Notes to the Financial Statements for the Year Ended 31 March 2002**1. Statement of Accounting Policies**

The ASB Bank Community Trust ("the trust") is the reporting entity. The trust was formed on 30 May 1988 through the creation of a trust deed in compliance with the Trustee Banks Restructuring Act 1988. Under the terms of the trust deed, the trust was settled with 60 million \$1 fully paid ordinary shares in ASB Bank Limited representing 100% of the issued capital. As at 31 March 1988, the net tangible asset backing of those 60 million shares was \$147,655,000. In 1989, 45 million shares were sold to the Commonwealth Bank of Australia for \$252,000,000 which was then donated to the ASB Charitable Trust. In October 2000, the remaining 15 million shares were sold to the Commonwealth Bank of Australia for \$545,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Basis of Preparing Consolidated Financial Statements

The financial statements comprise the trust and its subsidiaries. Subsidiaries are those entities controlled by the trust. The financial statements of subsidiaries are included in the financial statements using the purchase method of consolidations.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore, the statement of cash flows does not reflect the cash flows within the fund managers' portfolios.

Dividends

Dividends are recognised as income when they are received by the trust. They are recorded net of any imputation tax credits.

Donations

Donations are accounted for as they are distributed or committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Charitable Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between each trust on the basis of the number of applications processed by each.

Joint expense allocations were:

	2002	2001
This trust	50%	40%
ASB Charitable Trust	50%	60%

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investment in managed funds and other investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period. Investment transactions are recorded by the fund managers on a settlement date basis.

Financial Instruments

All assets and liabilities of the trust are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value or fair value or are not materially different from market value or fair value.

The trust uses financial instruments with off balance sheet risk to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the consumer price index. Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

Taxation includes both current and deferred tax. Deferred tax is calculated using the comprehensive liability method.

Comparatives

Certain comparatives have been restated for disclosure purposes.

Changes in accounting policies

There have been no material changes in accounting policies during the period.

Notes to the Financial Statements for the Year Ended 31 March 2002**1. Statement of Accounting Policies**

The ASB Charitable Trust (“the trust”) is the reporting entity. The trust was formed on 31 May 1989 through the creation of a trust deed by the ASB Bank Community Trust and a donation of \$252,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore, the statement of cash flows does not reflect the cash flows within the fund managers' portfolios.

Depreciation

Depreciation is provided over the useful life of the assets. Buildings are depreciated on a straight line basis. Vehicle, office equipment and furniture are depreciated on a diminishing value basis. The rates used are those recommended by the Inland Revenue Department.

Dividends

Dividends are recognised as income when they are received by the trust and exclude imputation tax credits.

Donations

Donations are accounted for as they are distributed or committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Bank Community Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between the trusts on the basis of the number of applications processed by each.

Joint expense allocations were:

	2002	2001
This trust	50%	60%
ASB Bank Community Trust	50%	40%

Fixed Assets

Fixed assets are valued at cost less accumulated depreciation.

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period.

Investment transactions are recorded by the fund managers on a settlement date basis.

Financial Instruments

All assets and liabilities of the trust with the exception of fixed assets are financial instruments and are recognised in the balance sheet. All financial instrument are recorded at market value or fair value or are not materially different from market value or fair value.

The trust uses financial instruments with off balance sheet risk to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the consumer price index.

Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

The trust has been accorded tax exempt status in New Zealand and Australia but is liable to taxation on investment income in some other overseas countries. Tax on overseas income is accounted for as a reduction of that income.

Comparatives

Certain comparatives have been restated for disclosure purposes.

Changes in accounting policies

There have been no material changes in accounting policies during the period.
