The Community Trust of Otago

Community Trusts Act 1999

The Community Trust of Otago Directory for the Year Ended 31 March 2001

Chairperson's Annual Report:

I am pleased to have this opportunity to report on what The Community Trust of Otago ("the Trust") has been doing over the year to 31 March 2001.

We hold local community money in trust and want to be accountable for our stewardship. The purpose of this annual report is to help that process.

The Trust simply wants to do everything excellently, and I hope that readers will contact us with any suggestions at all about how we can improve what we do.

Financial Results

The rate of return on our investments this year was 3.2%. This is the lowest we have had so far and so we cannot pretend to be pleased. But as I have mentioned in every annual report I have made, we expect both good and bad years. And relatively speaking we do have reason to be pleased. This was not a good investment year and an indexed fund with the same asset distribution would have returned 0.2%. This means that we did about 3% better than average investors with similar investment goals. Furthermore, our average annual return since we started investing in December 1994 is 10.3%, which is well above our long run expectation.

Free reserves – the funds we hold surplus to our inflation adjusted initial capital after allowing for unpaid donations – remain at the satisfactorily high level of \$23 million.

These results leave us starting the new financial year in a steady position as regards both our investment settings and our donations budget.

Donations

In this year, the Trust committed over 1200 donations totalling \$10.1 million. As the year ended we passed a big milestone: since inception in 1988, over \$50 million has been committed.

The detail of our donations is covered elsewhere in the report and I will not single out any for special attention. Rather, I would like to mention a couple which demonstrate in a practical way some of our values.

The Trust donated \$20,000 to Diving Otago. This is a small group of people that has taken the big step of employing a professional coach and has placed Otago at the front of diving in New Zealand. To raise money, Diving Otago sold barbecued sausages – 11,000 of them (together with 62 litres of tomato sauce and 160 kg of onions and I guess 11,000 slices of bread). We think that it is good for The Community Trust to leverage the commitment of others so that their own efforts bring greater reward.

And I mention a thank you card. The card said “[we] have a feeling of achievement and pride that we have completed this project.” The point is that the *group* retained the pride in and the ownership of the project. The Trust may well have made the difference between whether the project happened or did not happen, but we did not dominate. That is the way we like it and indeed the way we must ensure that it remains.

The Trust regards economic development as important to the province and several initiatives are in progress. As an Otago-wide organisation, we have an Otago-wide perspective and during the year offered a particular regional economic development proposal. Although that was not in the end adopted, there are pleasing signs that the regional view is more widely shared.

During the year the Trust did away with set closing dates. Applications for funding can be made at any time and will normally be processed within two months. This was done to provide a better service to the community and it seems to be working.

The Role of Community Trusts

Overseas, academic analysis is placing increasing emphasis on the role of the “third sector” in society. The third sector is all activity that is not generated in either the private sector or the government sector – this includes your hobby, sport, cultural interest, religion. It includes non-government social delivery agencies. The idea is that all three sectors have to work well for society to be healthy, and it doesn’t help if one sector tries to do what is better done by another sector. This is a useful view for the Trust, because we are in the third sector ourselves, most of what we fund is also there, and we see this as good.

During the year there have been some brushfires to fight with government agencies and Wellington consultants who think they can “help” us spend our (actually, your) money better.

Trustees and Staff

Last year I overlooked thanking two retiring trustees, and the oversight must be fixed. Both Sir Robin Gray and Dr James Ng had been trustees since the inception of the Trust and had given immense value over the years. This year we lost four more: Ross Allen, Graeme Bell, Peter Gibson and Richard Walls had also given long and distinguished service. We have missed them in more ways than one.

At the same time it must be said that all replacement trustees have rapidly proved their worth. The Trust has been remarkably fortunate with the quality of trustees. I am most thankful to them all for their continued wisdom and good humour.

We have been very pleased with the way the trustee appointment process has worked over the last two years. We borrowed an idea from the Community Trust of Southland and advertised for registrations of interest, obtaining an overwhelming response. The Government has genuinely consulted, based on that process.

Again, I personally thank the staff of the Trust: chief executive Keith Ellwood, donations assessor Carol Melville, and our office staff Fay Jackson and Lynley Stevenson. All are quality people and wonderfully congenial to work with.

The Community Trust of Otago Notes to the Consolidated Financial Statements for the Year Ended 31 March 2001

Basis of Preparation

These are the consolidated financial statements of The Community Trust of Otago, Otago Community Trust Charities Limited, The Community Trust Amateur Sports Co Limited, The Community Trust District Improvement Co Limited and Fillmor House Limited. The Community Trust of Otago was incorporated as a charitable trust in accordance with the provisions of the Community Trusts Act 1999.

The financial statements have been prepared to comply with the Financial Reporting Act 1993 and comprise consolidated statements of the following: financial performance, movement in trust funds, financial position, cashflows, as well as notes to these financial statements.

The financial statements are prepared on the basis of historical cost, except for the revaluation of managed funds.

Specific Accounting Policies

Income

Income from managed funds includes both realised and unrealised income and is recorded gross of fund management expenses.

Interest is recognised on an accrual basis.

Donations

Donations are accounted for as they are distributed.

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date. All realised and unrealised gains and losses are recognised in the statement of financial performance.

Taxation

Income tax is recognised on the surplus after distribution, adjusting for differences between taxable and accounting income.

Future tax benefits are not recognised unless realisation of the asset is virtually certain.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation.

Depreciation

Depreciation has been charged to the financial statement using rates, which will write off the cost of assets less their estimated residual value over their estimated economic lives. The depreciation rates used are:

Buildings	4%
Office furniture and equipment	12-48%

G.S.T.

Subsidiaries of The Community Trust of Otago, Fillmor House Limited and The Community Trust District Improvement Company Limited are registered for G.S.T.

Accordingly, their financial performance and financial position have been consolidated within the accounts on a G.S.T. exclusive basis.

Subject to the above, the Trust is not registered for G.S.T. purposes and, therefore, the financial statements have been prepared on a G.S.T. inclusive basis.

Basis of Consolidation

The Community Trust of Otago, Otago Community Charities Limited, Fillmor House Limited, The District Improvement Company Limited and The Community Trust Amateur Sports Company Limited have been consolidated using the purchase method of consolidation.

Capital Maintenance Reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the capital allowing for inflation as measured by the Consumers' Price Index (C.P.I.).

Investments

Investments are valued at year end market value. All realised and unrealised gains and losses are recognised in the statement of financial performance.

Hedging Instruments

The Trust through its investment managers enters into hedging instruments such as futures, options and forward exchange contracts. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the statement of financial performance as income from managed funds.

Statement of Cashflows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers.

Financial Instruments

Financial instruments all relate to cash, accounts receivable and accounts payable, and all revenues and expenses relating to these are recognised in the statement of financial performance in the period that any gain or loss becomes certain.

Cash and investments are stated at cost. Receivables are stated at net realisable value.

Payables are stated at amounts owed to those entities at balance date.

The maximum exposure to credit risk is represented by the carrying value of each of the financial assets and liabilities in the statement of financial position.

Income Tax

Income tax expense is recognised on the surplus available for distribution before taxation, adjusting for differences between taxable and accounting income.
