
- PJ - Polled Jersey
- MS - Milking Shorthorn
- BS - Brown Swiss
- JR - Jersey
- GU - Guernsey

SEX:

Type Text Length 1

Code indicating sex of animal

- M Bull, male
- F Heifer, cow, female
- S Steer, male-castrate
- P Spay, female-castrate
- V Vasectomised bull
- T Freemartin
- U Unknown

DATE OF BIRTH:

Type Numeric Length 6

Date on which the animal was born. Format YYMMDD

DATE OF BIRTH ESTIMATED INDICATOR:

Type Numeric Length 1

Code showing status of date of birth

- 0 No date recorded
- 1 Actual
- 2 Estimated by farmer
- 3 Estimated on age and calving date of this animal

SIRE OFFICIAL INDICATOR:

Type Text Length 1

Code showing extent to which it has been possible to confirm the sire of the animal. Values 7, 8 and 9 indicate official acceptance of the sire.

The sire validation section of the Database system checks recorded matings against the calving date and dam recorded for each calf, and subsequently records a code indicating the validation status of the sire of the calf.

Only codes 5, 6, 7 and 8 may be entered. All other codes are internally generated. Where no matings are recorded prior to the birth of the calf, only codes 5 or 6 may be entered.

- 0 No mating dates recorded
- 1 Check to mating dates indicates 2 or more possible sires
- 2 Check to mating dates indicates none of those recorded is likely to give birth date
- 4 Abnormal calving prevents check on mating dates
- 5 Manually checked, not 100% official
- 6 Details checked and sire cannot be confirmed
- 7 Blood type indicates that sire is possible
- 8 Evidence from field indicates that sire is possible
- 9 Check to mating date indicates that sire is possible

COW TEST NUMBER:

Type Numeric Length 5

Number which is branded on animal or in ear tag.

This must be associated with a location and herd number to identify the herd in which this number is used, and with a start date to indicate the date from which this number applied to this animal. Where the number is no longer current for this animal, an end date must be recorded.

START DATE:

Type Numeric Length 6

Date on which this animal was given this test number. Format YYMMDD.

END DATE:

Type Numeric Length 6

Date on which this animal ceased to be numbered with this test number. Format YYMMDD.

FATE:

Type Text Length 1

The code recorded for all animals leaving the herd, indicating the major factor causing the animal to leave.

- Blank Current at location
- D Died
- S Moved with change of owner
- C Culled

CAUSE OF FATE:

Type Text Length 2

The code indicating the reason for the fate causing the animal to leave the herd.

- AB Abortion
- BL Bloat
- BR Brucellosis
- CT Calving trouble
- DU Died – cause unknown
- FE Eczema
- FT Feet problems
- FV Failed veterinary examination
- GS Grass staggers
- HB Heritable defect in bull
- HD Heritable defect in dam
- HI Humane reasons – injury

- HP Heritable defect in progeny
- HS Humane reasons – sickness
- IN Injured
- LG Leg problems
- LP Low production
- LS Leptospirosis
- MA Mastitis
- MF Milk fever
- MT Empty
- NS Non-server
- OA Old age
- PB Physical defect in bull
- PP Physical defect in progeny
- PR AB proof not up to standard
- SI Sickness
- SP Sire's proof below standard
- SQ Semen Quality
- SR Surplus to requirements
- TB Tuberculosis
- TC TOP – conformation
- TE Unsuitable temperment
- TM TOP – management
- TY Unsuitable type
- UD Udder breakdown

BREED:

Type Text Length 3

Breed code of this portion of the animal's breed

- AKW Ankole Watusi
- ANG Angus
- RAN Angus – red
- AYR Ayrshire
- BFM Beefmaster
- BGB Belgian Blue
- BLO Blonde d'Aquitaine
- BRF Braford

Australia New Zealand Food Authority

Australia New Zealand Food Authority Act 1991

Food Standards

The Australia New Zealand Food Authority advises progress on the following matters relating to food standards.

You can get further information on each of these matters (including advice on the authority's policy regarding submissions, where applicable) from our website www.anzfa.govt.nz or from:

Call For Submissions—Matters at Full Assessment

The authority has prepared the following proposal and will now make a full assessment of it.

You are invited to present written submissions to the authority on this matter, including the potential regulatory impact on consumers, industry and government, by **Wednesday, 25 October 2000**:

- **Health and Related Claims (Proposal P153)**—A proposal to review the current regulations relating to the prohibition on health claims in Australia and New Zealand. The purpose of this proposal is to clarify the intent of the current regulations and ensure that they are clear and enforceable and determine whether the current prohibition on health claims in Australia and New Zealand should be lifted. The proposal also considers if health claims are to be permitted, under what policy framework should a health claims system be allowed to proceed.

The supporting document for this matter also seeks comment on the draft inquiry report for the **Folate Health Claims Pilot (Proposal P170)**—The pilot was initiated by the direction given in **March 1998** by the Parliamentary Secretary to the Minister for Health and Family Services. The authority is obliged by the ANZFA Act to hold an inquiry in relation to the variation to Standard A1 – Labelling and Advertising, prepared in relation to the Proposal.

Matters Before Council

The authority has completed its inquiries into the variations to standards prepared at full assessment of the following matters and has made recommendations to the Australia

New Zealand Food Standards Council that the variations be adopted into the Food Standards Code:

- **Labelling of Foods containing Alcohol (Proposal P219)**—A proposal to require that all foods containing a concentration of greater than 1.15% alcohol by volume be labelled with a statement of the alcohol concentration of the product.
- **Folate Health Claims – Extension of Time (Proposal P222)**—A proposal to extend the sunset date for the pilot.

Variations to the Food Standards Code (Amendment No. 50)

1. Preamble

The variations set forth in the Schedule below are variations to the *Food Standards Code* (hereinafter called “the Code”) which was published by the National Health and Medical Research Council in the *Commonwealth of Australia Gazette*, No. P 27, on 27 August 1987, and which has been varied from time to time.

The Schedule contains variations adopted by the Australia New Zealand Food Standards Council in June and July 2000.

These variations are published pursuant to section 32 of the Australia New Zealand Food Authority Act 1991.

2. Citation

These variations may be collectively known as Amendment No. 50 to the Code.

3. Commencement

These variations commence on the date of publication of this *New Zealand Gazette*.

Editorial Notes:

(1) Subclauses (e), (f), (g), (h) and (i) implement a pilot trial of a management system for health claims. The outcomes of the pilot will be used to assist in the evaluation of a proposal to allow wider use of health claims in food labels and advertisements. The subclauses cease to have effect on 13 February 2001.

(2) Due to anticipated delays in the publication of amendments into the Food Standards Code, the approved foods/products listed in Column 1 to subclause (e) are also listed in a Register which is held at and by the Australia New Zealand Food Authority. The Register contains the most up to date list of approved foods/products.

(3) Clause (13) of Standard A1 should be read in conjunction with Standard A9 – Vitamins and Minerals.

West Coast Community Trust

Community Trusts Act 1999

West Coast Community Trust—Financial Report

Audit Report

To the Readers of the Financial Statements of West Coast Community Trust

We have audited the financial report of the trust which provides information about the past financial performance of the trust and its financial position as at 31 March 2000. This information is stated in accordance with the accounting policies set out.

Trustees' responsibilities

The trustees are responsible for the preparation of a financial report which gives a true and fair view of the financial position of the trust as at 31 March 2000 and of the results of operations for the year ended 31 March 2000.

Auditors' responsibilities

It is our responsibility to express an independent opinion on the financial report presented by the trustees and report our opinion to you.

Basis of opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial report. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial report; and
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial report is free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial report.

Other than in our capacity as auditors, we have no relationship with or interests in the trust.

Unqualified opinion

We have obtained all the information and explanations we have required.

In our opinion:

- Proper accounting records have been kept by the trust as far as appears from our examination of those records; and
- The financial report
 - complies with generally accepted accounting practice;
 - gives a true and fair view of the financial position of the company as at 31 March 2000 and the results of its operations for the year ended on that date.

Our audit was completed on 13 July 2000 and our unqualified opinion is expressed as at that date.

Notes to the Financial Statements for the Year Ended 31 March 2000

1. Formation

The West Coast Community Trust (“the trust”) was formed on 30 May 1988 through the creation of a trust deed in compliance with the Trustee Banks Restructuring Act 1988. These accounts have been prepared in accordance with the 1993 Financial Reporting Act. The trust qualifies for differential reporting because its revenue and number of employees fall below the threshold set by the Differential Reporting Standards.

The trust has applied all the differential reporting exemptions allowed with the exception of SSAP3 – Accounting for Depreciation.

2. Measurement system

The measurement system adopted is that of historic cost.

3. Particular accounting policies

The particular accounting policies adopted in the statements which have a significant effect on the results and financial position disclosed are:

(a) Income determination

Interest Income has been accrued to balance date on a daily basis.

(b) Valuation of assets

i *Investments*

Investments are stated at cost. It should, however, be noted that the AMP Asset Management Fund had a market value of \$4,496,815 as at 31 March 2000. The directors do not consider the devaluation of the AMP investment to be material and thus it is recorded in the balance sheet at cost.

ii *Fixed Assets*

All fixed assets are recorded at cost less accumulated depreciation to date.

(c) Depreciation

Depreciation has been charged on a straight line basis allocated over an estimated economic life of the assets. Depreciation has been calculated as follows:

Asset	Cost	Depn to date	Estimated Life	Opening Value	Depn	Accum Depn	Closing Book Value
Typewriter	2019	2019	5 years	-	-	2019	-
Photocopier	2756	2756	5 years	-	-	2756	-
Fax Machine	349	52	5 years	297	70	122	227
	<u>\$5124</u>	<u>\$4827</u>		<u>\$297</u>	<u>\$70</u>	<u>\$4897</u>	<u>\$227</u>

(d) Goods and services tax

The trust is exempt from registration for Goods and Services Tax under section 14 (b) of the Goods and Services Tax Act.

These Financial Statements have therefore been prepared on a G.S.T. inclusive basis.

4. Changes in accounting policies

There have been no material changes in accounting policies.

Audit Report***To the Readers of the Financial Statements of West Coast Community Trust Charitable Company Limited***

We have audited the financial report of the company which provides information about the past financial performance of the company and its financial position as at 31 March 2000. This information is stated in accordance with the accounting policies set out.

Directors' responsibilities

The directors are responsible for the preparation of a financial report which gives a true and fair view of the financial position of the company at 31 March 2000 and of the results of operations for the year ended 31 March 2000.

Auditors' responsibilities

It is our responsibility to express an independent opinion on the financial report presented by the directors and report our opinion to you.

Basis of opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial report. It also includes assessing:

- the significant estimates and judgements made by the directors in the preparation of the financial report, and
- whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial report is free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial report.

The offices of Wilding Smith & Co act as the registered office for the West Coast Community Trust Charitable Company Limited. Other than this and our capacity as auditors, we have no relationship with or interests in the company.

Unqualified opinion

We have obtained all the information and explanations we have required.

In our opinion:

- proper accounting records have been kept by the Company as far as appears from our examination of those records; and
- the financial report
 - complies with generally accepted accounting practice;
 - gives a true and fair view of the financial position of the company as at 31 March 2000 and the results of its operations for the year ended on that date.

Our audit was completed on 13 July 2000 and our unqualified opinion is expressed as at that date.

WILDING SMITH & CO, Hokitika.

*Consolidated Notes to the Financial Statements for the Year Ended 31 March 2000***I. Statement of accounting policies****Reporting entity**

The financial statements presented here are for the reporting entity Trust Bank Wellington Community Trust and its wholly owned companies, Wellington Community Trust Charities Limited and Jarden Mile Investments Limited. The Trust Bank Wellington Community Trust is an incorporated Charitable Trust under the Charitable Trusts Act 1957.

Reporting basis

The trustees have chosen to prepare general purpose financial reports which comply with generally accepted accounting practice.

Measurement base

The measurement base adopted is historical cost with the exception of certain items for which specified accounting policies are identified.

Investment income (net)

Investment income (net) includes gross investment income less management fees payable to the fund managers.

Investment property

The investment property held is valued at net current value. Depreciation is not charged on the investment property. The net change in the value of the investment property is recorded in the consolidated Statement of Financial Performance.

Basis of consolidation

The consolidated financial statements have been prepared using the purchase method of consolidation and include the financial statements of the parent and subsidiary companies.

All significant inter-entity profits and transactions have been eliminated in preparing the consolidated financial statements.

Accounts receivable

Accounts receivable are stated at expected realisable value.

Donations

Donations made from current years income are recorded in the Statement of Financial Performance when paid. Donations from prior years' income are recorded in the Donation Reserve Account when paid.

Fixed assets

Fixed assets are stated at cost less accumulated depreciation.

Depreciation

Depreciation is charged at the maximum rates allowable by the Inland Revenue Department. The tax rates are as follows:

Computer equipment	24.0 - 48.0 %CP
Office furniture	13.2 - 14.4 %DV

Goods and services tax

The Community Trust of Wellington financial statements are prepared on a G.S.T. inclusive, basis with the exception of transactions relating to Jarden Mile Investments Limited, whose financial statements are prepared on a G.S.T. exclusive basis, as it is registered for goods and services tax.

Shares and investments

Shares and other investments are stated at the market value. Changes in the market value of investments are taken to the Statement of Financial Performance.

Financial instruments

All financial instruments held by the trust are recorded in the Statement of Financial Position. The financial instruments comprise equity securities, discounted securities, secured investments, borrowings, deposits and cash. Concentrations of credit risk arise as a result of holding equity securities as investments. These are subject to the normal market risk associated with investments of this nature. There are no significant differences between the fair value and book value of financial instruments.

Where possible, financial assets and liabilities are supported by collateral or other security. These arrangements are described in the individual policy statements associated with each item.

Changes in accounting policies

There have been no changes in accounting policies. All policies have been applied on bases consistent with those used in previous years.

2. Nature of business

The Trust Bank Wellington Community Trust was incorporated as a charitable trust in accordance with the provisions of the Trustee Banks Restructuring Act 1988. The purpose of the community trust is to provide charitable, cultural, philanthropic and recreational benefits to the community, principally in the trust region.

The nature of business of the wholly owned companies, Wellington Community Trust Charities Limited and Jarden Mile Investments Limited, is restricted by their constitution to providing charitable benefits to the community, principally in the region of The Community Trust of Wellington.

The Trust Bank Wellington Community Trust and its subsidiary companies operate under the trading name of "The Community Trust of Wellington".

7. Contingent liabilities

The trust has no contingent liabilities as at 31 March 2000. (1999 \$Nil)

8. Financial instruments

Investments are stated at estimated market value at balance date. Accounts payable, secured investments and accounts receivable are stated at the amount expected to be received or paid.

Accordingly, the trustees consider that the fair value of each class of financial asset and financial liabilities is the same as the carrying value in the statement of financial position.

Concentration of credit risk

The concentrations of credit risk incurred by the trust are managed by Tower Asset Management and BT Funds Management (NZ) Limited. Credit risk also exists with the loan agreements entered into during the year.

Trustees consider the risk of non-recovery of these investments to be within satisfactory guidelines.

Maximum exposures to credit risk as at balance date are:

	2000	1999
	\$	\$
Bank accounts	2,130,809	63,720

Currency risk

The Community Trust of Wellington incurs currency risk as a result of investment transactions managed by Tower Asset Management and BT Funds Management (NZ) Limited.

Interest rate risk

The investments of the Community Trust of Wellington which are sensitive to changes in interest rates are managed by Tower Asset Management and BT Funds Management (NZ) Limited. The Community Trust of Wellington is also exposed to interest rate fluctuation on loans, as the debt is on a floating rate.

Audit Report

To the readers of the financial report of Trust Bank Wellington Community Trust and its subsidiary companies (trading as The Community Trust of Wellington (the Group)).

We have audited the financial report. The financial report provides information about the past financial performance and its financial position of the Group as at 31 March 2000. This information is stated in accordance with the accounting policies.

Board of Trustees' Responsibilities

The board of trustees is responsible for the preparation of a financial report which gives a true and fair view of the financial position of the Group as at 31 March 2000 and of the results of operations and cash flows for the year ended 31 March 2000.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial report presented by the board of trustees and report our opinion to you.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial report. It also includes assessing:

- the significant estimates and judgements made by the board of trustees in the preparation of the financial report, and
- whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary. We obtained sufficient evidence to give reasonable assurance that the financial report is free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial report.

Other than in our capacity as auditors we have no relationship with or interests in the Group.

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion:

- proper records have been kept by the Group as far as appears from our examination of those records; and
- the financial report:
 - complies with generally accepted accounting practice;
 - gives a true and fair view of the financial position of the Group as at 31 March 2000 and the results of its operations and cash flows for the year ended on 31 March 2000.

Our audit was completed on 6 June 2000 and our unqualified opinion is expressed as at that date.

SPICER & OPPENHEIM, Chartered Accountants, Wellington.
