HORIZON ENERGY DISTRIBUTION LIMITED – Lines Business

Financial Statements for the purposes of the Electricity (Information Disclosure) Regulations 1999

Notes to the Financial Statements for the year ended 31 March 2003

1 Statement of Accounting Policies

These financial statements have been prepared in accordance with the Electricity (Information Disclosure) Regulations 1999, and the Electricity (Information Disclosure) Amendment Regulations 2000, 2001.

A General Accounting Policies

The general accounting policies recognised as appropriate for the measurement and reporting of financial performance, cashflows and financial position have been followed in the preparation of these financial statements under the historical cost method, as modified by the revaluation of certain assets. Reliance has been placed on the fact that the lines business and undertakings of Horizon Energy Distribution Limited are a going concern.

B Particular Accounting Policies

The following particular accounting policies, which significantly affect the measurement of financial performance, cashflows and financial position, have been applied:

i) Revenue

Revenue shown in the statement of financial performance comprises amounts received and receivable for goods and services supplied to customers in the ordinary course of business. Line access revenue is based on actual and assessed readings plus an allowance for unread meters at balance date. Revenue is stated exclusive of Goods and Services Tax collected from customers.

ii) Depreciation

Depreciation is charged to write off the cost of fixed assets to their estimated residual value over their remaining useful lives.

iii) Fixed Assets

The cost of purchased fixed assets is the value of the consideration given to acquire the assets and the value of other directly attributable costs which have been incurred in bringing the assets to the location and condition necessary for their intended service.

The cost of assets constructed by the Company includes the cost of all materials used in construction, direct labour on the project, and financing costs that are directly attributable to the project. Costs cease to be capitalised as soon as the asset is ready for productive use and do not include any inefficiency costs.

Distribution System Assets are valued using modified historical cost. Assets are carried at the latest valuation prepared on a depreciated replacement cost basis as at 31 March 2000, adjusted for subsequent additions, disposals and depreciation. Previously, distribution assets were revalued at least every three years on the basis of depreciated replacement cost.

iv) Inventories

Inventories are stated at the lower of average cost and net realisable value, with obsolete stock written off.

v) Accounts Receivable

Accounts receivable are stated at estimated realisable value after providing for debts where collection is considered doubtful.

vi) Taxation

The Group follows the liability method of accounting for deferred taxation.

The taxation charge against the surplus for the year is the estimated liability in respect of that surplus after allowance for all permanent differences. This is the comprehensive basis for the calculation of deferred taxation.

Future taxation benefits attributable to timing differences or losses carried forward are recognised in the financial statements only where there is virtual certainty that the benefit of the timing differences will be utilised by the Group.

vii) Statement of Cash Flows

The following are the definitions of the terms used in the statement of cash flows:

- a) Cash is considered to be cash on hand, short term deposits and current accounts in banks, net of bank overdrafts.
- b) Investing activities are those activities relating to the acquisition, holding and disposal of fixed assets and investments. Investments can include securities not falling within the definition of cash.
- c) Financing activities are those activities which result in changes in the size and composition of the capital of the group. This includes both equity and debt not falling within the definition of cash. Dividends paid in relation to the capital structure are included in financing activities.

HORIZON ENERGY DISTRIBUTION LIMITED – Lines Business
Financial Statements for the purposes of the
Electricity (Information Disclosure) Regulations 1999

Notes to the Financial Statements
for the year ended 31 March 2003

- d) Operating activities include all transactions and other events that are not investing or financing activities.

viii) Financial Instruments

Financial instruments with off-balance sheet risk, have been entered into for the primary purpose of reducing exposure to fluctuations in foreign exchange rates and interest rates. While financial instruments are subject to risk that market rates may change subsequent to acquisition, such changes would generally be offset by opposite effects on the items hedged.

Financial instruments entered into with no underlying exposure are accounted for on a mark to market basis.

ix) Research and Development

Costs incurred on all research and development projects are written off as incurred, except that development costs are capitalised to the extent that such costs are expected, beyond any reasonable doubt, to be recovered.

x) Foreign Currency

Foreign currency transactions are recorded at exchange rates in effect at the date of settlement, except where forward contracts have been taken out to cover future commitments. Where forward contracts have been taken out, the transaction is translated at the rate contained in the contract. Monetary assets and liabilities arising from trading transactions are translated at closing rates. Gains or losses due to currency fluctuations on these items are included in the statement of financial performance.

xi) Comparatives

The statements and notes do not restate comparatives or provide comparatives for new disclosure items per the Electricity (Information Disclosure) Regulations 1999, the Electricity (Information Disclosure) Amendment Regulations 2000, 2001, or for "Other" business first separated out in 2003.

C. Changes in Accounting Policies

During the year the Group and the Parent changed the following accounting policy:

Valuation of Distribution System Assets

Distribution assets were not revalued at 31 March 2003. Under the new policy, distribution assets are carried at the latest valuation performed on 31 March 2000, adjusted for subsequent additions, disposals and depreciation. Previously, distribution assets were revalued on the basis of depreciated replacement cost every three years,

The Board of Directors has adopted this change because a revaluation cannot be justified for cost/benefit reasons, and given the current uncertainty of the potential impact for future regulation on asset values.

The change in accounting policy has not had a material effect in the current period.

Valuation of Distribution System Assets

As explained in Changes in Accounting Policies, distribution system assets were not revalued on 31 March 2003. Distribution assets are carried at the last valuation performed on 31 March 2000 by Worley Consultants, Registered Engineers, which has been adjusted for additions, disposals and depreciation up until 31 March 2003. The 31 March 2000 valuation was prepared on the basis of depreciated replacement cost in accordance with generally accepted valuation techniques.

The recent review of electricity distribution industry regulation by the Commerce Commission has created considerable uncertainty for electricity distribution businesses. Based on the evidence presently available, the Board of Directors does not believe there is any material impairment to the current carrying value of distribution system assets. Until further details in relation to future regulation have been announced, it is not possible to determine the impact, if any, of changes in regulation on distribution assets values.

HORIZON ENERGY DISTRIBUTION LIMITED - Lines Business**NOTES TO THE FINANCIAL STATEMENTS****17 CAPITAL COMMITMENTS**

The Group has commitments for future capital expenditure amounting to \$nil (\$nil in 2002).

18 FINANCIAL INSTRUMENTS

(a) The nature of activities and management policies with respect to financial instruments is described as follows:

(i) Interest Rates

The Group generally uses swaps to manage interest rate risk.

As at 31 March 2003, the face value of the swaps the Group held were as follows:

Interest Rate Options:

Rate	Term	Commencement Date	2003 \$000	2002 \$000
7.16%	Six Years	29 June, 2001	4,000	4,000
7.16%	42 Months	20 December, 2000	-	4,000

6.76%	45 Months	20 March, 2003	4,000	-
			24,900	22,400

The mark to market value of the interest rate swap agreements as at 31 March 2003 showed a loss of \$902,286 (2002 - loss of \$175,033). No provision is made for any potential loss.

(ii) Credit

In the normal course of its business the Company incurs credit risk from trade debtors and financial institutions. The Company has a credit policy which is used to manage this exposure to credit risk. As part of this policy, limits on exposures have been set and are monitored on a regular basis.

(b) Fair Values

The fair value of Term Loans is \$29.78 million which is the same as the carrying value disclosed in Note 12.

19 PROVISIONS

Balance at beginning of year	304	300
Current year provision	-	189
Provision released	(304)	(185)
Balance at 31 March	-	304

The provision includes allowances for costs associated with disputes which have now been settled.

HORIZON ENERGY DISTRIBUTION LIMITED - Lines Business**NOTES TO THE FINANCIAL STATEMENTS****20 SEGMENTAL**

The Company operates predominantly in one industry, the distribution of electricity. Its operations are carried out solely in New Zealand and are therefore within one geographical segment for reporting purposes.

21 CONTINGENT LIABILITIES

In March 1999, as part of the sale of the Kapuni Generation assets, the Company assigned its rights under a long term contract for the purchase of electricity and remains contingently liable to purchase this electricity until the end of the contract (2008 - plus option to renew for a further 9 years) should the purchasers fail to perform their obligations under the contract.

22 EVENTS OCCURRING AFTER BALANCE DATE

On 15 May 2003 the Directors declared a final dividend of 11 cents per ordinary share. As this event occurred after balance date the financial effect has not been recognised in the financial statements.

Auditors' Report

To the readers of the financial statements of Horizon Energy Distribution Limited - Lines Business

We have audited the accompanying financial statements of Horizon Energy Distribution Limited - Lines Business. The financial statements provide information about the past financial performance and cash flows of Horizon Energy Distribution Limited – Lines Business and its financial position as at 31 March 2003. This information is stated in accordance with the accounting policies set out in the Statement of Accounting Policies.

Directors' Responsibilities

The Electricity (Information Disclosure) Regulations 1999 require the Directors to prepare financial statements which give a true and fair view of the financial position of Horizon Energy Distribution Limited - Lines Business as at 31 March 2003, and the results of operations and cash flows for the year then ended.

Auditor's Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the Directors and report our opinion to you.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the Directors in the preparation of the financial statements
- whether the accounting policies are appropriate to Horizon Energy Distribution Limited - Lines Business' circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Other than in our capacities as auditors and tax advisors we have no relationship with or interests in Horizon Energy Distribution Limited.

Auditors' Report

Horizon Energy Distribution Limited - Lines Business

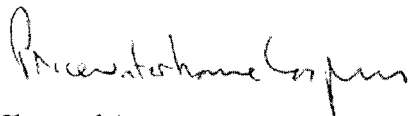

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion:

- (a) proper accounting records have been kept by Horizon Energy Distribution Limited as far as appears from our examination of those records
- (b) the financial statements referred to above:
 - (i) comply with generally accepted accounting practice
 - (ii) give a true and fair view of the financial position of Horizon Energy Distribution Limited - Lines Business as at 31 March 2003 and the results of its operations and cash flows for the year then ended
 - (iii) comply with the Electricity (Information Disclosure) Regulations 1999.

Our audit was completed on 18 July 2003 and our unqualified opinion is expressed as at that date.
