Statement of Significant Accounting Policies for the Year Ended 31 March 2000

A. Basis of preparation

The Community Trust of Southland was formed under the Trustee Banks Restructuring Act 1988 and is incorporated under the Charitable Trusts Act 1957. The financial statements presented are those for The Community Trust of Southland Group (the Group). The Group consists of The Community Trust of Southland (the Trust), its wholly owned subsidiary company Southland Community Trust Charities Limited and the Trust's interests in associates.

The financial statements comply with the Financial Reporting Act 1993 and the Community Trusts Act 1999. They comprise statements of the following: significant accounting policies, financial performance, movements in trust funds, financial position, cash flows, as well as notes to these statements.

The financial statements are prepared on the basis of historical cost except that investment assets are stated at valuation.

B. Consolidation method

The financial statements of the Trust's wholly owned company Southland Community Trust Charities Ltd are included in the financial statements using the purchase method of consolidation.

C. Associates

Associates are entities in which the Group has significant influence, but not control over the operating and financial policies. The financial statements include the Group's share of the net surplus of associates on an equity accounted basis.

D. Trust capital

Following the sale of the Group's shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the trustees agreed that the value of the Trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose, the trustees agreed that \$158,460,000 would be considered as the "Trust Capital" value of the Group and that this value would be maintained.

E. Capital maintenance reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the trust capital allowing for inflation as measured by the Consumers Price Index (all groups) and payments of grants out of capital.

F. Grants maintenance reserve

While the trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this, a grants maintenance reserve is maintained. In years when net income from investments is higher than the grant levels, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the grants maintenance reserve to income.

G. Basis of recognising components of the financial statements

The following general accounting policies are adopted:

Assets

A transaction results in an asset being recognised in the statement of financial position when it will probably give rise to ongoing benefits for the Group and those benefits can be measured with reliability.

Liabilities

A transaction results in a liability being recognised in the statement of financial position when it will probably give rise to the need for the Group to sell down assets in the future, and those sell downs can be measured with reliability.

Revenue

Revenue is recognised in the statement of financial performance when a transaction gives rise to an increase in the value of the Group's net assets, and that increase can be measured with reliability.

Expenses

An expense is recognised in the statement of financial performance when a transaction results in a decrease in the value of the Group's net assets, and that decrease can be measured with reliability.

Classification of assets and liabilities between current and non-current

An amount is classified as current when it is expected to be settled or extinguished within one year of the date of the financial statements. All other amounts are classified as non-current.

H. Fixed assets

Fixed assets are initially stated at cost and then depreciated on a straight line basis. The estimated useful lives of fixed assets are as follows:

Land	indefinite
Buildings	30-40 years
Furniture and fittings	3-15 years
Office equipment	3-8 years
Motor vehicles	5-8 years

I. Investments

Investments are stated at market value and reports realised and unrealised gains or losses on holding these investments in the Statement of Financial Performance. These gains or losses are shown in the Statement of Financial Performance as income from revaluation of investments.

J. Accounts receivable

Accounts receivable are stated at expected realisable value.

K. Grants

Grants are recognised when they are approved by the trustees. Unpaid grants are recorded as a liability.

L. Goods and services tax

The Group is not registered for goods and services tax. The financial statements are prepared using G.S.T. inclusive accounting.

M. Income taxation

The Group provides for income tax on its net income after adjusting for tax accounting differences and any beneficiaries' income determinations made pursuant to section OB1 (226) of the Income Tax Act 1994.

N. Changes in accounting policies

The accounting policies have been consistently applied by the group and are consistent with those of the previous year. Some comparative information has been changed to conform with the presentation of information in the current year.

10. Investments managed by fund managers

The Group has funds invested with institutional investment managers (fund managers), AMP Asset Management, Armstrong Jones (NZ) Ltd, State Street Global Advisors and Morgan Stanley Dean Witter. Market values and asset allocations of these investments as at 31 March 2000 were as follows:

	<i>AMP</i>	<i>Armstrong</i>	<i>State Street</i>	<i>Morgan</i>	<i>Total</i>	<i>Total</i>

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the Group's investment portfolio. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects on the items being hedged.

11. Loans

Loan balances outstanding as at 31 March were as follows:

	2000	1999
	\$	\$
Southland Life Education Trust	-	20,000

Southland Museum and Art Gallery	<u>62,199</u>	<u>75,503</u>
	<u>755,532</u>	<u>415,540</u>

Each loan is repayable upon demand. The loan to the Southland Museum and Art Gallery is interest free as is \$453,333 of the \$693,333 loan to Topoclimate South Trust. The balance, \$240,000, attracts interest at the 90 Day Bank Bill rate, plus a margin of 2%.

13. Financial instruments**General**

The Group states its investments at balance date at estimated market value. The trustees consider that the fair value of the financial assets is identical to the value in the statement of financial position.

Concentration of credit risk

The Group has significant funds in trading bank deposits. The Group limits risk by spreading the deposits over several trading banks. The Group has not required collateral or other security to support its financial statements. The Group further limits risk through its policy of placing investment funds with separate fund managers, with each fund manager having an investment mandate which requires that they diversify their investments on the Group's behalf. The Group has sought and obtained the advice of a professional financial adviser prior to making investment allocations and placing decisions.

Interest rate risk

The bank deposits are sensitive to changes in interest rates, as are a proportion of the funds managed by the fund managers and a portion of the loan to Topoclimate South Trust.

14. Capital commitments

Commitments of \$1,453,333 exist for grants which will be distributed from either capital or future income sources in future years. These grants have not been recorded in either the statements of financial performance or financial position.
