Statement of Notes to the Accounts

1. Statement of Accounting Policies

Reporting Entity

TSB Community Trust is a charitable trust formed by a trust deed dated 30 May 1988. A new trust deed was adopted by the trust on 8 February 2001. The financial statements have been prepared in accordance with this deed and the Community Trusts Act 1999.

Measurement Base

The measurement base is that of historical cost.

Specific Accounting Policies

The following specific accounting policies which materially affect the measurement of financial performance and financial position have been applied.

Specific Accounting Policies

Receivables are stated at their estimated realisable value.

Investments

The TSB Bank Limited shares are stated at the value when gifted: 20,000,000 fully paid shares at 50 cents each, representing \$10,000,000. The net asset backing at 31 March 2001 was \$4.91 per share.

Fixed Assets

Fixed assets are recorded at cost, office equipment will be depreciated on a straight line basis over four years.

Income Tax

The income tax expense charged to the statement of income includes both the current year's provision and the income tax effects of timing differences calculated using the liability method.

Tax effect accounting is applied on a comprehensive basis to all timing differences. A debit balance in the deferred tax account, arising from timing differences or income tax benefits from income tax losses, is only recognised if there is virtual certainty of realisation.

Financial Instruments

The financial instruments are recorded at their carrying value which is also the fair value of each of the classes of financial instruments consisting of cash, accounts payable, and accounts.

Cashflows

For the purpose of the statement of cashflow, cash includes cash on hand and deposits held on call with banks.

Goods and Services Tax

The financial statements have been prepared on a G.S.T. inclusive basis.

Changes in Accounting Policies

The new trust deed adopted requires that the Trust is to be treated as a reporting entity and an issuer as defined in the Financial Reporting Act. This has resulted in additional disclosures in the trust's financial statements relating to financial instruments and related party transactions.

There have been no changes in accounting policies. All policies have been applied on bases consistent with those used in the previous years.

2. Dividend

The dividend includes \$1,400,000 relating to the final instalment received from the bank for year ended 31 March 2000 and \$650,000 interim dividend for the year ended 31 March 2001.

3. Financial Instruments

Financial instruments that potentially have credit risk are cash, accrued interest, and accrued charges.
