Public Works Act 1981

Notice Pursuant to Clause 23 (1) of the Public Works Act 1981

Watercare Services Limited ("Watercare") proposes to acquire the land described in the Schedule, pursuant to the Public Works Act 1981.

The land is required for wastewater treatment purposes, maintenance of an odour buffer, and application of biosolids in connection with the upgrading and ongoing operations of the wastewater treatment plant ("WTP") at Mangere.

The reasons Watercare considers it essential to take your interest in the land area include the need:

- (a) to ensure sufficient land is available for the discharge of sludge/biosolids on to or into land in connection with the trials and investigations in the beneficial reuse of such material;
- (b) to enable an odour buffer of sufficient size such that any odours from the WTP are adequately dissipated at the odour buffer boundary;
- (c) to ensure control over the development and use of all areas within the designated odour buffer, being an area potentially affected by odour following completion of upgrading works;
- (d) to avoid or minimise any potential conflict between the WTP and associated activities (such as the application of sludge/biosolids) and other activities in the immediate vicinity of the WTP; and
- (e) to enable the effective and efficient operation of the WTP for the foreseeable future.

Anyone claiming an interest in the land (other than the registered proprietor of the freehold estate) may object to the acquisition of the land by Watercare. A written objection should be sent to the Registrar, Environment Court, Tribunals Division, Justice Department, Private Bag, Postal Centre, Wellington, prior to Friday, 21 September 2001.

Chairperson's Report

I am pleased to report on the stewardship of The Community Trust of Mid & South Canterbury Inc. for the year ended 31 March 2001.

Financial Results

The net investment returns on our managed funds were a most disappointing \$565,124. After making provision for the administrative costs of the trust, the net profit was \$386,569.

In the previous financial year, our investment returns were excellent, but during the first part of 2001, the international equity markets experienced a major downturn, impacting on the investment performance of the trust.

It must be accepted that the trust is a large domestic and international investor and, as such, will be subject to the vagaries of the market like any other commercial investor.

The trust is comfortable with its active investment policy, a policy which spreads investments between a number of investment classes, both domestically and internationally.

The trust's objective is to generate the best return for a low level of risk, and it accepts that in the long term, some bad years will be experienced.

The trust has been prudent by having a reserving policy to cushion the impact of inflation and fluctuations in investment market returns. However, it is years such as the one we have just experienced that re-emphasises the need for adequate reserves.

The trust devotes a considerable amount of its time to the investment process, and at all times it is in direct consultation with its professional funds manager and its independent investment consultant to monitor investment results, to ensure its current investment policy is still compatible with the trust's objectives and to make amendments considered necessary.

Donations

The trust's policy is to support district organisations carrying out charitable, cultural, philanthropic and recreation work of benefit to Mid and South Canterbury districts. Much time is spent on reviewing the donation criteria to ensure that the changing needs of the community are catered for and that profit is distributed on a fair and reasonable basis.

As a “one-off” millennium project, the trust set aside \$1 million to enable new technology to be introduced into the district’s secondary schools. An experienced manager was appointed to manage this project and to ensure that the strict criteria laid down by the trust was adhered to before any funds were released.

The project was enthusiastically received by school principals, all progress reports stating that the new technology introduced will enable pupils to keep up with their counterparts in other regions.

The trustees are accountable to the community they serve, and as part of this responsibility, the trust is now auditing donations made to selected applicants to ensure that they are used for the project applied for, and providing the opportunity for them to comment on the criteria applied by the trust, and to suggest where improvements can be made.

This accountability process is further enhanced by the trust holding a number of meetings in districts outside Timaru, meeting with selected district organisations, and inspecting projects which have been part-funded by the trust. I liken this to a partnership with the community which can only reinforce the good work being carried out by a large number of voluntary organisations.

Community House

The previous initiative of the trust in leasing the old Rural Bank Building and renaming it as Community House has proved to be successful.

The interior was renovated to provide the official home of the trust, and to create smaller offices for leasing to a number of community charitable and non-profit organisations. At present, all offices are fully tenanted.

Not only has this resulted in the valuable networking of organisations housed in the building, but the excellent committee room facilities are being used extensively by a wide variety of bodies for meetings and seminars.

Strategic Planning

During the year, the trust completed its first strategic plan which will enable it to focus on its most important functions, to continually review these functions, and to ensure that its administration is flexible enough to cope with the changing needs of the community.

Year of the Volunteer

A number of district charitable and non-profit organisations struggle with modern accounting and secretarial techniques, and the never-ending “red tape” when applying for government and other financial assistance.

The trust decided that the best way to recognise the Year of The Volunteer was to assist those organisations in upgrading their skills in these areas, and it intends to sponsor a number of seminars at which professionals will provide them with knowledge necessary to achieve this objective.

In the near future, the trust will be advertising these seminars, inviting organisations to register their interest.

Communication

The trust is now in the process of developing its own web site which will enable a wider section of the community to access all the information it requires about the services provided by the trust and details of the donation process.

Government Policies

The trust carefully monitors new policies launched by central government to ensure that the independence of community trusts is maintained and to be in a position to make submissions in support of this.

A close liaison is maintained with other community trusts, which is further strengthened by the activities of an informed chairpersons’ group.

Trustee Appointments

During the year, Mrs J. J. Rayne, a valued and long-serving trustee, completed her term of office, being replaced by Mr Simon Dorman of Timaru.

Mrs K. Mattingley was appointed to fill a vacancy which arose during the previous year. The experience of the two new trustees will be of immense value to the trust.

The decision of the Minister of Finance to reappoint long-standing trustee Mr L. K. Cooney for a shortened two-year term was welcomed by trustees.

Appreciation

The trustees of The Community Trust of Mid & South Canterbury make up a committed group of people working with the common objective to enhance the region they serve and to support the multitude of district organisations working for the good of the community. The year under review has been difficult and arduous, yet rewarding, and I express my sincere appreciation for the time and professionalism they bring to the board table.

I record my special thanks to the staff of the trust in coping admirably with the complexities of a busy year.

We all hope that the new year will bring added wealth to the community.

P. F. McILRAITH, Chairperson.

Notes to the Consolidated Financial Statements for the Year Ended 31 March 2001**1. Statement of Accounting Policies****Reporting Entity**

The Community Trust of Mid & South Canterbury Inc. is a charitable trust incorporated under the Trustee Banks Restructuring Act 1988. The financial statements have been prepared in accordance with the Financial Reporting Act 1993 and generally accepted accounting policies.

General Accounting Policies

The general accounting policies adopted in the preparation of these financial statements are:

- The measurement base adopted is that of historical cost, except for the revaluation of investments. Reliance is placed on the fact that the trust is a going concern.
- The matching of revenues earned and expenses incurred using accrual accounting.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and financial position:

(a) *Dividend Income*

Dividend income is included in the consolidated statement of financial performance when it is received.

(b) *Donations*

Donations, special projects and community loans are accounted for when they are distributed.

(c) *Investments*

Investments held as managed funds are shown at market value. Net income including unrealised gains or losses from holding such investments are recorded in the consolidated statement of financial performance.

(d) *Trust Capital*

Trust capital is made up of:

- Capital fund – which records initial capital fund (being the realised value of trust bank shares).
- Inflation reserve – this is increased each year by applying the consumer price index to the sum of the initial capital fund and opening inflation reserve. The amount is to be allocated from trust profit on an annual basis.
- Uncommitted surplus – this is the balance of the profit.

(e) *Basis of Consolidation*

The Community Trust of Mid & South Canterbury Inc. and its subsidiary the Trust Bank South Canterbury Community Trust Charities Limited have been consolidated using the purchase method of consolidation.

Changes in Accounting Policies

- The trustees have changed its policy with respect to the capital and reserves of the trust. The change in policy, as described in Note 1 (d) above, will enable initial capital to be preserved in real terms and a consistent maintainable annual donations level.
- There have been no other changes in accounting policy.

Statement of Significant Accounting Policies for the Year Ended 31 March 2001

A. Basis of Preparation

The Community Trust of Southland was formed under the Trustee Banks Restructuring Act 1988 and is incorporated under the Charitable Trusts Act 1957. The financial statements presented are those for The Community Trust of Southland Group (the group). The group consists of The Community Trust of Southland (the trust), its wholly owned subsidiary company Southland Community Trust Charities Limited and the trust's interests in associates.

The financial statements comply with the Financial Reporting Act 1993 and the Community Trusts Act 1999. They comprise statements of the following: significant accounting policies, financial performance, movements in trust funds, financial position, cash flows, as well as notes to these statements.

The financial statements are prepared on the basis of historical cost except that investment assets are stated at valuation.

B. Consolidation Method

The financial statements of the trust's wholly owned company Southland Community Trust Charities Limited are included in the financial statements using the purchase method of consolidation.

C. Associates

Associates are entities in which the group has significant influence, but not control over the operating and financial policies. The financial statements include the group's share of the net surplus of associates on an equity accounted basis.

D. Trust Capital

Following the sale of the group's shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the trustees agreed that the value of the trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose, the trustees agreed that \$158,460,000 would be considered as the "Trust Capital" value of the group and that this value would be maintained.

E. Capital Maintenance Reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the trust capital allowing for inflation as measured by the Consumers Price Index (all groups) and payments of grants out of capital.

F. Grants Maintenance Reserve

While the trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this, a grants maintenance reserve is maintained. In years when net income from investments is higher than the grant levels, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the grants maintenance reserve to income.

G. Basis of Recognising Components of the Financial Statements

The following general accounting policies are adopted:

Assets

A transaction results in an asset being recognised in the statement of financial position when it will probably give rise to ongoing benefits for the group and those benefits can be measured with reliability.

Liabilities

A transaction results in a liability being recognised in the statement of financial position when it will probably give rise to the need for the group to sacrifice assets in the future and those sacrifices can be measured with reliability.

Revenue

Revenue is recognised in the statement of financial performance when a transaction gives rise to an increase in the value of the group's net assets and that increase can be measured with reliability.

Expenses

An expense is recognised in the statement of financial performance when a transaction results in a decrease in the value of the group's net assets and that decrease can be measured with reliability.

Classification of Assets and Liabilities Between Current and Non-current

An amount is classified as current when it is expected to be settled or extinguished within one year of the date of the financial statements. All other amounts are classified as non-current.

H. Fixed Assets

Fixed assets are initially stated at cost and then depreciated on a straight line basis. The estimated useful lives of fixed assets are as follows:

Land	Indefinite
Buildings	30-40 years
Furniture and fittings	3-15 years
Office equipment	3-8 years
Motor vehicles	5-8 years

I. Investments

Investments are stated at market value and reports realised and unrealised gains or losses on holding these investments in the statement of financial performance. These gains or losses are shown in the statement of financial performance as income from revaluation of investments.

J. Accounts Receivable

Accounts receivable are stated at expected realisable value.

K. Grants

Grants are recognised when they are approved by the trustees. Unpaid grants are recorded as a liability.

L. Goods and Services Tax

The group is not registered for Goods and Services Tax. The financial statements are prepared using G.S.T. inclusive accounting.

M. Income Taxation

The group provides for income tax on its net income after adjusting for tax accounting differences and any beneficiaries' income determinations made pursuant to section OB1 (226) of the Income Tax Act 1994.

N. Changes in Accounting Policies

The accounting policies have been consistently applied by the group and are consistent with those of the previous year.

11. Investments Managed by Fund Managers

The group has funds invested with institutional investment managers (fund managers), AMP Asset Management, Armstrong Jones (NZ) Ltd, State Street Global Advisors and Invest South Limited. Market values and asset allocations of these investments as at balance date were as follows:

	<i>AMP</i>	<i>Armstrong</i>	<i>State Street</i>	<i>Invest</i>	<i>Total</i>	<i>Total</i>

Totals	<u>83.61</u>	<u>47.97</u>	<u>52.21</u>	<u>2.50</u>	<u>186.29</u>	<u>185.61</u>

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the group's investments. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects on the items being hedged.

12. Loans

Loan balances outstanding as at 31 March were as follows:

	<i>2001</i>	<i>2000</i>
	\$	\$
Troopers Memorial Corner Charitable Trust	195,000	–

Net cash provided by operating activities	<u>(7,308,796)</u>	<u>4,840,313</u>

14. Financial Instruments*General*

The group states its investments at balance date at estimated market value. The trustees consider that the fair value of the financial assets is identical to the value in the statement of financial position.

Concentration of Credit Risk

The group, from time to time, has significant funds in trading bank deposits. The group limits risk by spreading the deposits over several trading banks. The group has not required collateral or other security to support its financial statements.

The group further limits risk through its policy of placing investment funds with four separate fund managers, with each fund manager having an investment mandate which requires that they diversify their investments on the group's behalf. The group has sought and obtained the advice of a professional financial adviser prior to making its investment allocation and placement decisions.

Interest Rate Risk

The bank deposits are sensitive to changes in interest rates, as are a proportion of the funds managed by the fund managers and a portion of the loan to Topoclimate South Trust.

15. Capital Commitments

Commitments of \$5,452,390 exist for grants which will be distributed from either capital or future income sources in future years. These grants have not been recorded in either the statements of financial performance or financial position. Specific commitments are as follows:
