Social Development

Social Security Act 1964

Home Help Amendment 2004

Pursuant to section 124 (1) (d) of the Social Security Act 1964, the Minister for Social Development and Employment establishes and approves the following amendment to the Home Help Programme (as established and approved on 6 May 2004).

Dated at Wellington this 8th day of August 2004.

STEVE MAHAREY, Minister for Social Development and Employment.

A m e n d m e n t

1. Title—(1) This amendment is the Home Help Amendment 2004.

(2) In this amendment, the Home Help Programme is called “the programme”.

2. Commencement—This amendment comes into effect on the day after the date on which it is published in the *New Zealand Gazette*.

3. Interpretation—Clause 4 (1) of the programme is amended by revoking the definitions of family credit income and net income.

4. New clause 7 substituted—The programme is amended by revoking clause 7, and substituting the following clause:

“7 Financial means test for certain applicants

(1) An applicant meets the financial means test referred to in clause 6 (1) (c) (iii) and (d) (ii) if—

(a) either the applicant or the applicant’s spouse holds a community services card issued under the Health Entitlement Cards Regulations 1993; and

(b) the value of the cash assets of the applicant and his or her spouse is less than the appropriate cash assets limit set out in subclause (2).

(2) The cash assets limit referred to in subclause (1) is—

(a) \$7,464.00 in the case of an applicant who is married or a sole parent; or

(b) \$4,300.00 in any other case.

(3) Where an applicant’s spouse is receiving care in a hospital care institution or a rest home or a residential disability care institution (within the meaning of the Health and Disability Services (Safety) Act 2001), only 50% of the cash assets of the applicant and the applicant’s spouse must be counted as their cash assets.”

5. Revocation—Clause 11 of the programme is amended by omitting the words “Social Security” and substituting the words “Social Welfare”.

6. Transitional provision—Nothing in this amendment affects any home help assistance granted to an applicant before this amendment comes into effect.

Explanatory Note

This note is not part of the amendment, but is intended to indicate its general effect.

*This amendment, which comes into effect on the day after its publication in the **New Zealand Gazette**, simplifies the financial means test in clause 7 of the Home Help Programme to one based on holding a community services*

card and having cash assets less than \$7,464.00 for a married person or a sole parent, or \$4,300.00 in any other case.

The amendment consequentially revokes unnecessary definitions in clause 4 of the programme, and corrects an erroneous reference to the Minister of Social Security in clause 11.

Notes to the Financial Statements for the Year Ended 31 March 2004

1. Statement of Accounting Policies

The ASB Bank Community Trust ("the trust") is the reporting entity. The trust was formed on 30 May 1988 through the creation of a trust deed in compliance with the Trustee Banks Restructuring Act 1988. Under the terms of the trust deed, the trust was settled with 60 million \$1 fully paid ordinary shares in ASB Bank Limited representing 100% of the issued capital. As at 31 March 1988, the net tangible asset backing of those 60 million shares was \$147,655,000. In 1989, 45 million shares were sold to the Commonwealth Bank of Australia for \$252,000,000 which was then donated to the ASB Charitable Trust. In October 2000, the remaining 15 million shares were sold to the Commonwealth Bank of Australia for \$545,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Consolidated Financial Statements

Consolidated financial statements have not been prepared as the subsidiary companies have not traded since incorporation.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore, the statement of cash flows does not reflect the cash flows within the fund managers' portfolios.

Dividends

Dividends are recognised as income when they are received by the trust. They are recorded net of any imputation tax credits.

Donations

Donations are accounted for as they are committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Charitable Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between each trust on the basis of the number of applications processed by each.

Joint expense allocations were:

	<i>2004</i>	<i>2003</i>
This trust	50%	50%
ASB Charitable Trust	50%	50%

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investment in managed funds and other investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period. Investment transactions are recorded by the fund managers on a settlement date basis.

Financial Instruments

All assets and liabilities of the trust are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value or fair value or are not materially different from market value or fair value.

The trust uses financial instruments to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the consumer price index. Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

Taxation includes both current and deferred tax. Deferred tax is calculated using the comprehensive liability method. Deferred tax assets are recognised when future taxable income is certain.

Changes in accounting policies

There have been no material changes in accounting policies during the period.

These subsidiaries were incorporated on 29 March 2001. They have not traded since incorporation.

9. Financial Instruments**Currency Risk**

The trust invests in securities that are denominated in foreign currencies and therefore result in a currency risk. In order to minimise the currency risk, foreign currency assets are hedged.

	<i>\$000</i>	<i>\$000</i>

Unhedged exposure	<u>99,290</u>	<u>71,756</u>

Interest Rate Risk

The trust, through its fund managers, invests in securities that are subject to interest rate risk. The trust actively monitors this risk and changes asset allocations and maturity profiles accordingly.

Credit Risk

The trust, in the normal course of business, enters into arrangements with other parties. These arrangements give rise to credit risk for the trust and hence policies and procedures are maintained so that this risk is minimised. No collateral is required in respect of financial assets.

For all classes of financial assets held by the trust, the maximum credit risk exposure to the trust is the carrying value as disclosed in the financial statements at balance date.

Due to the diversification of the investment portfolio and the policies and procedures in place, there is no significant concentrations of credit risk.

Fair Values

All financial instruments are carried at market value.

10. Foreign Currency Monetary Assets

As at 31 March, the trust had the following foreign currency monetary assets that were not hedged.

The trustees are responsible for the preparation of financial statements which give a true and fair view of the financial position of the trust as at 31 March 2004 and the results of its operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial statements;
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand Auditing Standards. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

Our firm has also provided other services to the trust in relation to taxation advisory services. These matters have not impaired our independence as auditors of the trust. The firm has no other relationship with, or interest in, the trust.

In our opinion, proper accounting records have been kept by the trust as far as appears from our examination of those records and the financial statements:

- comply with New Zealand generally accepted accounting practice;
- give a true and fair view of the financial position of the trust as at 31 March 2004 and the results of its operations and cash flows for the year ended on that date.

Our audit was completed on 31 May 2004 and our unqualified opinion is expressed as at that date.

Notes to the Financial Statements for the Year Ended 31 March 2004

1. Statement of Accounting Policies

The ASB Charitable Trust (“the trust”) is the reporting entity. The trust was formed on 31 May 1989 through the creation of a trust deed by the ASB Bank Community Trust and a donation of \$252,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore, the statement of cash flows does not reflect the cash flows within the fund managers’ portfolios.

Depreciation

Depreciation is provided over the useful life of the assets. Buildings are depreciated on a straight line basis. Vehicle, office equipment and furniture are depreciated on a diminishing value basis. The rates used are those recommended by the Inland Revenue Department.

Land and buildings	2.5% – 3.0%
Vehicle	31.2%
Office equipment and furniture	9.5% – 48.0%

Dividends

Dividends are recognised as income when they are received by the trust and exclude imputation tax credits.

Donations

Donations are accounted for as they are committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Bank Community Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between the trusts on the basis of the number of applications processed by each.

Joint expense allocations were:

	<i>2004</i>	<i>2003</i>
This trust	50%	50%
ASB Bank Community Trust	50%	50%

Fixed Assets

Fixed assets are valued at cost less accumulated depreciation.

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period.

Investment transactions are recorded by the fund managers on a settlement date basis.

Financial Instruments

All assets and liabilities of the trust with the exception of fixed assets are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value or fair value or are not materially different from market value or fair value.

The trust uses financial instruments with off balance sheet risk to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the consumer price index.

Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

The trust has been accorded tax exempt status in New Zealand and Australia but is liable to taxation on investment income in some other overseas countries. Tax on overseas income is accounted for as a reduction of that income.

Changes in accounting policies

There have been no material changes in accounting policies during the period.

9. Financial Instruments**Currency Risk**

The trust invests in securities that are denominated in foreign currencies and therefore, result in a currency risk. In order to minimise the currency risk, foreign currency assets are hedged.

	<i>2004</i>	<i>2003</i>
	<i>\$000</i>	<i>\$000</i>

Unhedged exposure	<u>96,684</u>	<u>72,214</u>

Interest Rate Risk

The trust, through its fund managers, invests in securities that are subject to interest rate risk. The trust actively monitors this risk and changes asset allocations and maturity profiles accordingly.

Credit Risk

The trust, in the normal course of business, enters into arrangements with other parties. These arrangements give rise to credit risk for the trust and hence policies and procedures are maintained so that this risk is minimised. No collateral is required in respect of financial assets.

For all classes of financial assets held by the trust, the maximum credit risk exposure to the trust is the carrying value as disclosed in the financial statements at balance date.

Due to the diversification of the investment portfolio and the policies and procedures in place, there is no significant concentrations of credit risk.

Fair Values

All financial instruments are carried at market value.

10. Foreign Currency Monetary Assets

As at 31 March, the trust had the following foreign currency monetary assets that were not hedged.

Audit Report

To the Trustees of ASB Charitable Trust:

We have audited the financial statements comprising the statement of income and expenditure, the statement of movements in trust funds, the balance sheet, the statement of cash flows and the notes to these financial statements. The financial statements provide information about the past financial performance of the trust and its financial position as at 31 March 2004. This information is stated in accordance with the accounting policies in the notes to these financial statements.

Trustees' Responsibilities

The trustees are responsible for the preparation of financial statements which give a true and fair view of the financial position of the trust as at 31 March 2004 and the results of its operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial statements;
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand Auditing Standards. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

Our firm has also provided other services to the trust in relation to payroll and advisory services. These matters have not impaired our independence as auditors of the trust. The firm has no other relationship with, or interest in, the trust.

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion, proper accounting records have been kept by the trust as far as appears from our examination of those records and the financial statements:

- comply with New Zealand generally accepted accounting practice;
- give a true and fair view of the financial position of the trust as at 31 March 2004 and the results of its operations and cash flows for the year ended on that date.

Our audit was completed on 31 May 2004 and our unqualified opinion is expressed as at that date.

KPMG, Auckland.

New Zealand Meat Board

Meat Board Act 2004

Quota Allocation Systems Administration Changes

The New Zealand Meat Board has completed its consultation on administration changes for its existing Quota Allocation Systems (in terms of sections 26 and 27(2) of the Meat Board Act 2004) being European Union Sheepmeat and Goatmeat Tariff Rate Quota, European Union High Quality Beef Tariff Rate Quota and United States Beef and Veal Tariff Rate Quota.

The board has agreed that the existing allocation systems will remain in operation subject to the following changes:

European Union Sheepmeat and Goatmeat Tariff Rate Quota (226,700 tonnes carcass weight equivalent), European Union High Quality Beef Tariff Rate Quota (300 tonnes product weight) and United States Beef and Veal Tariff Rate Quota (213,402 tonnes product weight)

1. Redundant Provisions (EU Sheepmeat and Goatmeat, and US Beef and Veal only)

Production Weight Calculation Section 9B

This refers to production seasons up to 2000, which is no longer part of production history calculations. This reference is therefore removed.

Transitional Provisions Section 15 Page 1

This refers to production seasons up to 2000, which is no longer part of production history calculations. This reference is therefore removed.

2. Changes to European Union Import Regulations (First Come First Served) (European Union Sheepmeat and Goatmeat Quota Allowance Allocation Mechanism Only)

From 1 May 2004, the European Union removed the requirement for import licensing and replaced the Document of Origin with a Certificate of Origin.

All reference to Documents of Origin is therefore removed and replaced with reference to Certificates of Origin.

3. New European Union States (Appendix 6 Page 1 European Union Sheepmeat and Goatmeat and a new Appendix 8 in the European Union High Quality Beef Quota Allowance Allocation Mechanisms)

On 1 May 2004, 10 new states joined the European Union and shipments to those states will require Certificates of Origin if sheepmeat, goatmeat or high quality beef is to be entered within quota. The appendices are updated to provide for up-to-date lists of countries requiring Certificates of Origin.

4. General Quota Applications—Requirements to Produce Production History Figures

The current application form for General Quota Applications requires applicants to provide the volume of qualifying product produced in the last three production seasons. As this information is held and audited by Meat New Zealand, this requirement is an unnecessary duplication of information and removed. The remainder of the application will still be required.

5. New Entrants—Information Requirements (Application by a New Entrant for Reserved Quota Allowance)

Forms 7 and 8 in the US Beef and Veal and EU High Quality Beef manuals and Forms 8 and 9 in the EU Sheepmeat and Goatmeat manual (Application by a New Entrant or New Entrant Consortium for Reserved Quota Allowance) in the existing Quota Manuals are now replaced with a new Form 7 Application for Reserved Quota Allowance for US Beef and Veal and EU High Quality Beef. A new Form 8 Application for Reserved Quota Allowance replaces the existing Forms 8 and 9 in the EU Sheepmeat and Goatmeat manual for EU Sheepmeat and Goatmeat.

In relation to the European Union Sheepmeat and Goatmeat and High Quality Beef Tariff Rate Quotas, the tariff rate applying to “in quota” imports is zero. The US Beef and Veal Tariff Rate Quota has a tariff rate applying to “in quota” imports of \$US0.044 per kilogram on most beef products.

All amendments come into effect as at 1 September 2004.

The manuals are currently being updated on the web site <http://www.nzmeatboard.org/wdbctx/corporate/exporting.home> and hard copies are available from the board.

Dated at Wellington this 4th day of August 2004.

Financial Instruments

All financial instruments held by the trust are recorded in the statement of financial position. The financial instruments comprise equity securities, discounted securities, secured investments, borrowings, deposits and cash. Concentrations of credit risk arise as a result of holding equity securities as investments. These are subject to the normal market risk associated with investments of this nature. There are no significant differences between the fair value and book value of financial instruments.

Where possible, financial assets and liabilities are supported by collateral or other security. These arrangements are described in the individual policy statements associated with each item.
