Statement of Significant Accounting Policies for the Year Ended 31 March 2004**A. Basis of Preparation**

The Community Trust of Southland was formed under the Trustee Banks Restructuring Act 1988 and is incorporated under the Charitable Trusts Act 1957. The financial statements presented are those for The Community Trust of Southland (“the trust”), Southland Community Trust Charities Limited, making up the parent. The group consists of The Community Trust of Southland (“the trust”), and its wholly owned subsidiary companies, Southland Community Trust Charities Limited and Invest South Limited group.

The financial statements comply with the Financial Reporting Act 1993 and the Community Trusts Act 1999 and the Companies Act 1993. They comprise statements of the following: significant accounting policies, financial performance, movements in trust funds, financial position, cash flows, as well as notes to these statements.

The financial statements are prepared on the basis of historical cost except that investment assets are stated at valuation, as is the trust’s property at 62 Don Street, Invercargill.

B. Consolidation Method

The financial statements of the trust’s wholly owned company Southland Community Trust Charities Limited are included in the financial statements of the parent. The financial statements of the trust’s wholly owned company, Invest South Limited Group are included in the financial statements of the group using the purchase method of consolidation.

C. Associates

Associates are entities in which the group has significant influence, but not control over the operating and financial policies. The financial statements include the group’s share of the net surplus of associates since acquisition on an equity accounted basis.

D. Goodwill Arising on Acquisition of Associates

Goodwill arising on the acquisition of an associate represents the excess of the purchase consideration over the fair value of the identifiable assets acquired. Goodwill is stated at cost and amortised to the statement of financial performance on a straight line basis over the period during which benefits are expected to be derived – a period not exceeding 20 years.

E. Trust Capital

Following the sale of the trust’s shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the trustees agreed that the value of the trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose, the trustees agreed that \$158,460,000 would be considered as the “trust capital” value of the parent. Trustees further agreed that over the long term the net assets of the parent would not be allowed to reduce to a level below the inflation-adjusted real value of this trust capital.

F. Capital Maintenance Reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the trust capital allowing for inflation as measured by the Consumers Price Index (all groups) and payments of grants out of capital.

G. Grants Maintenance Reserve

While the trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this, a grants maintenance reserve is maintained. In years when net income from investments is higher than the grant levels, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the grants maintenance reserve to income.

H. Basis of Recognising Components of the Financial Statements

The following general accounting policies are adopted:

Assets

A transaction results in an asset being recognised in the statement of financial position when it will probably give rise to ongoing benefits for the group and those benefits can be measured with reliability.

Liabilities

A transaction results in a liability being recognised in the statement of financial position when it will probably give rise to the need for the group to sacrifice assets in the future and those sacrifices can be measured with reliability.

Revenue

Revenue is recognised in the statement of financial performance when a transaction gives rise to an increase in the value of the group's net assets, and that increase can be measured with reliability.

Expenses

An expense is recognised in the statement of financial performance when a transaction results in a decrease in the value of the group's net assets, and that decrease can be measured with reliability.

Classification of Assets and Liabilities Between Current and Non-current

An amount is classified as current when it is expected to be settled or extinguished within one year of the date of the financial statements. All other amounts are classified as non-current.

I. Property, Plant and Equipment (Parent)

Property, plant and equipment are initially stated at cost and then depreciated on a straight line basis. Land and buildings are stated at valuation as determined by an independent registered valuer. The basis of valuation of the land and buildings is highest and best use. The estimated useful lives of fixed assets are as follows:

Land	Indefinite
Buildings	30-40 years
Furniture and fittings	3-15 years
Office equipment	3-8 years
Motor vehicles	5-8 years

J. Property, Plant and Equipment (Group)

Property, plant and equipment are initially stated at cost and then depreciated using maximum rates approved for taxation purposes. The rates and method applied are as follows:

Furniture and fittings	11.4% – 18.0% diminishing value
Office equipment	22.0% – 60.0% diminishing value
Motor vehicles	7.5% diminishing value
Other assets	48.0% diminishing value

K. Investments With Fund Managers

Investments with fund managers are stated at market value and report realised and unrealised gains or losses on holding these investments in the statement of financial performance. These gains or losses are shown in the statement of financial performance as income from revaluation of investments.

L. Other Investments

Cash investments are stated at cost plus interest credited or accrued to balance date.

M. Accounts Receivable

Accounts receivable are stated at expected realisable value.

N. Rental Payments

Invest South Limited Group leases its premises in addition to certain items of plant and equipment. Operating lease payments, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are included in the determination of the operating surplus/(deficit) in equal instalments over the lease term.

O. Debt Funding Advances

Invest South Limited (a subsidiary) has advanced monies to non-related entities as part of its core business activity. Interest is charged on these advances and accrued where necessary. The investments are recorded at expected realisable value.

P. Impairment

If the estimated recoverable amount of an asset is less than its carrying amount, the asset is written down to its estimated recoverable amount and an impairment loss is recognised in the statement of financial performance.

Q. Grants

Grants are recognised when they are approved by the trustees. Unpaid grants are recorded as a liability.

R. Goods and Services Tax

The parent is not registered for goods and services tax. The parent financial statements are prepared using G.S.T. inclusive accounting. The subsidiary of Invest South Limited Group is registered for G.S.T and all assets and liabilities have been stated exclusive of G.S.T with the exception of receivables and payables which are stated inclusive of G.S.T.

S. Income Tax

The parent provides for income tax on its net income after adjusting for tax accounting differences and any beneficiaries' income determinations made pursuant to section OBI (226) of the Income Tax Act 1994.

Invest South Limited Group follows the income taxes payable method for accounting for income tax.

T. Statement of Cash Flows

Operating cash flows includes interest and dividends paid or credited to investment funds under management and any upward or downward revaluation of funds during the period. Cash movements in funds invested are recognised in investing activities.

U. Changes in Accounting Policies

Land and buildings of the trust have been stated at valuation this year. Last year, land was stated at cost and buildings were stated at cost, depreciated as outlined in the depreciation policy. This had the effect of decreasing the net surplus by \$251,228 and decreasing property, plant and equipment by \$251,228.

With the exception of the above change in accounting policy, uniform accounting policies have been applied throughout the trust and group and on a consistent basis with those of the previous period.

18. Investments With Fund Managers

The group has funds with five investment managers (fund managers), being Alliance Bernstein, AMP Capital, Capital International, ING (NZ) Limited and Tower Asset Management. Market values and asset allocations of these investments as at balance date were as follows:

	Alliance Bernstein (NZ\$m)	AMP (NZ\$m)	Capital Int'national (NZ\$m)	ING(NZ) Limited (NZ\$m)	Tower Asset Management (NZ\$m)	2004 Total (NZ\$m)	2003 Total (NZ\$m)

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the group's investments. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects on the items being hedged.

21. Segmental Information

The trust's specified area includes all of the areas of Invercargill City Council, Southland District Council and Gore District Council, the Heriot and Tapanui areas of Clutha District Council, and the Wakatipu Basin area of Queenstown Lakes District Council. The trust's principal activities are to invest the trust capital, both within the specified area and outside of the region, and to distribute grants for charitable, cultural, philanthropic, recreational and other purposes being purposes beneficial to the community principally within the trust's specified area.

22. Financial Instruments

General

The group states its investments in managed funds at estimated market value. The trustees consider that the fair value of the financial assets is identical to the value in the statement of financial position.

Concentration of Credit Risk

The group, from time to time, has significant funds in trading bank deposits. The group limits risk by spreading the deposits over several trading banks. The group has not required collateral or other security to support its financial statements. The group further limits risk through its policy of placing investment funds with five separate fund managers, with each fund manager having an investment mandate which requires that they diversify their investments on the group's behalf. The group has sought and obtained the advice of professional financial advisers prior to making its investment allocation and placement decisions.

Interest Rate Risk

The bank deposits are sensitive to changes in interest rates, as are a proportion of the funds managed by the fund managers, and the loans to Topoclimate South Charitable Trust and Nga Hau E Wha Society.

23. Related Parties

There were no related party transactions during the year.

24. Subsequent Events

Subsequent to 31 March 2004, the following events took place which readers of the financial statements need to be aware:

Gas Hornby Limited was placed into receivership by Invest South Limited. Due to directors' assessment of the company's position post balance date, the full value of the loan has been written off as a doubtful debt as recovery of any portion of the debt is regarded as doubtful.

 - give a true and fair view of the financial position of the trust and group as at 31 March 2004 and the results of their operations and cash flows for the year ended on that date.

Our audit was completed on 31 August 2004 and our unqualified opinion is expressed as at that date.
